Woman on the Edge of Time

Hailed as a classic of speculative fiction, Marge Piercy's landmark novel is a transformative vision of two futures—and what it takes to will one or the other into reality. Harrowing and prescient, *Woman on the Edge of Time* speaks to a new generation on whom these choices weigh more heavily than ever before. Connie Ramos is a Mexican American woman living on the streets of New York. Once ambitious and proud, she has lost her child, her husband, her dignity—and now they want to take her sanity. After being unjustly committed to a mental institution, Connie is contacted by an envoy from the year 2137, who shows her a time of sexual and racial equality, environmental purity, and unprecedented self-actualization. But Connie also bears witness to another potential outcome: a society of grotesque exploitation in which the barrier between person and commodity has finally been eroded. One will become our world. And Connie herself may strike the decisive blow. Praise for *Woman on the Edge of Time* "This is one of those rare novels that leave us different people at the end than we were at the beginning. Whether you are reading Marge Piercy's great work again or for the first time, it will remind you that we are creating the future with every choice we make."—Gloria Steinem "An ambitious, unusual novel about the possibilities for moral courage in contemporary society."—The Philadelphia Inquirer "A stunning, even astonishing novel . . . marvelous and compelling."—Publishers Weekly "Connie Ramos's world is cuttngly real."—Newsweek "Absorbing and exciting."—The New York Times Book Review

Sailing to the Edge of Time

John Kretschmer is sailing's practical philosopher – as much a doer as a thinker. And that is the overarching theme of this chronicle of a sailing life. Often amusing, sometimes poignant, occasionally terrifying but always inspiring, his deeply personal account is a welcome reminder of the good life waiting at sea. With hundreds of thousands of nautical miles under his keel, John's adventures have taken him several times around the world, with challenging crossings of the Atlantic and the Pacific, a narrow escape from a coup in Yemen, an unlikely deliverance from a coral reef off Belize as well as more serene, introspective passages where trade winds are blowing and stories are flowing. His crew has included CEOs, actors, writers, teachers, kids – in essence, everyone. John's narrative is interwoven with practical tips and advice in seamanship, but also, and just as importantly, his hard-won insights about making the most of our lives. He truly believes we find out who we really are, and what we are capable of, far from the shackles of land, when we find a place where time changes shape – days may merge into one another, but minutes are memorable. To live adventurously is to live more fully, and that is the life John Kretschmer continues to live. In this book he shares his simple profundities that will inspire those who live to sail, and those seeking something more rewarding from life.

In Search of the Edge of Time

John Pellowe's future changed overnight from building to retail. After a tragedy and split in the family firm, a small inherited shop went on to become one of the most successful retail stores in Britain: Housing Units. Charting events from pre-war Oldham to the present day, *The Edge of Time* tells the story of the founder of one of the North West's most famous home furnishing stores. A humorous and often poignant book, John Pellowe's autobiography reveals how much things have changed in the furniture industry and touches on luck, timing – and good practice: Housing Units had a turnover of around £165 in its first week in 1959 which had increased to over £20million when John retired as managing director in 2000 and all this was built without incurring any debt! From innocent childhood days to tragedy, from the whirlwind of owning a new enterprise to getting married, growing the business and having a family whilst simultaneously rushing around Europe and the UK buying stock – time has always been in short supply for John Pellowe as he has tried to achieve more than others. *The Edge of Time* is a touching life story that clearly demonstrates how much things have changed over the years in both commerce and life itself. It will appeal to fans of autobiographies and success stories.

On the Edge of Gone

Featured in New York Times: 100 Notable Books of 2015 Michael Pye's *The Edge of the World* is an epic adventure: from the Vikings to the Enlightenment, from barbaric outpost to global centre, it tells the amazing story of northern Europe's transformation by sea. 'An utterly beguiling journey into the dark ages of the north sea. A complete revelation . . . Pye writes like a dream. Magnificent'

