Geometric Shapes

"Everybody is a genius, but if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid" (A. Einstein). 'Geometric Shapes' uses a Montessori approach, aiming to take advantage of a child's natural born curiosity in order to stimulate a well-developed critical thinking. How does it do that? By using images of geometric shapes, so that it spurs the toddler's cognitive abilities. raise a little genius. This book has 44 pages with geometric shapes for babies and toddlers between 0-3 years old, each page contains one geometric shape.
