Helping Bereaved Children, Second Edition

This indispensable casebook and text presents a range of therapeutic approaches and interventions
for children who have experienced loss. Illustrated are ways to help preschoolers through adolescents
cope with different forms of bereavement, including death in the family, school, or community. Solidly
grounded in developmental psychology, the volume both elucidates the principles that guide interven-
tions and offers detailed descriptions of the helping process. In-depth case material is presented in a
handy two-column format that provides clinicians and students not only with the content of the sessions,
but also with the practitioner's accompanying thoughts and rationale for intervention.

Helping Bereaved Children

Provides information on a variety of counseling and therapy approaches for children who have
experience loss, including death in the family, school, and community.

Helping Bereaved Children

Recent years have seen increasing interest in the needs of children facing bereavement, and a
corresponding increase in services to support them. This book addresses and explains the theoretical
concepts and practical implications behind the idea of brief work with bereaved children and families.

Flexible and accessible short term services delivered at the right time underpin the strengths of bereaved children, supporting their recovery rather than pathologising the grief process. In this way the book also speaks to the current interest in the concept of resilience and working with families' strengths and possibilities, rather than merely identifying their problems. This second edition continues to be a unique book within the growing field of childhood bereavement, and the new chapters added to this edition discuss managing situations with learning disability, supporting very young children and emotional literacy. The book also presents cases from the service user's perspective. It looks at different approaches to intervention, such as the importance of assessment and the value of groupwork, and also covers work with children and families before a death. Brief interventions with bereaved children will appeal to practitioners, educators and service providers managing scarce resources. The editors have more than twenty-five years experience as practitioners within the field, as service providers and educators. The book features chapters from distinguished contributors with backgrounds in healthcare, education, social work and the police, alongside theoretical and practice-based chapters from workers in the field of bereavement care for children.

Brief Interventions with Bereaved Children

Few books written for practitioners provide any practical information regarding grief and loss issues with children and adolescents. In a clear and concise manner, *Children and Loss: A Practical Handbook for Professionals* details the strengths perspective of grief and loss developed by the editors. It discusses grief and loss in relation to individual children while also addressing issues and strategies for families and professional teams. The handbook specifically focuses on the dynamics of grief and assessment issues and provides in-depth case examples. This realistic and usable application of essential techniques and resources will immediately enhance practitioners' skills with children and adolescents in specific settings where children are most likely to present with grief and loss issues. This book is a great resource for all practitioners who work with children, from foster care professionals and therapists specializing in divorce to counselors in schools and churches. This book can also be used to academic settings for any course related to child development, child psychology, children and families, grief and loss, end of life, and death.

Children and Loss

This acclaimed work describes a range of counseling and therapy approaches for children who have experienced loss. Practitioners and students are given practical strategies for helping preschoolers through adolescents cope with different forms of bereavement, including death in the family, school, and community. Grounded in research on child therapy, bereavement, trauma, and child development, the volume includes rich case presentations and clearly explains the principles that guide interventions. Eleven reproducible assessment tools and handouts can also be downloaded and printed in a convenient 8 1/2" x 11" size.

Helping Bereaved Children, Third Edition

This fully updated second edition of *Grief in Children* provides an accessible overview of children's understanding of death at different ages and gives a detailed outline of exactly how the adults around them can best help them cope. Whether a child experiences the death of a parent, sibling, other relation or friend, or of a classmate or teacher, it is important for those caring for bereaved children to know how to respond appropriately to the child's needs. This book deals with a range of common physical and psychological responses and describes the methods of approaching grief in children that have been shown to work best. The author provides guidance on how loss and bereavement should be handled at school, explains when it is appropriate to involve expert professional help and discusses the value of bereavement groups for children and support for caregivers. Illustrated with case studies and incorporating current research, this book is essential reading for parents, carers, counsellors, teachers and all those concerned with the welfare of bereaved children. Dr Atle Dyregrov is a clinical psychologist and Director of the Center for Crisis Psychology in Bergen, Norway, which he founded with a colleague in 1988. He is a member of the executive board of The Children and War Foundation and a founding member of the European Society for Traumatic Stress Studies. Dr Dyregrov is the author of numerous publications, journal articles, and books. Professor Emeritus William Yule is a clinical psychologist and Professor Emeritus of Applied Child Psychology at the Institute of Psychiatry, King's College London. He is Chair of the Children and War Foundation and Honorary Psychologist Advisor to the British Army.

