Busy Monsters

"The best literary present . . . has a delicate sweetness that shows through at just the right moments."—Ron Charles, Washington Post Book World Echoing a narrative line that includes Kurt Vonnegut and Joseph Heller, William Giraldi's *Busy Monsters* has been hailed as one of the most exciting fiction debuts in years. Penned with a linguistic bravado that explores the diaphanous line between fiction and fact, this "very funny, very inventive début novel" (The New Yorker) has at last revived the great American picaresque tradition.

This Is Your Captain Speaking

A PILOT, A JOURNALIST, AND A SEMEN TRAFFICKER WALK ONTO A PLANE . . . When flight AW2921 crashes into the Hudson River and all 162 passengers survive, it's a Monday morning miracle. What the rapturous public doesn't know: the whole thing was staged as a last-ditch attempt at resurrecting the Air Wanderlust stock price. Captain Hank Swagger piloted the miracle plane into the river. Disgraced TV news anchor Lucy Springer was "luckily" the only reporter on board, and the first to capture the story. Con man Normal Fulk recently faked his own death to escape the consequences of his barely legal career as a celebrity semen trafficker. Toting his last big score—the "John Lennon"—Normal has to leave it behind on the sinking plane or risk being identified and arrested. In the aftermath of the crash and the chaotic week that follows, Lucy, Normal, and Captain Swagger are all about to discover what it means to be at the center of a miracle that is anything but.

The Terrible Privacy Of Maxwell Sim

The Terrible Privacy of Maxwell Sim is Jonathan Coe's latest heart-breaking and hilarious novel Maxwell Sim could be any of us. He could be you. He's about to have a mid-life crisis (though eh doesn't know it yet). He'll be found in his car in the north of Scotland, half-naked and alone, suffering hypothermia, with a couple of empty whisky bottles and a boot full of toothbrushes. It's a far cry from a restaurant in Sydney, where his story starts. But then Maxwell Sim has, unknowingly, got a long way to go. If he knew now about his lonely journey to the Shetland Isles, or the truth about his father and the folded photograph, or the mystery of Poppy and her peculiar job, or even about Emma's lovely, fading voice, then perhaps he's stay where he was - hiding from destiny. But Max knows none of it. And nor do you - at least not yet. . . Equal parts funny and moving, *The Terrible Privacy of Maxwell Sim* will be cherished by readers everywhere, from fans of David Nicholls to Will Self. 'Witty, unexpected and curiously unsettling. Coe carries it off with empathy, comedy and a ventriloquist's ear for idiom' Literary Review 'Clever, engaging, spring-loaded with mysteries and surprises' Time Out 'Masterly, highly engaging. Coe's eye for the details of contemporary life remains as sharp as ever' Daily Mail Jonathan Coe's novels are filled with biting social commentary, moving and astute observations of life and hilarious set pieces that have made him one of the most popular writers of his generation. His other titles, *The Accidental Woman*, *The Rotters' Club* (winner of the Everyman Wodehouse prize), *The House of Sleep* (winner of the 1998 Prix Médicis Étranger), *A Touch of Love*, *What a Carve Up!* (winner of the 1995 John Llewellyn Rhys Prize) and *The Rain Before it Falls*, are all available in Penguin paperback.

Loving Literature

Of the many charges laid against contemporary literary scholars, one of the most common and perhaps the most wounding is that they simply don't love books. And while the most obvious response is that, no, actually the profession of literary studies does acknowledge and address personal attachments to literature, that answer risks obscuring a more fundamental question: Why should they? That question led Deidre Shauna Lynch into the historical and cultural investigation of *Loving Literature*. How did it come to be that professional literary scholars are expected not just to study, but to love literature, and to inculcate that love in generations of students? What Lynch discovers is that books, and the attachments we form to them, have long played a role in the formation of private life that the love of literature, in other words, is neither incidental to, nor inextricable from, the history of literature. Yet at the same time, there is nothing self-evident or ahistorical about our love of literature: our views of books as objects of affection have clear roots in late eighteenth-century and nineteenth-century publishing, reading habits, and domestic history. While never denying the very real feelings that warm our relationship to books, *Loving Literature* nonetheless serves as a riposte to those who use the phrase "the love of literature" as if its meaning were transparent, its essence happy and healthy. Lynch writes, "It is as if those on the side of love of literature had forgotten what literary texts themselves say about love's edginess and complexities." With this masterly volume, Lynch restores those edges, and allows us to revel in those complexities.

