Configuring SAP Financial Accounting - Vol. I

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance, has been published in two volumes: Volume I and Volume II. The Volume I (this book) covers: Case Study Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) G/L Accounting The Volume II covers: Case Study Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting Here, in Volume I, you will learn about the context and relevance of SAP HANA, SAP S/4HANA and SAP S/4HANA Finance, before actually learning the configuration of SAP Financial Accounting. This book follows a case-study approach with a story-board technique, that provides you with the required business background for a given configuration activity. Towards configuring SAP FI, you will start your learning with SAP enterprise structure focussing on SAP FI/CO organizational units, their definition and assignment. Then, you will learn about FI global settings, in great detail, spread over three Chapters. You will learn about fields, ledgers, field status variants, fiscal year and posting periods. You will also learn parallel accounting, integration of SAP Controlling with SAP FI and configuring company code global parameters. Later, you will learn about documents (document structure, document types, posting keys, screen variants, document change rules, bar code entry, tolerance groups, summarization, default values, business transaction types, recurring entries, document parking and document archiving) besides inflation accounting and correspondence. Finally, in FI global settings, you will learn taxes: the tax on sales and purchases, the settings required for calculation / posting and interfacing your SAP system with external tax application (Vertex). You will also learn about withholding tax, including extended withholding tax: the configuration settings and how to manage withholding tax changeover. You will also learn SAP G/L Accounting, in great detail, covering the preparations required for creating

the master data including chart of accounts, account groups, sample accounts etc. You will learn how to create / process G/L accounts, besides understanding the configuration towards business transactions like document splitting, cross-company code transactions, open item clearing, balance interest calculation, closing operations, and preparing for 'going live'. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

Configuring SAP ERP Sales and Distribution

The first and only book to offer detailed explanations of SAP ERP sales and distribution As the only book to provide in-depth configuration of the Sales and Distribution (SD) module in the latest version of SAP ERP, this valuable resource presents you with step-by-step instruction, conceptual explanations, and plenty of examples. If you're an SD consultant or are in charge of managing an SAP implementation in your enterprise, you'll want this valuable resource at your side SAP is one of the leading Enterprise Resource Planning (ERP) software products on the market, with over 40,000 implementations Covers the latest version of SAP ERP-ECC 6.0 Covers common through advanced configurations, so it's helpful no matter what your level of experience with SAP Explains the conceptual framework behind the configuration process If your company uses the SD module, keep this indispensable guide on hand.

Mastering SAP SD Configuration

Mastering SAP SD Configuration: A Comprehensive Guide The book covers the following: 1 Introduction 1.1. Overview of SAP SD 1.2. Importance of SAP SD Configuration 1.3. Who should read this book? 2 SAP SD Basics 2.1. Key Concepts and Terminology 2.2. SAP SD Organizational Structure 2.3. SAP SD Master Data 3 SAP SD Configuration Fundamentals 3.1. The SAP IMG (Implementation Guide) 3.2. Basic Settings and Configuration Prerequisites 3.3. Customizing Requests and Transport Management 4 Enterprise Structure Configuration 4.1. Defining and Assigning Sales Organization 4.2. Defining and Assigning Distribution Channel 4.3. Defining and Assigning Division 4.4. Configuring Sales Area, Sales Office, and Sales Group 5 Master Data Configuration 5.1. Customer Master Data 5.1.1. Account Groups 5.1.2. Partner Functions and Determination 5.2. Material Master Data 5.2.1. Material Types 5.2.2. Sales-Specific Material Attributes 5.3. Pricing Configuration 5.3.1. Condition Tables, Access Sequences, and Condition Types 5.3.2. Pricing Procedures and Determination 6 Sales Document Configuration 6.1. Sales Document Types 6.2. Item Categories and Determination 6.3. Schedule Line Categories and Determination 6.4. Copy Control and Document Flow 7 Shipping and Transportation Configuration 7.1. Shipping Point and Route Determination 7.2. Picking, Packing, and Post Goods Issue 7.3. Transportation Planning and Execution 8 Billing Configuration 8.1. Billing Types and Billing Plans 8.2. Revenue Account Determination 8.3. Tax Configuration and Determination 9 Integration with Other SAP Modules 9.1. Integration with SAP MM (Materials Management) 9.2. Integration with SAP FICO (Financial Accounting and Controlling) 9.3. Integration with SAP PP (Production Planning) 9.4. Integration with SAP WM (Warehouse Management) 10 Advanced SAP SD Configuration Topics 10.1. Credit Management and Risk Management 10.2. Output Determination and Management 10.3. Variant Configuration 10.4. Special Business Processes (Consignment, Intercompany, and Returns) 11 Reporting and Analytics in SAP SD 11.1. Standard SAP SD Reports 11.2. Creating Custom Reports using ABAP Query and SAP Query 11.3. Integrating SAP SD with SAP BW/BI 12 Tips, Tricks, and Best Practices 12.1. Performance Optimization 12.2. Troubleshooting Common Issues 12.3. SAP SD Configuration Checklist

First Steps in SAP FI Configuration

This book offers a comprehensive introduction to the fundamentals of SAP ERP Financials (FI) configuration. Dive into configuration details for general ledger (FI-GL), accounts receivable (FI-AR),

and accounts payable (FI-AP) transactions. You'll learn about the primary features and functions of SAP FI configuration including how to create company codes and chart of accounts, assign a controlling area, and define number ranges. Get tips for automatic posting rules and posting periods. Gain proficiency navigating in SAP FI, including how to access configuration transactions. Walk through step-by-step instructions for executing transport request configuration. Get exposure to advanced SAP FI configuration topics including SAP tables, SE11, SE16N, and SQVI. This introductory guide to SAP FI configuration covers:

- Get an overview of SAP Financials configuration
- Explore fundamental aspects of FI-GL, FI-AR, and FI-AP configuration
- Learn how to create, define, and assign company codes and chart of accounts
- Obtain hands-on instruction based on examples and screenshots

SAP PR Release strategy concept and configuration guide: A case study

Tax compliance is critical. Get the concrete guidance you need for direct and indirect taxes in SAP S/4HANA with this book! Understand the organizational structure of your tax setup, and then see how to configure standard tax settings in your system. Follow step-by-step instructions for both indirect and direct tax determination, and learn about tax reporting and monitoring requirements. With coverage of add-ons, custom coding, and project management, this is your comprehensive guide to global tax! In this book, you'll learn about:

- a. Configuration Tailor tax settings to your exact specifications. Learn how to customize standard settings for financial accounting, sales and distribution, and materials management.
- b. Direct and Indirect Taxes Walk through tax determination, step by step. Set up indirect tax determination for purchasing, sales, and special processes. Learn about direct tax decision parameters and configure key fields in the general ledger, tax ledger, and more.
- c. Reporting and Monitoring Understand your reporting and monitoring requirements for taxes. Explore SAP tax solutions such as SAP Advanced Compliance Reporting and SAP Tax Compliance, and then discover third-party tax solutions from Vertex, Thomson Reuters, and more.

