Your employee handbook is the single most important internal document for communicating policies, practices and employee benefits. It sets forth your expectations for your employees, and outlines what they, in turn, can expect from your organization.

After a welcome and introduction from your president or CEO, begin with general employment information.

Address your company's anti-discrimination policies. Depending on the size of the company, employers must comply with a number of different federal and state equal employment opportunity laws prohibiting discrimination.

Your handbook should also cover compensation and work schedules. With respect to compensation, include information on federal and state tax deductions as well as voluntary deductions for benefits. You should also clearly state your company's regular work hours and schedules, and your policy on attendance, punctuality and reporting absences. If telecommuting or flex hours are an option, cover those here as well.

Standards of conduct is one of the most important sections in your handbook. Make sure you document how you expect employees to conduct themselves in the workplace, from dress code to ethics.
