Forbidden Archeology

Over the centuries, researchers have found bones and artifacts proving that humans like us have existed for millions of years; the author argues, however, that mainstream science has suppressed these facts and that prejudices based on current scientific theory act as a "knowledge filter," giving us a picture of prehistory that is largely incorrect.

The Ancient Giants Who Ruled America

A study of the substantial evidence for a former race of giants in North America and its 150-year suppression by the Smithsonian Institution • Shows how thousands of giant skeletons have been found, particularly in the Mississippi Valley, as well as the ruins of the giants' cities • Explores 400 years of giant finds, including newspaper articles, first person accounts, state historical records, and illustrated field reports • Reveals the Stonehenge-era megalithic burial complex on Catalina Island with over 4,000 giant skeletons, including kings more than 9 feet tall • Includes more than 100 rare photographs and illustrations of the lost evidence Drawing on 400 years of newspaper articles and photos, first person accounts, state historical records, and illustrated field reports, Richard J. Dewhurst reveals not only that North America was once ruled by an advanced race of giants but also that the Smithsonian has been actively suppressing the physical evidence for nearly 150 years. He shows how thousands of giant skeletons have been unearthed at Mound Builder sites across the continent, only to disappear from the historical record. He examines other concealed giant discoveries, such as the giant mummies found in Spirit Cave, Nevada, wrapped in fine textiles and dating to 8000 BCE; the hundreds of red-haired bog mummies found at sinkhole "cenotes" on the west coast of Florida and dating to 7500 BCE; and the ruins of the giants' cities with populations in excess of 100,000 in Arizona, Oklahoma, Alabama, and Louisiana. Dewhurst shows how this suppression began shortly after the Civil War and transformed into an outright cover-up in 1879 when Major John Wesley Powell was appointed Smithsonian director, launching a strict pro-evolution, pro-Manifest Destiny agenda. He also reveals the 1920s' discovery on Catalina Island of a megalithic burial complex with 6,000 years of continuous burials and over 4,000 skeletons, including a succession of kings and queens, some more than 9 feet tall--the evidence for which is hidden in the restricted-access evidence rooms at the Smithsonian.

Forbidden History

Challenges the scientific theories on the establishment of civilization and technology • Contains 42 essays by 17 key thinkers in the fields of alternative science and history, including Christopher Dunn, Frank Joseph, Will Hart, Rand Flem-Ath, and Moira Timmes • Edited by Atlantis Rising publisher, J. Douglas Kenyon In Forbidden History writer and editor J. Douglas Kenyon has chosen 42 essays that have appeared in the bimonthly journal Atlantis Rising to provide readers with an overview of the core positions of key thinkers in the field of ancient mysteries and alternative history. The 17 contributors include among others, Rand Flem-Ath, Frank Joseph, Christopher Dunn, and Will Hart, all of whom challenge the scientific establishment to reexamine its underlying premises in understanding ancient civilizations and open up to the possibility of meaningful debate around alternative theories of humanity's true past. Each of the essays builds upon the work of the other contributors. Kenyon has carefully crafted his vision and selected writings in six areas: Darwinism Under Fire, Earth Changes--Sudden or Gradual, Civilization's Greater Antiquity, Ancestors from Space, Ancient High Tech, and The Search for Lost Origins. He explores the most current ideas in the Atlantis debate, the origins of the Pyramids, and many other controversial themes. The book serves as an excellent introduction to hitherto suppressed and alternative accounts of history as contributors raise questions about the origins of civilization and humanity, catastrophism, and ancient technology. The collection also includes several articles that introduce, compare, contrast, and complement the theories of other notable authors in these fields, such as Zecharia Sitchin, Paul LaViolette, John Michell, and John Anthony West.

The Forbidden Archeologist

Michael Cremo, an international authority on human antiquity, has justly earned the 'forbidden archeologist' title. For over twenty-seven years he's been 'digging up' documented, credible findings that

mainstream archeologists don't want you to know about - discoveries in the fossil record that tell a completely different story from Darwinian evolution. His latest book, *The Forbidden Archeologist* (Torchlight Publishing A2010), presents his research at international scientific conferences, comments on the latest discoveries and 'missing links', examines famous archeological sites such as the Sterkfontein Caves - the alleged Cradle of Humanity, and responds to mixed reactions to his books, now translated into 26 languages. This collection of forty-nine articles published in *Atlantis Rising* magazine is like the Cliff Notes on his best selling, encyclopedic *Forbidden Archeology* and formidable *Human Devolution*. Readers will quickly understand the strongest arguments and remarkable discoveries that reveal evolution as a failing theory.