Highlights include:

- 1) Organizational structure
- 2) Configuration
- 3) Indirect tax determination
- 4) Direct tax determination
- 5) Tax engines
- 6) Tax reporting
- 7) Indirect tax monitoring
- 8) User exits
- 9) Project management

Tax with SAP S/4HANA

This book explains in details about the SAP Enterprise Structure (MM and related modules such as FI, LE, SD) Concept and Configuration Guide. I wrote the e-book in a simple-to-understand way, so you can learn it easily. After understanding the concept, the e-book will show the step-by-step configuration with the screen shots.

SAP Enterprise Structure Concept and Configuration Guide - A Case Study

If you're responsible for setting up, configuring, or using SAP US Payroll, you know that even its minor idiosyncrasies can cause headaches and holdups in your HR processes. This book provides you with the tools you need to get up to speed on payroll implementation and cutover, time management integration, and troubleshooting of payroll issues. This new edition includes updated information for SAP ERP 6.0 and EHPs 5 and 6. Balanced coverage of payroll processes, configuration, and real-life scenarios helps you develop valuable, applicable skills.

Practical SAP US Payroll

In this book, noted expert Andrew Okungbowa explains SAP Asset Accounting (FI-AA) in SAP-ERP, including its associated business benefits, and guides you through the considerable complexities of SAP-ERP configuration. Using FI-AA for fixed asset management enables you to manage assets in multinational companies across a broad range of industries and produce reports to meet various needs in line with legal requirements. Configuring SAP-ERP can be a daunting exercise, however, and there are few resources that address these issues. Asset Accounting Configuration in SAP ERP fills that resource gap by covering the major aspects of SAP FI-AA for anyone with SAP experience and the basic accounting knowledge and bookkeeping skills necessary to apply configuration. It provides configuration explanations in the simplest forms possible and provides step-by-step guidance with illustrations and practical examples. What You'll Learn

- In-depth coverage of FI-AA syllabus
- How to configure FI-AA accounting in SAP
- How to integrate FI-AA accounting with other SAP modules
- How to explain the functionalities of SAP FI-AA
- Knowledge gained from real-world practical examples and case studies

Who This Book Is For The key target audience for this book includes SAP consultants, developers, accountants, support organizations and beginners. It is also a resourceful learning manual for universities and institutions whose curricula covers SAP-ERP Asset Accounting.

Sap Hr India Payroll: Technical Reference And Learning Guide

Throughout the world, high-profile large organizations (aerospace and defense, automotive, banking, chemicals, financial service providers, healthcare, high tech, insurance, oil and gas, pharmaceuticals, retail, telecommunications, and utilities) and governments are using SAP software to process their most mission-critical, highly sensitive data. With more than 100,000 installations, SAP is the world's largest enterprise software company and the world's third largest independent software supplier overall. Despite this widespread use, there have been very few books written on SAP implementation and security, despite a great deal of interest. (There are 220,000 members in an on-line SAP 'community' seeking information, ideas and tools on the IT Toolbox Website alone.) Managing SAP user authentication and authorizations is becoming more complex than ever, as there are more and more SAP products involved that have very different access issues. It's a complex area that requires focused expertise. This book is designed for these network and systems administrator who deal with the complexity of having to make judgmental decisions regarding enormously complicated and technical data in the SAP landscape, as well as pay attention to new compliance rules and security regulations. Most SAP users experience significant challenges when trying to manage and mitigate the risks in existing or new security solutions and usually end up facing repetitive, expensive re-work and perpetuated compliance challenges. This book is designed to help them properly and efficiently manage these challenges on an ongoing basis. It aims to remove the 'Black Box' mystique that surrounds SAP security. * The most comprehensive coverage of the essentials of SAP security currently available: risk and control management, identity and access management, data protection and privacy, corporate governance, legal and regulatory compliance. * This book contains information about SAP security that is not available anywhere else to help the reader avoid the "gotchas" that may leave them vulnerable during times of upgrade or other system changes * Companion Web site provides custom SAP scripts, which readers can download to install, configure and troubleshoot SAP.

Asset Accounting Configuration in SAP ERP

This book details the configuration required to set up the General Ledger module for a public sector entity. It includes document splitting configuration to facilitate fund accounting.

SAP Security Configuration and Deployment

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance (1909), has been published in two volumes: Volume I and Volume II. The Vol. II (this book) covers: Configuring SAP Financial Accounting - Vol. I Case Study (Project Dolphin & Project Starfish) Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting In Vol. I of the title we have covered: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study (Project Dolphin & Project Oyster) Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) General Ledger Accounting To give

you an idea of what has been covered in 'Configuring SAP Financial Accounting - Vol. I', we have captured the details, in this book, in a Chapter-wise summary of that coverage with configuration highlights that has been discussed in each of those Chapters, from 1 to 9. The book covers Accounts Receivable (FI-A/R) and Accounts Payable (FI-A/P), in detail. It covers customer and vendor accounts, business transactions associated with both FI-A/R and FI-A/P and the information system. In business transactions, you will see topics like incoming invoices, release for payment, payments (outgoing & incoming, manual and automatic), dunning, open item clearing, down payment processing, adjustment posting, interest calculation and closing operations. In Contracts Accounts Receivable and Payable (SAP FICA), with a separate case study (Project Starfish), we discuss the functionality and the configuration required for setting up of SAP FICA for a business. In Bank Accounting (FI-BL), you will learn about bank master data (bank directory, house bank, business partner's bank, bank distribution etc.), bank chains, payment transactions including manual & electronic bank statement, lockbox processing, cash journal and online payments. The book covers Asset Accounting (FI-AA) in great detail. It covers the organizational structure, structuring fixed assets in FI-AA (including special forms of assets, asset classes etc.), integration of FI-AA with other SAP components including SAP FI-G/L, general & special valuation, depreciation, master data, transactions (like acquisitions, retirements, transfers, capitalization of assets under construction etc.), FI-AA information system, asset data transfer, preparations for going live and overview for experts. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

