Passing the Music Down

A warmhearted ode to an American musical tradition and to generational ties, told in lyrical free verse with atmospheric illustrations. A young boy travels to the hills of Appalachia to meet the old-time fiddle player whose music he has admired, and so sparks a friendship that will forge a bond between generations. The boy develops under the man's care and instruction, just as seedlings grow with spring rain and summer sun. From playing on the front porch to performing at folk festivals, the two carry on the tradition of passing the music down. This touching, lyrical story, inspired by the lives of renowned fiddlers Melvin Wine and Jake Krack, includes an author's note and suggested resources for learning about the musicians and the music they love.

Remembering the Music and Passing It On

Remembering the Music and Passing it On Exploring Music Theories Every group that makes music (and ethnomusicologists have found that this includes pretty much everyone) has developed some way to remember their music and pass it down through generations of insiders. There are many ways to do this. Vocalists may memorize how to sing, and instrumentalists memorize how to play, specific pieces. They may teach by rote what they have memorized, or new musicians may learn and memorize the pieces simply by watching and listening. They might develop a way to write down, or notate their music. They also may develop a theory of their music that helps them remember how to play it correctly; for example, concepts regarding the way the music is organized can help a performing musician remember what happens next. Chapter Outline: Research ways that the music is remembered Develop your own ways to remember, think about, and discuss the music Use your preferred methods to listen to, remember, and discuss the music Use your remembering strategies to join with music The Open Courses Library introduces you to the best Open Source Courses.

The Month, a view of passing subjects and manners, by A. Smith & J. Leech. July-Dec. 1851

The current academic milieu displays a deep ambivalence about the teaching of Western culture and traditional subject matter. This ambivalence, the product of a unique historical convergence of theory and diversity, opens up new opportunities for what Pamela Caughie calls "passing": recognizing and accounting for the subject positions involved in representing both the material being taught and oneself as a teacher. Caughie's discussion of passing illuminates a recent phenomenon in academic writing and popular culture that revolves around identities and the ways in which they are deployed, both in

the arts and in lived experience. Through a wide variety of texts--novels, memoirs, film, drama, theory, museum exhibits, legal cases--she demonstrates the dynamics of passing, presenting it not as the assumption of a fraudulent identity but as the recognition that the assumption of any identity, including for the purposes of teaching, is a form of passing. Astutely addressing the relevance of passing for pedagogy, Caughie presents the possibility of a dynamic ethics responsive to the often polarizing difficulties inherent in today's culture. Challenging and thought-provoking, *Passing and Pedagogy* offers insight and inspiration for teachers and scholars as they seek to be responsible and effective in a complex, rapidly changing intellectual and cultural environment.

Passing and Pedagogy

Passing the Torch explores the mentor-student relationship and the way in which anthropology has been passed from one generation to the next. There are many ways in which this process has been followed. A number of them are discussed here, including some non-anthropological examples. Some of the contributors to the volume provide very personal stories of mentoring or being mentored, while others provide classical examples, such as Boas's mentoring of Margaret Mead. This book is useful in teaching about the manner in which anthropology is passed on, and has relevance to the theory of learning.

Blackening Up, Passing Down

'I want to tell a story. A long but simple story. A tale of long recovery. A tale of love. A tale of lost and found.' In his remarkable new novel, award-winning Australian author Michael Meehan sensitively explores the links between generational conflict, family, and the creative act. At its heart *An Ungrateful Instrument* is a novel that portrays a son's struggle to be more than a mere instrument of the father's ambition. Antoine Forqueray and later his son Jean-Baptiste, were each brought up as child prodigies to the court of Louis XIV. Together, they were said to be the only musicians in France who could play the father's brilliant, eccentric music for the viola da gamba. In an imaginative masterstroke the story is told by Jean-Baptiste's highly attuned deaf-mute sister, Charlotte-Elisabeth. Threaded throughout, deep in a forest an old man creates the gift of a special viol for the boy, Jean Baptiste. This is a novel that can almost be heard like music, as it soars in language, theme, and a wisdom that both embodies and transcends its period setting. 'An imagination of another order.' — *The Australian*

