#### How Rory Thorne Destroyed the Multiverse

"Princess Rory Thorne must use the fairy blessings gifted to her at birth to change the multiverse--or possibly destroy it--in the first book in a humorous new space opera duology. The Princess Rory Thorne--eldest daughter, amateur arithmancer, blessed by fairies--always imagined she'd inherit her father's throne and govern the interplanetary Thorne Consortium. Then her father is assassinated, her mother gives birth to a son, and Rory is betrothed to Prince Ivar of the Tadeshi Free Worlds as a peace offering. But when Rory arrives on the space station Urse, she uncovers a treacherous plot to unseat Ivar and usurp his throne... Vernor Moss, Minister of Energy in the Tadeshi Free Worlds, wants to be king. Having conspired to name himself Regent to the minor (and somewhat idiotic) prince, he anticipates that he will someday rule in all but name. But the Regent wasn't counting on Rory Thorne, a princess with thirteen fairy blessings, the most important of which is take no bullshit. With only her bodyguard and her arithmancer-Vizier, Rory must outmaneuver the Regent and rescue the Prince. But in order to succeed, she may just have to start a war...."--Provided by publisher.

#### Persepolis Rising

NOW A PRIME ORIGINAL TV SERIES *Persepolis Rising* is the seventh novel in the New York Times bestselling and Hugo-award winning Expanse series. In the thousand-sun network of humanity's expansion, new colony worlds are struggling to find their way. Every new planet lives on a knife-edge between collapse and wonder, and the crew of the ageing gunship *Rocinante* have their hands more than full keeping the fragile peace. In the vast space between Earth and Jupiter, the inner planets and the Belt have formed a tentative and uncertain alliance, still haunted by a history of wars and prejudices. On the lost colony world of *Laconia*, a hidden enemy has a new vision for all of humanity - and the power to enforce it. New technologies clash with old, as the history of human conflict returns to its ancient pattern of war and subjugation. But human nature is not the only enemy, and the forces being unleashed have their own price. A price that will change the shape of humanity - and of the *Rocinante* - unexpectedly and for ever . . . #### Caliban's War

NOW A PRIME ORIGINAL TV SERIES Caliban's War is the second book in the New York Times bestselling and Hugo-award winning Expanse series. For someone who didn't intend to wreck the solar system's fragile balance of power, Jim Holden did a pretty good job of it. While Earth and Mars have stopped shooting each other, the core alliance is shattered. The outer planets and the Belt are uncertain in their new - possibly temporary - autonomy. Then, on one of Jupiter's moons, a single super-soldier attacks, slaughtering soldiers of Earth and Mars indiscriminately and reigniting the war. The race is on to discover whether this is the vanguard of an alien army, or if the danger lies closer to home. A thousand worlds have opened, and the greatest land-rush in human history has begun. As wave after wave of colonists leave, the power structures of the old solar system begin to buckle. Ships are disappearing without a trace. Private armies are being secretly formed. The sole remaining protomolecule sample is stolen. Terrorist attacks previously considered impossible bring the inner planets to their knees. The sins of the past are returning to exact a terrible price. And as a new human order is struggling to be born in blood and fire, James Holden and the crew of the Rocinante must struggle to survive and get back to the only home they have left. ### Tiamat's Wrath

NOW A PRIME ORIGINAL TV SERIES Tiamat's Wrath is the eighth book in the New York Times bestselling and Hugo-award winning Expanse series. Thirteen hundred gates have opened to solar systems around the galaxy. But as humanity builds its interstellar empire in the alien ruins, the mysteries and threats grow deeper. In the dead systems where gates lead to stranger things than alien planets, Elvi Okoye begins a desperate search to discover the nature of a genocide that happened before the first human beings existed, and to find weapons to fight a war against forces at the edge of the imaginable. But the price of that knowledge may be higher than she can pay. At the heart of the empire,

Teresa Duarte prepares to take on the burden of her father's godlike ambition. The sociopathic scientist Paolo Cortázar and the Mephistophelian prisoner James Holden are only two of the dangers in a palace thick with intrigue, but Teresa has a mind of her own and secrets even her father the emperor doesn't guess. And throughout the wide human empire, the scattered crew of the Rocinante fights a brave rear-guard action against Duarte's authoritarian regime. Memory of the old order falls away, and a future under Laconia's eternal rule - and with it, a battle that humanity can only lose - seems more and more certain. Because against the terrors that lie between worlds, courage and ambition will not be enough . . . The Expanse is the biggest science fiction series of the last decade and is now a major TV series. ### The Vital Abyss

