La lettura della mano. L'arte di «Leggere» il futuro, il presente e il passato attraverso la forma, i segni e le linee della mano

La chiromanzia è l'arte di caratterizzare e predire il futuro studiando il palmo della mano, noto anche come chirologia. La pratica si trova in tutto il mondo, con numerose varianti culturali. Coloro che praticano la chiromanzia sono generalmente chiamati chiromanti, lettori del palmo, lettori della mano, analisti della mano o chirologi. Le informazioni descritte di seguito sono una breve rappresentazione della chiromanzia moderna, ce ne sono molte di interpretazione delle diverse linee e caratteristiche del palmo attraverso le varie scuole di chiromanzia, spesso in contraddizione tra loro. La chiromanzia può

far risalire le sue radici all'antica Grecia fino ad Aristotele (384-322 a.C.) che scoprì un trattato sul tema della chiromanzia su un altare al dio Hermes, che poi presentò ad Alessandro Magno (356-323 a.C.), che aveva grande interesse ad esaminare il carattere dei suoi funzionari analizzando le linee nelle loro mani. Aristotele affermava che "i versi non sono scritti nella mano dell'uomo senza ragione. Essi emanano dalle influenze celesti e dalla propria individualità dell'uomo". Di conseguenza, Aristotele, Ippocrate e Alessandro Magno hanno reso popolari le leggi e la pratica della chiromanzia. Ippocrate cercò di usare la chiromanzia per aiutare le sue procedure cliniche. Dalla Grecia, la conoscenza della chiromanzia si diffuse lentamente in India, Tibet, Cina, Persia, Egitto e in alcuni paesi europei. Gli studi dimostrano che le comunità più antiche come Sumeri, Tibetani, Ebrei, Babilonesi, Egiziani e Persiani erano molto interessati allo studio e alla pratica della chiromanzia. Altri affermano che l'arte della chiromanzia iniziò in India nell'astrologia (indù) (conosciuta in sanscrito come Jyotish), i cinesi Yi Jing (I Ching) e Rom (zingari), gli indovini. Si ritiene che il saggio indù Valmiki abbia scritto un libro, il cui titolo si traduce in inglese come "Gli insegnamenti di Valmiki Maharshi nella chiromanzia femminile". Dall'India, l'arte della chiromanzia si è diffusa in Cina, Tibet, Egitto, Persia e altri paesi in Europa. Dalla Cina la chiromanzia è passata alla Grecia, dove veniva praticata da Anassagora. Tuttavia, nella moderna chiromanzia, le tecniche di previsione tradizionali sono spesso combinate con la psicologia, la guarigione olistica e metodi alternativi di divinazione. Per fare una breve introduzione all'arte della lettura del palmo, dobbiamo menzionare che la chiromanzia consiste nella pratica di valutare il carattere di una persona o la vita futura "leggendo" il palmo della mano di quella persona. In questo ebook trovi Introduzione Capitolo 1 Scopri i segreti del palmo della tua mano – Guarda tutto ciò che la tua mano ha da dire! Capitolo 2 La comprensione generale di tutta la mano Capitolo 3 Comprendi le linee principali e secondarie Capitolo 4 Identificazione delle dita: forma, dimensione e unghie Capitolo 5 Cosa indicano le diverse assemblee? Lettura della Mano

Un gatto nero che taglia la strada, una scala che sbarrava il passaggio e sotto la quale si è costretti a transitare, l'occasionale incontro con persone cui si attribuiscono particolari doti jettatorie o portafortuna, una partenza che impensierisce perché il giorno stabilito è un martedì o un venerdì: quanti di noi ridono liberamente di avvenimenti del genere senza tenerne conto? La superstizione ha mille e uno volti e questo libro li esamina tutti nei particolari. Le piccole, grandi "potenze occulte", che in diversa misura e intensità ci rendono schiavi dei miti e dei pregiudizi della superstizione, trovano qui una loro dimensione razionale. Dall'antichità fino ai nostri giorni, l'opera di Schmidt è un vero manuale contro il malocchio che ripercorre in modo brillante l'iter storico delle manifestazioni superstiziose e vale tutti gli amuleti e gli scongiuri cui, più o meno consciamente, siamo portati ad abbandonarci.

Chiromanzia

La matematica non gode spesso di buona stampa: i numeri non mentono, ma con i numeri si può mentire, si dice. La sfida di Mariano Tomatis assomiglia quindi a un doppio carpiato: l'autore racconta la matematica proprio partendo dalla magia, da quelle insidiose zone di confine della conoscenza dove si addensano i fenomeni paranormali, i poteri della mente, le profezie, i grandi enigmi storici e i simboli esoterici. La matematica di Tomatis è però un coltellino svizzero: ogni accessorio, usato al momento giusto, apre, smonta e disvela al lettore molti misteri, dove invece è solo l'abile camuffamento di schemi numerici e strutture logiche ad averli resi indecifrabili. Il trucco c'è...