Passing the Torch

In 1903, the Victorian composer Cecil Sharp began a decade-long journey to collect folk songs that, he believed, captured the spirit of Great Britain. A century later, with the musical and cultural map of the country transformed, writer and journalist Will Hodgkinson sets out on a similar journey to find the songs that make up modern Britain. He looks at the unique relationship the British have with music, and tries to understand how the country has represented itself through song. He visits remote pubs in the West Country where families have been passing down local songs for generations, monasteries in Oxfordshire where monks use plainsong to commune with God, sits in with Hindu devotional singers in the suburbs of Birmingham and learns an ancient folk tune from a Sussex farmer. Will goes from

the heart of the mainstream music scenes to the very fringes as part of his quest, visiting in turn remote musical heartlands and great urban musical cities. London (The Kinks, The Who and Blur), Liverpool (The Teardrop Explodes, Echo & The Bunnymen, The Beatles), Manchester (Joy Division, Stone Roses, Oasis) and Sheffield (Cabaret Voltaire, The Human League, Pulp and more recently, The Arctic Monkeys) all feature prominently as the respective homes of clusters of great bands that have helped shape the British musical landscape. An engaging blend of humour and musical scholarship, *The Ballad of Britain* is as much a portrait of Britain as an adventure into lyric and melody. The project forced the author into an itinerant life, scouring the length and breadth of the country for singers and songwriters in an attempt to discover whether songs still travel the way they once did, to find out whether folk music still exists in a meaningful sense, and to see how regional variations contribute to a collective musical "Britishness".

An Ungrateful Instrument

What could be more fun than a train ride--the excitement of going places, the rhythmic sounds of the train clattering down the tracks, and the vivid window music of passing scenery. This book captures the spirit of a train ride--from sky-high bridges to deep valleys to rolling vineyards to the lights of a distant city.

The Shubert name has been synonymous with Broadway for almost as long as Broadway entertainment itself. In *The Shuberts and Their Passing Shows: The Untold Tale of Ziegfeld's Rivals*, author Jonas Westover investigates beyond the Shuberts' business empire into their early revues and the centrifugal role they played in developing American theatre as an art form.

This new edition of a classic book on the impact of the Vietnam War on Americans reintroduces the haunted voices of the Vietnam era to a new generation of readers. Based on more than 500 interviews, *Long Time Passing* is journalist Myra MacPherson's acclaimed exploration of the wounds, pride, and guilt of those who fought and those who refused to fight the war that continues to envelop the psyche of this nation. In a new introduction, Myra MacPherson reflects on what has changed, and what hasn't, in the years since these interviews were conducted, explains the key points of reference from the 1980s that feature prominently in them, and brings the stories of her principal characters up to date. "A haunting chorus of voices, a moving deeply disturbing evocation of an era." —San Francisco Chronicle "A brilliant and necessary book . . . this stunning depiction of Vietnam's bitter fruit is calculated to agitate even the most complacent American." —Philadelphia Inquirer "There have been many books on the Vietnam War, but few have captured its second life as memory better than *Long Time Passing*." —Washington Post Book World "Enthralling reading . . . full of deep and strong emotions." —New York Times

Passing: Two Publics in a Mexican Border City is an ethnography of the public sphere in Tijuana based on intensive fieldwork in 2006 and 2007 and numerous subsequent brief visits. Its central contribution is to develop an ethnographic method for apprehending how the border marks collective subjectivities in ways that illuminate the basic impasses of publicness in general. She examines major communicative genres such as print news, street demonstrations, internet forums, and popular ballads, as well as a variety of minor genres: family discussions, thank-you notes at religious shrines, police encounters, workplace banter, and personal interview. The question of collective subjectivity that she traces through all these examples is particularly live, politically and socially, at the border, where US legal categories forcefully shape the logics of class exclusion-and thus national membership and democratic possibility-that are general in Mexico.

The Musical Times and Singing-class Circular

This work, a companion to the author's *Broadway Sheet Music: A Comprehensive Listing of Published Music from Broadway and Other Stage Shows, 1918 through 1993* (McFarland 1996), provides information about all sheet music published (1843-1918) from all Broadway productions--plus music from local shows, minstrel shows, night club acts, vaudeville acts, touring companies, and shows on the road that never made it to Broadway--and all the major musicals from Chicago.