From a new star in horror fiction comes a terrifying novel of obsession, greed, and the shocking actions we'll take to protect those we love, all set in a small town filled with dark secrets. "If you like Grady Hendrix's novels, Clive Barker, or just a dash of Lovecraftian horror, you're going to love this one." — San Francisco Book Review Peter Larkin — Lark to his friends — is a local hero in the small town of Wofford Falls. The one who went to the big city, found fame in the art world, then returned home to settle down. He's the kind of guy who becomes fast friends with almost anyone. His sister, Betsy, is talented as well. And eccentric. Unlike Lark, she keeps to herself. When Lark meets with a fabulously rich client, it seems like a regular transaction. Even being met at the gate of the sprawling, secluded estate by an intimidating security guard seems normal. Until the guard plays him a live feed: Betsy being abducted in real time. Lark is informed that she's safe for now, but her well-being is entirely in his hands. He's given a book. Do what the book says, and Betsy will go free. "Marino draws readers in quickly, creating sympathy for the characters, unveiling the necessary details to immerse them in a world of art, siblings, deadly intrigue, and a centuries-long nefarious quest. Dread is present from the start, but it quickly escalates into a disorienting cosmic terror that touches everyone." — Booklist "Marino offers horrors both existential and visceral." — M. R. Carey, author of *The Girl with All the Gifts*, on *The Seven Visitations of Sydney Burgess* "Dark and fascinating . . . Not quite like anything I've ever read before. A strange, compelling, late-night page-turner. It kept me reading way past my bedtime." —T. Kingfisher, author of *The Hollow Places*, on *The Seven Visitations of Sydney Burgess* Also by Andy Marino: *The Seven Visitations of Sydney Burgess*

### Razor's Edge: Star Wars Legends

Some call it purgatory, others know it as the in-between, but for those poor souls who are trapped there eternally, it is simply The Carnival -- a macabre mockery where night is never-ending, and a sadistic creature known as The Fool reigns unchallenged. And The Fool has one rule: No one leaves The Carnival. Ever. Christopher, the latest arrival thrust reluctantly through the gates, is certain that he doesn't belong there, and he's damn sure he's not staying. But if he's to stand any chance of getting out, he's going to have to trust a girl who can't possibly be what she claims. With her help, he must confront not only The Fool, but his own dark past. ---WHAT READERS ARE SAYING: "A wild ride that urges you to consume the words as quickly as your brain can process." "I didn't know a book so macabre could

be such a fun read." "The Carnival of Night is an excellent piece of modern fiction that is reminiscent of Ray Bradbury's *Something Wicked this way comes*."

#### Vengeance Bound

"A healthy dose of action, a strong thread of humor and just a touch of romance" (*VOYA*, starred review). A teen who is half-god, half-human must own her power whether she likes it or not in this snappy, snarky novel with a serving of smoldering romance that *Kirkus Reviews* calls "a dark, slyly funny read." Zephyr Mourning has never been very good at being a Harpy. She'd rather watch reality TV than learn forty-seven ways to kill a man, and she pretty much sucks at wielding magic. Zephyr was ready for a future pretending to be a normal human instead of a half-god assassin. But all that changed when her sister was murdered—and Zephyr used a forbidden dark power to save herself from the same fate. On the run from a punishment worse than death, an unexpected reunion with a childhood friend upends Zephyr's world—and not only because her old friend has grown surprisingly, extremely hot. It seems that Zephyr might just be the Nyx, a dark goddess that is prophesied to shift the power balance: for hundreds of years the half-gods have lived in fear, and Zephyr is supposed to change that. But how is she supposed to save everyone else when she can barely take care of herself?

#### The Law of Nations; Or, Principles of the Law of Nature, Applied to the Conduct and Affairs of Nations and Sovereigns

Koba the Dread is the successor to Amis's celebrated memoir, Experience. It addresses itself to the central lacuna of twentieth-century thought: the indulgence of communism by Western intellectuals. In between the personal beginning and the personal ending, Amis gives us perhaps the best one hundred pages ever written about Stalin: Koba the Dread, Iosif the Terrible. The author's father, Kingsley Amis, was 'a Comintern dogsbody' (as he would come to put it) from 1941 to 1956. His second-closest, and later in life his closest friend, was Robert Conquest, whose book The Great Terror was second only to Solzhenitsyn's The Gulag Archipelago in undermining the USSR. Amis's remarkable memoir explores these connections. Stalin said that the death of one person was tragic, the death of a million a mere 'statistic'. Koba the Dread, during whose course the author absorbs a particular, a familial death, is a rebuttal of Stalin's aphorism.

Or can you see the potential for a more stimulating future as a result of having so much extra time? Many of us have been raised on the traditional notion of a three-stage approach to our working lives: education, followed by work and then retirement. The unfinished manuscript of The First Man was discovered in the wreckage of car accident in which Camus died in 1960. Although it was not published for over thirty years, it was an instant bestseller when it finally appeared in 1994. The 'first man' is Jacques Cormery, whose poverty-stricken childhood in Algiers is made bearable by his love for his silent and illiterate mother, and by the teacher who transforms his view of the world. The most autobiographical of Camus's novels, it gives profound insights into his life and the powerful themes underlying his work.

## The 100-Year Life

The ancestors have awakened. Somebody has called them. The long-dead are stirring. Jah ways are mysterious ways. “Is me—Bob. Bob Marley.” Reincarnated as homeless Fall-down man, Bob Marley sleeps in a clock tower built on the site of a lynching in Half Way Tree, Kingston. The ghosts of Marcus Garvey and King Edward VII are there too, drinking whiskey and playing solitaire. No one sees that Fall-down is Bob Marley, no one but his long-ago love, the deaf woman, Leenah, and, in the way of this otherworldly book, when Bob steps into the street each day, five years have passed. Jah ways are mysterious ways, from Kingston’s ghettos to London, from Haile Selassie’s Ethiopian palace and back to Jamaica, Marcia Douglas’s mythical reworking of three hundred years of violence is a ticket to the deep world of Rasta history. This amazing novel—in bass riddim—carries the reader on a voyage all the way to the gates of Zion.