He was awarded the Lifetime Achievement Award by the International Society for Traumatic Stress Studies in 2005.

Grief in Children

This practical guide provides a framework and useful techniques for helping bereaved youth in numerous settings. This welcomed addition to the field of childhood bereavement is brimming with innovative yet practical interventions for human service professionals helping grieving youth in a variety of settings. Written by noted experts with over 40 years of combined experience, this comprehensive “how to” book provides both a framework for understanding how grief impacts the lives of children, and models, techniques and interventions for individual, family, and group counseling. The book is based on best practices and the authors experience working with grieving families. It includes hands-on tips for interacting with and helping grieving children. Specific guidelines are provided for individual and group support including practical methods for creating meaningful spaces for young people to find help, encouragement, and healing. The book’s developmental, environmental, cultural, and social considerations equip professionals with the tools to better understand the mental, emotional, physical, and spiritual reactions of their young clients. Additionally, the book offers insightful information on professional accountability, ethical concerns, educational recommendations and training. Professionals who work with bereaved children daily and those who occasionally encounter them in their practice will find a wealth of resources in this book. Key Features: Brimming with innovative, practical interventions to support grieving children and teens Provides individual, family, and group counseling models, techniques, and interventions Embodies strategies for working with bereaved youth that can be used in a variety of settings, including mental health, health care, schools, and faith communities Offers a framework for understanding how grief impacts the lives of children

Understanding and Supporting Bereaved Children

The Little Book of Bereavement for Schools is written by best-selling author Ian Gilbert together with his three children. Is a very personal account of the way educational institutions tried and succeeded, tried and failed and sometimes didn't try at all to help William, Olivia and Phoebe come to terms with the death of their mother.

The Little Book of Bereavement for Schools

In this comprehensive handbook, a leading group of experts improve our understanding of the challenges faced by children when coping with death, dying, and bereavement. Organized into three parts, the volume addresses specific issues involved in confrontations with death; discusses the role of bereavement; and explains specific therapeutic interventions for caregivers. The reader is introduced to four distinct periods within childhood--infancy, toddlerhood, early childhood, and middle childhood. Through case examples, the contributors illustrate a child's experience with death and bereavement in all four areas. The book's practical orientation and emphasis will appeal to a broad array of caregivers including counselors, therapists, nurses, and mental health practitioners concerned with child and adolescent death and bereavement.

Handbook of Childhood Death and Bereavement

This authoritative guide has introduced many tens of thousands of clinicians to Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT), a leading evidence-based treatment for traumatized children and their parents or caregivers. Preeminent clinical researchers provide a comprehensive framework for assessing posttraumatic stress disorder (PTSD), other trauma-related symptoms, and traumatic grief in 3- to 18-year-olds; building core coping skills; and directly addressing and making meaning of children's trauma experiences. Implementation is facilitated by sample scripts, case examples, troubleshooting tips, and reproducible client handouts. Purchasers get access to a Web page where they can download and print the reproducible materials in a convenient 8 1/2" x 11" size. TF-CBT is listed in SAMHSA's National Registry of Evidence-Based Programs and Practices. New to This Edition

- *Incorporates a decade's worth of advances in TF-CBT research and clinical practice.
- *Updated for DSM-5.
- *Chapter on the model's growing evidence base.
- *Chapter on group applications.
- *Expanded coverage of complex trauma, including ways to adapt TF-CBT for children with severe behavioral or affective dysregulation.

See also the edited volume *Trauma-Focused CBT for Children and Adolescents: Treatment Applications* for more information on tailoring TF-CBT to children's varying developmental levels and cultural backgrounds.