Passing Strange

Sometimes popular music registers our concerns and anxieties more lucidly than we realise. This is evident in the case of an ideal of childhood innocence in rapid decay in recent decades. So claims *Down with Childhood*, as it takes in psychedelia's preoccupation with rebirth and inner-children, the fascination with juvenilia amidst an ebbing UK rave scene and dozens of nursery rhyme hip-hop choruses spawned by a hit Jay-Z tune. As it examines the often complex sets of meanings to which the occasional presence of children in pop songs attests, the book pauses at Musical Youth's 'Pass the Dutchie' and other one-hit teen wonders, the career paths of child stars including Michael Jackson and Britney Spears, radical experiments in free jazz, and Black Panther influenced children's soul groups. In the process, a novel argument begins to emerge relating the often remarked crisis of childhood to changing experiences of work and play and ultimately, to an ongoing capitalist crisis that underlies them.

Folk Songs of Asia Plus Maori Stick Game and Song

ONE RAINY AFTERNOON, sixth grader Philip Gerard sat down and made a list of ten things he wanted to do: Go to Alaska. Write a book. Sail the ocean. And so forth. A virtual outline of a life. The legendary writer would check off most items during his lifetime, some many times over. But Number Ten remained elusive, a quest unfulfilled: Make a record album. Gerard had only been learning to play his first instrument, the guitar, when he made the list. Song-writing was well in his future. Yet he knew why this quest called him. "I couldn't imagine a fuller expression of my own identity than putting words with music, of making a record, in every sense of the word, of the songs in my head. Even before I had ever written any songs, this seemed true." Years passed and his experiences added up. Country-wide travels. Books and more books. Literary honors piled on top of one another. Teaching and mentorships. Songs and more songs. Gigs and more gigs. Half a century after jotting down his list, he would begin the album of a lifetime. He and a cadre of top musicians headed into the studio and on tour with fifteen of his songs. The acclaimed "American Anthem" emerged. So, too, would this memoir of how it all happened. How life happened. Written shortly before his passing, it is, in a sense, not one book but three. Gerard has left us the story of an album, the story of a literary life, and the inspiring story of a dream finally made real.

Brainard's Musical World

Benjamin Church came to the grange hall expecting to meet someone else, but then the girl in a red dress looked across the dance floor and smiled... Passing through Perfect is a heart-wrenching, Southern family saga that starts on the night Benjamin fell madly and completely in love with Delia. Once he tasted the sweetness of her kiss, he envisioned them spending the rest of their life together. He didn't stop to consider her daddy was a learned Pastor and her mama a woman with a college degree; he only knew she set his heart to racing. When he touched his mouth to hers, he forgot the hardships of being a sharecropper, forgot what it was like to work from dawn 'til dark and forgot that nothing in Grinder's Corner ever really changed. Benjamin's only thoughts were about lying together every night, sitting side by side on the front porch, and raising a family. Yes, he knew there'd be heartaches. Every couple had their share of heartaches, it was to be expected; but he never imagined such a tragedy would befall their family. Winner of the 2016 RONE Award for Inspirational Fiction and the 2016 Readers Favorite Gold Medal.

Long Time Passing

This book is a keepsake for you and your loved ones. Something you create and pass down that teaches life lessons based on songs from the 1960's. You personalize and customize the book in several ways. You color the pages that contain life lessons from the songs in pictures and words. Then, you can add your own personal notes to each page and provide your own interpretations of each song. You then pass your completed, personalized book down to a loved one. It is now a didactic keepsake that you and your loved one(s) will cherish. You should then find the time to go through the book with your loved one and listen to the songs and discuss their meanings together. Quality time will not get any better than this! Now, imagine your loved one passing it down to the next generation saying something like: "My father took the time to personally color this book and the life lessons it teaches. Yes - believe it or not - my father actually colored this book!! He also added his personal notes to each page and then he gave it to me. We listened to the songs and discussed their meanings together - it was very cool. I learned so much and now I have added my own lessons and I am passing it down to you." Life Lessons coupled with Life's Special Moments together with your loved ones is what Keepsake Coloring is all about.

Music in the Air is a study on fiddle music and folk traditions. It is also a look into the broad influences that folk music has on fiddlers' compositions and their practices. By exploring the oral histories of seven, life-long musicians, Erynn Marshall illuminates the diversity of these music traditions and the culmination of the fiddle song genres. Through the studies of the musicians' lives, oral transmissions, social contexts, and analysis of various genres within the contexts, Marshall expresses how the

instrumental and vocal tradition have merged and transformed over time, blurring the preset boundaries and perceptions of the art. Included with this intense survey of Appalachian tradition is a CD of Marshall's field and archival recordings of West Virginia musicians.