## The Marvellous Equations of the Dread: A Novel in Bass Riddim

AN OBSERVER BOOK OF THE YEAR ‘That night Stasia took an oath, swearing to learn the recipe by heart and destroy the paper. And when she was lying in her bed again, recalling the taste with all her senses, she was sure that this secret recipe could heal wounds, avert catastrophes, and bring people happiness. But she was wrong.’ At the start of the twentieth century, on the edge of the Russian Empire, a family prospers. It owes its success to a delicious chocolate recipe, passed down the generations with great solemnity and caution. A caution which is justified: this is a recipe for ecstasy that carries a very bitter aftertaste ... Stasia learns it from her Georgian father and takes it north, following her new husband, Simon, to his posting at the centre of the Russian Revolution in St Petersburg. Stasia’s is only the first in a symphony of grand but all too often doomed romances that swirl from sweet to sour in this epic tale of the red century. Tumbling down the years, and across vast expanses of longing and loss, generation after generation of this compelling family hears echoes and sees reflections. Great characters and greater relationships come and go and come again; the world shakes, and shakes

some more, and the reader rejoices to have found at last one of those glorious old books in which you can live and learn, be lost and found, and make indelible new friends.

### Carmina

Aeneas appears in The Illiad in vague snatches and starts as a traveling warrior of great piety who was loosely connected to the foundation of Rome. Virgil weaves these fragments into a powerful myth about the founding of Rome in The Aeneid. Aeneas travels from his native Troy to Italy then wages victorious war upon the Latins.

### The Eighth Life

In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest. In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision-that command of the air is all important in modern warfare-has

been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

### The Aeneid

Originally published in 1941, Arthur Koestler's modern masterpiece, "Darkness At Noon," is a powerful and haunting portrait of a Communist revolutionary caught in the vicious fray of the Moscow show trials of the late 1930s. During Stalin's purges, Nicholas Rubashov, an aging revolutionary, is imprisoned and psychologically tortured by the party he has devoted his life to. Under mounting pressure to confess to crimes he did not commit, Rubashov relives a career that embodies the ironies and betrayals of a revolutionary dictatorship that believes it is an instrument of liberation. A seminal work of twentieth-century literature, "Darkness At Noon" is a penetrating exploration of the moral danger inherent in a system that is willing to enforce its beliefs by any means necessary.

### Troubled Blood

The Hebrides hold a remarkable place in the imaginations of Scotland and England. On the outer edge of the British Isles and facing the Atlantic Ocean, these iconic islands form part of Europe's boundary. Because of their unique position, they have been at the centre of a network of ancient shipping routes which has led to a history of cultures colliding and merging. Home to a long and rich Gaelic tradition, they have attracted saints and sinners, and artists and writers, inspiring awe and dread as well as deep attachment. Over six years, Madeleine Bunting travelled to the Hebrides, exploring their landscapes, histories and magnetic pull. With great sensitivity and perceptiveness, she delves into the meanings of home and belonging, which in these islands have been fraught with tragedy as well as tenacious resistance. She finds that their history of dispossession and migration played a part in the British imperial past. And perhaps more significant still is the extent of the islands' influence on ideas of Britishness. *Love of Country* shows how the islands' history is a backdrop for contemporary debates about the relationship between our nations, how Britain was created, and what Britain has meant - for good and for ill.

### The City's Son

John Ross has been living in the old colonial quarter of Mexico City for the last three decades, a rebel journalist covering Mexico and the region from the bottom up. He is filled with a gnawing sense that his beloved Mexico City's days as the most gargantuan, chaotic, crime-ridden, toxically contaminated urban stain in the western world are doomed, and the monster he has grown to know and love through a quarter century of reporting on its foibles and tragedies and blight will be globalized into one more McCity. *El Monstruo* is a defense of place and the history of that place. No one has told the gritty, vibrant histories of this city of 23 million faceless souls from the ground up, listened to the stories of those who have not been crushed, deconstructed the Monstruo's very monstrosity, and lived to tell its secrets. In *El Monstruo*, Ross now does.

### Command Of The Air

Of all the countries in the world, England has the richest history of magical lore and practice. English authors such as J.R.R. Tolkien, C.S. Lewis, Terry Pratchett, and J.K. Rowling, dominate the world of magic in fiction, but from the earliest times, England has also acted as home to generations of eccentrics and scholars who have researched and explored every conceivable kind of occult art. Most people are torn between a fascination with magic and an almost instinctive fear of the occult, of a world redolent with superstition and illusion. And yet more people now practice magic in England than at any time in her history. *The Book of English Magic* explores this hidden story, from its first stirrings to our present-day fascination with all things magical. Along the way readers are offered a rich menu of magical things to do and places to visit.

