Desire of Ages

Este libro no es escandaloso ni machista. Por lo contrario, es el producto de una investigación cuidadosa y esmerada, combinada por una delineación de los hechos respecto del tema total de la ordenación de la mujer al ministerio evangélico. Aunque el tópico sin duda despierta emociones, la apelación del ensayo del pastor Esteban Bohr es producto de un razonamiento mesurado y de alto nivel. Cuando se le pida a usted que exprese su opinión, ojalá tenga el valor de un miembro del pueblo remanente: hombres y mujeres que no sean comprados ni vendidos, que en lo más recóndito de su alma son veraces y honestos, que no teman llamar al pecado por su nombre, que se pondrán de parte del bien aunque se desplomen los cielos (ver Elena G. de White, La educación, p. 54). Alabado sea Dios por hombres y mujeres como estos: ¡hombres y mujeres como usted! Sin peros ni ambages deseo colocarme con el pastor Bohr y usted de parte del valor santificado.

Last Day Events

"The Lord has shown me that Satan was once an honored angel in heaven, next to Jesus Christ. His countenance was mild, expressive of happiness like the other angels. His forehead was high and broad,

and showed great intelligence. His form was perfect. He had noble, majestic bearing. And I saw that when God said to his Son, Let us make man in our image, Satan was jealous of Jesus. He wished to be consulted concerning the formation of man. He was filled with envy, jealousy and hatred. He wished to be the highest in heaven, next to God, and receive the highest honors. Until this time all heaven was in order, harmony and perfect subjection to the government of God."-Ellen G White

The Decline and Fall of the Roman Church

Ellen White was one of the founders of the Seventh Day Adventist Church and claimed to have had over 2000 visions. Excerpt: Everywhere the light of truth is to shine forth, that hearts now in the sleep of ignorance may be awakened and converted. In all countries and cities the gospel is to be proclaimed....

Lift Him Up

Perfected science is but an idealization that provides a useful contrast to highlight the limited character of what we do and can attain. This lies at the core of various debates in the philosophy of science and Rescher's discussion focuses on the question: how far could science go in principle—what are the theoretical limits on science? He concentrates on what science can discover, not what it should

discover. He explores in detail the existence of limits or limitations on scientific inquiry, especially those that, in principle, preclude the full realization of the aims of science, as opposed to those that relate to economic obstacles to scientific progress. Rescher also places his argument within the politics of the day, where "strident calls of ideological extremes surround us," ranging from the exaggeration that "science can do anything"—to the antisocialism that views science as a costly diversion we would be well advised to abandon. Rescher offers a middle path between these two extremes and provides an appreciation of the actual powers and limitations of science, not only to philosophers of science but also to a larger, less specialized audience.

Testimonies for the Church

The latest edition of this handbook provides answers to questions on astronomy and the universe and contains the answers to ten new questions. DeYoung explains how astronomy tells much about God's vast creation and His daily care for us.

Cosmic Conflict

Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

Evangelism

The enormous changes that have taken place in social and political behavior in the past quarter century are reflected through the immense naivete and tenderness of two characters. Priscilla and Natalie to a large extent possess the poetry associated with great clowns. Poetry to express the ambivalence between comedy and tragedy, sorrow and happiness, grandeur and misery, laughter and tears, that forms the clown's humanity.

Royalty and Ruin

In 1935, after the death of dictator General Juan Vicente Gómez, Venezuela consolidated its position as the world's major oil exporter and began to establish what today is South America's longest-lasting democratic regime. Endowed with the power of state oil wealth, successive presidents appeared as transcendent figures who could magically transform Venezuela into a modern nation. During the 1974-78 oil boom, dazzling development projects promised finally to effect this transformation. Yet now the state must struggle to appease its foreign creditors, counter a declining economy, and contain a discontented citizenry. In critical dialogue with contemporary social theory, Fernando Coronil examines key transformations in Venezuela's polity, culture, and economy, recasting theories of development and highlighting the relevance of these processes for other postcolonial nations. The result is a timely and compelling historical ethnography of political power at the cutting edge of interdisciplinary reflections on modernity and the state.