My Science, My Religion

This book is a collection of twenty-four papers that Michael A. Cremo, who is not a professional scientist, presented at scientific and academic conferences. Versions of some of these papers have appeared in peer-reviewed academic publications. In these papers, Cremo explores the relationship between science and religion, in terms of his specific scientific and religious commitments. Many of the papers in this book deal with archeological evidence for extreme human antiquity, consistent with the Puranic histories. Other papers explore the history of archeology in India. In his book *Human Devolution*, Cremo presented a Vedic alternative to the current theory of human origins. Some of the papers in *My Science, My Religion* are related to this topic. This collection will be of interest to theologians, scientists, historians of science, philosophers of science, and scholars of science and religion.

The Giza Death Star

This is physicist Joseph Farrellis' amazing book on the secrets of the Great Pyramid of Giza. Among the topics discussed in detail in this fantastic book are: An Archaeology of Mass Destruction, Thoth and Theories; The Machine Hypothesis; Pythagoras, Plato, Planck, and the Pyramid; The Weapon Hypothesis; Encoded Harmonics of the Planck Units in the Great Pyramid; The Grand Gallery and its Crystals: Gravito-acoustic Resonators; The Other Two Large Pyramids, the 'Causeways', and the 'Temples'. Also: A Phase Conjugate Howitzer Evidence of the Use of Weapons of Mass Destruction in Ancient Times; High Frequency Direct Current 'Impulse' Technology; How the Giza Death Star worked. This book takes off where Christopher Dunn's 'The Giza Power Plant' left off. It is a rollicking ride into the world of fantastic science and an even more fantastic past that is just beginning to be imagined!

1666 Redemption Through Sin

In 1666, a man by the name of Sabbatai Zevi declared himself to be the Messiah. Followers of his heretical cult believed that sin is holy and should be practised for its own sake. Sabbateans and their successors, the Frankists, have indulged in religious orgies, ritual sacrifice, incest, adultery and homosexuality for 350 years. Using secret societies such as the Masons, this diabolical sect has infiltrated into the highest echelons of political power. They covertly rule as the unelected hidden hand shaping history behind a veil of conspiracy.

Prophets Facing Backward

The leading voices in science studies have argued that modern science reflects dominant social interests of Western society. Following this logic, postmodern scholars have urged postcolonial societies to develop their own "alternative sciences" as a step towards "mental decolonization". These ideas have found a warm welcome among Hindu nationalists who came to power in India in the early 1990s. In this passionate and highly original study, Indian-born author Meera Nanda reveals how these well-meaning but ultimately misguided ideas are enabling Hindu ideologues to propagate religious myths in the guise of science and secularism. At the heart of Hindu supremacist ideology, Nanda argues, lies a postmodernist assumption: that each society has its own norms of reasonableness, logic, rules of evidence, and conception of truth, and that there is no non-arbitrary, culture-independent way to choose among these alternatives. What is being celebrated as "difference" by postmodernists, however, has more often than not been the source of mental bondage and authoritarianism in non-Western cultures. The "Vedic sciences" currently endorsed in Indian schools, colleges, and the mass media promotes the same elements of orthodox Hinduism that have for centuries deprived the vast majority of Indian people of their full humanity. By denouncing science and secularization, the left was unwittingly contributing to what Nanda calls "reactionary modernism." In contrast, Nanda points to the Dalit, or untouchable,

movement as a true example of an "alternative science" that has embraced reason and modern science to challenge traditional notions of hierarchy.

Discovering the Mysteries of Ancient America

In *Discovering the Mysteries of Ancient America*, the author of *The Atlantis Encyclopedia* turns his sextant towards this hemisphere. Here is a collection of the most controversial articles selected from seventy issues of the infamous *Ancient American* magazine. They range from the discovery of Roman relics in Arizona and California's Chinese treasure, to Viking rune-stones in Minnesota and Oklahoma and the mysterious religions of ancient Americans.