### Darkness at Noon

The author of the visionary New York Times bestseller *Dread Nation* returns with another spellbinding historical fantasy set at the crossroads of race and power in America. It is 1937, and Laura Ann Langston lives in an America divided--between those who work the mystical arts and those who do not. Ever since the Great Rust, a catastrophic event that blighted the arcane force called the Dynamism and threw America into disarray, the country has been rebuilding for a better future. And everyone knows

the future is industry and technology--otherwise known as Mechomancy--not the traditional mystical arts. Laura disagrees. A talented young queer mage from Pennsylvania, Laura hopped a portal to New York City on her seventeenth birthday with hopes of earning her mage's license and becoming something more than a rootworker. But four months later, she's got little to show for it other than an empty pocket and broken dreams. With nowhere else to turn, Laura applies for a job with the Bureau of the Arcane's Conservation Corps, a branch of the US government dedicated to repairing the Dynamism so that Mechomancy can thrive. There she meets the Skylark, a powerful mage with a mysterious past, who reluctantly takes Laura on as an apprentice. As they're sent off on their first mission together into the heart of the country's oldest and most mysterious Blight, they discover the work of mages not encountered since the darkest period in America's past, when Black mages were killed for their power--work that could threaten Laura's and the Skylark's lives, and everything they've worked for.

### Love of Country

THE MIND-BENDING CULT CLASSIC ABOUT A HOUSE THAT'S LARGER ON THE INSIDE THAN ON THE OUTSIDE • A masterpiece of horror and an astonishingly immersive, maze-like reading experience that redefines the boundaries of a novel. "Simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —Michiko Kakutani, *The New York Times* "Thrillingly alive, sublimely creepy, distressingly scary, breathtakingly intelligent—it renders most other fiction meaningless." —Bret Easton Ellis, bestselling author of *American Psycho* "This demonically brilliant book is impossible to ignore." —Jonathan Lethem, award-winning author of *Motherless Brooklyn* Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth—musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies—the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices, the story remains unchanged. Similarly, the cultural fascination with *House of Leaves* remains as fervent and as imaginative as ever. The novel has gone on to inspire doctorate-level courses and masters theses, cultural phenomena like the online urban legend of "the backrooms," and incredible works of art in entirely unrealized mediums from music to video games. Neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of the impossibility of their new home, until the day their two little children wandered off and their voices eerily began to return another story—of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

### The Book of English Magic

Haderlap is an accomplished poet, and that lyricism leaves clear traces on this ravishing debut, which won the prestigious Bachmann Prize in 2011. The descriptions are sensual, and the unusual similes

and metaphors occasionally change perspective unexpectedly. Angel of Oblivion deals with harrowing subjects - murder, torture, persecution and discrimination of an ethnic minority - in intricate and lyrical prose. The novel tells the story of a family from the Slovenian minority in Austria. The first-person narrator starts off with her childhood memories of rural life, in a community anchored in the past. Yet behind this rural idyll, an unresolved conflict is smouldering. At first, the child wonders about the border to Yugoslavia, which runs not far away from her home. Then gradually the stories that the adults tell at every opportunity start to make sense. All the locals are scarred by the war. Her grandfather, we find out, was a partisan fighting the Nazis from forest hideouts. Her grandmother was arrested and survived Ravensbrück. As the narrator grows older, she finds out more. Through conversations at family gatherings and long nights talking to her grandmother, she learns that her father was arrested by the Austrian police and tortured - at the age of ten - to extract information on the whereabouts of his father. Her grandmother lost her foster-daughter and many friends and relatives in Ravensbrück and only escaped the gas chamber by hiding inside the camp itself. The narrator begins to notice the frequent suicides and violent deaths in her home region, and she develops an eye for how the Slovenians are treated by the majority of German-speaking Austrians. As an adult, the narrator becomes politicised and openly criticises the way in which Austria deals with the war and its own Nazi past. In the closing section, she visits Ravensbrück and finds it strangely lifeless - realising that her personal memories of her grandmother are stronger. Illuminating an almost forgotten chapter of European history and the European present, the book deals with family dynamics scarred by war and torture - a dominant grandmother, a long-suffering mother, a violent father who loves his children but is impossible to live with. And interwoven with this is compelling reflection on storytelling: the narrator hoping to rid herself of the emotional burden of her past and to tell stories on behalf of those who cannot. From the Trade Paperback edition.

## Clear Seeing Place

A companion to the popular YouTube series "Brian Rutenberg Studio Visits" and a love letter to painting, written by a painter.

## A Little Long Time

Nine critically acclaimed cartoonists and graphic novelists invite us into their studios to discuss their art and inspirations. These studio visits with some of today's most popular and innovative comic artists present an unparalleled look at the cutting edge of the comic medium. The artists, some of whom rarely grant interviews, offer insights into the creative process, their influences and personal sources of inspiration, and the history of comics. The interviews amount to private gallery tours, with the artists commenting, now thoughtfully, now passionately, on their own work as well as the works of others. The book is generously illustrated with full-color reproductions of the artists' works, including some that have been published and others not originally intended for publication, such as sketchbooks and personal projects. Additional illustrations show behind-the-scenes working processes of the cartoonists and particular works by others that have influenced or inspired them. Through the eyes of these artists, we see with a new clarity the achievement of contemporary cartoonists and the extraordinary possibilities of comic art.

