Time and Chance

Excerpt from Time and Chance: A Romance and a History; Being the Story of the Life of a Man In the northeastern corner of the State of Ohio is a little space of territory, about sixty-five miles square, known as the Western Reserve. In Congressional proceedings, especially when the tariff is up for discussion, one hears much of this little tract. On questions of wool and dairy products it seems as though nothing can be done without consulting the people of the Western Reserve, and the rate on steel rails cannot be safely raised or lowered until this peculiar people has been interviewed. And when one considers the fact that this little corner has supplied one president, several statesmen, and the man who, Victor Hugo

says, precipitated the Civil War, it does seem as if the Western Reserve wielded an influence quite out of proportion to its insignificant dimensions. In the year 1800 all that vast territory west of Pennsylvania and north of the Ohio River, stretching through to the Mississippi, was known as the Northwestern Territory. Certain States, that had supplied a contingent of soldiers to clear this region of the French and hostile Indians, made claim to the soil, and there seemed danger that serious differences would arise. Historical Figures in Nineteenth Century Fiction

THE REMARKABLE LIFE OF PETER TOWNSEND, THE MAN CONSIDERED TO BE THE GREAT LOVE OF PRINCESS MARGARET'S LIFE, EQUERRY TO KING GEORGE VI AND HERO OF THE BATTLE OF BRITAIN. 'A Royal fairy tale' Sunday Telegraph 'One of the saddest love stories of modern times' The Scotsman 'One afternoon, at Windsor Castle, when everyone had gone to London for some ceremony, we talked, in the red drawing-room, for hours - about ourselves. It was then that we made the mutual discovery of how much we meant to one another. She listened, without uttering a word, as I told her, very quietly, of my feelings. Then she simply said: "That is exactly how I feel, too." It was, to us both, an immensely gladdening disclosure, but one which sorely troubled us.' The romance between Princess Margaret and Group Captain Peter Townsend in the 1950s rocked the British Establishment, pulled at the heartstrings of a nation and brought sorrow to two intensely human individuals. In *Time and Chance*, Peter Townsend tells his side of the story in intensely personal terms, and places the episode within the whole context of his full and varied life, a story which includes great heroism in World War II as well as his part in one of the most publicised love stories of the twentieth century.

The Critic

On the day she and her mother escaped her cruel father, Emma Washington vowed to never fall in love. Now, Emma is a back-to-school PhD student with bigger and better things to worry about. That is, until one night, exhausted, slightly tipsy, and on her way home from a party, the glaring white light of a car comes crashing toward her, changing her life forever. Instead of waking up in a 21st-century hospital, she finds herself waking up in the backwaters of London, England, 1881... Trapped in a time where everything she once knew is considered witchcraft, Emma discovers that Victorian London is a harsh world for a woman without wealth or status. She faces yet another life-changing twist when she learns her only chance of survival depends on the very thing she has tried to avoid her whole life-marriage. As if that isn't bad enough, she must betroth herself to none other than the most powerful duke in all of

England, the notorious and feared Lord William Blackwell. But...what begins as a fight for her life might just become a chance to find true love.

Nobel prize winner and author of *One Hundred Years of Solitude* Gabriel Garcia Marquez tells a tale of an unrequited love that outlasts all rivals in his masterpiece *Love in the Time of Cholera*. 'It was inevitable: the scent of bitter almonds always reminded him of the fate of unrequited love' Fifty-one years, nine months and four days have passed since Fermina Daza rebuffed hopeless romantic Florentino Ariza's impassioned advances and married Dr Juvenal Urbino instead. During that half-century, Florentino has fallen into the arms of many delighted women, but has loved none but Fermina. Having sworn his eternal love to her, he lives for the day when he can court her again. When Fermina's husband is killed trying to retrieve his pet parrot from a mango tree, Florentino seizes his chance to declare his enduring love. But can young love find new life in the twilight of their lives? 'The most important writer of fiction in any language' Bill Clinton 'An exquisite writer, wise, compassionate and extremely funny' Sunday Telegraph 'An amazing celebration of the many kinds of love between men and women' The Times

Biographical Books, 1876-1949

This 1999 volume was the first to explore as part of an unbroken continuum the critical legacy both of the humanist rediscovery of ancient learning and of its neoclassical reformulation. Focused on what is arguably the most complex phase in the transmission of the Western literary-critical heritage, the book encompasses those issues that helped shape the way European writers thought about literature from the late Middle Ages to the late seventeenth century. These issues touched almost every facet of Western intellectual endeavour, as well as the historical, cultural, social, scientific, and technological contexts in which that activity evolved. From the interpretative reassessment of the major ancient poetic texts, this volume addresses the emergence of the literary critic in Europe by exploring poetics, prose fiction, contexts of criticism, neoclassicism, and national developments. Sixty-one chapters by internationally respected scholars are supported by an introduction, detailed bibliographies for further investigation and a full index.

American Book Publishing Record Cumulative, 1876-1949: Fiction. Juvenile fiction

"Whispers from the Rae Room begins with the accidental discovery of a mysterious Oregon tomb opened only once a year. Inside are two enormous marble sarcophagi, side-by-side for more than half a century. We learn the deceased man is George Rae, a wealthy timber baron who emigrates from Scotland as a young man. Rae is historically significant because in 1890, he co-founds one of North America's most successful businesses, the Inman-Poulsen Lumber Company. Curiosity about the magnificent structure built for only two people launches a quest to know more."--Page 4 of cover

Fiction, 1876-1983: Authors

Pulitzer Prize–winning author Will Durant chronicles the lives and ideas of several key philosophical thinkers throughout history in this informative yet eminently readable text. An essential read for anyone fascinated by the development of Western philosophy.