Why I Read

"Wendy Lesser's extraordinary alertness, intelligence, and curiosity have made her one of America's most significant cultural critics," writes Stephen Greenblatt. In *Why I Read*, Lesser draws on a lifetime of pleasure reading and decades of editing one of the most distinguished literary magazines in the country, *The Threepenny Review*, to describe her love of literature. As Lesser writes in her prologue, "Reading can result in boredom or transcendence, rage or enthusiasm, depression or hilarity, empathy or contempt, depending on who you are and what the book is and how your life is shaping up at the moment you encounter it." Here the reader will discover a definition of literature that is as broad as it is broad-minded. In addition to novels and stories, Lesser explores plays, poems, and essays along with mysteries, science fiction, and memoirs. As she examines these works from such perspectives as "Character and Plot," "Novelty," "Grandeur and Intimacy," and "Authority," *Why I Read* sparks an overwhelming desire to put aside quotidian tasks in favor of reading. Lesser's passion for this pursuit resonates on every page, whether she is discussing the book as a physical object or a particular work's influence. "Reading literature is a way of reaching back to something bigger and older and different," she writes. "It can give you the feeling that you belong to the past as well as the present, and it can help you realize that your present will someday be someone else's past. This may be disheartening, but it can also be strangely consoling at times." A book in the spirit of E. M. Forster's *Aspects of the Novel* and Elizabeth Hardwick's *A View of My Own*, *Why I Read* is iconoclastic, conversational, and full of insight. It will delight those who are already avid readers as well as neophytes in search of sheer literary fun.

What Happened to Sophie Wilder

A heartfelt exploration of faith and love and friendship, *What Happened To Sophie Wilder* is a beautiful, absorbing work about the redemptive power of storytelling: a literary love story. Charlie Blakeman has just published his first novel, to almost no acclaim. He's living on New York's Washington Square, struggling with his follow-up, and floundering within his pseudointellectual coterie when his college love, Sophie Wilder, returns to his life. Sophie is also struggling, though Charlie isn't sure why, since they've barely spoke, after falling out a decade before. Now Sophie begins to tell Charlie the story of her life since then, particularly the story of the days she spent taking care of a dying man with his own terrible past and of the difficult decision he forced her to make. When she disappears once again, Charlie sets out to discover what happened to Sophie Wilder. Christopher Beha's debut novel explores faith, love, friendship, and, ultimately, the redemptive power of storytelling.

The Adventures of Ed Tuttle, Associate Justice, and Other Stories

A zoo with only black and white animals. A camp where children are forced to gather clams or face a trip to the 'hot box'; a Supreme Court Justice's confirmation hearing presided over by the 1977 Kansas City Royals. 'The Adventures of Ed Tuttle, Associate Justice, and Other Stories' transports one to these hilarious places and beyond. This world, according to Dan Kennedy, host of The Moth Storytelling Podcast, is "where corporate cafeteria lunch servers blurt out Kierkegaard quotes to soften the hard luck of a low supply of the 'lunch beans'; that two raging alcoholic white collar workers crave daily; a world where an HMO in-network dentist hovers over patients and instead of asking about their flossing habits or aches, asks what it is that they like best about him; a world where television sitcoms are set on death row. That's nothing--that's the tip of the iceberg." These stories, illustrations, and other errata are as funny as they are strange, as wonderful as they are wacky. "This is funny stuff, and I hope that Jay Wexler will donate his brain to neuroscience so we can see what's up with it." --Steven Pinker, Harvard College Professor of Psychology, Harvard University, 'How the Mind Works' "Jay Wexler is my kind of writer--a weird one, and a wry one, and one who isn't afraid to act silly in a sort of bait-and-switch that, to the reader's surprise, moves him as much as it makes him laugh. Like all the best comedians, Wexler is clearly nursing a heart that the world broke a long time ago. 'Ed Tuttle' is a book that can't decide what it wants to be when it grows up, but as with most cases of arrested development, there's something very serious going on behind all the antics. Plus, there are pictures."--Ron Currie, Jr., 'Everything Matters!' "Jay Wexler writes as if he has the ghost of James Thurber haunting him. These stories and sketches will hurt your gut and then tickle your brain. You need this humor. It'll be a hard week without it." --William Giraldi, 'Busy Monsters'

