### Personal Finance

Are you ready to start investing? What exactly is insurance? How is credit card interest calculated? Personal finance is often seen as confusing and has a language all of its own. In Managing Your Money, Tony Boczek demystifies this subject by providing a practical guide for financial management skills and personal financial planning. A whole range of personal finance topics are discussed in detail, including savings and investments, borrowing, personal taxation, pensions, insurance and debt. Students are not expected to master intricate calculations, but are given a solid framework within which to understand the issues. Managing Your Money also provides: - A wide range of scenarios, case studies and examples providing a practical, real-world context; - Features such as learning objectives, activities, self-review questions, further reading, and key points; and - An emphasis on both life skills and academic skills. This easy-to-read book provides simple and practical information for making sound financial decisions. It is specifically intended to guide students through a module in personal finance, but contains valuable advice that would be useful in later life. A companion website for this book is available, which contains the following: For students - A selection of end-of-chapter multiple choice questions - Additional end-of-chapter self-review questions - Links to useful websites. For lecturers: - PowerPoint presentation slides for each chapter - Summary answers to all end-of-chapter self-reviews, case study discussions, and additional end-of-chapter self-review question.

By tackling money matters head on, you really can spend a bit less and live a lot more. Chapters include: -What is your money personality? -Clearing debt - the knockout method -The mortgage maze -Getting started with shares -Planning for the great beyond and much, much more...

### Managing Your Money

You should consider what are your long-term and short-term goals? Are you planning for retirement or just for a nice new car? Once your goal is clear, you can set a practical way to achieve that goal. How much money is coming in? What are the risks and rewards with your plan? Do you or will you have student loans? It is important that providers make sure you know what your financial obligations are in relation to paying your debt. Work them into your budget every month and do what you can do pay down your student loan debt when you can. Money management is a crucial process for attaining financial success by managing money that includes expenses, investments, budgeting, banking and taxes. It enables you to know where your money is going and also it helps you plan your budget wisely. It's a fundamental process that determines what you can do and what you can't. If you are behind, as many are, when it comes how much you are saving for retirement, get in high gear and catch up. Adding a little extra per month than you normally would to your retirement plan, can catch you up faster than you think it will. Especially, if it concerns your 401k, because your employer will match a certain percentage of your contribution. You must figure out how much revenue versus expenses you have. This requires following a strict budget and adhering to it always. If you're working on improving your personal budget, one easy way to get yourself in the mindset is to get your paycheck put directly into an investment account rather than checking or cash. This way you pay yourself first, think of this as a tax but you get it for retirement. This will help get you in the habit of saving money and not thinking of it all as disposable income. In order to be economically wise, all of your disposable income must now be considered as investment funds, only to be spent on assets that return you funds at a good rate. If you know that a budget is probably the difference between you keeping money on the side during the good times and having nothing when the bad times come knocking, then you'd do everything possible to make sure that you prepare a SMART budget. When you're honest with yourself, you'll agree that to a great extent, money is key to having peace of mind. It's easy to say God provides when you're not in need. But when you're neck-deep in debt and you don't have money to pay for this month's rent, you'll probably be singing a different tune. No matter how much you want to finance the great work your church or your favorite charitable organization is doing, you can't do that without extra money. If you aren't able to provide for your needs, how can you provide for others'? If you're ready to start successfully managing your personal finances, click and BUY NOW!
