... the theoretical framework of **Meleis Transitions theory**, ...

Meleis' Theory of transitions • Initial focus on type of transition

Pattern of transitions • Transition complexities further explored and described as a pattern of transition including

Additional transition phenomena • There are actions and events that help or harm the transition (facilitators and inhibitors) • There are responses during transition (process and outcomes indicators) • The nurse and nursing actions are central to the response and facilitation of the transition process (nursing therapeutics)