Treating Trauma and Traumatic Grief in Children and Adolescents, Second Edition

Children have long been the "forgotten mourners". This new and revised edition expands on the original book by Sister Margaret Pennells and Susan Smith. It raises awareness of the sensitive issues involved for bereaved children, highlighting their needs and their emotional and behavioural responses when a bereavement occurs. The book includes two new chapters, on traumatic bereavement and secondary losses in bereavement, and it provides more information on each topic. Children's reactions to bereavement and their behaviours are described in more detail, and the consequences of failing to acknowledge children's grief and ways to tackle the subject of death are outlined. *The Forgotten Mourners: Second Edition* maintains the simple, accessible approach of the original book and will be of use to teachers, social workers and all those working in the field of child bereavement, particularly when faced with difficult situations.

The Forgotten Mourners

The importance of open discussion and storytelling in a time of loss is emphasised in this practical guide for professionals working with bereaved children. Designed for practitioners to help children engage with memories and narratives, this book includes personal accounts with young children, case studies, further reading and online resources.

Building Continuing Bonds for Grieving and Bereaved Children

"A guide for school-based professionals"--cover.

The School Services Sourcebook, Second Edition

This second edition of the hugely successful *Handbook of Child and Adolescent Clinical Psychology* incorporates important advances in the field to provide a reliable and accessible source of practical advice. Beginning with a set of general conceptual frameworks for practice, the book gives specific guidance on the management of problems commonly encountered in clinical work with children and adolescents, drawing on best practice in the fields of clinical psychology and family therapy. In six sections, thorough and comprehensive coverage of the following areas is provided: frameworks for practice problems of infancy and early childhood problems of middle childhood problems in adolescence child abuse adjustment to major life transitions. Each chapter dealing with specific clinical problems includes detailed discussion of diagnosis, classification, epidemiology and clinical features, as well as illustrative case examples. This book will be invaluable both as a reference work for experienced practitioners, and an up-to-date, evidence-based practice manual for clinical psychologists in training. The *Handbook of Child and Adolescent Clinical Psychology* is one of a set of three handbooks published by Routledge, which includes *The Handbook of Adult Clinical Psychology* (Edited by Alan Carr & Muireann McNulty) and *The Handbook of Intellectual Disability and Clinical Psychology Practice* (Edited by Alan Carr, Gary O'Reilly, Patricia Noonan Walsh and John McEvoy).

The Handbook of Child and Adolescent Clinical Psychology

Revised edition of the author's Social work practice with children, c2011.

Social Work Practice with Children, Fourth Edition

This book has been replaced by Social Work Practice with Children, Fourth Edition, ISBN 978-1-4625-3755-6.

Social Work Practice with Children, Third Edition

Bereavement is undeniably one of the most challenging experiences a child can face. It is crucial for individuals caring for such children to be well-informed about how to provide the best support. This comprehensive guide on children's grief is designed for teachers, educators, psychologists, and family members, and aims to equip them with essential knowledge about how to support the child and family through this experience. The authors delve into various aspects of grief reactions and processes in children, offering insights into bereavement in different settings, including home and school. The guide also explores therapy options, the impact on development and relationships, and the lasting effects that extend beyond childhood. Drawing from scientific research, clinical experience, and the voices of bereaved children through stories and quotes, this guide provides practical and concrete advice for those dedicated to supporting children's grief. It serves as an invaluable resource for understanding and aiding children in their journey through loss.

A Handbook of Children's Grief

This book describes a range of effective ways to help children and families cope with major traumatic experiences such as community violence, war, and terrorist attacks. Detailed case examples bring to life the complexities of assessment and intervention with children of different ages and cultural backgrounds, including both survivors of one-time traumatic events and those dealing with ongoing stressors like the military deployment of a parent. Expert contributors provide guidelines for setting up and running school- and clinic-based support groups; conducting brief and longer-term interventions with individuals and families; and promoting healing with art, music, and play. Grounded in the latest knowledge on stress and coping, bereavement, attachment, and risk and resilience, and including much-needed tips for therapist self-care, this is an essential clinical resource and text.