The Limits Of Science

In 1945, the United States was not only the strongest economic and military power in the world; it was also the world's leader in science and technology. In *American Hegemony and the Postwar Reconstruction of Science in Europe*, John Krige describes the efforts of influential figures in the United States to model postwar scientific practices and institutions in Western Europe on those in America. They mobilized political and financial support to promote not just America's scientific and technological agendas in Western Europe but its Cold War political and ideological agendas as well. Drawing on the work of diplomatic and cultural historians, Krige argues that this attempt at scientific dominance by the United States can be seen as a form of "consensual hegemony," involving the collaboration of influential local elites who shared American values. He uses this notion to analyze a series of case studies that describe how the U.S. administration, senior officers in the Rockefeller and Ford Foundations, the NATO Science Committee, and influential members of the scientific establishment—notably Isidor I. Rabi of Columbia University and Vannevar Bush of MIT—tried to Americanize scientific practices in such fields as physics, molecular biology, and operations research. He details U.S. support for institutions

including CERN, the Niels Bohr Institute, the French CNRS and its laboratories at Gif near Paris, and the never-established "European MIT." Krige's study shows how consensual hegemony in science not only served the interests of postwar European reconstruction but became another way of maintaining American leadership and "making the world safe for democracy."

Astronomy and the Bible

As a further effort to "keep this subject before the people," we have prepared the present volume, Last Day Events. Many of the citations in this book have been drawn from previously published Ellen White sources, but a fair percentage of the materials have never before been published. While we have not included all of Ellen White's statements on earth's closing events, we have endeavored to include the most significant ones. Difficult questions given answer like: What is the mark of the beast? the image of the beast? what events will happen near the closing of grace? and more..... The Siege of Leningrad

This completely new typeset of the monumental 1957 classic contains an extensive historical and theological introduction and detailed notations by George R. Knight, professor of church history at Andrews University.; Originally produced by the Ministerial Association of the General Conference of SDAs, Questions on Doctrine was widely acclaimed and heavily distributed in the late 1950s and early 1960s as a forthright answer to questions from evangelicals about key elements of Adventist doctrine. Controversy regarding the book's position on the nature of Christ and the atonement soon stopped its circulation.; Intended as a complete reference on the book itself, this new edition faithfully reproduces the original text of Questions on Doctrine, with in-text indicators of the original pagings. It includes later important documents that bring the work up to date. The original bibliography is followed by an updated selected bibliography. Commentary on various historical or bibliographic topics is included in new footnotes throughout the text, all while preserving the reading integrity of the original edition.; George Knight's introductory essays provide the background for how the book came about and describe the interaction of the principal players involved in the dispute about a small section of content that shelved this classic work for more than a generation.; This new edition of Question on Doctrine beautifully preserves this outstanding and winsome work of Adventist apologetics to future generations of scholars, laypersons, and critics. It is an essential element of every Adventist library.

The Faith I Live by

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Magical State

Winner of the Louisville Grawemeyer Award in Religion, this classic text explains what feminist theology is and how we can rediscover the feminine God within the Christian tradition, offering a profound vision of Christian theology, women's experience, and emancipation. First published in 1992, it immediately caused a groundswell reaction for and against the concept of women's participation and role in the

Christian church. It is both controversial and thought provoking. It served as the seminal text in the analysis of woman and Christianity. This 25th anniversary edition, with new content, will keep it in the forefront of the feminist theology conversation.

American Hegemony and the Postwar Reconstruction of Science in Europe

THE ANTICHRIST AND A CUP OF TEA presents the fascinating saga of the British Monarchy's centuries-long endeavor to establish a "New World Order," and gives hard evidence to suggest the identity of the coming AnitChrist. This is THE FOREMOST book on the subject of the AntiChrist in the world today, and is also highly endorsed. NOTE: "The AntiChrist and a Cup of Tea" is additionally a royal biography on Charles, Prince of Wales (i.e., "Prince Charles of Wales").
