Speech of Hon. Milton S. Latham, on the Pacific Rail Road

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Speech of Hon. Milton S. Latham, on the Pacific Rail Road: Delivered in the Senate of the United St

Excerpt from Speech of Hon. Milton S. Latham: On the Pacific Rail Road, Delivered in the Senate of the United, on the 12th Day of June, 1862; Also, Debate in the Senate, on the Steam Ship Line From California to China, and Passage of the Bill, on the 25th Day of April, 1862 Mr. Latham. I move that all prior orders be suspended, and that the Senate proceed to the consideration of House bill No. 364, being the Pacific railroad bill, which was set down for one o'clock. The motion of Mr. Latham was agreed to; and the Senate, as in Committee of the Whole, resumed the consideration of the bill (H. R. No. 364) to aid in the construction of a railroad and telegraph line from the Missouri river to the Pacific ocean, and to secure to the Government the use of the same for postal, military, and other purposes. Mr. Latham. Mr. President, before the Senate proceeds to a critical analysis of the various sections, I feel it my duty to present a few general ideas upon this important measure, and a special review of the leading features of the bill. I deem this course most economical of the time of every Senator, and perhaps it may obviate the necessity of response to many objections which will legitimately arise in the progress of debate. The subject of an inter-oceanic railway, uniting the Pacific with the Atlantic, has seriously occupied the attention of the American people and Congress since the admission of California into the Union. There is, in fact, no measure more universally understood and its necessity appreciated by men of all parties, or any more earnestly advocated in years past by distinguished statesmen, than this project now before the Senate of the United States. Mr. Jefferson, at the opening of the present century, saw the importance, nay, necessity, of exploring a route from the valley of the Mississippi to (he ocean; at a period, too, when the Republic was in its infancy; its population but five millions; its territorial rights in the vast region within the then Territory of Oregon undefined, the separation of the American from British territorial lines not having been made until nearly forty years after, when adjustment was effected by the Washington treaty of 1846. The celebrated expedition of Lewis and Clark, through the long, bleak, unbroken wilderness as it was in that age, passing three winters in the enterprise, was more than two years in exploring to the mouth of the Columbia river, having traveled four thousand miles, starting from the confluence of the Mississippi and Missouri, and occupying three years in the overland and return transit. The time, the toil, the incredible hardships and perils of the expedition show the importance of the contemplated results, destined to affect so vastly the interests of the great American family. Since then, what an amazing change has taken place! Two generations are no more, and the illustrious men of that age have passed into history. The Republic, as it came from the victorious patriots of the Revolution, in virtue of the Declaration of Independence, as recognized in the definite treaty of peace in 1783, fixed the territorial limits in area equal to eight hundred and twenty thousand six hundred and eighty square miles. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

Speech of Hon. Milton S. Latham

This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy!

Speech of Hon. Milton S. Latham on the Pacific Rail Road

This is a reproduction of a book published before 1923. This book may have occasional imperfections—such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.++++The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to ensure edition identification: ++++ Speech Of Hon. Milton S. Latham, Of California, On The Bill To Establish A Line Of Mail Steamships Between San Francisco And Shanghai, China, Touching At The Sandwich Islands And Japan: Delivered In The House Of Representatives, Tuesday, January 9, 1855 Milton Slocumb Latham Printed at the Congressional Globe Office, 1855 Transportation; Ships & Shipbuilding; History; Political Science / Public Affairs & Administration; Postal service; Steamboat lines; Transportation / General; Transportation / Ships & Shipbuilding / History

Speech of Hon Milton S Latham on the Pacific Rail Road, Delivered in the Senate of the United States on the 12th Day of June, 1862 Also, Debate In

This bibliography of more than three thousand entries, often extensively annotated, lists books and pamphlets that illuminate evolving British views on the United States during a period of great change on both sides of the Atlantic. Subjects addressed in various decades include slavery and abolitionism, women's rights, the Civil War, organized labor, economic, cultural, and social behavior, political and religious movements, and the "American" character in general.

Speech of Hon. Milton S. Latham, of California

This work by Stuart Daggett presents with great detail and precision the business and political activities with respect to the history of the Southern Pacific Railroad lines. The study has been concluded after years of research and consultation from three collections of Bancroft Library of the University of California; the Hopkins' Railway Library of Stanford University; the State Library at Sacramento. The data present at the office of the Secretary of State of California and of the State Railroad Commission was also used for the production of this work. Content includes: Inception of the Project Resources for Construction—State and Local Aid Federal Land Grants and Subsidies Progress of Construction—Construction Companies The Search for a Terminal Acquisition of the California Pacific Building of the Southern Pacific Organization of the Central Pacific-Southern Pacific System From 1870 To 1893 The Case of David D. Colton Financial Difficulties from 1870 To 1879 The Railroad Commission of 1880 To 1883 The Southern Pacific and Politics Water Competition The Rate System of the Central Pacific Local Rates in California The Transcontinental Tariff The Traffic Association of California The San Francisco and San Joaquin Valley Railway Operating Characteristics of the Southern Pacific Lines The Thurman Act Final Settlement of the Central Pacific Indebtedness to the Government The Southern Pacific Merger Cases Oil and Timber Land Litigation

Summer Tours

Map 28 shows the Canadian Pacific R.R. in its entirety from the east to west coast of Canada. Map 29 shows the Canadian Pacific R.R. Pacific Division and connections including Alaska, British Columbia, Washington, Oregon and California.

Summer Tours by the Canadian Pacific Railway

The Prairie Provinces cover Alberta, Saskatchewan and Manitoba.