In questo manuale potrete scoprire e capire molti metodi di divinazione, dai più tradizionali come le carte e i fondi del tè, fino ai metodi più particolari ed esotici come la grafologia e la lettura della mano. Inoltre potrete capire come usare amuleti e talismani, scoprire il significato dei fiori e le proprietà delle pietre preziose. Uno strumento utile e completo per capire come gira la ruota della vostra fortuna e come indirizzarla a vostro favore.

Chiromanzia - La lettura della mano

Chiromanzia, conoscersi attraverso la lettura della mano, è un eBook di 64 pagine corredate da più di 100 immagini, 52 disegni e 15 schede sulle linee, i monti, le valli, sul loro significato e su come si pratica la lettura della mano. Fin dalla notte dei tempi, l'uomo ha posato lo sguardo sul proprio corpo e si è accorto che tutta la sua storia, passata e futura, poteva essere letta sulle mani. Questa scoperta ha segnato la nascita della chiromanzia, una pratica divinatoria vecchia quanto il mondo, di fondamentale importanza poiché dalla lettura della mano è sempre stato possibile comprendere la natura umana in tutte le sue molteplici sfumature. Per tale motivo essa è riuscita a sopravvivere alle persecuzioni ecclesiastiche fino al conseguimento del riconoscimento scientifico, duramente conquistato nel secolo scorso. La chiromanzia ha subito notevoli evoluzioni durante il suo cammino, ma oggi è chiaro che il suo vero scopo non è tanto predire il futuro quanto aiutarci a conoscere noi stessi, a scoprire le nostre potenzialità e i nostri limiti per sfruttare al meglio ciò che abbiamo indirizzando le nostre disposizioni naturali verso una completa realizzazione.

Chiromanzia - Il linguaggio della mano

Lo studio dell'occulto ha un fascino senza fine: infatti, nonostante le spiegazioni che la scienza può dare ai misteri della terra, restano alcuni fenomeni per i quali non si è ancora trovata una risposta al di fuori dell'occulto. Questo libro offre per la prima volta una panoramica aggiornata di tutti i diversi aspetti di questo tema così complesso e affascinante, incluso un intero capitolo sui rapporti tra il sesso e i fenomeni psichici, un tema finora accuratamente evitato da tutti. Alla luce di un'esperienza pratica di venticinque anni in tutti i campi della ricerca psichica e di un profondo e costante interesse per l'occulto, Underwood cerca di rispondere a una infinità di domande di astrologia, grafologia, previsione del futuro e telepatia. Tra i molti altri temi esamina quello dei medium, ciò che avviene nelle case abitate da fantasmi e come questi fenomeni andrebbero studiati, il significato dei sogni, la storia e le pratiche moderne dei Druidi, delle streghe, e di coloro che praticano la magia nera: vere storie di fantasmi ed esperimenti che l'autore stesso ha vissuto di persona. Peter Underwood ci incoraggia ad esplorare e investigare onestamente e rettamente per una maggiore comprensione del soprannaturale e delle tremende e sconosciute forze che sono dentro di noi.

Leggere la mano

Vittorio ha una faccia che nessuno riesce a ricordare e, colmo della sciagura, ha pure due fratelli superdotati. Si sfoga scattando segretamente foto alla ragazza dei suoi sogni che abita nel palazzo di fronte e ha capelli d'argento. Ma come far colpo su di lei se finora è sempre stato invisibile a tutti? La risposta sembra offrirgli un mazzo di tarocchi, con i quali (complice la colf di casa) inizia a fare predizioni ai compagni di scuola. Ed ecco che improvvisamente Vittorio diventa un mago molto richiesto e ricercato. Finché un giorno il Destino in persona lo chiama al telefono per incaricarlo di un macabro e terribile sortilegio di morte...età: 10+

Fai una cosa alla volta. Falla bene. Vivi meglio **CONCENTRA LA TUA ATTENZIONE SU UNA SOLA ATTIVITÀ PER MINIMIZZARE LO STRESS, AUMENTARE LA PRODUTTIVITÀ ED ESSERE PIÙ FELICE** Dopo anni di grande entusiasmo ormai è assodato che il multitasking ci rende meno efficienti e più soggetti a errori: siamo fatti per concentrare l'attenzione su una sola attività alla volta, altrimenti i nostri sistemi si sovraccaricano e andiamo in crash. Ma che lo si chiami monotasking, consapevolezza, essere presenti o con qualsiasi altro nome, l'obiettivo è il medesimo: concentrarci su una cosa alla volta e farla con tutti noi stessi. Quando lo facciamo, sintonizzando completamente il nostro corpo e il nostro cervello su un'unica attività come leggere un libro, ascoltare qualcuno durante una conversazione o prestare attenzione a ciò che ci circonda mentre andiamo a fare una passeggiata, possono succedere cose incredibili. Questo libro, concentrandosi su dodici attività quotidiane, ci mostra che affrontandole con una mente focalizzata possiamo ricostruire e migliorare la nostra attenzione, riscoprire la capacità di goderci la vita, connetterci con gli altri e ottenere migliori risultati in tutto ciò in cui ci impegniamo, dal lavoro alle relazioni interpersonali. E, alla fine, essere più felici, più produttivi e più presenti, in ogni aspetto della nostra vita. Quaderni medievali