Searching for Vedic India

Deep in lost history, did high civilizations and advanced knowledge thrive? The ancient Vedic literatures of India describe a worldwide civilization that flourished at a time when modern historians insist that humans like us existed simply as hunter-gatherers. This Vedic civilization, centered in India, employed technologies based on a scientific understanding of the physical elements and forces we know today, as well as more subtle conscious elements. Devamrita Swami, who has spent a lifetime in his own search for Vedic India, takes us on a journey of intellectual discovery through the history of the remarkable Vedic civilization and its knowledge, locked in the ancient literatures of India. His wit and wisdom combine to make our search for Vedic India not only illuminating but entertaining. He tells us not only the truths of Vedic India, but how they are again coming to be. *Searching for Vedic India* thus takes us not only into the past, but into the future

You are Being Lied to

This book acts as a battering ram against the distortions, myths and outright lies that have been shoved down our throats by the government, the media, corporations, organized religion, the scientific establishment and others who want to keep the truth from us. A group of researchers - investigative reporters, political dissidents, academics, media watchdogs, scientist-philosophers, social critics and rogue scholars - paints a picture of a world where crucial stories are ignored or actively suppressed and the official version of events has more holes in it than Swiss cheese. A world where real dangers are downplayed and nonexistent dangers are trumpeted. In short, a world where you are being lied to. You'll discover that a human being has already been cloned; Joseph McCarthy was not paranoid; museums refuse to display artifacts that conflict with the theory of evolution; the CIA has admitted to involvement in the drug trade; parents don't affect who their children become; plus further revelations involving Columbine, WWII, textbooks, Al Gore, George W. Bush, Timothy Leary and much more.

The Yugas

Millions are wondering what the future holds for mankind, and if we are soon due for a world-changing global shift. Paramhansa Yogananda (author of the classic *Autobiography of a Yogi*) and his teacher, Sri Yukteswar, offered key insights into this subject. They presented a fascinating explanation of the rising and falling eras that our planet cycles through every 24,000 years. According to their teachings, we have recently passed through the low ebb in that cycle and are moving to a higher age—an Energy Age that will revolutionize the world. Over one hundred years ago Yukteswar predicted that we would live in a time of extraordinary change, and that much that we believe to be fixed and true—our entire way of looking at the world — would be transformed and uplifted. In *The Yugas*, authors Joseph Selbie and David Steinmetz present substantial and intriguing evidence from the findings of historians and scientists that demonstrate the truth of Yukteswar's and Yogananda's revelations.

Our Occulted History

Bestselling author Jim Marrs steps once again to the cutting-edge of research into conspiracies and hidden truths. In *Our Occulted History*, Marrs goes beyond the revelations of his classic *Alien Agenda* and illustrates how human civilization may have originated with non-humans who visited earth eons ago...and may still be here today *Our Occulted History: Do the Global Elite Conceal Ancient Aliens?* is an extensive survey that includes a mass of well-documented scientific and historical texts and sources. It will change the way you view the origins of mankind and the current state of society. No subject is too controversial for Marrs, an award-winning journalist whose other investigative works include

Crossfire: The Plot That Killed Kennedy, the basis for the Oliver Stone film JFK; Rule by Secrecy; and The Trillion-Dollar Conspiracy.

Earths Forbidden Secrets

In all reality, any reasonable theories need to be fully evaluated. All the world leading archeological teams need to combine their resources, all the available information needs to be accessed and viewed together as a whole; all of the monuments need to be examined "en masse" and all the existing ancient texts from all countries need to be studied together as one, though due to the world's populations constant religious and racial bickering such a thing may never actually occur. Many of these ancient tales have always been viewed exclusively as myth and fantasy, but when these ancient 'myths' are corroborated by each other and by physical evidence and when such inexplicable evidence is in turn found to be adequately explained by the myths then it stands to logic and reason that perhaps a more detailed scrutiny may perhaps be in order. Could some of these ancient texts and scriptures actually contain complex scientific information, hidden within the narrative in the form of code or numerology as Newton and many others have believed? Is there a coming 'Armageddon'?

The Secret in the Bible

Provides insight into the lost history of the Giza Plateau and how Temple priests of the Great Pyramid preserved the evidence of life beyond death.

In the Beginning

This revised and expanded new edition is a meticulously documented resource dealing with the age-old creation/evolution controversy. The author, who received a PhD from M.I.T., carefully explains and illustrates scientific evidence from biology, astronomy, and the physical and earth sciences that relates to origins and the flood. The hydroplate theory, developed after more than 30 years of study by Dr. Walt Brown, explains, with overwhelming scientific evidence, earth's defining geological event - a worldwide flood. This book includes an index, extensive endnotes and references, technical notes, answers to 36 frequently asked questions on related topics, and hundreds of illustrations, most in full color.