Mass Trauma and Violence

"This book aims to provide professionals and clinicians-in-training with the latest forms of treatment for children and adolescents who have been impacted by crises and trauma. The various treatment options presented here include approaches that focus on the individual as well as many that include a parent in conjoint or filial therapy, and others that employ a family treatment model. Many chapters in this book demonstrate the use of a variety of creative methods with young people who have suffered traumatic experiences such as sexual abuse, bullying, immigration, natural disasters, and witnessing violence"--

Play Therapy with Children and Adolescents in Crisis, Fourth Edition

The recognition of children's natural resilience as fundamental to their ability to cope with trauma is central to this book. Deriving from the authors' experience of working with bereaved children after the Hillsborough disaster, the book advocates a model of practice which is based on their findings: the primacy of listening to children and listening uncritically; the importance of peer-group and family support; and the value of paying attention to children's needs, not those of adults. It promotes the idea of healthy coping, and explores ways in which children and their families can be enabled to do this. Children explain "what helped me\

Children, Bereavement and Trauma

Drawing on detailed case studies and a growing body of evidence of the benefits of non-verbal therapies, the contributors - all leading practitioners in their fields - provide an overview of creative therapies that tap into sensate aspects of the brain not always reached by verbal therapy alone.

Expressive and Creative Arts Methods for Trauma Survivors

This thoroughly revised edition includes updated essays on cultural themes and literary analysis, and its new essays analyze the full scope of the seven-book series as both pop cultural phenomenon

and as a set of literary texts. *Critical Perspectives on Harry Potter, Second Edition* draws on a wider range of intellectual traditions to explore the texts, including moral-theological analysis, psychoanalytic perspectives, and philosophy of technology. The Harry Potter novels engage the social, cultural, and psychological preoccupations of our times, and *Critical Perspectives on Harry Potter, Second Edition* examines these worlds of consciousness and culture, ultimately revealing how modern anxieties and fixations are reflected in these powerful texts. ("DISCLAIMER: This book is not authorized, approved, licensed, or endorsed by J.K. Rowling, Warner Bros. Entertainment Inc., or anyone associated with the Harry Potter books or movies.")

Critical Perspectives on Harry Potter

This widely used practitioner resource and course text provides an engaging overview of developmental theory and research, with a focus on what practitioners need to know. The author explains how children's trajectories are shaped by transactions among early relationships, brain development, and the social environment. Developmental processes of infancy, toddlerhood, the preschool years, and middle childhood are described. The book shows how children in each age range typically behave, think, and relate to others, and what happens when development goes awry. It demonstrates effective ways to apply developmental knowledge to clinical assessment and intervention. Vivid case examples, observation exercises, and quick-reference tables facilitate learning.

Child Development, Third Edition

"Noted for its multisystemic-ecological perspective, this accessible text and practitioner resource has now been revised and expanded with 60% new material. The book provides a comprehensive view of adolescent development and explores effective ways to support teens who are having difficulties. The authors examine protective and risk factors in the many contexts of adolescents' lives, from individual attributes to family, school, neighborhood, and media influences. Assessment and intervention strategies are illustrated with diverse case examples, and emphasize a social justice orientation. Useful pedagogical features include end-of-chapter reflection questions and concise chapter summaries. Key Words/Subject Areas: social work practice, clinical, human behavior and the social environment, HBSE courses, counseling, development, treating kids, youths, teens, assessments, treatments, psychotherapy, young adults, textbooks, problems, resources for social workers Audience: Practitioners and students in social work, clinical child/adolescent and school psychology, psychiatry, counseling, and nursing"--