## In the Studio

Foreword by Gregory Amenoff. Text by Martica Sawin.

## Brian Rutenberg

Inside an art gallery, it is easy to forget that the paintings there are the end products of a process involving not only creative inspiration, but also plenty of physical and logistical details. It is these "cruder," more mundane aspects of a painter's daily routine that motivated Brooklyn artist Joe Fig to embark almost ten years ago on a highly unorthodox, multilayered exploration of the working life of the professional artist. Determined to ground his research in the physical world, Fig began constructing a series of diorama-like miniature reproductions of the studios of modern art's most legendary painters, such as Jackson Pollock and Willem de Kooning. A desire for firsthand references led Fig to approach contemporary artists for access to their studios. Armed with a camera and a self-made "Artist's Questionnaire," Fig began a journey through the workspaces of some of today's most exciting contemporary artists.

## Inside the Painter's Studio

In December 2003 the painter Jack Vettriano, a coalminer's son, met his parents off the train from Scotland on his way to collect an OBE. Over the last few years Vettriano has had a meteoric rise to fame – emerging from the unlikely background of the Scottish coalfields, unknown and untutored, he has become Scotland's most successful and controversial contemporary artist. Appearing on posters and cards, mugs and umbrellas, prints of his work outsell Van Gogh, Dali and Monet and his paintings have been acquired by celebrities around the world. 'The Singing Butler', Britain's most reproduced painting, fetched a record £744,800 at auction in April 2004. Vettriano's images have an often mysterious narrative and are a gateway to an alluring yet sinister world. Daylight scenes of heady optimism, painted against backdrops of beaches and racetracks, are counterbalanced by more disquieting canvases of complex night-time liaisons in bars and clubs, bedrooms and ballrooms. Both sexes are clearly styled – the men hard-edged and mysterious, the women seductive and enigmatic. Yet beneath the confident posturing, Vettriano recognizes our inherent human frailty, that there is no victor in the struggle between

duplicity and desire. Men and women are ultimately trapped by the machinations of intense love and passion with little control over their destiny. 'Jack Vettriano' presents about thirty new images, as well as some recently surfaced works, plus the best of the paintings previously published in 'Lovers and Other Strangers' and 'Fallen Angels', also by Pavilion. In March 2004 Melvin Bragg's The South Bank Show broadcast a programme dedicated to Jack entitled Jack Vettriano: The People's Painter. Reissued in smaller user-friendly format.

#### Jack Vettriano: A Life

With this book you can discover how to unlock your latent creativity and make your dreams a reality. It provides a 12-week course that guides you through the process of recovering your creative self.

#### The Artist's Way

Slow Painting presents the work of 19 primarily British and UK-based artists whose work explores ideas around the concept of 'slowness' and what it might mean in relation to contemporary painting: how it might be present in the making of the work, how the works reveal themselves slowly, and how they fit into the continuum of art history. Acting as a counterbalance to an increasingly accelerating world, painting offers a space of pause, contemplation and gradual unfurling, for both the painter and the viewer. Spanning diverse approaches, from figuration to abstraction and somewhere in between, Slow Painting surveys painting's role as a rewarding repository of time. With an original essay by curator and writer Martin Herbert, this publication also includes a roundtable discussion between a number of the artists and art critic Hettie Judah. Artists' Letters is a treasure trove of carefully selected letters written by great artists, providing the reader with a unique insight into their characters and a glimpse into their lives. Arranged thematically, it includes writings and musings on love, work, daily life, money, travel and the creative process. On the theme of friendship, for example, letters provide evidence of a creative community between peers, with support and mutual appreciation that helps to dispel the myth of the artist as solitary genius. Letters between Vincent van Gogh and Paul Gauguin show an ongoing conversation and exchange of ideas. We see mutual admiration between Claude Monet and Berthe Morisot, and Picasso's quick notes to Jean Cocteau illustrate their closeness. Correspondence, some of which includes sketches and drawings, is reproduced with the transcript and some background and contextual information alongside. The book brings together a collection of treasures found in letters, which in our digital age are an increasingly lost art.

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Abstract landscape painting expresses emotion while still capturing the essence of a landscape. This compelling book explores this suggestive style first developed by Turner. Using the hauntingly-beautiful paintings of Gareth Edwards, it explores the technical, historical and psychological dimensions of abstract landscape painting to help you develop your own skilful and intensely personal approach. Through this new book you can learn about how to begin an abstract landscape painting, using chance application; understand how to 'manage accidents' to create innovative pieces of work; discover the importance of effective composition and how this navigates the viewer's journey; determine the importance of the 'invisible' elements of painting: the unspoken value of the viewer and the influence of 'looking'. It also reveals how to utilize a convergence of linear and atmospheric perspective to help your viewer traverse the picture plane and helps you understand the importance of light, space, colour, and tone in generating evocative paintings. Finally, it encourages you to be more demanding of your surface, using textural techniques and glazing to achieve professional production values. It is a unique and exciting book into this under-documented genre.