Encyclopedia of Evolution

Evolutionary science is not only one of the greatest breakthroughs of modern science, but also one of the most controversial. Perhaps more than any other scientific area, evolutionary science has caused us all to question what we are, where we came from, and how we relate to the rest of the universe. Encyclopedia of Evolution contains more than 200 entries that span modern evolutionary science and the history of its development. This comprehensive volume clarifies many common misconceptions about evolution. For example, many people have grown up being told that the fossil record does not demonstrate an evolutionary pattern, and that there are many missing links. In fact, most of these missing links have been found, and their modern representatives are often still alive today. The biographical entries represent evolutionary scientists within the United States who have had and continue to have a major impact on the broad outline of evolutionary science. The biographies chosen reflect the viewpoints of scientists working within the United States. Five essays that explore interesting questions resulting from studies in evolutionary science are included as well. The appendix consists of a summary of Charles Darwin's Origin of Species, which is widely considered to be the foundational work of evolutionary science and one of the most important books in human history. The five essays include: How much do genes control human behavior? What are the ghosts of evolution? Can an evolutionary scientist be religious? Why do humans die? Are humans alone in the universe?

The New Children and Near-Death Experiences

Presents an in-depth look at children who have experienced the near-death phenomenon and the heightened abilities that these children exhibit • Provides compelling evidence for the existence of a generation of children who represent the spiritual evolution of the human race • Includes firsthand testimonies of children who have returned from near death The New Children and Near-Death Experiences is the first book to provide--from the view of the child--an in-depth study of children who have experienced the near-death phenomenon and its aftereffects. Atwater notes that the child who returns from a near-death experience is not the same child as before, but is a "remodeled, rewired, reconfigured, refined version of the original." Presenting data to support her contention that these

children have experienced structural, chemical, and functional changes in the brain, she also shows how their greater empathic abilities as well as dramatically higher intelligence are qualities that are also present in children born since 1982--enhanced abilities that cannot be tied to simple genetics. Atwater shows that understanding the near-death experiences of children can help us prepare for a quantum leap in the evolution of humanity.

Bombshell

'Bobby called. He's coming to California. He wants to see me.' Drawing on secret police files, Marilyn Monroe's private diary and never before published first-hand testimony, this book proves that Robert Kennedy was directly responsible for her death. It details the legendary star's tumultuous personal involvement with him and his brother, President John Kennedy, and how they sought to silence her. The new evidence and testimony is provided by Mike Rothmiller who, as a detective of the Organized Crime Intelligence Division (OCID) of the LAPD, had direct personal access to hundreds of secret LAPD files on exactly what happened at Marilyn Monroe's Californian home on August 5, 1962. With his training and investigator's knowledge, Rothmiller used that secret information to get to the heart of the matter, to the people who were there the night Marilyn died – two of whom played major roles in the cover-up – and the wider conspiracy to protect the Kennedys at all costs. There will be those with doubts, but to them, the lawman – who directed international intelligence operations targeting organized crime – says the printed, forensic and oral evidence are totally convincing. He insists: 'If I presented my evidence in any court of law, I'd get a conviction.'

The Shroud of Turin and Historical Proof of the Resurrection of Jesus Christ

The book is about the historical proof of the resurrection of Jesus Christ from the dead based on verifiable ancient history. The book is also about the 150,000 hours of research done on the ancient relic known as the Shroud of Turin, but also how the information studied proves the resurrection based on the science explained by particle physicists. This treatise identifies the cause of the existential crisis in man which leads to despair and the common issues of anxiety, severe depression, insecurity, and fear. This book provides hope for all in an existential crisis through understanding the meaning and purpose for their existence, God's eternal plan and purpose for individuals, and the in-depth theology of atonement which brings man into a relationship with a loving God. This book is the good news about the Savior of the world and his special love for his elect people. The love was manifested by the sacrifice he made for those foreknown and predestinated by him before the world began. Eric Folds is the Pastor of The Christian Church of God, Inc and the Dean of Christian University and Theological Seminary. He has authored numerous books. He is a Consultant and a Nouthetic Counselor. He has studied Theology, Quantum Physics, Ancient History, Ministry, Archaeology, Apologetics, Behavioral Psychology, and Pastoral Counseling. He works with people that are traumatized. He's an entrepreneur and a small business owner. He has seen the miraculous happen and lives radically transformed by the power of Jesus Christ as the risen savior. He is married to Kimberly Folds. Gabriel Folds and Joshua Folds are his two sons.