Jerry Brotton, author of *A History of the World in Twelve Maps* This is a story of saints and spies, of fishermen and pirates, traders and marauders - and of how their wild and daring journeys across the North Sea built the world we know. When the Roman Empire retreated, northern Europe was a barbarian outpost at the very edge of everything. A thousand years later, it was the heart of global empires and the home of science, art, enlightenment and money. We owe this transformation to the tides and storms of the North Sea. The water was dangerous, but it was far easier than struggling over land; so it was the sea that brought people together. Boats carried food and raw materials, but also new ideas and information. The seafarers raided, ruined and killed, but they also settled and coupled. With them they brought new tastes and technologies - books, clothes, manners, paintings and machines. In this dazzling historical adventure, we return to a time that is largely forgotten and watch as the modern world is born. We see the spread of money and how it paved the way for science. We see how plague terrorised even the rich and transformed daily life for the poor. We watch as the climate changed and coastlines shifted, people adapted and towns flourished. We see the arrival of the first politicians, artists, lawyers: citizens. From Viking raiders to Mongol hordes, Frisian fishermen to Hanseatic hustlers, travelling as far west as America and as far east as Byzantium, we see how the life and traffic of the seas changed everything. Drawing on an astonishing breadth of learning and packed with human stories and revelations, this is the epic drama of how we came to be who we are. 'A closely-researched and fascinating characterisation of the richness of life and the underestimated interconnections of the peoples all around the medieval and early modern North Sea. A real page-turner' Chris Wickham, author of *The Inheritance of Rome: A History of Europe from 400 to 1000* 'Elegant writing and extraordinary scholarship . . . Miraculous' Hugh Aldersey-Williams, author of *Periodic Tales* and *Anatomies* 'Splendid. A heady mix of social, economic, and intellectual history, written in an engaging style. It offers a counterpoint to the many studies of the Mediterranean, arguing for the importance of the North Sea. Exciting, fun, and informative' Michael Prestwich, Professor of History, Durham University Michael Pye has written eleven previous books, translated into eleven languages, including two British bestsellers and two New York Times Notable Books of the Year. He took a First and various prizes in Modern History at Oxford, and was then for many years a highly successful journalist, columnist and broadcaster in London and New York. He now lives between London and rural Portugal.

Journey to the Edge of Time

Islands at the Edge of Time is the story of one man's captivating journey along America's barrier islands from Boca Chica, Texas, to the Outer Banks of North Carolina. Weaving in and out along the coastlines of Texas, Louisiana, Mississippi, Alabama, South Carolina, and North Carolina, poet and naturalist Gunnar Hansen perceives barrier islands not as sand but as expressions in time of the processes that make them. Along the way he treats the reader to absorbing accounts of those who call these islands home -- their lives often lived in isolation and at the extreme edges of existence -- and examines how the culture and history of these people are shaped by the physical character of their surroundings.

The Edge of the World

'Clear and compact ... It's hard to fault as a brief, easily digestible introduction to some of the biggest questions in the Universe' Giles Sparrow, BBC Four's *The Sky at Night* , Best astronomy and space books of 2019: 5/5 All the matter and light we can see in the universe makes up a trivial 5 per cent of everything. The rest is hidden. This could be the biggest puzzle that science has ever faced. Since the 1970s, astronomers have been aware that galaxies have far too little matter in them to account for the way they spin around: they should fly apart, but something concealed holds them together. That 'something' is dark matter - invisible material in five times the quantity of the familiar stuff of stars and planets. By the 1990s we also knew that the expansion of the universe was accelerating. Something, named dark energy, is pushing it to expand faster and faster. Across the universe, this requires enough energy that the equivalent mass would be nearly fourteen times greater than all the visible material in existence. Brian Clegg explains this major conundrum in modern science and looks at how scientists are beginning to find solutions to it.

The Edge of Always

Queen Elizabeth's spymasters recruit an unlikely agent—the only Muslim in England—for an impossible mission in a mesmerizing novel from “one of the best writers in America” (The Washington Post) “Evokes flashes of Hilary Mantel, John le Carré and Graham Greene, but the wry, tricky plot that drives it is pure Arthur Phillips.”—The Wall Street Journal NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE WASHINGTON POST The year is 1601. Queen Elizabeth I is dying, childless. Her nervous kingdom has no heir. It is a capital crime even to think that Elizabeth will ever die. Potential successors secretly maneuver to be in position when the inevitable occurs. The leading candidate is King James VI of Scotland, but there is a problem. The queen's spymasters—hardened veterans of a long war on terror and religious extremism—fear that James is not what he appears. He has every reason to claim to be a Protestant, but if he secretly shares his family's Catholicism, then forty years of religious war will have been for nothing, and a bloodbath will ensue. With time running out, London confronts a seemingly impossible question: What does James truly believe? It falls to Geoffrey Belloc, a secret warrior from the hottest days of England's religious battles, to devise a test to discover the true nature of King James's soul. Belloc enlists Mahmoud Ezzedine, a Muslim physician left behind by the last diplomatic visit from the Ottoman Empire, as his undercover agent. The perfect man for the job, Ezzedine is the ultimate outsider, stranded on this cold, wet, and primitive island. He will do almost anything to return home to his wife and son. Arthur Phillips returns with a unique and thrilling novel that will leave readers questioning the nature of truth at every turn.

