### The Grants Register 2008

The most authoritative and comprehensive guide available to postgraduate grants and professional funding worldwide. For twenty-six years The Grants Register has been the leading source for up to date information on the availability of, and eligibility for, postgraduate and professional awards. With details of 3,800 awards, The Grants Register 2008 is more extensive than comparable publications. Each entry has been verified by the awarding bodies concerned ensuring that every piece of information is accurate. As all information is updated annually, each edition also provides the most accurate details available today.

### The Grants Register 1997

In response to changing market needs, The Grants Register has been substantially revised from previous editions for this, its 15th edition. With increased student and professional mobility world-wide, coverage in The Grants Register has been extended from the English speaking world to the whole world, making it the only truly international guide of its kind. The number of awards has increased by 25% from the last edition, with all the information supplied directly by the awarding body. To improve ease of use, the layout and field structure has also been completely update. This has included the introduction of new fields on the level of study, individual eligibility and applications procedures as well as additional contact details such as email and World Wide Web addresses. The indexes have also been completely revised, with the introduction of an internationally recognised subject index which simultaneously incorporates a geographical guide to eligibility. An alphabetical list of awards will also be given. Now significantly extended, The Grants Register continues to be the only complete guide to awards and grants for postgraduates, young professionals, mature students and advanced scholars.

### Transactions - The South African Institute of Electrical Engineers

The most comprehensive guide on postgraduate grants and professional funding globally. For thirty-four years it has been the leading source for up-to-date information on the availability of, and eligibility for, postgraduate and professional awards. ### The South African Mechanical Engineer

This book makes a significant contribution to the literature on the Scholarship of Teaching and Learning (SoTL). It provides both theoretical and practical insights that should be of interest to many SoTL scholars and practitioners worldwide. The theme of teaching and learning, and SoTL, as fundamentally communicative acts, connects the entire volume and will be picked up by SoTL scholars elsewhere as

a useful and critical frame for future scholarship. The cases from South Africa and Sweden offer new perspectives on teaching, learning, and SoTL.ÿ

### The Grants Register® 1998

An interdisciplinary annotated bibliography, this one volume covers 10 subject areas, eliminating the need to use disparate sources. It provides links among the various areas of rock music scholarship, thus imposing bibliographic control across a wide body of research that treats rock music in a serious manner. The disciplines include communication, education, ethnomusicology, history, literature and the arts, music, politics, psychology, religion, and sociology. Journal articles, books, book chapters, dissertations, and films and videos are reviewed. A quick and efficient way for scholars, students, and rock music fans to examine a broad range of works. Each entry contains full bibliographic information plus annotations that are designed to provide clear descriptive explanations of content. The publications reviewed are primarily interpretive and analytical rather than merely descriptive or just factual. They exclude most news publications, biographies, and histories, and include works that provide serious treatment of subjects that inform, enlighten, and educate. The work definitely provides an insightful, easy-to-use format for studying this particular expression of the human experience.