Indic Visions

Indic Visions is the tenth book by the acclaimed scientist and humanist Varadaraja V. Raman. In it he provides a detailed introduction to Indic religions and contemporary interpretations thereof consistent with modern science. In a world of rapid changes, dangerous fundamentalism, parochial chauvinisms, culture wars, and clashing civilizations, this book provides both a soothing balm and potent antidote. By delving more deeply into Indic civilization, Raman shows us the way to transform our emerging global civilization in wholesome and healthy ways consistent with science and the great challenges of the 21st century.

Hidden History of the Human Race

But according to other scientists, such as physical anthropologist R. H. Tuttle of the University of Chicago, fossil foot bones of the known australopithecines of 3.6 million years ago show they had feet that were distinctly apelike. Hence they were incompatible with the Laetoli prints. In an article in the March 1990 issue of Natural History, Tuttle confessed that "we are left with somewhat of a mystery." It seems permissible, therefore, to consider a possibility neither Tuttle nor Leakey mentioned—that creatures with anatomically modern human bodies to match their anatomically modern human feet existed some 3.6 million years ago in East Africa. Perhaps, as suggested in the illustration on the opposite page, they

coexisted with more apelike creatures. As intriguing as this archeological possibility may be, current ideas about human evolution forbid it.

Chronometric Dating in Archaeology

Since World War II, there has been tremendous success in the development of new methods for dating artifacts; the so-called 'radiocarbon revolution' was only the first such discovery. The increasing accuracy of the various new techniques has brought about major changes in archaeological research strategies. This important new text compiles the work of some of today's most innovative archaeologists who summarize progress in their respective techniques over the last 30 years - with an emphasis on developments of the last five - and the status of current research.

Worlds Before Our Own

Twenty-two years before *Technology of the Gods*... Seventeen years before *Fingerprints of the Gods*... Fifteen years before *Forbidden Archaeology*... There was... *Worlds Before Our Own*, Brad Steiger's groundbreaking argument for the existence of a global prehistoric civilization. The evidence Steiger had amassed for such a claim was based primarily upon finds of "erratics" mysterious "man-made" artifacts found in the deepest, most primordial geological strata. When *Worlds Before Our Own* was first published, it was met with scathing reviews--even demands that the book be taken from the shelves and burned. Steiger's desire to determine humankind's true origins has always been one of his greatest areas of interest, and he was shocked that both the scientific and religious establishments had reacted so negatively to the theories put forward in the book. Hostile reviewers fumed that Steiger had no right to reveal archaeological discoveries that could threaten the traditional timetables of human evolution. Eventually critics began to hail the book as "mostly brilliant" and "daring," and in the past couple of decades the concepts first presented in *Worlds Before Our Own* have garnered tremendous critical and popular support. This is the book that started it all. Brad Steiger's first explorations of the strange and unexplained appeared in 1956. He is the author/coauthor of 164 books in the paranormal, UFO, and prehistoric mystery fields, including such titles as *Mysteries of Time and Space*, *Project Blue Book*, *Revelation: The Divine Fire*, *Conspiracies and Secret Societies*, *Strange Guests*, and *Shadow World*.

Mystery in Acambaro

The Acambaro collection comprises hundreds of clay figurines that are apparently thousands of years old; however, they depict such bizarre animals and scenes that most archaeologists dismiss them as an elaborate hoax. The collection shows humans interacting with dinosaurs and various other 'monsters' such as horned men. Both Hapgood and Earl Stanley Gardner were convinced that the figurines from Acambaro were authentic ancient artifacts that indicated that men and dinosaurs had cohabited together in the recent past, and that dinosaurs had not become extinct many millions of years ago as commonly thought. David Hatcher Childress writes a lengthy introduction concerning Acambaro, the latest testing, and other evidence of 'living' dinosaurs.

India as an Organization: Volume One

This book is an analysis of the political and philosophical foundations of the development of India's economy, including discussions of what's gone wrong in the past and what can be done to rectify it. The authors provide a detailed analysis of the history and burning issues derived from these historical analysis which are still unresolved today. As well as this, there are analyses of the political economy and both ancient and modern historical perspectives.

