Fly ash bricks, are manufactured by mixing water, ...

Fly ash bricks are environmentally friendly manufactured by hydraulic pressure machines.

Appearance: The bricks have a pleasing cement color, which is uniform in shade

Sound Insulation: It provides an acceptable degree of sound insulation.

Fire and Vermin Resistance: They have good fire resistance, it has no problem with vermin attacks.

These bricks absorb less heat and they are better than clay bricks, for the warm climate.

The leakage of water through bricks is reduced due to less water penetration

Gypsum plaster (plaster of Paris)

These bricks do not require to soak in water for 24 hours

Less mortar is required during construction, further

They absorb less water and save costs.

It is environmentally friendly therefore allows your business to take a step towards sustainable development

Fly ash bricks, are stronger, more uniform, and denser ...

Poor quality often has a negative impact on concrete

The strength of mechanical bonding is weak but can be corrected using marble waste.
