The taxonomy of recent mammals has lately undergone tremendous revision, but it has been decades since the last update to Timothy E. Lawlor's acclaimed identification guide the Handbook to the Orders and Families of Living Mammals. Integrating the latest advances in research, Douglas A. Kelt and James L. Patton provide this long-overdue update in their new, wholly original work, A Manual of the Mammalia. Complemented by global range maps, high-resolution photographs of skulls and mandibles by Bill Stone, and the outstanding artwork of Fiona Reid, this book provides an overview of biological attributes of each higher taxon while highlighting key and diagnostic characters needed to identify skulls and skins of all recent mammalian orders and most families. Kelt and Patton also place taxa in their currently understood supra-familial clades, and discuss current challenges in higher mammal taxonomy. Including a comprehensive review of mammalian anatomy to provide a foundation for understanding all characters employed throughout, A Manual of the Mammalia is both a user-friendly handbook for students learning to identify higher mammal taxa and a uniquely comprehensive, up-to-date reference for mammalogists and mammal-lovers from across the globe.

In this revised edition of How to Learn: The 10 principles of effective revision & practice, examples and exercises from science, mathematics, history, foreign languages, and skill learning, are used to show exactly how to apply the 10 principles of effective practice and revision. Few students know how to revise effectively, which is why they waste so much time going over and over material, as they try to

hammer it into their heads. But you don't need to spend all that time, and you don't need to endure such boredom. What you need to do is understand how to review your learning in the most effective way. Using examples and exercises from science, math, history, foreign languages, and skill learning, that is what this book aims to teach you. This workbook will tell you —what you should practice or revise —how you should revise —how often you should revise —how far apart you should schedule your sessions —different strategies you can use in your practice / revision —how skill learning differs from 'fact' learning and more. This workbook is for students who are serious about being successful in study, and teachers who want to know how best to help their students learn.

Manual of Conchology

Combining a guide for the Museum visitor with scholarly discussions of all objects on display, this catalogue provides background on the society, history, technology, and commerce of the Etruscan and Faliscan cultures from the ninth through the first centuries B.C. Several groups of material illustrate social, historical, and technological phenomena currently at the forefront of scholarly debate and study, such as the crucial period of the turnover from Iron Age hut villages to the fully urbanized princely Etruscan cities, the development and extent of ancient literacy, and the position of women and children in ancient societies. Many special objects seldom found or generally inaccessible in the United States include Faliscan tomb groups, Etruscan inscriptions, helmets, and trade goods. The catalogue presents and analyzes objects of warfare, weaving, animals, religious beliefs, architectural and terracotta roofing ornaments, Etruscan bronze-working for utensils, weapons, and artwork, and fine, generic portraiture. It discusses the symbolic meaning of such objects deposited in tombs as a chariot buried with a Faliscan lady at Narce, a senator's folding stool buried in a later tomb at Chiusi, and a pair of horse bits with the teeth of a chariot team still adhering to them where the teeth fell when sacrificed for a funeral in the fifth-century necropolis at Tarquinia—much later than the horse sacrifice was previously known in Etruria.

Newsweek proclaimed 2009 as the Year of the Cougar. Hollywood was showcasing its leading ladies, who just happened to be over forty, with some leading men under forty. The article raised a question. It asked, Are Cougars what women really want to be? The answer is yes for some, and no way, for others. The term Cougar is often used to describe women over forty who pursue, prey, prowl and pounce on younger men. In M.A.R.E.S.- Mature, Attractive, Respectable, Even-Tempered, Single, Professional, Extraordinary, Ladies Over Forty, author Sherry Lynne demonstrates that M.A.R.E.S. are confident, attractive, fun-loving, and financially secure ladies who magnetize a man searching for those qualities. Married for twenty-four years and now divorced, Sherry Lynne shares knowledge and insights gleaned from her own personal experiences and those of others. She discusses the acronym she coined to represent this group of ladies who aspire to a higher level of femininity and professionalism. She tells how M.A.R.E.S. are the millennial version of what a noble, Victorian lady of the past would be. M.A.R.E.S. are the handkerchief-dropping, manner-filled, yet fun and exciting ladies the foremothers would be proud of.

A Manual of the Mammalia

Publisher description

face2face Advanced Teacher's Book with DVD

When John Timpson, chairman of the eponymous high street chain, bought his wife Alex a racehorse in 2002, a friend commented that it would be 'a marvellous way to lose money'. Soon they were immersed in a world of trainers' yards, Novice Hurdles and handicaps, and well on the way to proving the old adage that the best way to make a small fortune is to start with a larger one, and buy a few racehorses. As the number of horses increased and Alex became a well-loved figure on the racing scene, John kept a diary of their experiences on and off the track. This witty book describes how racing brought something extra into their marriage – from Mondays at Ludlow to the Cheltenham Festival. It documents the wins, near misses, disappointments and occasional tragedies that make up a racing career – not to mention the friends made, the knowledge gained and the sheer thrill of it all. Under Orders is a joyous and humorous portrait of horseracing in Britain and a tribute to the owners whose dedication and enthusiasm make the whole thing possible. Sales of the book will raise money for the Injured Jockeys Fund.