Summer Tours by the Canadian Pacific Railway

The journal Rylatt kept during two years quartermastering for the Canadian Pacific Railroad Survey through British Columbia and Alberta, 1871-1873. Enlivened by his color sketches. Annotation copyright Book News, Inc. Portland, Or.

An Excursion to Alaska by the Canadian Pacific Railway

Using case studies drawn from across Canada, the papers demonstrate that there are many shared issues in the various small-scale fisheries of this country, and locate small-scale fisheries in their historical context as well as in that of global concerns.

Fishing Resorts Along the Canadian Pacific Railway : Eastern Division

Under Canadian Pacific's red-and-white-checkered flag, the company's founders, George Stephen and William C. Van Horne, created a rail-sea service from Liverpool to Hong Kong. Boasting sternwheelers, Great Lakes bulk carriers, ferries, and luxurious ocean-going liner leviathans, the Canadian Pacific shipping line sailed around the globe. In both world wars the entire fleet served gallantly as Allied troop carriers. After the Second World War, the company staved off the realities of the jet age for as long as it could, replacing liners with container ships, until what was left of the legendary maritime operation was sold off in 2005. With a witty and informative style, author Peter Pigott evokes not only the nostalgic heyday of ocean travel but reveals a slice of almost-forgotten Canadiana. From the stifling steerage quarters of immigrant ships to the elegant drawing rooms of nautical titans such as the ill-fated Empress of Ireland and the Empress of Asia, from U-boat-haunted convoys to container ships, shore dwellers and old salts alike will be delighted with *Sailing Seven Seas*.

Nepigon Trout

The book provides a concise, step-by-step easy guide to new individual investors on stock investment. Basic information is discussed followed by the more complex issues of stock fundamentals and fundamental analysis using three different approaches. Technical analysis is presented applying major indicators. The reader will then be familiarised with risk factors, legal and ethical aspects of stock investment and a review of the economic and major market indices. Potential investment strategies, including stock options, are presented with risk reward analysis. Market structure is outlined and hidden facts about market psychology and how it works are revealed. Everything is then put together in five modules under a master plan. Three very useful annexes are also added. It is difficult to find a book with so much useful information and so many tables and charts of real-life cases that will bring the reader close to a true stock investment environment.

Peel's Bibliography of the Canadian Prairies to 1953

DigiCat Publishing presents to you this special edition of "Elements of Foreign Exchange: A Foreign Exchange Primer" by Franklin Escher. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Surveying the Canadian Pacific

In 1873 a company was formed to construct the first railway across Canada. It soon branched out into shipping, chartering ships from the Cunard Line for service between Vancouver, Yokohama, Shanghai and Hong Kong. In 1889 Canadian Pacific would be awarded the mail contract for the service across the Pacific and, by 1903, they would purchase Elder Dempster & Company and begin sailing from Liverpool to Quebec and Montreal. They obtained control of the Atlantic, rail and Pacific routes, and later interest in the Canadian–Australasian Line, becoming 'the world's greatest transportation system', bridging two oceans and linking four continents. Canada's largest operator of Atlantic and Pacific steamships until after the Second World War, CP Ships boasted such names as Empress of Britain, Empress of Ireland and Empress of Canada. This new history of the shipping side of Canadian Pacific includes a wealth of illustrations and a detailed fleet list that will enthrall maritime enthusiasts.

Fishing Places, Fishing People

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Sailing Seven Seas

Life histories can be defined as the means by which individuals (or more precisely genotypes) vary their age- or stage-specific expenditures of reproductive effort in response to genetic, phenotypic, and environmental correlates of survival and fecundity. Life histories reflect the expression of traits most closely related to individual fitness, such as age and size at maturity, number and size of

offspring, and the timing of the expression of those traits throughout an individual's life. In addition to addressing questions of fundamental importance to ecology and evolution, life-history research plays an integral role in species conservation and management. This accessible primer encompasses the basic concepts, theories, and applied elements of life history evolution, including patterns of trait variability, underlying mechanisms of plastic/evolutionary change, and the practical utility of life-history traits as metrics of species/population recovery, sustainable exploitation, and risk of extinction. Empirical examples are drawn from the entire spectrum of life. A Primer of Life Histories is designed for readers from a broad range of academic backgrounds and experience including graduate students and researchers of ecology and evolutionary biology. It will also be useful to a more applied audience of academic/government researchers in fields such as wildlife biology, conservation biology, fisheries science, and the environmental sciences.

Report of the Librarian of the State Library

Aquaculture exemplifies the ongoing global struggle to strike a sustainable balance between the conflicting needs of a rapidly increasing world population, human health, ecosystem health, the welfare of wild and domesticated animals, and the economic principles of globalized economies. On the one hand, aquaculture has great potential for providing us with a healthy and nutritious food supply whilst alleviating pressure on captive fisheries and reducing fisheries-induced habitat destruction, overfishing, genetic modification of wild populations, and wholesale waste of bycatch. On the other hand, aquaculture relies heavily on clean water, an increasingly precious (and dwindling) resource that is subject to intense pressure of being used for many competing objectives. This concise primer introduces students to the basic concepts, opportunities, and challenges of aquaculture with an emphasis on ecological considerations. It provides a critical assessment of current aquaculture practices from a broad, interdisciplinary perspective and from the standpoint of how best to align the two major (and often conflicting) goals of future aquaculture development: minimizing reliance on ecosystem services whilst maximizing productivity. A Primer of Ecological Aquaculture provides an accessible and authoritative overview for a wide range of undergraduate majors ranging from biology, engineering, and environmental policy to business and management. It will also appeal to a more general academic audience who wish to gain a current overview of the field.
