[#Abbott Architect i2000](#) [#immunoassay analyzer](#) [#clinical diagnostics system](#) [#laboratory automation](#) [#medical testing equipment](#)

Explore the Abbott Architect i2000, a high-performance immunoassay analyzer designed for efficient and accurate clinical diagnostics. This robust laboratory equipment offers reliable results for a broad menu of tests, enhancing workflow and precision in medical testing environments.

Our goal is to make academic planning more transparent and accessible to all.

Thank you for stopping by our website.

We are glad to provide the document Architect I2000 Immunoassay Analyzer you are looking for.

Free access is available to make it convenient for you.

Each document we share is authentic and reliable.

You can use it without hesitation as we verify all content.

Transparency is one of our main commitments.

Make our website your go-to source for references.

We will continue to bring you more valuable materials.

Thank you for placing your trust in us.

Thousands of users seek this document in digital collections online.

You are fortunate to arrive at the correct source.

Here you can access the full version Architect I2000 Immunoassay Analyzer without any cost.

ARCHITECT i2000SR Immunoassay Analyzer

The ARCHITECT i2000SR immunoassay analyzer offers a maximum throughput of up to 200 tests per hour. Featuring a load-up capacity of 135 samples with 35 priority and 100 routine areas, the ARCHITECT i2000SR has 25 refrigerated reagent positions. For in vitro ...

Abbott Architect Method Principle Definition | Law Insider

The ARCHITECT i2000SR provides immunoassay testing with increased sample and reagent capacity. Our innovative solution for immunoassay testing helps you report STAT results quickly using dedicated positions on a three-dimensional sample handler. Confidently report results with our advanced CHEMI-FLEX ...

Abbot Fully Automatic ARCHITECT i1000SR, User Input: Touch

by M Wheeler · 1999 · Cited by 1 — The ARCHITECT i2000 is the first of the family to be launched onto the market. Chemiluminescent immunoassay technology is used incorporating a very stable patented acridinium derivative tracer. This has enhanced light emission giving greater analytical sensitivity and extended dynamic ranges.

Abbott Architect c4000 Chemistry Analyzer - gmi-inc.com

Equipped with advanced technology, the Architect i2000SR delivers comprehensive insights into immunological parameters, including cytokines, antibodies, antigens, and immune cell populations. With up to 25 cooled reagents onboard, it ensures optimal stability and performance for sensitive immunological assays.

ARCHITECT i2000

SYSTEM SPECIFICATIONS ; Remote Diagnostics, AbbottLink ; Dimensions (H x W x D), 48" x 61" x 49" 121.9 x 154.9 x 124.5 cm ; Weight, 1,081 lbs 490.3 kg ; Electrical Requirements, AC 180-264V, 47-63 Hz ; Water Requirements, Purified water to dilute buffer concentrate.
