The Iron Chain and the Golden

The Shadowhunters must catch a killer in Edwardian London in this dangerous and romantic sequel to the #1 New York Times bestselling novel Chain of Gold, from New York Times and USA TODAY bestselling author Cassandra Clare. Chain of Iron is a Shadowhunters novel. Cordelia Carstairs seems to have everything she ever wanted. She's engaged to marry James Herondale, the boy she has loved since childhood. She has a new life in London with her best friend Lucie Herondale and James's charming companions, the Merry Thieves. She is about to be reunited with her beloved father. And she bears the sword Cortana, a legendary hero's blade. But the truth is far grimmer. James and Cordelia's marriage is a lie, arranged to save Cordelia's reputation. James is in love with the mysterious Grace Blackthorn whose brother, Jesse, died years ago in a terrible accident. Cortana burns Cordelia's hand when she touches it, while her father has grown bitter and angry. And a serial murderer is targeting the Shadowhunters of London, killing under cover of darkness, then vanishing without a trace. Together with the Merry Thieves, Cordelia, James, and Lucie must follow the trail of the knife-wielding killer through the city's most dangerous streets. All the while, each is keeping a shocking secret: Lucie, that she plans to raise Jesse from the dead; Cordelia, that she has sworn a dangerous oath of loyalty to

a mysterious power; and James, that he is being drawn further each night into the dark web of his grandfather, the arch-demon Belial. And that he himself may be the killer they seek.

The cutting-edge papers in this collection reflect the wide areas to which John Pryor has made significant contributions in the course of his scholarly career. They are written by some of the world's most distinguished practitioners in the fields of Crusading history and the maritime history of the medieval Mediterranean. His colleagues, students and friends discuss questions including ship construction in the fourth and fifteenth centuries, navigation and harbourage in the eastern Mediterranean, trade in Fatimid Egypt and along the Iberian Peninsula, military and social issues arising among the crusaders during field campaigns, and wider aspects of medieval warfare. All those with an interest in any of these subjects, whether students or specialists, will need to consult this book.

The Golden Yoke is a remarkable achievement. It is the first elaboration of the legal, cultural, and ideological dimensions of precommunist Tibetan jurisprudence, a unique legal system that maintains its secularism within a thoroughly Buddhist setting. Layer by layer, Rebecca Redwood French reconstructs the daily operation of law in Tibet before the Chinese invasion in 1959. In the Tibetans' own words, French identifies their courts, symbols, and personnel and traces the procedures for petitioning and filing documents. There are stories here from judges, legal conciliators, and lay people about murder, property disputes, and divorce. French shows that Tibetan law is deeply embedded in its Buddhist culture and that the system evolved not from the rules and judgments but from what people actually do and say. In what amounts to a fully developed cosmology, she describes the cultural foundation that informs the system: myths, notions of time and conflux, inner morality, language patterns, rituals, use of space, symbols, and concepts. Based on extensive readings of Tibetan legal documents and codes, interviews with Tibetan scholars, and the reminiscences of Tibetans at home and in exile, this generously illustrated, elegantly written work is a model of outstanding research. French combines the talents of a legal anthropologist with those of a former law practitioner to develop a new field of study that has implications for other judicial systems, including our own.

Rabindranath Tagore once said: "Sometimes the meaning of a poem is better understood in a translation, not necessarily because it is more beautiful than the original, but as in the new setting the poem has to undergo a trial; it shines more brilliantly if it comes out triumphant." Sohini Sen re-discovered Tagore's Gitanjali: Song Offerings in recent years, when the whole world was in a dark, vulnerable space. Revisiting the 103 original Bengali poems of Tagore and working on 're-presenting' these gave her the creative solace she so needed to survive. That immersion into Gitanjali made Sen realise just how timeless Tagore's works were, for they spoke with ease of a profound spiritual connection with one's higher self. Across religions, across cultures. Most of all, across generations. 'To come closest to oneself is to traverse far', and yet, all of us do go on that journey at some point in our lives. This book promises to be a kind companion on your travel along that path.

Scholar, teacher, playwright, and editor, Sarah Blacher Cohen was one of the earliest champions of the study of American Jewish literature, a field of academic study that has been in existence for barely thirty-five years. Over the years until her premature death in 2008, she contributed to the discipline in a profusion of genres, from scholarly to popular, from essay to drama, writing or editing seven books of her own. She also wrote and produced several plays with her longtime collaborator, Joanne B. Koch. This special volume (29) of the annual, *Studies in American Jewish Literature* (ISSN 0271-9274), the journal edited by Daniel Walden, contains a range of tributes from her many friends and colleagues.