CONFIGURATION GD

Are you a member of your company's tax department or SAP implementation team? Perhaps you are a tax consultant working in an SAP environment or an SAP professional charged with tax responsibilities. If so, this comprehensive reference will quickly become your most trusted guide, as it walks you, step-by-step, through the entire process of integrating your systems with SAP. Based on SAP ERP 6.0, this book delivers a practical overview of U.S. taxation, from an SAP perspective. It teaches you how to use SAP to streamline your tax preparation and reporting, illustrates the value of SAP Master Data, and much more. This hands-on book also features detailed coverage of all aspects of an SAP system affected by tax issues, including Financials, SD, and MM, as well as Project Systems, and even Asset Management. In addition, you'll explore the ins and outs of the invaluable SAP DART tool, uncover SAP's powerful controls, and find out how best to use external tax tools. Financial auditors and IRS auditors will also find this book highly useful in solving complex SAP and U.S. tax-related issues. Finally, readers have a resource to help maximize the vast capabilities of SAP in order to handle the ever increasing complexities of U.S. tax issues, thus addressing the unique challenges that arise in situations where these two areas converge. Highlights Include: * Federal taxes * State and local taxes * Master Data issues * Payroll issues * Benefits issues * Record retention * Income tax issues * DART tool * Tax configuration

Configuring SAP Financial Accounting - Vol. II

SAP Payroll is one of the major components that make up SAP Human Capital Management. It is used as a tool to calculate the compensation for individual workers based on the duties completed by them. In addition to the remuneration aspect, SAP Payroll also computes other benefits that a company has to offer its employee welfare based on different company laws in any country. These may consist include tax laws, labour laws, benefits laws and other laws relating to employment. This is an introductory guide that which takes users through the fundamentals of SAP Payroll and how to deal with the different modules and sub-modules in the package.

US Tax and SAP

This book introduces business users, SAP support, and SAP consultants to the SAP In-House Cash (IHC) and In-House Bank (IHB) modules. Learn how to efficiently and effectively optimize payments in SAP. Walk through In-House Cash processes, key configuration, and transaction codes for corporate and shared service centers. Get a list of considerations you need to know before starting an IHC implementation and review required master data. Obtain tips and tricks on how to resolve specific errors and get a list of relevant transaction codes. By using a detailed example scenario, the author expertly brings readers up to speed on the fundamentals of SAP IHC and IHB. - SAP payment management fundamentals and tools - In-House Cash and In-House Bank functionality scenarios - Useful transaction codes and reports - Tips and tricks for resolving common errors

SAP Payroll User Guide

This book comprises of 115 top consulting scenarios which you should know when you start to work in any procurement module but specifically in SRM Module in SAP. I have added these easy to understand in the one-page format which makes it easy to refer back, Keep as a side note and should be a guide for you to help you in handling most of the scenarios in SRM. As per what happens in any consulting environment the issues you actually get from your client may not be included in here but after you have read through this guide, it would give you a very good base in the terms of helping you to experiment and try things out in the system directly to come closer to a resolution. These are prepared based on my notes from hundreds of meetings, being part of multiple projects, brainstorming with my colleagues and lastly to be able to provide ongoing support to my clients to manage their procurement landscape. Please note that this book focuses on building basic concepts for both Technical as well as functional people, so I recommended you go through all the pages to have a good understanding of the SRM system. If you have basic ABAP knowledge, it would be easier if not, it can be a good learning which can also be applied to other SAP modules. Although this book is geared more towards SRM as a product having worked in other modules as well, I also include some general SAP concepts which help you to apply the same knowledge in multiple other modules like MM, PM, HR and other areas. SRM has a tight integration with all the above modules, and hence it is important to have a good understanding, so you can work effectively in a collaborative environment with other team members by knowing how the other module work rather than just passing the buck. Below are the details of what the book contains - Understand the basics and best practices of procurement - Understand basics of SAP system in general for troubleshooting and support - Added scenarios from real time case studies and client specific issues - Each section is concluded with additional blog and reference links which help to understand the problem in detail - Includes ABAP technical and Functional details - Includes consulting scenarios - Includes Audit specific information - Include any relevant notes and other material - Includes some of my previously written blogs - Some code snippets which you can reuse if you implement the same scenarios In the last 2 chapters, I also try to talk about the next step for SRM and how you can transition to Ariba or other S/4 Modules in the cloud. There is also a detailed blog which I posted on SDN to help you prepare for Ariba certification.

Guide to SAP In-House Cash (IHC)

Dive into SAP Product Cost Planning (CO-PC-PCP) and explore in depth how costs are assigned to materials. Walk through SAP S/4HANA configuration tasks and how these decisions impact unit costing and cost estimates with quantity structure. Determine how to manually specify unit cost estimates during the early stages of product development. Find out how to use SAP Easy Cost Planning to estimate costs for a new product, before the material is created. Review cost component views and configuration to understand how this can be used to enrich the information displayed in cost estimates. Understand how material and manufacturing overhead costs are assigned to materials. Learn more about single and multilevel cost estimates, both with and without quantity structure. Evaluate your SAP CO options for defining product costs using cost estimates with quantity structure. Based on an example company, learn more about methods for generating raw material cost estimates. Obtain tips for updating the material master. - Delve into configuration of costing variants and valuation variants - Examples of how configuration choices affect costs - Master data required for generating the cost estimates - Types of costing supported in SAP Product Cost Planning

