How To Use a Notary Journal - How To Use a Notary Journal by National Notary Association 28,024 views 2 years ago 2 minutes, 35 seconds - Typically, a **Notary journal**, has several columns with pre-printed headers identifying what belongs in, each field. Here's what to ...

Column 1: date and time of notarization

Column 2: the notarization type. Write in "acknowledgment," "jurat," or "verification by oath," to note the notarial act performed.

Column 3: the location where the notarization took place.

Column 4: write in the type of document being notarized and the date on it. Look for the title at the top of the document, like "Grant Deed" or "Personal Letter."

Column 5: clearly print the name and address of the signer. If there's more than one signer, complete a separate entry for each signer to take down their specific details and signature. For certain documents, such as wills, deeds, and mortgages, some states require the witnesses' names in this column as well.

Column 6: enter how you identified the signer. Typically, it would be with a state-issued ID card.

Column 7: Additional Information is an optional step, but one you worth considering. Unusual circumstances or details are worth capturing in case your notarization is ever questioned in the future.

Column 8: is for the fee you charged. If you did it for free, write "zero" or "No Fee."

Column 9: this is for the signer's signature.

Column 10: The last column is for the signer's right thumbprint. Only take a thumbprint if it's required

by your state's laws.