Chain of Iron

As in his other popular novels, Louis de Wohl, with humility and deep religious conviction, takes us into the mind and heart of a saint, giving at the same time an enthralling picture of the era in which he lived. Here is a skillful weaving of the story of St. Ignatius Loyola's conversion and pilgrimage with the colorful and dangerous history of Spain and Italy in the early sixteenth century. The life of the very human, very great Basque nobleman who founded the Jesuit Order, makes for one of de Wohl's finest novels. Seriously wounded at the siege of Pamplona in 1521, Don Inigo de Loyola learned that to be a Knight of God was an infinitely greater honor (and infinitely more dangerous) than to be a Knight in the forces of the Emperor. Uli von der Flue, humorous, intelligent and courageous Swiss mercenary, was responsible for the canon shot which incapacitated the worldly and ambitious young nobleman, and Uli became deeply involved in Loyola's life. With Juanita, disguised as the boy Juan, Uli followed Loyola on a pilgrimage to the Holy Land to protect him, but it was the saint who protected Uli and Juan. Through Uli's eyes we see the surge and violence of the turbulent period in Jerusalem, Spain and Rome. Louis de Wohl has again created an exciting and spiritually inspiring novel for all readers of historical fiction. all... God's own love for us.

In the course of reading these stories, which are arranged according to the order of saints' feasts days throughout the liturgical year, readers happen upon many fascinating cultural and historical topics. At the same time, these stories draw abundantly on Holy Scripture to shed light on the mysteries of the Christian faith.

The paradox of awareness is very profound and yet very simple. It can't be described because it has no objective qualities and no limitation. Sometimes it comes naturally to the surface when we are fully in the present moment and no longer lost in thought or mental projections. Pure consciousness is neither high nor low, neither pleasant nor unpleasant, neither good nor bad. No matter where we are, no matter what we are doing, we always have an immediate access to that inner stillness. It can be experienced in an instant in all circumstances once we know how to pay attention to it. It is utterly peaceful and it is also insightful, so it sees through all illusions. Whenever there is a moment of being deluded, we can use that moment to practice settling in the very perfect sphere of the Buddha mind without trying to change anything. When we reside in that liberated mind, we find the very thing we have been seeking all along.

The eighth volume in a landmark series, this anthology of Jewish culture and civilization encompasses the period between the world wars. An anthology of Jewish culture between the world wars, the editors' selections convey the variety, breadth, and depth of Jewish creativity in those tempestuous decades. Despite--or perhaps because of--external threats, Jews fought vigorously over religion, politics, migration, and their own relation to the state and to one another. The texts, translated from many languages, span a wide range of politics, culture, literature, and art. This collection examines what was simultaneously a tense and innovative period in modern Jewish history.

India Past and Present

A five-volume translation of the classic sixteenth-century Chinese novel on the domestic life of a corrupt merchant.

American Yiddish Poetry

In this third volume of a planned five-volume series, David Roy provides a complete and annotated translation of the famous Chin P'ing Mei, an anonymous sixteenth-century Chinese novel that focuses on the domestic life of His-men Ch'ing, a corrupt, upwardly mobile merchant who maintains a harem of six wives and concubines. This work, known primarily for its erotic realism, is also a landmark in the development of narrative art--not only from a specifically Chinese perspective but also in a world-historical context. Written during the second half of the sixteenth century and first published in 1618, *The Plum in the Golden Vase* is noted for its surprisingly modern technique. With the possible exception of *The Tale of Genji* (ca. 1010) and *Don Quixote* (1605, 1615), there is no earlier work of prose fiction of equal sophistication in world literature. Although its importance in the history of Chinese narrative has long been recognized, the technical virtuosity of the author, which is more reminiscent of the Dickens of *Bleak House*, the Joyce of *Ulysses*, or the Nabokov of *Lolita* than anything in earlier Chinese fiction, has not yet received adequate recognition. This is partly because all of the existing European translations are either abridged or based on an inferior recension of the text. This translation and its annotation aim to faithfully represent and elucidate all the rhetorical features of the original in its most authentic form and thereby enable the Western reader to appreciate this Chinese masterpiece at its true worth. Replete with convincing portrayals of the darker side of human nature, it should appeal to anyone interested in a compelling story, compellingly told.