A GUIDE BOOK TO MANAGING SAP SRM SYSTEM EFFECTIVELY

Because of its complex integration, Product Cost Controlling (CO-PC) is often regarded as the most challenging module in SAP ERP. In this book, you will learn the most important concepts, business

processes, and configuration settings. By concentrating only on the essentials, this book will quickly enable you to use it as a supplementary reference guide for implementing or supporting SAP CO-PC. Screenshots of transactions and configuration are included to illustrate written content. This book also dives into CO-PC integration details with other modules and tips on how to properly configure and implement a highly integrated sub-module. This complete and simplified guide to configuration and business processes for SAP Product Costing covers: * Introduction to Value Flows in SAP Controlling * Step-by-Step Examples * Configuration for Product Costing * Detailed Month End Closing Processes

SAP S/4HANA Product Cost Planning Configuration and Master Data

The Consultant's Guide to SAP SRM/EBP Configuration and Programming The heavy integration and amount of technical knowledge required to master SAP's SRM/EBP product is staggering, but also makes configuring and programming a challenge. Now, for the first time, a world class SAP consultant reveals his "secret handshake" solutions to real-world configuration and programming tasks in SAP/SRM EBP, and SAP Business Workflow. Much more than just a rehash of system documentation and training, the author explores topics and techniques that are simply not covered, or not covered as clearly, elsewhere. From implementing the basic system to debugging the most involved problems, dozens of examples show you just how to do it - or how to do it better! Key topics include Little known configuration options Undocumented transaction codes Important OSS notes and patches Workflow and approval implementation scenarios Using the ITS debug facility

Practical Guide to SAP CO-PC (Product Cost Controlling)

This SAP Controlling (CO) book walks readers through the fundamentals of internal orders in SAP ERP as cost objects, as well as the benefits of period settlement. Dive into master data configuration for creating orders types and status management and learn how to create a master record. Get step-by-step guidance on how to do daily postings in internal orders with and without revenue and learn how to use commitments. Obtain expert advice on period-end close, including the settlement profile, allocation structure, source structure, and results analysis. Find out what your SAP reporting options are and learn how to leverage summarization hierarchies in SAP CO. By using practical examples, and SAP screenshots, the author brings business users new to internal orders up to speed on the fundamentals. Experienced SAP users will benefit from the expert tips and configuration requirements.

- Concepts and daily postings to internal orders
- Master data configuration
- Streamlining period-end close activities
- Reporting options and summarization hierarchies in SAP CO

SAP Srm Advanced Ebp Cookbook

Designed for SAP users as a quick reference or for computer science and business students, SAP SD Questions and Answers includes all the major concepts related to SAP SD functionality, technical configuration, and implementation in an easy-to-understand question and answer format. This organized and accessible format allows the reader to quickly find the questions on specific subjects and provides all of the details to pass certification exams in a step-by-step, easy-to-read method of instruction. Topics Covered include Invoicing, Distribution Points, Backorder Processing, Account Determination, Material Master, Transaction Codes, Partner Procedures, Rebates and Refunds, Interfaces, Condition Types, Inventory issues, Administration Tables and more!

Practical Guide to SAP Internal Orders (CO-OM)

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated,

such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

SAP® SD Questions and Answers

This book offers a comprehensive introduction to the fundamentals of SAP ERP Financials (FI) configuration. Dive into configuration details for general ledger (FI-GL), accounts receivable (FI-AR), and accounts payable (FI-AP) transactions. You: I learn about the primary features and functions of SAP FI configuration including how to create company codes and chart of accounts, assign a controlling area, and define number ranges. Get tips for automatic posting rules and posting periods. Gain proficiency navigating in SAP FI, including how to access configuration transactions. Walk through step-by-step instructions for executing transport request configuration. Get exposure to advanced SAP FI configuration topics including SAP tables, SE11, SE16N, and SQVI. This introductory guide to SAP FI configuration covers: - Get an overview of SAP Financials configuration - Explore fundamental aspects of FI-GL, FI-AR, and FI-AP configuration - Learn how to create, define, and assign company codes and chart of accounts - Obtain hands-on instruction based on examples and screenshots

SAP ERP Financial Accounting and Controlling

This updated 2nd edition offers a comprehensive introduction to SAP ERP Profit Center Accounting (PCA) for both classic general ledger (GL) and the new GL. Review the differences between ECC and SAP S/4HANA and user interface changes with Fiori. Get the tools you need to set profitability targets for business (planning) and then compare actual results against those targets to improve overall profitability. Solidify your understanding of the difference between PCA and SAP Controlling Profitability Analysis (CO-PA) views. Gain in-depth knowledge of the concepts, objects, and functionality available in PCA in SAP ERP, including the relevant master data set-up, actual data flows, planning scenarios, and reporting options. Clarify the differences between PCA and Margin Analysis and understand when it is best to use each. Dive into profit center transfer pricing and obtain detailed configuration and set-up steps required for activation. Learn more about the new APP Manage Profit Center Group. Explore planning options in SAP S/4HANA, including ACDOCP universal planning table. Take a closer look at on-premise reporting options for profit centers in SAP S/4HANA, including APPS and CDS views available in the Query browser. By using practical examples, tips, and screenshots, the author brings readers up to speed on SAP Profit Center Accounting. - Fundamentals of SAP Profit Center Accounting (PCA) - Concepts, master data, actual data flow, and planning basics - Differences between PCA in classic and new GL Reporting for Profit Center Accounting (PCA)

First Steps in SAP® FI Configuration

In today's competitive business environment, most companies realize that the better they can manage their customer relationships, the more successful they will become. Customer Relationship Management (CRM) software systems are key tools for companies to manage the customer-facing processes of their businesses. However, many companies have resisted implementing this most critical customer-oriented application due in large part to the lack of a single-point resource on implementing a CRM system. This book attempts to fill that gap. Implementing SAP® CRM will help technologists and managers come to grips with the vision, concept, and technology of CRM. It begins by laying out the groundwork for understanding CRM. It explains the concept and context of CRM and the tangible business benefits of CRM adoption. Demonstrating a professional approach to the evaluation and selection of SAP, it details the critical success factors (CSFs), patterns, and anti-patterns of a successful SAP CRM implementation. CRM implementations can add significant benefit to the company's bottom line only if the company first transforms itself into a customer-centric and customer-responsive enterprise. This book explains what it means to be a customer-centric and responsive enterprise, and provides a framework for business operations based on customer relationships, rather than the traditional

four Ps (product, positioning, price, promotion). It further spells out business process reengineering (BPR) strategies to configure internal business processes and operations with SAP CRM to improve customer-facing strategies, services, and relationships.

