Nurse Resource Guide

Nursing students and novice nurses expect their work place to resemble what they were taught in school. Nursing schools have provided students with an excellent knowledge base and the beginning of critical thinking. The NURSE RESOURCE GUIDE, A Quick Reference for the Bedside Nurse, provides an "in the trenches" support for patient assessment, critical thinking and procedural recommendations. This is what every new and returning nurse needs to have handy when working at the bedside. Patients, family members, physicians and your peers need to know nurses provide safe quality patient care. The NURSE RESOURCE GUIDE, A Quick Reference for the Bedside Nurse, is a valuable tool to help you develop the framework of your quality nursing care. The acute care setting in this day and age is so fast paced, and the patient population is so acutely ill, it requires the quick and accurate assessment and correct interventions to provide best quality care and outcomes for your patients. The hardest part of becoming a well-rounded nurse is learning to critically think. The ability to know what is essential in each patient's care requires nurses to have vital information at their fingertips allowing them to recognize significant changes in the patient's condition. The NURSE RESOURCE GUIDE, A Quick Reference for the Bedside Nurse, will help you to develop and advance your assessment skills in providing safe quality patient care to create excellence.

District Nursing Manual of Clinical Procedures

"This manual, the first of its kind focused on district nursing, provides the means to build competence and confidence in nurses new to the community, or developing their skills. The comprehensive and evidence-based content provides essential information for competence in key areas of district nursing." —From the Foreword, by Rosemary Cook CBE, Hon D Lett, MSc, PG Dip, RGN Director, The Queen's Nursing Institute Clinical skills are a fundamental aspect of district nursing care. The District Nursing Manual of Clinical Procedures is a practical, evidence-based manual of clinical skills which reflects

the unique challenges of district nursing care within the patient's home. It provides a comprehensive resource for all district nurses, community nurses, students and healthcare professionals involved in the district nursing team, enabling them to practice competently and confidently and deliver clinically effective, person-centred care. The District Nursing Manual of Clinical Procedures addresses the complexity of district nursing care and encompasses key aspects of clinical practice, including decision making in areas that district and community nurses often struggle with or find difficult when they are on their own in a patient's home. It utilises the latest clinical research and expert clinical knowledge to address these challenges, and to provide the underlying theory and evidence for district nursing care. Key features Evidence-based manual of practical clinical skills in district nursing care Clear, user-friendly and easy to understand Contains recommendations for expert care within a patient's own home Addresses key concerns of district and community nurses working on their own within a patient's home Encompasses key aspects of district nursing care Placed in the context of person-centred care All procedures include the rationale for each action - 'why' as well as 'how' This title is also available as a mobile App from MedHand Mobile Libraries.