My Father and Atticus Finch: A Lawyer's Fight for Justice in 1930s Alabama

The story of Foster Beck, the author's late father, whose defense of a black man accused of rape in 1930s Alabama foreshadowed the trial at the heart of *To Kill a Mockingbird*. As a child, Joseph Beck heard the stories—when other lawyers came up with excuses, his father courageously defended a black man charged with raping a white woman. Now a lawyer himself, Beck reconstructs his father's role in *State of Alabama vs. Charles White, Alias*, a trial that was much publicized when Harper Lee was twelve years old. On the day of Foster Beck's client's arrest, the leading local newspaper reported, under a page-one headline, that "a wandering negro fortune teller giving the name Charles White" had "volunteered a detailed confession of the attack" of a local white girl. However, Foster Beck concluded that the confession was coerced. The same article claimed that "the negro accomplished his dastardly purpose," but as in *To Kill a Mockingbird*, there was evidence at the trial to the contrary. Throughout the proceedings, the defendant had to be escorted from the courthouse to a distant prison "for safekeeping," and the courthouse itself was surrounded by a detachment of sixteen Alabama highway patrolmen. The saga captivated the community with its dramatic testimonies and emotional outcome. It would take an immense toll on those involved, including Foster Beck, who worried that his reputation had cast a shadow over his lively, intelligent, and supportive fiancé, Bertha, who had her own social battles to fight. This riveting memoir, steeped in time and place, seeks to understand how race relations, class, and the memory of southern defeat in the Civil War produced such a haunting distortion of justice, and how it may figure into our literary imagination.

Where I'm Reading From

Why do we need fiction? Why do books need to be printed on paper, copyrighted, read to the finish? Do we read to challenge our vision of the world or to confirm it? Has novel writing turned into a job like any other? In *Where I'm Reading From*, the novelist and critic Tim Parks ranges over decades of critical reading—from Leopardi, Dickens, and Chekhov, to Virginia Woolf, D. H. Lawrence, and Thomas Bernhard, and on to contemporary work by Peter Stamm, Alice Munro, and many others—to upend our assumptions about literature and its purpose. In thirty-seven interlocking essays, *Where I'm Reading From* examines the rise of the "international" novel and the disappearance of "national"

literary styles; how market forces shape “serious” fiction; the unintended effects of translation; the growing stasis of literary criticism; and the problematic relationship between writers’ lives and their work. Through dazzling close readings and probing self-examination, Parks wonders whether writers—and readers—can escape the twin pressures of the new global system and the novel that has become its emblematic genre.

Memoirs of the Dukes of Urbino, Illustrating the Arms, Arts, and Literature of Italy, from 1440 to 1630

Lydia Netzer, the award-winning author of *Shine Shine Shine*, weaves a mind-bending, heart-shattering love story that asks, “Can true love exist if it’s been planned from birth?” Like a jewel shimmering in a Midwest skyline, the Toledo Institute of Astronomy is the nation’s premier center of astronomical discovery and a beacon of scientific learning for astronomers far and wide. Here, dreamy cosmologist George Dermont mines the stars to prove the existence of God. Here, Irene Sparks, an unsentimental scientist, creates black holes in captivity. George and Irene are on a collision course with love, destiny and fate. They have everything in common: both are ambitious, both passionate about science, both lonely and yearning for connection. The air seems to hum when they’re together. But George and Irene’s attraction was not written in the stars. In fact their mothers, friends since childhood, raised them separately to become each other’s soulmates. When that long-secret plan triggers unintended consequences, the two astronomers must discover the truth about their destinies, and unravel the mystery of what Toledo holds for them—together or, perhaps, apart. Lydia Netzer combines a gift for character and big-hearted storytelling, with a sure hand for science and a vision of a city transformed by its unique celestial position, exploring the conflicts of fate and determinism, and asking how much of life is under our control and what is pre-ordained in the heavens in her novel *How to Tell Toledo from the Night Sky*.