Down with Childhood

A Rolling Stone-Kirkus Best Music Book of 2020 The definitive account of pop music in the mid-eighties, from Prince and Madonna to the underground hip-hop, indie rock, and club scenes Everybody knows the hits of 1984 - pop music's greatest year. From "Thriller" to "Purple Rain," "Hello" to "Against All Odds," "What's Love Got to Do with It" to "Wake Me Up Before You Go-Go," these iconic songs continue to dominate advertising, karaoke nights, and the soundtracks for film classics (Boogie Nights) and TV hits (Stranger Things). But the story of that thrilling, turbulent time, an era when Top 40 radio was both the leading edge of popular culture and a moral battleground, has never been told with the full detail it deserves - until now. Can't Slow Down is the definitive portrait of the exploding world of mid-eighties pop and the time it defined, from Cold War anxiety to the home-computer revolution. Big acts like Michael Jackson (Thriller), Prince (Purple Rain), Madonna (Like a Virgin), Bruce Springsteen (Born in the U.S.A.), and George Michael (Wham!'s Make It Big) rubbed shoulders with the stars of the fermenting scenes of hip-hop, indie rock, and club music. Rigorously researched, mapping the entire terrain of American pop, with crucial side trips to the UK and Jamaica, from the biz to the stars to the upstarts and beyond, Can't Slow Down is a vivid journey to the very moment when pop was remaking itself, and the culture at large - one hit at a time.

Words & Music

The greatest human problem is that we are all born in the condemned cell. Money and medical science can extend the human lifespan significantly — perhaps up to one thousand years via cloning and cryogenics — but in the end, when the last medical miracle has been exhausted, Death still waits patiently for us. In *Death: The Final Mystery*, Lionel and Patricia Fanthorpe take their investigative skills to those last moments of life and beyond, exploring such puzzling topics as near-death and out-of-body experiences, reincarnation theories, hypno-regression, and automatic writing and other phenomena of the séance room. Evidence is drawn from trance mediums, the writings of mystics, and clear, hard facts reported by reliable eyewitnesses.

"Music From Big Pink is a moving book that succeeds not just in vividly evoking its time and place but in distilling one young man's clichéd and minor destiny into something approaching tragedy.... This well-written first novel captures not just some of the dreams of that bygone era, but the way those dreams died." -Greg Kamiya, The New York Times Book Review *Music From Big Pink* is fiction: real people like Richard Manuel, Rick Danko, Bob Dylan and Albert Grossman rub shoulders with fictional characters and actual, documented events thread their way through text alongside imagined scenarios. Through the eyes of 23-year-old Greg Keltner, drug-dealer and wannabe musician, we witness the gestation and birth of a record that will go on to cast its spell across five decades - bewitching and inspiring artists as disparate as The Beatles, Eric Clapton, Travis, Wilco and Mercury Rev. The Muncie 4-speeds, M20, M21, and M22 are some of the most popular manual transmissions ever made and continue to be incredibly popular. The Muncie was the top high-performance manual transmission GM offered in its muscle cars of the 60s and early 70s. It was installed in the Camaro, Chevelle, Buick GS, Pontiac GTO, Olds Cutlass, and many other classic cars. Many owners want to retain the original transmission in their classic cars to maintain its value. Transmission expert and veteran author Paul Cangialosi has created an indispensable reference to Muncie 4-speeds that guides you through each crucial stage of the rebuild process. Comprehensive ID information is provided, so you can positively identify the cases, shafts, and related parts. It discusses available models, parts options, and gearbox cases. Most important, it shows how to completely disassemble the gearbox, identify wear and damage, select the best parts, and complete the rebuild. It also explains how to choose the ideal gear ratio for a particular application. Various high-performance and racing setups are also shown, including essential modifications, gun drilling the shafts, cutting down the gears to remove weight, and achieving race-specific clearances. Muncie 4-speeds need rebuilding after many miles of service and extreme use. In addition, when a muscle car owner builds a high-performance engine that far exceeds stock horsepower, a stronger high-performance transmission must be built to accommodate this torque and horsepower increase. No other book goes into this much detail on the identification of the Muncie 4-speed, available parts, selection of gear ratios, and the rebuild process.