Aid on the Edge of Chaos

Marge Piercy carries her portrait of the American experience back into the Fifties—that closed, repressive time in which forces for the upheavals of the Sixties ticked away underground. Spanning twenty years, and teeming with vivid characters, *Braided Lives* tells the powerful, unsentimental story of two young women coming of age. Jill, fiercely independent, dark, Jewish, an intellectual with Detroit street smarts, is a poet, curious, avid of life—a “professional student” and sometime thief. Donna, Jill’s cousin and closest friend, is blond, pretty, and alluring. Together, they grow and change at college in Ann Arbor, where the life of poets and painters contrasts sharply with the working-class neighborhood where Jill’s family lives. In Michigan, and afterward in New York City, the two women taste love and betrayal, friendship and pain, independence and fear as they reach a deepening understanding that to control their lives they must fight. And though their fates differ as widely as their personalities, both reflect the danger that sex posed at a time when abortions were illegal and an affair could destroy a woman’s life, making the outcome of a chance encounter or a night of love a matter of life and death. *Braided Lives* is an enduring portrait of the past that has led to our tenuous present. In her new introduction to this edition, Marge Piercy reflects on both the most autobiographical of her novels, and the ongoing battles to ensure the hard-fought victories of the Sixties and Seventies, particularly around sex and reproductive rights.

The Edge of the Cloud

In the past, they were recognized as the most destructive force in nature. Now, following a cascade of astonishing discoveries, supermassive black holes have undergone a dramatic shift in paradigm. Astronomers are finding out that these objects may have been critical to the formation of structure in the early universe, spawning bursts of star formation, planets, and even life itself. They may have contributed as much as half of all the radiation produced after the Big Bang, and as many as 200 million of them may now be lurking through the vast expanses of the observable cosmos. In this elegant, non-technical account, Melia conveys for the general reader the excitement generated by the quest to expose what these giant distortions in the fabric of space and time have to say about our origin and ultimate destiny.

The Pledge of a Lifetime

What is it about conflict that causes all of us to shy away? Why is it so difficult? What if there was a step-by-step process to guide us through conflict and create a deeper connection at the same time? And what if the principles learned could enhance all communication? In *The Pledge of a Lifetime*, follow Jake and Lisa's story and discover how to transform tense confrontations into rich conversations. Watch family dynamics improve as everyone works together to communicate in a manner governed by love. From his years of conflict resolving experiences, Mark Oelze leads you into the counselors office between the covers of this book, where you will learn the keys to process any conflict, big or small. Fear no longer has to hold you back. Work the PLEDGE to build strong healthy communication with love as your highest goal! Mark is a gifted counselor, speaker and teacher. Perhaps his most important teaching is the PLEDGE message tool to resolve conflict and enhance all relationships. I highly recommend Mark and his book, *The Pledge of a Lifetime*! Ken Canfield, PhD, founder of the National Center for Fathering Mark delivers a great story with the added bonus of practical and life-giving principles to revolutionize the way couples communicate through a heart of love. Jo Lynn Bright, LCMFT I laughed. I cried. I lamented my own failings. And I left longing for deeper connection with my wife and kids. Thanks, Mark! Phil Mershon, MDiv, MABC

The Pledge

DIVA foreign correspondent is targeted by the US government after aligning with the Communist Party for a controversial story /div DIVIn what many consider his most autobiographical novel, bestselling author Howard Fast revisits the McCarthy-era anticommunist witch hunts he endured during his years as a member of the Communist Party. In *The Pledge*, Bruce Bacon, a war correspondent stationed in Bengal near the end of World War II, investigates a terrible famine that has left millions in India starving to death, despite ample food supplies stored—and allegedly withheld—by the British. Seeking to tell his story back in New York, Bacon meets members of a communist organization, including a Daily Worker reporter named Molly Maguire. But the America he returns to is not the same one he left behind, and soon Bacon discovers that associating with communists has put him squarely in the crosshairs of the House Un-American Activities Committee./divDIV /divDIVThis suspenseful and powerful novel revisits the guilt-by-association fear and suspicion that gripped America during the second Red Scare, which had harrowing consequences for those unfortunate enough to be accused./divDIV /divDIVThis ebook features an illustrated biography of Howard Fast including rare photos from the author's estate./div