How to Tell Toledo from the Night Sky

1996: Grace, a psychiatrist, juggles a suicidal boyfriend and a young patient’s impending abortion. 2002: Annie, a struggling actress, takes pity on a homeless girl and invites her into her New York apartment. 2006: Mitch, a divorced counsellor, finds that listening to other people’s problems takes his mind off his own. Ten years. Three lives. One truth: helping other people is infinitely simpler than helping yourself.

Character Sketches of Romance, Fiction and the Drama

“In this elegantly constructed study of the early decades of public opera, the conflicts and cooperation of poets, composers, managers, designers, and singers—producing the art form that was soon to sweep the world and that has been dominant ever since—are revealed in their first freshness.”—Andrew Porter
“This will be a standard work on the subject of the rise of Venetian opera for decades. Rosand has provided a decisive contribution to the reshaping of the entire subject. . . . She offers a profoundly new view of baroque opera based on a solid documentary and historical-critical foundation. The treatment of the artistic self-consciousness and professional activities of the librettists, impresarios, singers, and composers is exemplary, as is the examination of their reciprocal relations. This work will have a positive effect not only on studies of 17th-century, but on the history of opera in general.”—Lorenzo Bianconi

Opera in Seventeenth-Century Venice

‘Signs and Wonders’ documents a couple’s divorce after twenty-six years of marriage; in ‘Robbing the Cradle’, a teacher desperate to conceive resorts to the most extreme measures imaginable; and ‘The Stepmother’s Story’ sees a young woman experience every parent’s worst nightmare while on holiday in Edinburgh. These are but three of the stories in a collection showcasing Alix Ohlin’s matchless characterization and raw readability. The reader reaches the end of one story, feels sad to leave its

cast behind, yet are buoyed when, mere moments later, they find themselves equally engrossed in the next offering.

Signs and Wonders

Personal as well as political, Orwell's letters offer a fascinating window into the mind of a phenomenal man. We are privy to snatched glimpses of his family life: his son Richard's developing teeth, the death of his wife Eileen, and his own illness. Candid portraits of Barcelona during the Spanish Civil War, his opinions on bayonets, and on the chaining of German prisoners display his magnificent talent as a political writer, and letters to friends and his publisher provide a unique insight into the development and publication of some of the most important novels in the English language. A Life in Letters features previously unpublished material, including letters which shed new light on a love that would haunt him for his whole life, as well as revealing the inspiration for some of his most famous characters. Presented for the first time in a dedicated volume, this selection of Orwell's letters is an indispensable companion to his diaries.

George Orwell: A Life in Letters

The Five Continents of Theatre undertakes the exploration of the material culture of the actor, which involves the actors' pragmatic relations and technical functionality, their behaviour, the norms and conventions that interact with those of the audience and the society in which actors and spectators equally take part.

The Five Continents of Theatre

Brimming with alternative universes, futuristic landscapes and gleeful metaphysics... Yu's spirit of invention is infectious. - Sunday Times Highly inventive and hilarious - The Times

With only TAMMY - a slightly tearful computer with self-esteem issues - a software boss called Phil - Microsoft Middle Manager 3.0 - and an imaginary dog called Ed for company, fixing time machines is a lonely business and Charles Yu is stuck in a rut. He's spent the better part of a decade navel-gazing, spying on 39 different versions of himself in alternate universes (and discovered that 35 of them are total jerks). And he's kind of fallen in love with TAMMY, which is bad because she doesn't have a module for that. With all that's on his mind, perhaps it's no surprise that when he meets his future self, he shoots him in the stomach. And that's a beginner's mistake for a time machine repairman. Now he's stuck in a time loop, going in circles forever. All he has, wrapped in brown paper, is the book his future self was trying to press into his hands. It's called How to Live Safely in a Science Fictional Universe. And he's the author. And somewhere inside it is the information that could save him.

The Shakespeare Story-book

We know you are here, our brothers and sisters. We will, one day, emerge from the Dome to join you in peace. For now, we watch from afar, benevolently. Pressia Belze has lived outside of the Dome ever since the detonations. Struggling for survival she dreams of life inside the safety of the Dome with the 'Pure'. Partridge, himself a Pure, knows that life inside the Dome, under the strict control of the leaders' regime, isn't as perfect as others think. Bound by a history that neither can clearly remember, Pressia and Partridge are destined to forge a new world.