"Friendship, loss and the everyday populate Packer's canvases, full of disquieting detail." -Adrian Searle, *The Guardian* Through a uniquely textural style of oil painting that evokes the fluidity of watercolors, Jennifer Packer recasts classical genres in a fresh political and contemporary light while keeping them rooted in a deeply personal context. Combining observation, improvisation and memory, Packer's intimate portraits of friends and family members and flower paintings insist on the particularity of the Black lives she depicts. The title of this volume refers to an ecclesiastical description of the insatiable human quest for divine knowledge; with this in mind, Packer's work urges viewers to understand and appreciate the unique dimensions of Black lives beyond just the physical. Richly illustrated, this volume includes texts by fellow painters Dona Nelson and Lynette Yiadom-Boakye, professors Rizvana Bradley and Christina Sharpe, and an interview between the artist and Serpentine Artistic Director Hans Ulrich Obrist. American painter Jennifer Packer (born 1984) grew up in Philadelphia and received her MFA from Yale University in 2012. She was formerly the Artist-in-Residence at the Studio Museum in Harlem (2012-13) and a Visual Arts Fellow at the Fine Arts Work Center in Provincetown, MA (2014-16). She currently works as an assistant professor of painting at the Rhode Island School of Design. Packer is represented by Sikkema Jenkins & Co in New York City, where the artist lives.

In this day and age, when art has become more of a commodity and art school graduates are convinced that they can only make a living from their work by attaining gallery representation, it is more important than ever to show the reality of how a professional, contemporary artist sustains a creative practice over time. The forty essays collected in *Living and Sustaining a Creative Life* are written in the artists' own voices and take the form of narratives, statements, and interviews. Each story is different and unique, but the common thread is an ongoing commitment to creativity, inside and outside the studio. Both day-to-day and big picture details are revealed, showing how it is possible to sustain a creative practice that contributes to the ongoing dialogue in contemporary art. These stories will inform and inspire any student, young artist, and art enthusiast and will help redefine what "success" means to a professional artist.

### Living and Sustaining a Creative Life

Everyone talks about style, but no one explains it. The authors of this book do; and in doing so, they provoke the reader to consider style, not as an elegant accessory of effective prose, but as its very heart. At a time when writing skills have virtually disappeared, what can be done? If only people learned the principles of verbal correctness, the essential rules, wouldn't good prose simply fall into place? Thomas and Turner say no. Attending to rules of grammar, sense, and sentence structure will no more lead to effective prose than knowing the mechanics of a golf swing will lead to a hole-in-one. Furthermore, ten-step programs to better writing exacerbate the problem by failing to recognize, as Thomas and Turner point out, that there are many styles with different standards. In the first half of *Clear and Simple*, the authors introduce a range of styles--reflexive, practical, plain, contemplative, romantic, prophetic,

and others--contrasting them to classic style. Its principles are simple: The writer adopts the pose that the motive is truth, the purpose is presentation, the reader is an intellectual equal, and the occasion is informal. Classic style is at home in everything from business memos to personal letters, from magazine articles to university writing. The second half of the book is a tour of examples--the exquisite and the execrable--showing what has worked and what hasn't. Classic prose is found everywhere: from Thomas Jefferson to Junichirō Tanizaki, from Mark Twain to the observations of an undergraduate. Here are many fine performances in classic style, each clear and simple as the truth. Originally published in 1994. **AN INSTANT NEW YORK TIMES BESTSELLER** In *Cork Dork*, Bianca Bosker trained her insatiable curiosity, journalist's knack for infiltrating exclusive circles and eye for unforgettable characters on the wine world as she trained to become a sommelier. Now she brings her whip-smart yet accessible sensibility along for a ride through another subculture of elite obsessives. In *Get the Picture*, Bosker plunges deep inside the world of art and the people who live for it: gallerists, collectors, curators and, of course, artists themselves - the kind who work multiple jobs and let their paintings sleep soundly in the studio while they wake up covered in cat pee on a friend's couch. As she stretches canvases until her fingers blister, talks her way into A-list parties full of billionaire collectors, has her face sat on by a nearly naked performance artist and forces herself to stare at a single sculpture for an hour straight while working as a museum security guard, she discovers not only the inner workings of the art-canonization machine but also a more expansive way of living. Encompassing everything from colour theory to evolutionary biology, and from ancient cave paintings to Instagram as it attempts to discern art's role in our culture, our economy and our hearts, *Get the Picture* is a rollicking adventure that will change the way you see forever.

What was your earliest childhood artwork that received recognition? When did you first consider yourself a professional artist? How has your studio's location influenced your work? How do you choose titles? Do you have a favorite color? Joe Fig asked a wide range of celebrated artists these and many other questions during the illuminating studio visits documented in *Inside the Artist's Studio*—the follow-up to his acclaimed 2009 book, *Inside the Painter's Studio*. In this remarkable collection, twenty-four painters, video and mixed-media artists, sculptors, and photographers reveal highly idiosyncratic production tools and techniques, as well as quotidian habits and strategies for getting work done: the music they listen to; the hours they keep; and the relationships with gallerists and curators, friends, family, and fellow artists that sustain them outside the studio.