The Worldwide List of Alternative Theories and Critics

This Worldwide List of Alternative Theories and Critics (only available in english language) includes scientists involved in scientific fields. The 2023 issue of this directory includes the scientists found in the Internet. The scientists of the directory are only those involved in physics (natural philosophy). The list includes 9700 names of scientists (doctors or diplome engineers for more than 70%). Their position is shortly presented together with their proposed alternative theory when applicable. There are nearly 3500 authors of such theories, all amazingly very different from one another. The main categories of theories are presented in an other book of Jean de Climont THE ALTERNATIVE THEORIES

Wooden Musical Instruments Different Forms of Knowledge

Numerous books have been published over the past few decades on the subject of the apparent similarities between Eastern philosophy and the ideas of the "New Physics." However, without exception, these writings have failed to address the real meaning of "As above, so below" that the macrocosm of the universe is mirrored in the microcosm of the human body, and that the archetypal patterns of structure on the causal and astral levels of reality have their lower reflections on the physical level of being. In The Science of the Soul, Geoffrey D. Falk corrects this significant oversight. Drawing equally from yogic, Buddhist, Christian and Taoist sources, Falk shows that it is only by considering the detailed structure of the cosmos and the microcosmos that we can understand both the unified message which the scriptures have tried to convey, and their precise relation to the physicists' understanding of the physical level of reality - in particular, the ideas of David Bohm and Itzhak Bentov. I endorse whole-heartedly the road you have traveled. Light is a - perhaps the - powerful entry point to Spirit, and you ring the changes on it well. It's a book I would like to have on my shelves to refer to. Huston Smith, Ph.D., author, The World's Religions Combines ... astutely some of the great wisdoms of the spiritual world with the emerging understanding of the physical universe. Dr. James Fadiman, Board of Editors, The Journal of Transpersonal Psychology As a heroic journey of the mind into the mysterious realm of consciousness and maya in a vehicle fitted with the wheels of modern science and powered by the engine of yoga, the book merits a close study. The Science of the Soul

The mysteries of the fifth Canto of the Srimad Bhagavatam have long puzzled students of Vedic cosmography and astronomy. Confronted with a description of the universe that seems much at variance with the information provided by our senses and standard astronomical calculations, foreign observers and even Indian commentators from the middle ages up to the present have concluded that the Bhagavatam's account elaborated in other Puranas must be mythological. On the other hand the same persons have been much impressed with vedic astronomical treatises the jyotissasastras which provide remarkably accurate measurements of the solar system.

Vedic Cosmography and Astronomy

Throughout the Indian subcontinent there are territories and areas wherein culture, geography, and the archetypal cosmos interact with each other to create a sacredscape that is infused with meaning, cultural performances and transcendent power. These sacred sites possess extensive mythological associations where believed that spirit can cross between different realms. In a broad perspective such studies falls within the realm of cultural astronomy, which has two broad areas, viz. archaeoastronomy, concerned with the study of the use of astronomy and its role in ancient cultures and civilizations; and ethnoastronomy that studies the use of astronomy and its role in contemporary cultures. The seven essays in this volume deals with the critical appraisal of studying cultural astronomy and cosmic order and its implications in India, illustrated with case studies like heritagescape of Khajuraho, where stone speaks; manescape of Gaya, where manes come and bless the devotees; Deviscape of Vindhyachal, where goddess resorts; Shivascape of Kashi, where Shiva dances in making order; Shaktiscape of Kashi, that possesses the spatial ordering of goddesses; and Naturscape of Chitrakut, where mother earth blesses.

Cosmic Order and Cultural Astronomy

A feast of extraordinary theories and personalities centred around the mysterious standing stones of antiquity. John Michell tells the incredible story of the amazing reactions, ancient and modern, to these prehistoric relics, whether astronomical, legendary, mystical or visionary.

The Complete Rhyming Dictionary and Poet's Craft Book

Technology of the Gods lays out the mind-bending evidence that long-lost civilizations had attained and even exceeded our "modern" level of advancement. Westerners have been taught that humankind has progressed along a straight-line path from the primitive past to the proficient present, but the hard, fast evidence (literally written in stone!) proves that the ancients had technologies we cannot even replicate today.