The Code of Terpsichore

From a Pulitzer Prize finalist comes a hilarious and heartbreaking novel about a musician climbing back from rock bottom. As winter deepens in snowbound Pollard, Illinois, thirty-something Francis Falbo is holed up in his attic apartment, recovering from a series of traumas: his mother's death, his beloved wife's desertion, and his once-ascendant rock band's irreconcilable break-up. Francis hasn't shaved in months, hasn't so much as changed out of his bathrobe-"the uniform of a Life in Default"-for nine days. Other than the agoraphobia that continues to hold him hostage, all he has left is his childhood home, whose remaining rooms he rents to a cast of eccentric tenants, including a pair of former circus performers whose daughter has gone missing. The tight-knit community has already survived a blizzard, but there is more danger in store for the citizens of Pollard before summer arrives. Francis is himself caught up in these troubles as he becomes increasingly entangled in the affairs of others, with results that are by turns disastrous, hysterical, and ultimately healing. Fusing consummate wit

with the seriousness attending an adulthood gone awry, Rapp has written an uproarious and affecting novel about what we do and where we go when our lives have crumbled around us. Sharp-edged but tenderhearted, *Know Your Beholder* introduces us to one of the most lovably flawed characters in recent fiction, a man at last able to collect the jagged pieces of his dreams and begin anew, in both life and love. Seldom have our foibles and our efforts to persevere in spite of them been laid bare with such heart and hope.

Six Centuries of Painting

Literary fiction meets the otherworldly in this “wonderfully weird and entertaining” urban fantasy for Millennial fans of Victor LaValle (*Esquire*). “An utterly charming, silly, and heartily entertaining coming-of-age story about a man-boy who learns to believe in himself by reckoning with evil.” —*Boston Globe* What do you do when you wake up hung over and late for work only to find a stranger on your couch? And what if that stranger turns out to be an Adversarial Manifestation—like Satan, say—who has brewed you a fresh cup of fair-trade coffee? And what if he offers you your life’s goal of making the bestseller list if only you find his missing Lucky Cat and, you know, sign over your soul? If you’re Billy Ridgeway, you take the coffee.

How to Live Safely in a Science Fictional Universe

This book draws upon a relational sociological paradigm to explore the processes of collective action in football fandom across Europe and the UK. Through a range of case studies, the authors address pertinent themes in football fandom, including anti-discrimination, ‘home,’ ticketing, name changes, ‘ownership,’ and broader leftist politics. Each of these case studies engages with the theoretical framework of cultural relational sociology, highlighting the different social and cultural changes English and European football has undergone, often over a very short period of time.

The Weirdness

The second book in the PURE trilogy for fans of *THE PASSAGE*, *THE ROAD* and *THE HUNGER GAMES*. When the end came, the world was divided. Those considered perfect, the Pure, sheltered inside the controlled Dome. Outside, the Wretches struggled in a destroyed world, crippled by the fusings that branded them after the apocalypse that changed everything. Partridge, a Pure, has left the safety of the Dome in search of the truth. Pressia, a Wretch, is desperate to decode the secret that will cure her people of their fusings forever. Together, they must seek out the answers that will save humankind, and prevent the world’s annihilation. But the betrayal of Partridge’s departure has not been forgotten. As the Dome unleashes horrifying vengeance upon the Wretches in an attempt to get Partridge back, Partridge has no choice but to return to face the darkness that lies there, even as Pressia travels to the very ends of the world to continue their search. Theirs is a struggle against a formidable foe, and it is a fight that will push them over boundaries of land and of sea, of heart and of mind. They can only hope for success because failure is unimaginable...