The definitive, must-have guide to pursuing an art career—the fully revised and updated edition of *Art/Work*, now in its fourteenth printing, shares the tools artists of all levels need to make it in this highly competitive field. Originally published in 2009, *Art/Work* was the first practical guide to address how artists can navigate the crucial business and legal aspects of a fine art career. But the rules have changed since then, due to the proliferation of social media, increasing sophistication of online platforms, and ever more affordable digital technology. Artists have never had to work so hard to distinguish themselves—including by making savvy decisions and forging their own paths. Now Heather Bhandari, with over fifteen years of experience as a director of the popular Chelsea gallery *Mixed Greens*, and Jonathan Melber, a former arts/entertainment lawyer and director of an art e-commerce startup, advise a new generation of artists on how to make it in the art world. In this revised and updated edition, Bhandari and Melber show artists how to tackle a host of new challenges. How do you diversify income streams to sustain a healthy art practice? How can you find an alternative to the gallery system? How do you review a license agreement? What are digital marketing best practices? Also included are new quotes from over thirty arts professionals, updated commission legal templates, organizational tips, tax information, and advice for artists who don't make objects. An important resource for gallerists,

dealers, art consultants, artist-oriented organizations, and artists alike, Art/Work is the resource that all creative entrepreneurs in the art world turn to for advice.

Transcendence is the long-awaited, career-spanning monograph of American landscape painter Richard Mayhew. For over half a century, Richard Mayhew has been reinventing the genre of landscape painting. His luminous work evokes not only physical vistas but also emotions, sounds, and the pure experience of color. He's known for his masterful use of color and for his unique creative process, inspired by improvisational jazz, which involves pouring paint directly onto the canvas and shaping it into lush, emotional "moodscapes." • This monograph features 70+ of his most striking works. • Includes an exclusive interview with the artist, an introduction by his gallerist Mikaela Sardo Lamarche, and an essay by Andrew Walker, director of the Amon Carter Museum of American Art • Through engaging with his work, readers are invited into deep explorations of their own inner landscapes. Transcendence is a richly rewarding celebration of an iconic artist that will make you rethink everything you know about landscape painting. Mayhew's distinctive style emerges from his roots as a jazz musician, his immersion in the Abstract Expressionist movement, his African American, Cherokee, and Shinnecock heritage, and his unique affinity for the landscapes of the American West—but his paintings transcend boundaries of location and identity. • Great for lovers of fine art, landscape painting, Abstract Expressionism, as well as those who are interested in the intersection of art, music, and emotion • A lush celebration of Richard Mayhew's work, and an ideal introductory book for new fans • Add it to the collection of books like Abstract Expressionism by Carter Ratcliff, Jeremy Lewison, Susan Davidson, and David Anfam; California Landscapes: Richard Diebenkorn / Wayne Thiebaud by John Yau; and The Art of Richard Mayhew: A Critical Analysis with Interviews by Janet Berry Hess.

"Millions of readers and viewers have benefited from his experience [and] will welcome this behind-the-scenes look into his life . . ." — Anna Jedrziwski, Retailing Insight magazine For many years, Dr. Wayne W. Dyer's fans have wondered when he would write a memoir. Well, after four decades as a teacher of self-empowerment and the best-selling author of more than 40 books, Wayne has finally done just that! However, he has written it in a way that only he can—with a remarkable take-home message for his longtime followers and new readers alike—and the result is an exciting new twist on the old format. Rather than a plain old memoir, Wayne has gathered together quantum-moment recollections. In this revealing and engaging book, Wayne shares dozens of events from his life, from the time he was a little boy in Detroit up to present day. In unflinching detail, he relates his vivid impressions of encountering many forks in the road, taking readers with him into these formative experiences. Yet then he views the events from his current perspective, noting what lessons he ultimately learned, as well as how he has made the resulting wisdom available to millions via his lifelong dedication to service. As a reader, you will feel as if you are right there with Wayne, perusing his personal photo album and hearing about his family, his time in the service, how he writes his best-selling books, and so much more. In the process, you'll be inspired to look back at your own life to see how everything you have experienced has led you to where you are right now. Wayne has discovered that there are no accidents. Although we may not be aware of who or what is "moving the checkers," life has a purpose, and each step of our journey has something to teach us. As he says, "I wasn't aware of all of the future implications that these early experiences were to offer me. Now, from a position of being able to see much more clearly, I know that every single encounter, every challenge, and every situation are all spectacular threads in

the tapestry that represents and defines my life, and I am deeply grateful for all of it." *I Can See Clearly Now* is an intimate look at an amazing teacher, but it also holds the key for seekers on a personal path of enlightenment. Wayne offers up his own life as an example of how we can all recognize the hand of the Divine steering our individual courses, helping us accomplish the mission we came here to fulfill.

### I Can See Clearly Now

"Like nature, only better. Nature with all the awkward bits smoothed out. And then picturesque, like a landscape painting," states Jim Lewis' protagonist, defining an English garden in Cecily Brown's newest book of paintings. An imaginative pas de deux, *The English Garden* sees British painter Brown (born 1969) and American writer Lewis (born 1963) contribute acutely detailed and darkly sensuous allusions to the traditional 18th-century English landscape garden. Thirty-nine of Brown's paintings are interspersed throughout this compact hardcover publication as tipped-in images. The largely abstract works, with glimpses of figurative elements, are a dichotomy of warm and subdued strokes of color, each containing an expansive landscape unto itself. Novelist and critic Jim Lewis' story transports the reader to the English countryside and investigates the seductive pull of the natural world in tandem with Brown's paintings. Combining two major voices in contemporary literature and painting, this volume is a truly gorgeous production.

