Among her books, Remembrance: Pleiadian Messages in Preparation for Contact forms the foundation of an exciting new creative project at ghrl.io. REVIEWS OF PREVIOUS EDITION: I came to this book [Opalescence] from a study of spiritual writers of the modern times, such as Neale Donald Walsch, Eckhart Tolle and Wayne Dyer to name a few. [They] endowed spiritual gifts through their writings on me which I am deeply grateful for, but if those writers give me wings to fly, Maryann Rada's book allowed me to soar. -- Barry McEvoy I would highly recommend this book [Opalescence] for anyone on their journey to spiritual awakening. This book is a

work of spiritual art that contains a wealth of galactic knowledge, philosophy and higher thought forms. The use of anecdotes to teach a new paradigm of thought is one of my favorite attributes of this book. The stories illustrate the teaching points quite beautifully and make the whole book flow. There is an amazing energy felt while reading this book and it will accelerate your awakening even if you don't understand it all. A great read that will challenge your reality and assist you in forming a new one of great beauty if you just open your heart and mind to new information about your true divinity and the real history of our planet and race. If you are looking to prepare yourself for the coming shift, then this book should be required reading. -- Kaydee, Amazon Vine Voice More like an experience than a book. It will take you exactly where you need to go and tie up all those pesky loose ends along the way. -- Marissa T. I just finished *Opalescence*. Wow. Loved it!!! Have had my nose buried in it the past two days, a big read. Reaffirming for me in every way. All the concepts presented reinforced what I understood about the way reality works that I had acquired/intuited along my path. Nothing conflicted at all which was incredibly affirming for me. Plus new information specific to Pleiadians and galactic history. Thank you!! Maryann you are wonderful at presenting information in a way that is loving and heart-centered, you big ole Pleiadian you!" -- Bill Houston I am deeply appreciative to have found your *Opalescence* book and am getting close to halfway through it for the first time. I feel much relief at this 'new' input. Thank you so very much for all you have given and all you do, all you be. -- Carrie M.

Intergalactic Cooperation

I, Ashtar Sheran, have been closely connected to the cosmos in love since its very beginning. It is my task to give Light its place, and to guide and support Earth and her people into this ascension into the Fifth Dimension. Mankind is now ready for this evolutionary leap and to take responsibility for their future. We are all connected in the ONE and welcome the residents of Earth in the galactic family. In this book, I would like to provide some information that will help you leave behind your island existence and contact your star siblings. Break through your limitations and accept your multi-dimensional heritage! We are all connected to, and interwoven with, each other. We are creating the new Heaven and the new Earth together. Your divine nature will enter even your smallest atom and imbue you with new strength. Love is the quintessence of all of creation. Without love, the cosmos would dissolve!

Starspeak

Messages of ascension, love, contact and more in the words of our star brothers and sisters. We are moving through a time of massive change, unprecedented in recorded memory, a time in which life as we know it is being turned upside down. But we do not have to travel through this often confusing and disorientating process alone, for from across the galaxies our star brothers and sisters have gathered to help us through this transformation. Many people on Earth are now being contacted by these loving beings, receiving their words of guidance, encouragement and reassurance to share with those who as yet do not hear them. This book contains some of these messages, received by the author from the star beings of light, messages that are filled with the love and wisdom of the universe. Dawn Henderson is an author, channel and spiritual teacher who lives in the ancient mystical landscape of Wiltshire, England.

Brother Natures Guide to the Galaxy

What the Book is about: *Brother Natures Guide to the Galaxy and the Messages of the Spirit Orbs*. The book is Biography of the life of Steven (Noixium) Berrios - Master of Science Education and Shaman/Medicine Man. Noixium (Pronounced Noixshium) as I prefer to be called, I've been reincarnated several times over. I began my first incarnation as a Priest in Ancient Egypt where I worshiped/studied under the mystery school of Tehuti (Scribe of the Gods). Writer of hieroglyphs. It was here that I was given the secrets of reincarnation and how I am able to remember my past lives and pick up where I left off from my past life. In other lifetimes I was a Mayan Priest in the Yucatan (Inscriber of hieroglyphs, plant magician and builder of pyramids) 1500 years ago. I was a Wizard in Midevil times in Europe. (A maker of fine Magic wands and herbalist). I was a Salish Medicine man in the late 1600's. (A builder of fine canoes and totem poles). In the Louisiana bayous I was musician and Voodoo Priest. That was in the late 1800's. In this lifetime a Lumi Medicine Man's spirit has decided to reincarnate into my current body. Each time I've come back to help society rise up from dark times. Through Divine Guidance what is called Initiation - ancient rituals I have been able to remember - combinations of all my incarnations. I have been able to contact spirits from beyond the veil. They use me as a Medium. (A guide between the living and the dead). The Spirits are worried about us. As incredible as it may sound