Practical Guide to SAP S/4HANA Profit Center Accounting - 2nd Edition

This book is a concise foreign tax reference tool for the practitioner who needs quick answers to basic corporate and individual tax questions.

Implementing SAP® CRM

Delve into this updated best-selling guide on SAP Material Master! Updated to cover key updates to the SAP Material Master in SAP S/4HANA, this guide walks through basic concepts on how to tailor the SAP Material Master to your production environment, as well as learn detailed information on material master settings and their impacts. This book provides the opportunity for readers to better understand their unique environments and how to make the SAP Material Master work for them. This guide provides best practices for how to approach common scenarios, and offers cost-saving tips. Find out why planning is the most important (and often overlooked) aspect of understanding the SAP Material Master. Review how material master settings impact FI/CO and other SAP modules. This third edition incorporates feedback from readers, and includes solution updates, new information on advanced planning views, extended service parts planning views, and the SAP Fiori app for Material Master. By using practical examples, tips, and screenshots, the authors bring readers up to speed on best practices for optimal use of the SAP Material Master. - Fundamental SAP Material Master concepts - How settings impact other modules in SAP - Cost-effective procurement and planning techniques - Inventory and quality management best practices

International Master Tax Guide 2009/10

Details and Overviews This is a detailed book that covers every screen of the SAP Menu and IMG. Details are preceded by overviews that show the larger picture and linkages between different concepts. **Learning Guide** This book can be used to learn SAP. You can start learning SAP using this book even if you know nothing about SAP. How to read this book in multiple iterations is explained in the book. **Technical Reference** If you are in SAP menu or IMG and want to find the relevant material in this book, it is very easy. Both SAP menu and IMG are expanded and hyperlinks are provided against each item. Just click the hyperlink and you are taken to the respective section. **A New Approach to SAP Implementation** You can use this book to implement SAP in a structured way. This approach is explained in the book. **Configuration manual** The documentation of SAP implementation includes a configuration manual. This configuration manual may be structured on the lines of this book. **User manual** The documentation of an SAP implementation includes a user manual. This book should serve as a generic user manual. Company-specific user manual may also be structured on the lines of this book and may include only company-specific guidelines for the users.

Sap Hr Personnel Administration and Recruitment : Technical Reference and Learning Guide

This book offers a comprehensive introduction to SAP ERP Profit Center Accounting (PCA) for both classic general ledger (GL) and the new GL. Get the tools you need to set profitability targets for business (planning) and then compare actual results against those targets to improve overall profitability. Solidify your understanding of the difference between PCA and SAP Controlling Profitability Analysis (CO-PA) views. By using practical examples, tips, and screenshots, the author brings readers up to speed on SAP Profit Center Accounting. - Fundamentals of SAP Profit Center Accounting (PCA) - Concepts, master data, actual data flow, and planning basics - Differences between PCA in classic and new GL - Reporting for Profit Center Accounting (PCA)

The SAP Material Master in SAP S/4HANA - a Practical Guide

SAP Global Trade Services (GTS) helps companies maximize supply chain performance and reduces the overall cost and risk of global trade by ensuring regulatory compliance, accelerating trade activity,

and enabling trade compliance automation. This updated 2nd edition to Practical Guide to SAP GTS helps the user navigate the system, while offering compliance insight to maximize their return on investment. Dive into difficult-to-navigate menus and review available functionality. Using screenshots and detailed instructions, readers will obtain best practices for meeting and exceeding compliance standards. Includes suggested audit plans to sustain long term compliance. The book is current to version SAP GTS for HANA GTS e4H and explores GTS Version for HANA and its new features in detail. In addition, includes information on the new Fiori-based Apps and UX developments, new features, and process improvements. This book covers: Tips and tricks for leveraging SAP GTS to automate trade compliance Overview of regulatory requirements and compliance suggestions Step-by-step walk-through of business processes Review of SAP GTS for HANA GTS e4H with screenshots

SAP SD Sales

Invoice verification is an important business process in almost every company. In SAP you can verify invoices against purchase orders and goods receipts. SAP provides important functionalities like automatic account determination, financial posting, etc. SAP is powerful software that can meet the needs of any business scenario for any type of business in any part of the world. Its all encompassing nature makes SAP complex. In order to derive maximum benefit for business, SAP must be understood well. Mr. Agrawal attempts to explain SAP completely; a seemingly impossible task. This is his third book on the Materials Management module; his first two books in the Materials Management module are 'Purchasing' and 'Inventory Management'. In this book, like in his earlier books, he explains every screen of SAP MM Invoice Verification. Both the SAP Menu and Customizing Implementation Guide are expanded and the chapter number where they are covered is indicated. This not only creates a direct link between the book and the SAP software, but also ensures that the book is comprehensive. The author has taken care to balance details with overviews that explain linkages between concepts. The book is organized in chapters that are important business activities. Each chapter covers business processes carried out in SAP by the user as well as its related configuration. This book can be used to learn SAP from scratch; it is a learning guide. It is, therefore, useful to persons who are training to be SAP Consultants. Having learnt SAP with the help of this book, the Consultant keeps returning to refer to it. In implementation of SAP, Consultants prepare User Manual. With the availability of this book, their task becomes simpler. In the User Manual, they need to cover only implementation specific points. The user refers to this book as a generic User Manual. As the user gains knowledge he also begins to understand the customizing settings for his implementation. This book can also be used by Business Process Owners and Senior Managers to get an overview of SAP and the important choices it offers.

