[#AIAG CQI 8](#) [#Layered Process Audit](#) [#LPA implementation](#) [#Automotive quality audit](#) [#Process compliance](#)

AIAG CQI 8 defines the essential requirements for implementing Layered Process Audits (LPA), a critical tool for ensuring consistent quality control directly on manufacturing lines. These systematic audits help verify adherence to standardized processes, proactively identify potential issues, and drive continuous improvement within the automotive supply chain to prevent defects and enhance product reliability.
