This epic route takes in Exmoor National Park, five AONBs and the Jurassic Coast World Heritage Site, besides various nature reserves and SSSIs. The schedule can be adjusted to give a one-week walk, or a more leisurely pace if preferred, and the book includes low-level bad-weather alternative routes for some moorland stretches. A full route description is given for walking the route from south to north, with a summary description for walking in the opposite direction. 1:50,000 map extracts show the route and there is lots of practical information on public transport, refreshments and accommodation to make day-by-day planning simple. A map booklet showing the full route on OS 1:25K maps is included with this guide. The county of Devon incorporates a wonderful range of landscapes, from the rolling fields and enclosed paths of South Devon to the wild, wide-open spaces of Dartmoor, with its hill ponies, granite tors and Bronze Age relics.