they have messages for us to lead more healthy ecological lifestyles. Their messages are for us to stop wars, share resources and maintain Biological integrity. There are gifted people that they can actually see spirits. In this book I prove to the world that the Spirit world exists. Now you can see them too. I've been mellow over the years teaching Ecology to people of all ages. That's what I do. That's how I would have liked to keep going till I retire. But over the past few years the Spirits have been contacting me to get this book out. They want you to read this book so you start thinking of "Natural" law and your very own Spirit. It's divinely guided. I must say that this book will make you question the life your leading and shake your belief system. If you read this book, you will be changed forever. Hopefully for the better.

From the comparatively crowded space of the Alpha and Beta Quadrants, home to Earth and Vulcan, Bajor and Betazed, the Cardassian Union and the Romulan and Klingon Empires; to the distant Gamma Quadrant controlled by the Dominion; to the far reaches of the Delta Quadrant, home space of the Borg, where of Federation explorers only the crew of the USS Voyager has ever been; NEW WORLDS, NEW CIVILIZATIONS catalogues peoples and planets from all four corners of the galaxy. Ever wondered where the blue-skinned Bolians originated from? Or what it is like on the permanently frozen homeworld of the bloodless Breen? From the first world that the first away team landed on under the command of Christopher Pike in the original pilot episode 'The Cage' (a world that has been off-limits to the Federation ever since), to the world of the

An enemy so intractable that it cannot be reasoned with. The entire race thinks with one mind and strives toward one purpose: to add our biological distinctiveness to their own and wipe out individuality, to make every living thing Borg. In over two centuries, the Federation has never encountered a greater threat. Twice Starfleet assembled and threw countless starships to stand against them. The Borg were stopped, the price paid in blood. Humanity breathed a sigh of relief, assuming it was safe. And with the destruction of the transwarp conduits, the Federation believed that the killing blow had finally been struck against the Borg. Driven to the point of extinction, the Borg continue to fight for their very existence, for their culture. They will not be denied. They must not be stopped. The old rules and assumptions regarding how the Collective should act have been dismissed. Now the Borg kill first, assimilate later. When the Enterprise manages to thwart them once again, the Borg turn inward. The dark places that even the drones never realized existed are turned outward against the enemy they have never been able to defeat. What is revealed is the thing that no one believed the Borg could do.

The Two-front War

A lavishly illustrated catalog of space technology of the future: lab-tested devices, experiments, and habitats for the age of participatory space exploration. As Earthlings, we stand on the brink of a new age: the Anthropocosmos—an era of space exploration in which we can expand humanity's horizons beyond our planet's bounds. And in this new era, we have twin responsibilities, to Earth and to space; we should neither abandon our own planet to environmental degradation nor litter the galaxy with space junk. This fascinating and generously illustrated volume—designed by MIT Media Lab researcher Sands Fish—presents space technology for this new age: prototypes, artifacts, experiments, and habitats for an era of participatory space exploration. These projects, developed as part of MIT's Space Exploration Initiative, range from nanoscale imaging of microbes to responsive, sensor-mediated living environments. They show the usefulness of a seahorse tail for humans in microgravity, document the promise of shape-memory alloys for CubeSat in-orbit maneuvering, and introduce TESSERAE (Tessellated Electromagnetic Space Structures for the Exploration of Reconfigurable, Adaptive Environments), self-assembling space architecture. Some are ongoing, real-world systems: an art payload sent to the International Space Station via Space X CRS-20, for example, and a crowdsourced interplanetary cookbook. More than forty large-format, coffee table book-quality, full-color photographs make our future in space seem palpable. Short explanatory texts by Ariel Ekblaw, astronaut Cady Coleman, and others accompany the images.
