HODGEPODGE
ANSWER #2: STOP LINES should not be painted
TRAFFIC ALERT: Many Delaware motorists will interpret a SHOULDER with a painted STOP LINE as a legitimate right-turn lane.
The only legal maneuver for driving on the SHOULDER of the road according to the motorist must return to the through traffic lane
it is also legal to make a right- turn across the SHOULDER to enter a driveway and/or business
before venturing on a driving tour down the road SHOULDER \$ 4117. When overtaking on the right is permitted.
and cannot maintain the normal flow of traffic
WARNING: A disabled motor vehicle traveling on the road SHOULDER should not be proceeding at a speed greater than through traffic.
when utilizing the road SHOULDER

A LITTLE KNOWN SECRET
THE REASON FOR DUPLICATION
The legal STOPPING POINTS are the same
CHAPTER 41. RULES OF THE ROAD
Subchapter VII. Special Stops Required
Stop signs and yield signs.
every driver of a vehicle approaching a stop intersection
at a legal stopping point when no cross traffic is in sight?
The STOPPING POINT for a STOP SIGN controlled intersection
the driver has a clear view of cross traffic.

RECREATIONAL VEHICLES

4185. Riding on motorcycles.

and said motorcycle shall be equipped with passenger footrests.

(C) The operator of a motorcycle shall keep at least 1 hand facing forward, with 1 leg on each side of the motorcycle.

(e) No person shall operate a motorcycle while carrying any package

In Delaware, a larger percentage of fatal crashes result from errors by motorcyclists than vehicle drivers.

SHARING THE ROAD WITH MOTORCYCLES

motorcycle crashes involve other motor vehicles.

From 2005-2008 there were 66 motorcycle fatalities in Delaware.

Always remain alert and check your blind spot frequently

motorcycles when turning at intersections

Following are a few of the specific situations

Left turns in front of an oncoming motorcyclist

account for a large percentage of car/cycle injury- producing accidents.

The problem of not seeing the motorcyclist is twofold

or drivers may fail to judge the speed of the oncoming motorcycle

The correct behavior is to LOOK AND LOOK AGAIN.

At times, the rider may forget to turn the signal off.

Before you make a turn in front of a motorcyclist

Following too closely may make the rider nervous

Motorcycles can stop quicker, so you need to follow at a safe distance

If the roadway is slippery or wet, increase your following distance.

Motorcycles are entitled to the same full lane width

Never move into the same lane alongside a motorcycle

Cross winds can be hazardous to motorcyclists.

Areas to look out for are wide open, long stretches of highways

Fast-moving large trucks have been known to create wind blasts

Road surfaces and things in the road

Gravel, debris, pavement seams, small animals, and even manhole covers

Railroad grade crossings may be rough

Specific hazards for motorcycles

(a) Left-turns

(f) Railroad crossings

Chapter #6 "Crossing The Line" -- clarification update

IMPORTANT: PASSING left always requires a DOUBLE LANE CHANGE.

A LANE CHANGE to return to your original travel lane

LANE CHANGING is an option but not a requirement

when executing an OVERTAKING maneuver.

Additionally, if a LANE CHANGE is executed

the operator of the OVERTAKING vehicle has the option

SOS -- 98% Rule

PASSING exceptions -- PASSING RIGHT

VEHICLE CONDITION

Vehicle equipment

Windows and mirrors

Load: Make sure any roof luggage is firmly attached.

Load heavy items in the boot.

Fluids: Check fuel, oil and other fluid levels.

Useful items
