The Tour Guide

Everyone wants to visit New York at least once. The Big Apple is a global tourist destination with a dizzying array of attractions throughout the five boroughs. The only problem is figuring out where to start—and that's where the city's tour guides come in. These guides are a vital part of New York's raucous sidewalk culture, and, as The Tour Guide reveals, the tours they offer are as fascinatingly diverse—and eccentric—as the city itself. Visitors can take tours that cover Manhattan before the arrival of European settlers, the nineteenth-century Irish gangs of Five Points, the culinary traditions of

Queens, the culture of Harlem, or even the surveillance cameras of Chelsea—in short, there are tours to satisfy anyone's curiosity about the city's past or present. And the guides are as intriguing as the subjects, we learn, as Jonathan R. Wynn explores the lives of the people behind the tours, introducing us to office workers looking for a diversion from their desk jobs, unemployed actors honing their vocal skills, and struggling retirees searching for a second calling. Matching years of research with his own experiences as a guide, Wynn also lays bare the grueling process of acquiring an official license and offers a how-to guide to designing and leading a tour. Touching on the long history of tour-giving across the globe as well as the ups and downs of New York's tour guide industry in the wake of 9/11, *The Tour Guide* is as informative and insightful as the chatty, charming, and colorful characters at its heart.

Throughout the book, Dr. Chenevert compares your journey through nursing school to a road trip, and she offers advice to increase your understanding, help you successfully navigate obstacles, and make your journey more enjoyable. You'll learn how to prepare for the NCLEX® and your nursing career, how to get good grades, how to deal with failure, how to improve oral and written reports, and much more. A must-have for every nursing student! Endorsed by the National Student Nurses Association (NSNA). Written by a nationally known motivational speaker and nurse, the book's down-to-earth approach uses humor and clever analogies to clearly teach the information you need to know. Uses the analogy of a cross-country road trip to help you see the relationships between different aspects of nursing school, as well as give you a finite view of its duration and end result. Inspirational quotes throughout offer wisdom and encouragement from fellow nursing students and graduates. The appendix lists numerous diverse resources you'll find useful before, during, and after nursing school. Electronic Age Information covers distance learning, online courses, and podcasts, facilitating your success both in today's electronic classroom and with the advancing technology in nursing. Updated statistics and information on the emerging trends of the workforce keep you current with what's happening in the world outside nursing and help you make educated choices during nursing school. Three chapters are devoted to diversity in today's workforce and the non-traditional student. Thorough coverage of ADN, BSN, and RN-BSN programs (program prerequisites, differences, and more) helps you make informed decisions about your choice of nursing programs. Feminism and Migration

Feminism and Migration: Cross-Cultural Engagements is a rich, original, and diverse collection on the intersections of feminism and migration in western and non-western contexts. This book explores the question: does migration empower women? Through wide-ranging topics on theorizing feminism in migration, contesting identities and agency, resistance and social justice, and religion for change, well-known and emerging scholars provide in-depth analysis of how social, cultural, political, and economic forces shape new modalities and perspectives among women upon migration. It highlights the centrality of the various meanings and interpretations of feminism(s) in the lives of immigrant and migrant women in Australia, Belgium, Brazil, Eastern Europe, France, Greece, Japan, Italy, Mexico, Morocco, Papua New Guinea, Spain, and the United States. The well-researched chapters explore the ways in which feminism and migration across cultures relate to women's experiences in host societies --- as women, wives, mothers, exiles, nuns, and workers---and the avenues of interactions for change. Cross-cultural engagements point to the convergence and even disjunctures between (im)migrant and non-immigrant women that remain unrecognized in contemporary mainstream discourses on migration and feminism.

It also describes the development of cruise-based tourism and its relation to shifts in local social and economic structures and patterns of land use, especially local recreation use trends. A multisited ethnographic approach was used featuring participant observation and in-depth interviews with local residents, cruise line industry personnel, and visitors to southeast Alaska. Results show that tourism brings both positive and negative changes to Alaska communities. Data from this report can assist Forest Service planners to identify factors involved in the relation between tourism growth and community well-being. The changing patterns of Japanese tourism and the views of the Japanese tourist since the Meiji Restoration, in 1868, are given an in-depth historical, geographical, economic and social analysis in this book. As well as providing a case study for the purpose of investigating the changing face of global tourism from the 19th to the 21st Century, this account of Japanese tourism explores both

domestic social relations and international geographical, political and economic relations, especially in the northeast Asian context. Socio-cultural and geographical analysis form the research framework for the book, in three ways: first, there is an emphasis on scale as tourism phenomena and their implications are discussed both in a global context and at the national, regional and local levels; second, the discussion is informed by primary data sources such as censuses and surveys; and third, the incorporation of fieldwork and case studies adds concreteness to the overall picture of Japanese tourism. This book is a significant addition to an area of study currently under-represented in the literature.

So, How Long Have You Been Native? is Alexis C. Bunten's firsthand account of what it is like to work in the Alaska cultural tourism industry. An Alaska Native and anthropologist, she spent two seasons working for a tribally owned tourism business that markets the Tlingit culture in Sitka. Bunten's narrative takes readers through the summer tour season as she is hired and trained and eventually becomes a guide. A multibillion-dollar worldwide industry, cultural tourism provides one of the most ubiquitous face-to-face interactions between peoples of different cultures and is arguably one of the primary means by which knowledge about other cultures is disseminated. Bunten goes beyond debates about who owns Native culture and has the right to "sell" it to tourists. Through a series of anecdotes, she examines issues such as how and why Natives choose to sell their culture, the cutthroat politics of business in a small town, how the cruise industry maintains its bottom line, the impact of colonization on contemporary Native peoples, the ways that traditional cultural values play a role in everyday life for contemporary Alaska Natives, and how Indigenous peoples are engaging in global enterprises on their own terms. Bunten's bottom-up approach provides a fascinating and informative look at the cultural tourism industry in Alaska.

ULTIMATE Finnish food tour (MUST TRY 15+ dishes in Finland) ULTIMATE Finnish food tour (MUST TRY 15+ dishes in Finland) by JetLag Warriors 23,099 views 1 day ago 37 minutes - First time trying Finnish traditional food! Check out our reaction trying Finnish food. MUST try Finnish food in Helsinki, Finland!

Does anyone not like cinnamon? I don't think so
Finnish blueberry pie is different than North America!

"Cabin in the snow" style restaurant

NEW INGREDIENT: Lingon berry (it's like cranberry + raspberry?)

First time eating reindeer! (sorry, Santa)

Finnish surf 'n' turf is like corned beef? (not SPAM)

Never judge a book by it's cover: Vorschmack edition

First time tying karelian pie (rice porridge in bread)

My wife is FANCY (she eats caviar)

IVANA SAYS RYE BREAD TASTES LIKE CARDBOARD

Finnish food frequently reminds me of Christmas / Thanksgiving

STEVE THOUGHT KARELIAN STEW WAS REINDEER (worst food vlogger ever)

UNEXPECTED: Cheese and reindeer soup (guilty pleasure??)
WE TRAVELED A MILLION MILES FOR FAST FOOD BURGERS (no regrets)
Salmon soup with dill (surprisingly good)
I hate to compare this to IKEA meatballs (this is better!!, but similar)
Anchovy + sardine = vendace??
Well, maybe sometimes judge a book by its cover
MUST EAT IN FINLAND: Breadcheese and cloudberry jam
Raspberry + honey = Cloudberry jam?
