Intro

13.8 Billion years ago, the Universe was small, dense, and hot enough to be opaque.

Binding Energy is the energy needed to break apart ("unbind") different forms of matter.

Binding Energy is derived from each of the Four Fundamental Forces of nature.

At very high energies the physical behaviors of the fundamental forces merge or "unify"

The Planck Epoch occurred before 10⁻⁴³ sec when all 4 fundamental forces were unified into a single Superforce.

The Grand Unification Epoch began at 10⁻⁴³ sec and T=10⁹² K when gravity separated from the Superforce.

The Inflationary Epoch began at 10⁻³⁵ sec and T=10⁷ K when the Strong force separated from the GUT force.

The Universe grew exponentially by a factor of 10²⁸ between 10⁻³⁸ & 10⁻³² seconds.
