How to start seeds indoors with step by step instructions and demonstrations// Northlawn Flower

Farm - How to start seeds indoors with step by step instructions and demonstrations// Northlawn

Flower Farm by Northlawn Flower Farm 334,166 views 3 years ago 12 minutes, 50 seconds - Today

I'm sharing how to start **seeds**, indoors and giving you step by step instructions on each task. The tools I use when starting ...

use the humidity dome when we're germinating the seeds

wash those trays in a 10 bleach 90 soapy water solution

open my bag of potting soil

place them right on the radiators

place your tray right there on the heat mat

place the seeds in the warmest area

mix soil and water

moisten our potting mix or our seed starting medium

fill up our cell trays with this soil

press them into the very top of the medium

make a little hole for each seed

cover them up with soil  
remove the humidity dome  
place these trays under t8 or t12 fluorescent shop lights  
fill the bottom of the tray with the water  
plant them out in the garden  
try to look for that consistent even moisture in the growing medium  
tray germinates remove that lid