The Pledge

An actionable guide for quickly improving one's wealth, personal development, and happiness Successful people don't sit around waiting for everything to be "100%" right or to be "absolutely sure" they will succeed. They don't need absolute assurance, because they realize life doesn't provide any. To get what they want out of life, they set specific goals and put together a formal plan to achieve those goals, one step at a time. Successful people know that the cost of failure is modest compared to that of inaction. Failure means they are smarter the next time. Inaction means there is no next time—there's only a lifetime of regret. In *The Pledge: Your Master Plan for an Abundant Life*, author Michael Masterson reveals how to become successful—and not just financially, but in every area of life. The book Offers simple tips to making immediate changes and to establishing long-term goals Details strategies on becoming more productive at the office and defeating depression Explains why simplifying goals into four major ones makes them much easier to achieve The Pledge teaches readers how to start and finish projects they have been dreaming about for years, boost confidence, strengthen skills, build wealth, and enjoy life.

Illinois Estate Administration Volume 2 2009 Edition

What is a moment? A snippet of time that makes up our hours, days, weeks, months, years, and seasons. The anointing in each moment can turn our ordinary lives into extraordinary journeys. In his latest book, Henry Falcone explores the Bride and the Bridegroom, using this Biblical parable to teach the importance of being ready when the "moment" comes. Using key points and Scripture truths, he confronts this question: When Christ returns for His Bride, where will you be in the anointing of the moment? Don't put this book down until you are convinced that you know the answer!

Reports of Cases Adjudged and Determined in the Supreme Court of Judicature and Court for the Trial of Impeachments and Correction of Errors of the State of New York

How to live your best life, no matter your age? How best to approach the challenges and opportunities of middle to later life—like raising children, caring for parents, managing and inspiring others, and staying on top of your career and what comes next? In *Live Life in Crescendo* Stephen R. Covey sets out to answer these questions, outlining his vision for those in the prime of your life, whatever age you may be. To live life in crescendo is to continually grow in contribution, learning, and influence. In the same way that music builds on previous notes but leaves us anticipating the next note, a life builds on the past but unfolds in the future. The *Crescendo Mentality* urges readers to use whatever you have—your time, talents, skills, resources, gifts, passion, money, influence—to enrich the lives of people around you. Published posthumously, *Live Life in Crescendo* is a life-changing and life-affirming book infused with Covey's generosity and wisdom.

AARP The Pledge

An annotated translation of five key texts of the Everlasting (Yungdrung) Bön school selected by the late H. H. Menri Trizin Rinpoché that includes scriptural teachings, a root tantra based on revealed teachings of the unconditioned absolute, a canonical commentary on the root tantra, an exposition of the Yungdrung tantric system, and the oral instructions on Bön meditation practices associated with experiencing the nature of the mind, the Great Perfection systems. This authoritative annotated translation of five key texts of Everlasting (Yungdrung) Bön by Marc des Jardins opens up a relatively unknown tradition that, since the arrival of Buddhism in Tibet, has undergone great transformations in its philosophy, doctrinal teachings, and meditative practices. Each text represents an important aspect of the tradition. The first text, by Drogön Azha Lodrö Gyaltsen (1198–1263), presents the grounds and paths of the Greater Vehicle of the Bön tradition and represents the philosophical ideology of its teachings based on the scriptures contained in the Bön canon. The second text is a short root tantra attributed to revealed teachings from Kuntu Zangpo, the personification of the unconditioned absolute. The third text is a commentary on this root tantra attributed to Drenpa Namkha (fl. eighth century), a Bönpo sage contemporary with Padmasambhava. The fourth text, by Nyamé Sherap Gyaltsen (1356–1415), presents a general exposition of the tantric system according to Yungdrung Bön. The final text, by Drutön Gyalwa Yungdrung (1242–90), pertains to the oral instructions on the meditation practices of Bön, especially on the cycle of practices associated with experiencing the nature of the mind, the Great Perfection systems. All five texts have been selected by the late H. H. Menri Trizin Rinpoché, Lungtok Tenpai Nyima (1927–2017), the thirty-third abbot of Menri Monastery, the central institution of the Yungdrung Bön school.