Working with Adolescents, Second Edition

Provide professionally sound and principled therapy based on the truth of God Christians are faced with the same range of problems as everyone else. However, Christian therapists understand deeply the unique issues involved with their therapy. The *Christian Therapist's Notebook* is a single source for innovative, user-friendly techniques for connecting the everyday world of the client with Christian principles and Scripture. This creative, timesaving guide assists therapists in helping clients achieve therapy goals through professionally sound and principled exercises while always maintaining a positive, supportive connection with Christian beliefs. Helpful features include Scripture references relevant to common problems, case studies, vignettes, professional resource lists, client resource lists, in-session exercises, homework exercises, and handouts. The *Christian Therapist's Notebook* bases its success on three foundations: the truth of scripture; the centrality of Christ; and the guidance of the Holy Spirit. The book's three sections include individuals, couples and families, and children and adolescents. Each chapter focuses on a single exercise to address an important issue that may be affecting the client. Chapters provide a guiding Scripture quote, an objective, rationale for use, clear and specific instructions, suggestions for a follow-up, a vignette illustrating the exercise's success, contraindications, extensive resources, and related Scriptures. The *Christian Therapist's Notebook* exercises include: "A New Creation," which uses a Christogram to personalize the Biblical promises and truths of the spiritual transformation "Snapshots," which reveals repetitive behavior patterns in relationships "Core Connections," which helps the client explore the organization of relational core connections to other people as well as to God "Temptation Judo," which explores the connection between temptation and needs while uncovering God's promise of escape "Broken Mirrors," which identifies unresolved issues affecting self-image and moves the client to a personal relationship with God "The Book of My Life," which helps identify situations and people that have had an impact on clients, while helping them to acknowledge that God has a plan for them "Tearing Down Strongholds," which

helps take the client through the process of repentance "It Was Wrong," which helps abuse victims deal with pain and frustration "Bowing Down," which helps to restore a healthy relationship "Panic Breaker," which helps get to the root of client fears "Parenting after Divorce" "Self-esteem," which helps children with self-concept and many, many more! The Christian Therapist's Notebook is the answer for practicing therapists, counselors, interns, pastors, educators, and students searching for activities for client therapy based upon the truth of God.

The Christian Therapist's Notebook

Understanding Bereaved Parents and Siblings is based on lived experiences and provides insight, ideas, and inspiration on how to support the bereaved, how to talk to them about their experience, and how to help people manage their own shock or grief. Part I of the book contains ten stories from parents and six from siblings sharing their experiences. Each narrator discusses their relationship with the person who died; what led up to the death; the impact of the loss on the speaker; as well as what helped and what hindered them in their grief. Part II is aimed at professionals and draws on various topics such as grief and bereavement models, transgenerational loss, resilience, protection, and creative ways of working with grief. The book will be an essential read for the bereaved and the professionals, family, and friends who are supporting them.

Understanding Bereaved Parents and Siblings

A suicide leaves behind more victims than just the individual. And yet there are very few professional resources that provide the necessary background, research, and tools to effectively work with the survivors. This edited volume addresses the need for an up-to-date, professionally oriented summary of the clinical and research literature on the impact of suicide bereavement on survivors.

Grief After Suicide

This book offers a fresh insight into working practices with children and young people who are experiencing the death of a family member, friend, school peer or in their social network. Bridging the gap between theory and practice, the book's practical skills focus is informed by the latest research findings on children and young people's experience of grief. The wide-ranging content includes: - a comprehensive review of theoretical approaches to bereavement - the impact of different types of grief on children - working with children who have been bereaved in traumatic circumstances, such as through criminal behaviour - skills development. The list of resources, case studies and exercises encourage critical engagement with the counselling theory and promote reflexive practice. Trainees in counselling, psychotherapy and social work, as well as teachers and mental health workers, will find this an invaluable resource for working with this vulnerable client group.

Working with Bereaved Children and Young People

A collection of essays and articles written over a 30 year span by a seasoned sandplay therapist. When Pixies Come Out to Play: A Play Therapy Primer is the work of a true master of the craft of sandplay therapy informed by Jungian theory and the pioneering work of Dora Kallf with whom Lois Carey studied. Woven into the exquisite tapestry of this lovely book is history and theory of the method, rich case material told in a warm and moving voice which reflects the extraordinary empathy of this remarkable sandplay and play therapist . . . A wealth of information packed into a highly readable book that just like the author herself will be a cherished gift to us all for a long time to come. —David A. Crenshaw, Ph.D., ABPP, RPT-S Clinical Director "The metaphor that comes to mind as I read this book is that of the aboriginal painting—a large canvas of lots of varied sized and colored dots which represents a map of the territory. This book provides an extensive map of the territory, that is Play Therapy, Child Therapy and sand play as it applies to children, with a particular Jungian slant. I would recommend this to practitioners and students who can learn from its wisdom." —Aideen Taylor de Faoite, author of Narrative Play Therapy: Theory and Practice. "When Pixies Come Out to Play is a wonderful book for any clinician who uses creative mediums in their therapeutic work. It is a book that provides a backdrop to understanding art therapy, play therapy and sandplay from a Jungian perspective. It provides a history and theoretical framework to create context and a lens to view the work through." —Majella Ryan, Biodynamic and Integrative Psychotherapist, Child Psychotherapist.

