Inside the History of Mexico City's Vecindades - Inside the History of Mexico City's Vecindades by Bloomberg Live 325 views 2 years ago 2 minutes, 57 seconds - These grandiose buildings featuring a central courtyard were originally built to house European aristocracy in the Spanish colony ...

Vecindades aren't just houses but integral parts of

While the word "vecindad" in Spanish means "neighborhood," in Mexico City it's more than that.

literature and film-became part of the cultural consciousness.

The first vecindades were built by wealthy Spanish colonists in a traditional Andalusian style in the 16th century.

Rooms spanned multiple stories around an open-air courtyard

The homes were anywhere from two to five stories tall, built on narrow lots out of stone or brick

The patio was the heart of the home, with large windows in each room overlooking it both for aesthetics and to keep air moving.

The 1800s brought industrialization and social and political upheaval

As workers moved in, the individual rooms around the courtyard transformed into cramped apartments.

Today, some vecindades survive as cafes, shops, hotels, storage and sometimes middle-income housing.

As Mexico City continues to evolve around its vecindades