SAP SD Billing

There is a lot of misunderstanding about how to apply cybersecurity principles to SAP software. Management expects that the SAP security team is prepared to implement a full cybersecurity project to integrate SAP software into a new or existing company cybersecurity program. It's not that simple. This book provides a practical entry point to cybersecurity governance that is easy for an SAP team to understand and use. It breaks the complex subject of SAP cybersecurity governance down into simplified language, accelerating your efforts by drawing direct correlation to the work already done for financial audit compliance. Build a practical framework for creating a cyber risk ruleset in SAP GRC 12.0, including SOX, CMMC, and NIST controls. Learn how to plan a project to implement a cyber framework for your SAP landscape. Explore controls and how to create control statements, plan of action and milestone (POA&M) statements for remediating deficiencies, and how to document controls that are not applicable. The best controls in the world will not lead to a successful audit without the evidence to back them up. Learn about evidence management best practices, including evidence requirements, how reviews should be conducted, who should sign off on review evidence, and how this evidence should be retained. - Introduction to cybersecurity framework compliance for SAP software - SAP-centric deep dive into controls - How to create a cyber risk ruleset in SAP GRC - Implementing a cyber framework for your SAP landscape

Practical Guide to SAP Profit Center Accounting

When the stakes are high and the job is complex, rely on this complete guide to implementing Financial Accounting. Master the processes, subcomponents, and tools you need and align your FI system with unique business requirements, from intricate system configuration to versatile mobile apps. This

book details step-by-step instructions and examples for integrating FI with CO, SD, PP, and MM. Make your FI system count Highlights: General Ledger accounting Custom projects Enterprise structure Global parameters Documents Tax and correspondence Accounts Receivable Accounts Payable Bank Accounting Asset Accounting Travel Management SAP Fiori

Practical Guide to SAP GTS Part 1: SPL Screening and Compliance Management

Invoice verification in SAP is an often misunderstood subject, despite its central role in contributing to a company's fiscal health. Adding to the confusion is the fact that it falls between two teams the MM team and the FI team and each assumes that the other is responsible for the design and configuration of Invoice Verification. Although the process can be streamlined, many organizations get the design and use of invoice verification wrong, resulting in vendors not being paid and accounts being placed on stop, which prevents further Purchase Orders from being processed until the vendor has been paid. The aim of this book is to help readers fully understand the invoice verification process, particularly the changes in ERP 6.0. If they get the design right, then the process will run smoothly and vendors will be paid on time (not too early either). User input can be kept to a minimum and much of the process can be automatic. There are one or two basic mistakes that are made during the design of the process and the guide highlights these (and many other confusing areas), and describes, in simple terms, the options available along with the consequences of getting it wrong.

SAP MM INVOICE VERIFICATION

Over time, overemphasis and adherence to the same proven routines that helped your organization achieve success can also lead to its decline resulting from organizational inertia, complacency, and inflexibility. Drawing lessons from one of the best models of success, the evolutionary model, Inverting the Paradox of Excellence explains why your organization must proactively seek out changes or variations on a continuous basis for ensuring excellence by testing out a continuum of opportunities and advantages. In other words, to maintain excellence, the company must be in a constant state of flux! The book introduces the patterns and anti-patterns of excellence and includes detailed case studies based on different dimensions of variations, including shared values variations, structure variations, and staff variations. It presents these case studies through the prism of the "variations" idea to help you visualize the difference of the "case history" approach presented here. The case studies illustrate the different dimensions of business variations available to help your organization in its quest towards achieving and sustaining excellence. The book extends a set of variations inspired by the pioneering McKinsey 7S model, namely shared values, strategy, structure, stuff, style, staff, skills, systems, and sequence. It includes case history segments for Toyota, Acer, eBay, ABB, Cisco, Blackberry, Tata, Samsung, Volvo, Charles Schwab, McDonald's, Scania, Starbucks, Google, Disney, and NUMMI. It also includes detailed case histories of GE, IBM, and UPS.

A Practical Guide to Cybersecurity Governance for SAP

Take an in-depth look at how basic financial accounting processes work in SAP S/4HANA in this practical guide. Learn about the SAP Fiori launchpad and how to find your way around the many apps available for finance with the help of screenshots and examples. Understand the finance organizational structure and master data and discover some of the SAP Best Practices for finance such as accounts payable and receivable, credit management, asset accounting, cash and bank management, and closings. Explore different ways to enter and upload G/L journal entries and what is meant by the Universal Journal. Run through the bank postings and different options for the bank statements. Go deeper into the structure of asset accounting, including the chart of depreciation, depreciation areas, asset classes, and depreciation methods. Learn about multidimensional reporting, KPIs, and the various analytical apps supplied with SAP S/4HANA.

SAP ERP Financials

Master the most important issues involved in designing and configuring an SAP ERP Financials implementation using this must-have reference. You'll find information on everything from the general areas of SAP ERP Financials and how they fit in the SAP landscape, to how the new SAP General Ledger can work for you. This book is an invaluable reference that covers the skills, tools, and

knowledge you need for you to be able to understand and configure your SAP ERP Financials system. This new edition is updated for SAP ERP 6.0, Enhancement Package 4. Highlights: Enterprise Structure The General Ledger Integration Areas Accounts Payable Accounts Receivable Asset Accounting Controlling Reporting Data Migration Cash Journals Down Payments Substitutions and Validations in Asset Accounting Periodic Allocations Distributions and Assessments Foreign Currency Revaluation Year-End Closings

Integrating SAP ERP Financials

* Discusses best practices for configuring and designing an integrated SAP ERP Financials solution
* Uses a business process approach to explain how SAP ERP Financials integrates with other SAP components
* Explains the configuration tasks in SD, MM, HCM, and AA in order to enhance your skills
This book teaches you to maximize the return on investment of your SAP solutions by helping you build a fully integrated system. It explains the integration points between SAP ERP Financials and other software--including Sales and Distribution, Materials Management, Human Capital Management, and Asset Accounting--and allows you to save resources and time. The book provides you with a well-defined set of best practice configuration instructions that are essential to a successful integration project, and details the configuration and design of key end-to-end business processes, including sales order to cash, purchase order to payment, payroll, and asset lifecycle management. This is the resource you need to master key integration configuration activities and their impact on the Finance department.
Business Process Approach Learn about integration by examining the key business processes.
Integration Best Practices Discover the most effective and efficient ways of integrating your SAP systems via practical, real-world information. Examples and Instructions Explore the examples and instructions throughout to see how integration works in actual practice.
Integration with SAP Systems Master the integration points between SAP ERP Financials and various other SAP software, including Sales and Distribution, Materials Management, and SAP ERP HCM.
Special Topics Benefit from a bonus chapter covering key tools that will help you enhance your skills, including LSMW, validations, and substitutions.