THE EXPANDED EDITION 'Just might be the best business book ever written' *Forbes Magazine* 'This book should be required reading for any manager' Charles Duhigg 'Full of detail about an interesting, intricate business' *The Wall Street Journal*

The co-founder and longtime president of Pixar updates and expands upon his 2014 New York Times bestseller on creative leadership, reflecting on the management principles used to build Pixar's singularly successful culture, including all he learned in the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. For nearly twenty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story quartet, *Finding Nemo*, *The Incredibles*, *Up*, and *WALL-E*, which have gone on to set box-office records and garner thirty Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph. D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter. A mere nine years later, *Toy Story* was released, changing animation forever. The essential ingredient in that movie's success-and in the movies that followed-was the unique environment that Catmull and his colleagues built at Pixar. Creativity, Inc. has been expanded to illuminate the continuing development of the unique culture at Pixar. Featuring a new introduction,

two entirely new chapters, four new chapter postscripts, and new reflections at the end, this updated edition details how Catmull built a culture that doesn't just pay lip service to the importance of things like honesty, communication, and originality, but commits to them. Pursuing excellence isn't a one-off assignment, but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done. \_\_\_\_\_ Readers love Creativity, Inc. 'Incredibly inspirational' 'Great book. Wish I could give it more than 5 stars' 'Honestly, one of the best books I've read in a long time' 'Read it and read it again, then read it again and then again' 'Great book!! Fantastic read'

William Morris and his Palace of Art is a comprehensive new study of Red House, Bexleyheath; the only house commissioned by William Morris and the first independent architectural work of his close friend, Philip Webb. Morris moved in to Red House as an ebullient young man of 26, with an independent income and a head brimming with ideas and the persistent question of 'how best to live? Red House, together with its Pre-Raphaelite garden, stands as the physical embodiment of his exuberant spirit, youthful ambition, passionate medievalism, creativity and great sense of possibility. For five intense years from 1860–5, it was a place of halcyon days – happy family life, loyal friendship, good humoured competition, and the jovial campaign of decorating; furnishing the house and designing the garden. Drawing on a wealth of new physical evidence, this book argues that Red House constitutes an ambitious and critical chapter in his design history. It will re-consider the inspiration it provided for the founding of 'the Firm' of Morris, Marshall, Faulkner & Co. (later Morris & Co.), in 1861, and the vital collaboration of Webb, Burne-Jones, Rossetti and their intimate circle in realising Morris's dream for his house.

Now available in a newly revised and expanded edition, this book offers the definitive critical examination of one of America's most celebrated living artists. Chuck Close reinvented portraiture more than four decades ago with a series of nine-foot-tall, black-and-white likenesses of himself and fellow artists, which astonished an art world dominated by Minimalism and Conceptualism. Close has since explored the possibilities implicit in his original breakthrough in an array of media. This lavish, large-format volume deals with all aspects of Close's career and places them in a biographical context. Christopher Finch's insight into Close's achievement comes by way of hundreds of studio visits and thousands of hours of conversation since he met Close in 1968. The author provides an engaging, in-depth analysis of Close's portraits on canvas, from the continuous-tone airbrushed heads of the 1960s and 1970s to the painterly "prismatic grids" of the past decades. Featuring 365 illustrations, the book surveys almost all of Close's paintings, including his most recent work, together with a selection of prints and multiples and examples of his photographic oeuvre. This beautifully designed volume reveals not only the variety

of pictorial strategies Close has devised, but also the extraordinary personality of the artist behind the work.

An Audience of Artists turns this time line for the postwar New York art world on its head, presenting a new pedigree for these artistic movements. Drawing on an array of previously unpublished material, Catherine Craft reveals that Neo-Dada, far from being a reaction to Abstract Expressionism, actually originated at the heart of that movement's concerns about viewers, originality, and artists' debts to the past and one another. Furthermore, she argues, the original Dada movement was not incompatible with Abstract Expressionism. In fact, Dada provided a vital historical reference for artists and critics seeking to come to terms with the radical departure from tradition that Abstract Expressionism seemed to represent. Tracing the activities of artists such as Robert Motherwell, Barnett Newman, and Jackson Pollock alongside Marcel Duchamp's renewed embrace of Dada in the late 1940s, Craft explores the challenges facing artists trying to work in the wake of a destructive world war and the paintings, objects, writings, and installations that resulted from their efforts."--Jacket.

Actions reflects the energising diversity and breadth of art in the modern and contemporary period within the UK and internationally. Bringing together work across a variety of forms and media made by artists of different generations from the emerging to the renowned, the exhibition features work by 38 artists including nine new commissions by Rana Begum, Jeremy Deller, eL Seed, Idris Khan, Issam Kourbaj, Harold Offeh, Melanie Manchot, Cornelia Parker and Caroline Walker.