La storia che racconta Drabarni, l'originale opera narrativa di Minea Talarico, parte da lontano, non tanto per l'epoca storica in cui è ambientata, quanto per gli intrecci di vite che la animano, che ripercorrono vissuti difficili, spesso all'insegna del dolore e della sofferenza, ma anche di una profonda condivisione e antica conoscenza. L'opera è un vero e proprio romanzo corale, le cui tante voci si trovano coinvolte in una serie di accadimenti che inevitabilmente congiungerà le loro strade in un percorso di crescita per nulla scontato. Attraverso una prosa incisiva ma allo stesso tempo delicata, Minea Talarico rende, con vivido interesse, sulla pagina scritta, la perfetta polifonia di ogni uomo e le vibranti risonanze dell'essere che lo accompagnano. Minea Talarico nasce nel 1989 in Germania da madre tedesca e padre italiano. Ha vissuto in Calabria a partire dal primo anno di età, trasferendosi poi in Toscana all'età di dodici anni. Ha conseguito la laurea in Pittura presso l'Accademia delle Belle Arti di Firenze e successivamente la laurea in Psicologia Clinica alla facoltà di Scienze e Tecniche Psicologiche di Firenze. Nel 2017 ha organizzato corsi di gruppo di Arte(e)Terapia presso Cecina, in provincia di Livorno. Nel 2018 ha intrapreso un lungo viaggio in camper, durato otto mesi, nel quale ha sperimentato il percorso di conoscenza intima del "viaggiare da nomade". Con Europa Edizioni

pubblica il suo romanzo d'esordio Drabarni. Attualmente vive in provincia di Pisa, dove dipinge e lavora al suo secondo romanzo.

Chiromanzia - Arti divinatorie (Astrologia...)

L'astrologia è un complesso di credenze e tradizioni che ritiene che le posizioni e i movimenti dei corpi celesti rispetto alla Terra influiscano sugli eventi umani collettivi e individuali. Chi pratica l'astrologia è chiamato astrologo e la sua divinazione è chiamata oroscopo. Lo zodiaco è una fascia celeste divisa in 12 settori di 30 gradi ciascuno che si estende all'incirca per 8° da entrambi i lati dell'eclittica (il percorso apparente del Sole nel suo moto annuo) e comprendente anche i percorsi apparenti della luna e dei pianeti. I Tarocchi sono il metodo popolarmente più conosciuto di divinazione e predizione. Il mazzo dei Tarocchi è composto da un totale di 78 carte distribuite in due gruppi differenziati detti "Arcani": • Gruppo 1: "Arcani Maggiori": composto da 22 carte. • Gruppo 2: "Arcani Minori": composto da 56 carte. Gli Arcani Maggiori si riferiscono alle ventidue lettere dell'alfabeto ebraico, delle quali tre sono attribuite ai tre elementi attivi, sette ai pianeti (deve essere ricordato che la scoperta di Urano e Nettuno è piuttosto recente), e dodici ai segni dello Zodiaco. Gli arcani minori sono il secondo gruppo di carte dei tarocchi. Nei mazzi moderni sono 56 carte, divise in 4 semi: bastoni, coppe, denari e spade, trasformati nelle carte "francesi" rispettivamente in fiori, cuori, quadri e picche. I mazzetti di ogni seme sono costituiti da 14 carte suddivise in carte scoperte e carte coperte o figure. La chiromanzia è l'arte di descrivere la personalità e prevedere il destino di un individuo attraverso lo studio del palmo della sua mano. La chiromanzia, universalmente considerata una pseudoscienza, si divide in due discipline principali: la chirolologia, che si occupa dello studio delle linee del palmo, e la chiromanzia, che si occupa dello studio della forma della mano. Ci sono molte interpretazioni diverse delle linee della mano a seconda delle differenti scuole di chiromanzia, e i moderni chiromanti spesso combinano le tradizionali tecniche di preveggenza con la psicologia, la medicina olistica e altri metodi di divinazione.

La chirurgia nasce come lavoro manuale, esercitata dal medico ippocratico e poi, a partire dal Medioevo, dal barbiere in bottega o dal cerusico sui campi di battaglia. Appresa non attraverso i libri, ma per imitazione e ripetizione dei gesti, la chirurgia è cresciuta da quando l'esercitazione anatomica ha creato le premesse scientifiche per una operazione efficace sul corpo dei vivi. E' stata una pratica penalizzata per secoli dal dramma del dolore e dalla spada di Damocle dell'infezione. Ma con l'avvento di vari metodi e tecniche, fra cui l'anestesia, la chirurgia ha raggiunto i traguardi di oggi e la figura del chirurgo ha acquistato carisma e prestigio. Il libro narra questa lunga storia, dal mondo greco-romano ai nostri giorni, da pratica a clinica, intessuta di conquiste, di paure e di azzardi.