Check Design and Payment Process Configuration in SAP ERP Financials

This book provides finance professionals with the data-gathering strategies, configuration steps, best practices, technical guidance, and case studies necessary for smoothly implementing or optimizing the check delivery and payment processes. Inside, you will learn the steps for payment configuration in SAP, how to design check and electronic payment strategies, and technical considerations for both printed checks and electronic payments.
Gathering Information Understand the process of polling stakeholders to gather the information required for check and payment design and processing, and learn from a case study that includes key best practices.
Check Printing Options Get an in-depth look at the myriad check printing options, including format, paper stock, security options, pre-printing, hardware, and more.
Design Considerations Explore the options for state-of-the-art check, advice, and payment instrument design, including layout, security, multiple formats, signatures, and testing.
Payment Configuration Master the payment configuration process in SAP via a case study that features real-life examples of working with Bank Master Data, payment media, clearing and automatic posting, variants, and global settings for ongoing payments.
Automatic Payments Take away critical information on the key elements required for successful automated payment processes in SAP, including filtering, selecting, modifying, posting, and printing an automatic payment run.

Configuring SAP ERP Financials and Controlling

SAP is the world leader in Enterprise Resource Planning (ERP) software; of the software's modules, the FI (Finance) and CO (Controlling) are by far the most popular and are widely implemented. This book has no competition--it is the only book on the market on how to configure and implement SAP's FI and CO modules to maximize functionality and features hands-on, step-by-step instructions and real-world examples that provide immediate and practical solutions. Updated for SAP's ECC 6.0, the book covers FI enterprise structure, general ledger, substitutions and validations, automatic account assignments, accounts payable and receivable, asset accounting, accrual engine, closing entries, credit management, lockbox, CO enterprise structure, profitability analysis (CO-PA), and more.

Implementing SAP ERP Financials: A Configuration Guide

Implementing SAP® ERP Financials, an A-Z guide to configuring SAP Financials, is based on the latest version---SAP ERP (ECC6.0). Adopting a step-by-step approach, it guides the reader through each configuration step, using a hypothetical case-study (Project Everest) to give a feel of a real project implementation. Packed with lots of illustrations and screenshots for easy comprehension, this book is the most updated work on SAP Financials, and serves as an easy-to-use one-stop reference for SAP consultants, end-users and students.

Manufacturing Finance with SAP ERP Financials

This book provides a comprehensive overview of the application of ERP Financials to the make to stock and make to order manufacturing process models. It is designed to provide valuable solutions and configuration/integration options that readers can use and apply directly in their daily activities. For Finance users, the book covers the standard business drivers and KPIs as they apply to each model, and lends guidance for configuring Financial Accounting and Controlling to maximize functionality for manufacturing finance. Implementation managers and consultants will benefit from the coverage of integrating ERP Financials with other SAP applications such as PP and MM, as well as the configuration sections for Master Data, Cost Object Controlling, and the Information System, among others. Readers from both functions will be able to make use of the numerous screen shots, configuration steps, best practice examples, and tips for system customization. Acknowledging the differences between the two primary manufacturing process models, the book is divided into three sections after an introductory chapter covering information generic to manufacturing models supported in SAP. Part I of the book covers the Make to Stock model, and comprises the bulk of book. Part II covers the Make to Order model. Part III provides a chapter filled with ready-to-use checklists and guides for budgeting and closing activities, and a chapter on the application of SAP Financial Performance Management (FPM, formerly CPM) to the manufacturing finance scenario.

First Steps in SAP FI Configuration

This book offers a comprehensive introduction to the fundamentals of SAP ERP Financials (FI) configuration. Dive into configuration details for general ledger (FI-GL), accounts receivable (FI-AR), and accounts payable (FI-AP) transactions. You'll learn about the primary features and functions of SAP FI configuration including how to create company codes and chart of accounts, assign a controlling area, and define number ranges. Get tips for automatic posting rules and posting periods. Gain proficiency navigating in SAP FI, including how to access configuration transactions. Walk through step-by-step instructions for executing transport request configuration. Get exposure to advanced SAP FI configuration topics including SAP tables, SE11, SE16N, and SQVI. This introductory guide to SAP FI configuration covers:

- Get an overview of SAP Financials configuration
- Explore fundamental aspects of FI-GL, FI-AR, and FI-AP configuration
- Learn how to create, define, and assign company codes and chart of accounts
- Obtain hands-on instruction based on examples and screenshots

SAP® ERP Financials and FICO Handbook

This up-to-date quick reference guides the reader through the most popular SAP module. It includes material on SAP ERP Financials, SAP FICO, and SAP R/3. Unlike most books that only provide questions and answers for certification or interview preparation, this book covers fifty common business situations related to ERP Financials/FICO and provides practical solutions for them. In addition, the book begins with over 200 FAQs and certification questions for those who need a quick review of the material. A CD-ROM with FICO templates, short cuts, and color figures from the book is included with the text.

Delta from SAP ERP Financials to SAP S/4HANA Finance

Interested in learning more about the changes in SAP S/4HANA Finance? Learn what is meant by the merge of financial accounting and controlling in SAP S/4HANA. Discover how the accounting structure and tables have changed and what the implications are. Walk through each area of financial accounting and identify what has changed, along with relevant configurations. Take a look at how new general ledger transactions work in SAP S/4HANA and find out what the universal journal is. Explore important changes to asset accounting and identify updates to the underlying table structure to allow for real-time posting between asset accounting and the general ledger. Learn more about the preparation and migration tools available.

- Key changes to financial accounting and structure in SAP S/4HANA Finance

- New general ledger structure in the universal journal - Master data changes in G/L accounts and the business partner - SAP S/4HANA preparation and migration tools

Maximizing SAP ERP Financials Accounts Receivable

Executives and end-users alike are part of a large user community looking for guidance and experience with the "established" SAP sub-components like Accounts Receivable. With the heightened focus on operating within the strictures of US GAAP and IFRS (International Financial Reporting Standards) and producing definable ROI from the implementation of ERP Financials, it's also more important than ever for organizations to leverage their AR implementations with other components and functionalities. This book provides implementation teams, executives, functional and technical teams, and end-users with a roadmap for the maximum utilization of the Accounts Receivable component. The book will teach the intended audience how to maximize the use and potential of the Accounts Receivable component and increase the ROI of the implementation. It will also help readers develop knowledge and strategies for enhancing the use of the AR component and integrating it with other SAP services and components.