Collective Action and Football Fandom

My Thoughts provides a unique window into the mind of one of the undisputed pioneers of modern thought, the author of the 1748 classic, *The Spirit of the Laws*. From the publication in 1721 of his first masterpiece, *Persian Letters*, until his death in 1755, Montesquieu maintained notebooks in which he wrote and dictated ideas on a wide variety of topics. Some of the contents are early drafts of passages that Montesquieu eventually placed in his published works; others are outlines or early versions of projected works that were ultimately lost, unfinished, or abandoned. These notebooks provide important insights into his views on a broad range of topics, including morality, religion, history, law, economics, finance, science, art, and constitutional liberty. Montesquieu called these notebooks *Mes Pensées* (My Thoughts), and they appear in their entirety in English for the first time in this

Liberty Fund edition. Editor and translator Henry C. Clark provides readers with translations of most of the footnotes contained in the 1991 French edition by Louis Desgraves, while adding new notes, a bibliography, and other aids to understanding the text and translation. These features provide the frame for a revealing portrait of one of the most influential figures of the eighteenth century. Henry C. Clark is a Visiting Professor in the Political Economy Project at Dartmouth College. He has written two books and numerous articles, mainly on the French and Scottish Enlightenments.

Tom Pistilini has just discovered he's an unwitting investor in a macabre tourism company bringing wealthy European sightseers obsessed with America's murder culture to explore mass shooting sites. It's a business that will make him wealthy, although he might just despise it enough to ruin his neighbors, and himself, financially. Told from the first-person perspective of unreliable narrator Tom "Pisser" Pistilini, the Patrick Bateman of the private school community, *Therapy Mammals* is the story of the lengths one father will go to protect his children, his marriage, and his worthiness. Pisser's life is a mess. He recently emerged from a pharmaceutical blackout to find himself strangling the captain of the high school lacrosse team against the bathroom wall of Gopa Academy, a premier Manhattan private school. His wife is having an affair with a motivational speaker. His job as Channel Fourteen's meteorologist is in jeopardy. His nanny died in a freak accident, of which he may have been involved. It is also possible he murdered the lacrosse coach with a four-iron. A group of millennial hackers has discovered the tourism business. He has a chipmunk infestation in his backyard. His wife's vertical pancake business, *Standcake*, is on the verge of ruin. His son is a cross-dressing geriatric. Controversial photographs of his daughter are circulating. Various factions of parents are aligned against him, but who can blame them: he stole a prosthetic leg and an equipment bus, causing the lacrosse team to forfeit an important game. He kidnapped a feral cat, hoping it would clear his yard of chipmunks while also behaving as his therapy pet. He named it Clint Eastwood. His cat is pregnant. *Therapy Mammals* is an intriguing romp through modern parenthood navigating class privilege, digital media, hacker culture and gun violence.

About Face

Named one of the Best Books of the Year by Kirkus Reviews (Nonfiction) A memoir of motorcycles and muscles, of obsession and grief, and of a young man who learned how to stay alive through literature. At just forty-seven years old, William Giraldi's father was killed in a horrific motorcycle crash while racing on a country road. This tragedy, which forever altered the young Giraldi and devastated his family, provides the pulse for *The Hero's Body*. In the tradition of Andre Dubus III's *Townie*, this is a deep-seeing investigation into two generations of men from the working-class town of Manville, New Jersey, including Giraldi's own forays into obsessive bodybuilding as a teenager desperate to be worthy of his family's pitiless, exacting codes of manhood. Lauded by *The New Yorker* for his "unrelenting, perfectly paced prose," Giraldi writes here with daring, searing honesty about the fragility and might of the American male. An unflinching memoir of luminous sorrow, a son's tale of a lost father and the ancient family strictures of extreme masculinity, *The Hero's Body* is a work of lasting beauty by one of our most fearless writers.

The Discovery of America

Norman Douglas, one of the 20th century's great travellers in Italy, was for most of his life inextricably, passionately, connected to the Bay of Naples. This breathtaking sweep of sea and coastline - dominated by Vesuvius and with Pozzuoli and Sorrento standing sentinel - was Douglas' first experience of Italy. It was here, on the island of Capri, that he died, some 55 years after first buying a villa in Naples. "Siren Land"

My Thoughts

This fascinating volume examines the enduring influence of courtly tradition and courtly love, particularly in contemporary popular culture. The ten chapters explore topics including the impact of the medieval troubadour in modern love songs, the legacy of figures such as Tristan, Iseult, Lancelot, Guinevere, and Merlin in modern film and literature, and more generally, how courtly and chivalric conceptions

of love have shaped the Western world's conception of love, loyalty, honor, and adultery throughout history and to this day.
