House of War (Ben Hope, Book 20)

Who Do I Talk To?

Hope into Action, a charity founded by Ed Walker has a vision – of the church at the forefront of the fight against homelessness. Since 2010 it has worked in partnership with churches to supply homes, support, friendship and love for the homeless and marginalized, earning the Guardian's Public Service Award in 2017 and an award from the Centre for Social Justice. Here, Ed tells his story of faith and struggle as he and his wife Rachel stepped out in faith, developed a new theology of sharing and saw both tragic and wonderful outcomes. Visionary, inspiring and touching, Ed's experiences show how we can meet and grow in Christ as we interact with those in the shadows and those hidden in darkness.

Who Do I Lean On?

Elie Wiesel called the genocide of the Armenians during the First World War 'the Holocaust before the Holocaust'. Around one and a half million Armenians - men, women and children – were slaughtered at the time of the First World War. This book outlines some of the historical facts and consequences of the massacres but sees it as its main objective to present the Armenians to the foreign reader, their history but also their lives and achievements in the present that finds most Armenians dispersed throughout the world. 3000 years after their appearance in history, 1700 years after adopting Christianity and almost 90 years after the greatest catastrophe in their history, these 50 'biographical sketches of intellectuals, artists, journalists, and others...produce a complicated kaleidoscope of a divided but lively people that is trying once again, to rediscover its ethnic coherence. Armenian civilization does not consist solely of

stories about a far-off past, but also of traditions and a national conscience suggestive of a future that will transcend the present.' [from the Preface]

House of Hope

Raymond Williams possessed unique authority as Britain's foremost cultural theorist and public intellectual. Informed by an unparalleled range of reference and the resources of deep personal experience, his life's work represents a patient, exemplary commitment to the building of a socialist future. This book brings together important early writings including "Culture is Ordinary," "The British Left," "Welsh Culture" and "Why Do I Demonstrate?" with major essays and talks of the last decade. It includes work on such central themes as the nature of a democratic culture, the value of community, Green socialism, the nuclear threat, and the relation between the state and the arts. Here too, collected for the first time, are the important later political essays which undertake a thorough revaluation of the principles fundamental to the idea of socialist democracy, and confirm Williams as a shrewd and imaginative political theorist. In a sober yet constructive assessment of the possibilities for socialist advance, Williams—in the face of much recent intellectual fashion—powerfully reasserts his lifelong commitment to "making hope practical, rather than despair convincing." This valuable collection confirms Raymond Williams as a thinker of rare versatility and one of the outstanding intellectuals of our century.

Portraits of Hope

Life was good for Liz and Jack Sutherland. In eighteen years of marriage they had built a family, a successful law practice, and a warm happy home near San Francisco, in a house on Hope Street. But one Christmas morning, in the midst of joy and children's laughter, tragedy strikes, and Liz is left alone, facing painful questions in the face of unbearable loss. How can she go on without her husband, her partner, her best friend? The months pass, and Liz finds the strength to return to work and tend to her children. Then a devastating accident sends her oldest son to hospital - and brings a doctor called Bill Webster into her life. As the long days of summer blend into autumn, a new relationship offers new hope. With the anniversary of her husband's death approaching, Liz will face one more crisis before she can look back at a year of mourning and change - and ahead to the beginning of a new life, in the house on Hope Street.

House of Hope Novels

Fans of *Before We Were Yours* will adore this USA Today bestselling historical novel: A heartbreaking yet hopeful tale about a brave young woman who gives up everything to help unloved children--and shows that a little bit of kindness can go a long way. Never in a million years did Lauren Greenwood think she would be destitute and without a penny to her name. But when her father mercilessly disowns her in the depths of winter, that is her fate. Now homeless, Lauren finds America in the devastating grip of the Great Depression--children run wild in the icy streets, endless queues for soup kitchens line frosty sidewalks, and desperation hangs in the air. All alone in the world, Lauren finds an orphanage in the sprawling fields of the Virginia countryside, surrounded by snow-topped mountains and magnificent fir trees--a safe haven for those who have nowhere to go. But she is appalled to find children living in shocking conditions, huddled together for warmth, their hunger keeping them awake at night as the temperature plunges. The home for unloved orphans is on the brink of closure and the helpless innocents may lose the roof over their heads... Lauren, heartbroken by the rejection of her own father, vows to provide these poor orphans with the love she never received. With Christmas just around the corner, she refuses to see them cast out onto the street, where they will not survive. When she sees an advertisement in the local newspaper, with an anonymous benefactor donating money to families crippled by the Depression, it could be the answer to her prayers. Can Lauren save these children who have been rejected by the world? Or in a time of so much suffering, is there simply no hope?