The Anointing of the Moment

Harvey Penick's life in golf began when he started caddying at the Austin, (Texas), Country Club at age eight. Eighty-one years later he is still there, still dispensing wisdom to pros and beginners alike. His stature in the golf world is reflected in the remarkable array of champions he's worked with, both men and women, including U.S. Open champion and golf's leading money winner Tom Kite, Masters champion Ben Crenshaw, and LPGA Hall of Famers Mickey Wright, Betsy Rawls, and Kathy Whitworth. It is not for nothing that the Teacher of the Year Award given by the Golf Teachers Association is called the Harvey Penick Award. Now, after sixty years of keeping notes on the things he's seen and learned and on the golfing greats he's taught, Penick is finally letting his Little Red Book (named for the red notebook he's always kept) be seen by the golf world. His simple, direct, practical wisdom pares away all the hypertechnical jargon that's grown up around the golf swing, and lets all golfers, whatever their level, play their best. He avoids negative words; when Tom Kite asked him if he should "choke down" on the club for a particular shot, Harvey told him to "grip down" instead, to keep the word "choke" from entering his mind. He advises golfers to have dinner with people who are good putters; their confidence may rub off, and it's certainly better than listening to bad putters complain. And he shows why, if you've got a bad grip, the last thing you want is a good swing. Throughout, Penick's love of golf and, more importantly, his love of teaching shine through. He gets as much pleasure from watching a beginner get the ball in the air for the first time as he does when one of his students wins the U.S. Open. Harvey Penick's Little Red Book is an instant classic, a book to rank with Ben Hogan's *Modern Fundamentals of Golf* and Tommy Armour's *How to Play Your Best Golf All the Time*.

Live Life in Crescendo

BIOGRAPHY & AUTOBIOGRAPHY: FILM, TELEVISION, MUSIC, THEATRE. Journey of Lifetime is a glorious celebration of 50 years in front of the camera. For as long as most can remember, Whicker has roamed far and wide in search of the eccentric, the ludicrous and the socially-revealing aspects of everyday life as lived by some of the more colourful of the world's inhabitants. Since the late 1950s, when the long-running Whicker's World documentary was first screened, he has probed and dissected the often secretive and unobserved worlds of the rich and famous, rooting out the most implausible and sometimes ridiculous characters after gaining admittance to the places where they conduct their leisure hours. Here Whicker retraces his steps, catching up with some past interviewees and reflecting on how the world has changed - for good and bad - over the passing of time. Journey of a Lifetime is lyrical, uplifting and peppered with our favourite globetrotter's brand of subtle satire.

This is the definitive English translation of the new Russian Civil Code (Parts 1 and 2), often referred to as "the second Russian Constitution". The Civil Code of the Russian Federation is the result of a

collaborative effort of a leading United States expert on Russian law and of the staff of the Private Law Research Center attached to the Office of the President of the Russian Federation -- the Center that had primary responsibility for drafting the new Civil Code. The authoritative introduction, complete table of contents, and comprehensive index combine to set this work far beyond the utility of any existing translations of the Civil Code. It will be a must-have resource for government, law and international business collections.

The Tradition of Everlasting Bön

Pledge? You make it and you break it. Life happens. Maysa didn't know she'd make a pledge to never invest her love and energies into outside world and how it'd impact her life. Journey from heartaches, losses, failures and closed doors to spiritual strength full of wisdom, love, new beginnings and new perspectives. Meanwhile the exit of her mother (Lakia) created a vacuum in her that was filled by ill means where she meets Basil, who tries his best to drain the goodness in her and then she ends up meeting Kayen who recovered her faith in humanity but until when? Whereas Mr. Nuraz (Maysa's father) had been clinging to the hope that whatever happened would have been a nightmare. Life makes you stand at a point where you've to make a pledge and then when you've learnt the lesson it wanted you to teach to then it puts you in a position to break it too. Unconventional isn't? This novel revolves around different hurdles that Maysa encounters on her way to become the woman she didn't know she would end up being. Esita's friendship lightens up Maysa's dark world. Mr. Iyaad's character could be seen as someone who would actually stood up for her, the role her father (Mr. Nuraz) had to play. In the twists and turns of events, ups and downs of relations, Maysa evolves and devolves and breaks a pledge.

With his last-gasp victory as part of the Great British coxless four team at the Athens Olympics, Matthew Pinsent clinched an historic fourth Olympic Gold to add to the three already won with his legendary rowing partner Steve Redgrave. In an uniquely exciting and evocative autobiography, Pinsent interweaves the build-up to Athens 2004 with the extraordinary story of his career and unforgettable partnership with Redgrave. Plucked from obscurity at the age of 20, told to partner his hero, and trained to within an inch of his life, Pinsent's story is uniquely revealing about what it takes to be a champion and the mixed blessings of success. Culminating with a nail-biting final chapter detailing the team's extraordinary victory in Athens in blow-by-blow detail, *A Lifetime in a Race* is a sports book in a different mould.