When the Pixies Come Out to Play

This book provides readers with direction on how to organize psychoeducational groups while also helping them enhance skills for effectively leading such groups—all in one comprehensive volume! Offering an applied, pragmatic approach, author Janice L. DeLucia-Waack uniquely integrates research and practice to suggest valuable leadership strategies while addressing special issues such as children of divorce, anger management, bullying behaviors, and much more.

Leading Psychoeducational Groups for Children and Adolescents

Child life is a profession that draws on the insights of history, sociology, anthropology and psychology to serve children and families in many critical stress points in their lives, but especially when they are ill, injured or disabled and encounter the hosts of caregivers and institutions that collaborate to make them well. Children and their families can become overwhelmed by the task of understanding and navigating the healthcare environment and continue to face challenges through their daily encounters. It is the job of child life professionals to provide care and guidance in these negotiations to serve as culture brokers, interpreters of the healthcare apparatus to family and child and the child to medical professionals. Despite the best efforts to provide quality, sensitive psychosocial care to children and their families, they remain vulnerable to lingering aftereffects. The goal of this revised edition is to help prepare child life specialists to deliver the highest level of care to children and families in the context of these changing realities. Each chapter has been substantially revised and two new chapters have been added. This book will be a valuable resource for not only child life specialists but also nurses, occupational and recreational therapists, social workers and other hospital personnel.

The Handbook of Child Life

This is the authoritative guide to conducting trauma-focused cognitive-behavioral therapy (TF-CBT), a systematic, evidence-based treatment for traumatized children and their families. Provided is a comprehensive framework for assessing posttraumatic stress disorder, depression, anxiety, and other symptoms; developing a flexible, individualized treatment plan; and working collaboratively with children and parents to build core skills in such areas as affect regulation and safety. Specific guidance is offered for responding to different types of traumatic events, with an entire section devoted to grief-focused components. Useful appendices feature resources, reproducible handouts, and information on obtaining additional training. TF-CBT has been nationally recognized as an exemplary evidence-based program. See also the edited volume *Trauma-Focused CBT for Children and Adolescents: Treatment Applications* for more information on tailoring TF-CBT to children's varying developmental levels and cultural backgrounds.

Treating Trauma and Traumatic Grief in Children and Adolescents

Practical and accessible, this guidebook is designed to help staff in schools support bereaved children in their care. Providing information and guidance on practical issues around bereavement and indicating some of the issues that might require extra thought or assistance, this book makes accessing relevant information as easy and quick as possible. When busy school staff are faced with a bereaved child, the prospect can be daunting. What do I say? What can I do? Will I make it worse? Have I got time to do this? This book is a toolbox to give staff confidence in helping bereaved young people. Information is easily accessed and simple to use, giving staff quick and practical help. There are sections on what will help and what will not; also included are photocopiable worksheets and tools to aid children and young people to explore their grief, as well as information on how school communities can share the news and manage an initial response. With age-appropriate guidance to help school staff working in both primary and secondary settings, this key guide provides quick-to-access information for those not trained in child bereavement to help individual children or whole classes following a loss.

The School Bereavement Toolkit

'This insightful text will be of great help to all who care for pre-school children - parents, kindergarten teachers, ministers of religion, police, welfare workers - the list is endless. If they learn the values reflected in this small book, then bereaved children everywhere will grow up with far fewer hang-ups about the only certainty in life.' - from the foreword by Professor William Yule. Praise for the author: 'Dyregrov's writing is clear in its description, and explicit in its advice, and demonstrates that the daunting task of helping a child through grief is both manageable and reward.'