The Uncertainty of Hope

Barack Obama's success in becoming President of the United States meant that he dramatically changed the face that his country presented to the world. In this bestselling book, Barack Obama discusses the importance of empathy in politics, his hopes for a different America with different policies, and how the ideals of its democracy can be renewed. With intimacy and self-deprecating humour, Obama describes his experiences as a politician and balancing his family life with his public vocation. His search for consensus and his respect for the democratic process inform every sentence. A senator and a lawyer, a professor and a father, a Christian and a sceptic, Barack Obama has written a book of transforming power that will inspire people the world over.

The House On Hope Street

"Selected sermons and speeches by Rev. Jesse L. Jackson, Sr., one of the foremost champions of civil rights--a moral conscience of this nation"--

The Garden of Hope

"Combining a reporter's eye for detail, the breathless narrative rush of an action movie and the generous heart of a hometown boy desperately trying to make sense of a place gone terribly wrong, Downs examines the social and economic disintegration of Hartford, Conn., in the 1990s through the coming-of-age of five African-American teenage boys. These young men-track stars, football players, scholars-try to make the right decisions while local and state politicians squabble over money, drug

gangs roam the streets and the middle class-both white and black-flees to the suburbs. Harvey, Derrick, Eric, Hiram and Joshua make a pledge that no matter their future path, they will return to Hartford to rebuild their shattered city. The first half of the book flows with the power and grace of a finely tuned magazine article. Then Downs loses his focus and gets bogged down in a lengthy recounting of the boys' track coach's trial. The narrative shifts from the boys-now young men with growing families and burgeoning careers-to Downs's own struggle with his identity and the declining health of his grandfather. If the narrative splinters, perhaps it is an apt metaphor for the boys' pledge. Just one-Joshua-returned to Hartford. (Apr.)"--Publishers Weekly.

The Little House of Hope

Written by Debra Kidd, *A Curriculum of Hope: As rich in humanity as in knowledge* explores how good curriculum design can empower schools to build bridges between their pupils' learning and the world around them. A great many schools are wondering how they can build a curriculum model that meets the demands of government policy as well as the needs of the children and communities they serve. In *Curriculum of Hope*, Debra illustrates how teachers can deliver learning experiences that genuinely link knowledge to life. Working on the premise that a strong curriculum is supported by five key pillars of practice coherence, credibility, creativity, compassion and community she presents a plethora of examples that demonstrate how schools, parents, pupils and the wider local community can learn together to build from within. Debra enquires into the ways in which schools can create units of work that are both knowledge- and humanity-rich, and challenges the view that the role of children is simply to listen and learn instead advocating their active engagement with local and global issues. She does so by delving into the role of pedagogy as a means of empowering children, and by exploring some of the more overlooked pedagogical tools that can have a great impact on children's learning and well-being story, movement and play as well as some of the recent research into memory and retention. Towards the back of the book you will find case studies demonstrating how teachers can work with both their own and other subject departments across the school to plan in ways that allow for pupil choice, autonomy and responsibility. Furthermore, there are some accompanying planning documents for these examples provided in the appendix (*The Seed Catalogue*) which you may find useful, and these documents are also available for download. Suitable for teachers and leaders in all schools.

The Book of Hope

Bonnie is scavenging on a beach when she finds a battered old row boat. And under the boat, a bare-footed boy-cold, hungry, and in need of help. The authorities have already been troubling Bonnie and Granda for breaking rules, but how can she leave this boy when he has no-one? Bonnie does her best to keep the boy hidden from the border guards, but as their suspicions grow, she wonders if it's time to escape the life she's always known. Under cover of darkness they set sail to the 'house of light' in search of a new beginning, and a sense of hope.

The Audacity of Hope

Door of Hope is an indispensable guide to the history and sites of pilgrimage of the Bahá'í Faith in the Holy Land. The author lived at the Bahá'í World Centre for twenty-five years, and used the opportunity to make the subject of this book his special study. He methodically examined the geography, archaeology and history of all that relates to the Bahá'í Faith, as well as the results of Jewish, Christian and Bahá'í scholarship. The text is enriched by a unique collection of historic photographs and drawings which will prove both fascinating and of great value for Bahá'í pilgrims and visitors, as well as those who have not had the opportunity to visit the Holy Land.