Grief in Young Children

"This book describes child development and how it can be applied to practice with children. Developmental knowledge provides a framework for understanding children in relation to the tasks and issues relevant to their age. These, in turn, are determined by physical, social, emotional, and neurodevelopmental norms that transform in meaningful ways from birth through adolescence. Only with a sound grounding in this knowledge can we determine whether a child's emotions, thoughts, or behaviors fall within normal expectations. Part I, "Contexts of Development: A Transactional Approach," introduces the idea that the child's development is the outcome of the interplay of normative developmental maturation and the context within which it occurs. Part II, "The Course of Child Development," represents the core of the book, looking at childhood through the lens of discrete expected stages"--

Child Development

"How do teachers support and unravel bereavement in children? We have to begin by understanding the impact grief has on how a child learns, and matching our teaching activities accordingly. That is a big 'ask', but as ever help is at hand in this latest outstanding resource generated by Dr Tina Rae. Tina not only illuminates the learning pathways of the child in grief, but translates this into a range of purposeful teaching activities. This is an exceptional resource book, that will enable teachers to implement responsive teaching, and walk with the child through their journey of grief." Professor Barry Carpenter CBE, OBE, D.Litt. Professor of Mental Health in Education, Oxford Brookes University In this accessible and informative handbook, Tina Rae sensitively guides teachers, support staff, SENCOs and others working with children on the best ways to support children and young people coping with grief and loss following the death of a special loved one. Advice and strategies are provided on a whole host of difficult issues, including how best to support children: - of different ages - with complicated grief - when planning a funeral - make sense of the grieving process - work through the process of remembering - return to school following a bereavement. Eighty worksheets provide a range of activities to help bereaved children attempt to understand, express and process their grief and allow them to remember and celebrate their special person. The activities are also suitable for helping young people to develop a personal bereavement box and construct a memory book or special book of remembrance. Although the resources can all be used flexibly, they are generally best suited for supporting individual students or those in small groups. All the resources are photocopiable. Information sheets, letter templates, resource suggestions and a directory of useful websites and further reading are also provided.

The Bereavement Book

"The second edition of Child and Family Practice: A Relational Perspective examines the world of social work and other mental health counselling practices through the eyes of children, families, and child-centred practitioners. Case stories are liberally used to illustrate how theories and approaches are applied in real world practice and emphasize the complexities of working with a broad and diverse range of people and systems. Developmental and relational theories highlight the distinctive differences between child-centred and adult-based practice, particularly due to children's interdependence on families and carers. This second edition also brings readers up to speed on changes in social policy, theoretical perspectives, and cultural understandings, and shifts in world views that have taken place since volume one. The book is intended for use in classrooms and also for others invested in improving the lives of children in their practice settings"--

Child and Family Practice

This revised and expanded edition raises awareness of the sensitive issues involved for bereaved children, highlighting their needs and their emotional and behavioral responses when bereavement occurs. The cultural aspects of traumatic loss and grief, as well as secondary losses associated with bereavement are dealt with in more depth in this updated version of the book. "The Forgotten Mourners" will help teachers, social workers and all those working in the field of child bereavement, particularly when faced with difficult situations.

The Forgotten Mourners

The second edition of this bestselling book is designed for mental health professionals, educators, and the parent/caregiver, this book provides specific ideas and techniques to work with children in various areas of complicated grief. It presents words and methods to help initiate discussions of these

delicate topics, as well as tools to help children understand and separate complicated grief into parts. These parts in turn can be grieved for and released one at a time. A new chapter is included, called "Communities Grieve: Involvement with Children and Trauma." It includes information on The Taiwan Earthquake and how the community worked with children, a school bus accident in which 36 elementary school children witnessed the death of the bus driver that was driving and how the school system worked with these children and their families; a boy who was running on a cross country team and got hit by a car, which was witnessed by teammates; and how a non-profit community grief agency worked with family, school, and community. The last study is from the Oklahoma bombing and the outgrowth of a place for the traumatized children and how they still work with kids and family today. This chapter then contains new activities to work with traumatized grieving children. The new edition also includes updated resources, books, curriculums, websites, hotlines and another new chapter on bullying and victimization issues. The chapter for educators has been expanded, including the coverage of topics such as at-risk students, gay and lesbian issues, and self-injurious behaviors.