Receivables and Collections Automation with SAP FSCM

Teaches how to design, configure, and implement the FSCM Collections, Dispute, Credit, and Biller Direct components Provides proven guidance and real case studies for extending an ERP Financials infrastructure with FSCM Includes coverage of advanced topics including extensions, re-reporting with NetWeaver BI, and workflow design The book provides you with a complete, detailed overview of each of the four major components in the SAP Financial Supply Chain Management receivables and collections management application You'll learn how to implement and use the Credit Management, Dispute Management, Biller Direct, and Collections Management subcomponents, as well as best practices for integrating them with other SAP ERP applications and with SAP ERP Financials. In addition to the coverage of the four major components, the book also features chapters on integrating FSCM with ERP Financials and NetWeaver BW/BI reporting architecture, and customizing the implementation or upgrade with available extensions. You'll learn the best practices and configuration steps necessary for seamless implementation and integration of FSCM into an existing ERP Financials architecture and SAP infrastructure. Whether you are an experienced SAP professional working with SAP Financial Supply Chain Management for the first time, a new user trying to learn the ropes and implement the processes, or an implementation or project management professional looking to optimize the SAP Financial Supply Chain Management integration with SAP ERP Financials and other applications, this resource will help you make the most of your efforts.

SAP ERP Financial Accounting and Controlling

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding

of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

Implementing SAP S/4HANA Finance

Ensure a smooth transition to SAP S/4HANA Finance with this system conversion guide! Follow step-by-step instructions for data migration and functional configuration. From the general ledger to asset accounting and beyond, you'll align your new system with existing Finance requirements and go live. Get the nitty-gritty details and pro tips that will make your SAP S/4HANA project a success!

- a. Migration** It's time to migrate your data from SAP ERP Financials. Learn what to do and what to watch out for at each step of the SAP S/4HANA Finance migration, from installation through testing.
- b. Configuration** Customize your new SAP S/4HANA Finance system with key configuration settings for general ledger accounting, controlling, asset accounting, cash management, BPC, and more.
- c. Project Planning** Keep an eye on project timelines and manage critical project documentation! Consult and adapt a sample project plan for your on-premise implementation project.

Discover SAP ERP Financials

Learn how best to implement the New General Ledger in SAP ERP Financials and how to maximize your organization's use of its vast functionalities. Using practical examples, the authors take you on a guided tour of the most important functions. First, you'll learn how to create the settings needed to define your ledgers. Then, you'll uncover sample solutions and customization tips for segment reporting and document splitting, as the authors show you the process of mapping a parallel accounting procedure using the ledger approach. A detailed chapter on migration answers burning questions such as: What tools are available? What issues should we be thinking about before migration? What levels of complexity should be weighed? How does the migration process really work? In short, this detailed reference provides you with everything you'll need to successfully migrate to New General Ledger. Based on the latest release, SAP ERP 6.0, this book is fully up-to-date as of the date of its publication.

Highlights Include:

- * Design and Features of the Ledgers
- * Integration in Financial Accounting - Profit Center Accounting, Reposting in Controlling, Online Posting of Follow-Up Costs, Period-End Closing
- * Parallel Valuation - Basic Principles, Fixed Assets, Current Assets, Provisions
- * Document Splitting - Active and Passive Split, Special G/L Transactions, Periodic Processing
- * Migration - Activating New G/L, Migration Phase Model, SAP Service for Migration, Migration Scenarios, Migration Cockpit, Practical Reports

New General Ledger in SAP ERP Financials

This book offers a comprehensive introduction to the fundamentals of SAP ERP Financials (FI) configuration. Dive into configuration details for general ledger (FI-GL), accounts receivable (FI-AR), and accounts payable (FI-AP) transactions. You: I learn about the primary features and functions of SAP FI configuration including how to create company codes and chart of accounts, assign a controlling area, and define number ranges. Get tips for automatic posting rules and posting periods. Gain proficiency navigating in SAP FI, including how to access configuration transactions. Walk through step-by-step instructions for executing transport request configuration. Get exposure to advanced SAP FI configuration topics including SAP tables, SE11, SE16N, and SQVI. This introductory guide to SAP FI configuration covers:

- Get an overview of SAP Financials configuration
- Explore fundamental aspects of FI-GL, FI-AR, and FI-AP configuration
- Learn how to create, define, and assign company codes and chart of accounts
- Obtain hands-on instruction based on examples and screenshots

First Steps in SAP® FI Configuration

This up-to-date quick reference guides the reader through the most popular SAP module (myERP Financial 6.0). It thoroughly covers all of the sub modules of ERP Financials, including, FICO, FSCM, New GL functionality, SAP integration points, and Report Painter. Unlike other books that only provide questions and answers for certification preparation, this book covers both configurations and end user transactions for validating the implementation methods. A companion CD-ROM with FICO templates, short cuts, and color figures is included. Features:

- * Includes both configurations and end-user transactions for validation
- * Uses a quick-reference style for finding information quickly
- * Covers the latest account configurations for New GL
- * Includes a CD-ROM with FICO templates, short cuts, and color figures.

SAP ERP Financials

This book focuses on the practical, day-to-day requirements of working with SAP ERP Financials (SAP FI). It guides you through the various Financial Accounting functions step-by-step: documents, account reports, special postings, automatic procedures, accounts receivable accounting, accounts payable accounting, general ledger accounting, closing operations, and asset accounting. Numerous tips and tricks designed to help maximize your daily work are included throughout. For all users of all SAP releases from SAP R/3 4.6 to SAP ERP 6.0.

1. Comprehensive coverage of SAP FI Learn how to make the best use of SAP FI in your daily work with comprehensive coverage of SAP General Ledger and more.
2. Tips and tricks for daily work Maximize your time with numerous tips and tricks designed to help you get the most out of the most common tasks, features and programs.
3. Step-by-step walkthroughs Master even the most complex functions in SAP FI using step-by-step walkthroughs enhanced with screenshots and sample scenarios.
4. Up-to-date for SAP ERP 6.0 Understand the new features in SAP FI and SAP Financial Supply Chain Management (FSCM).
5. Helpful additional resources Find answers quickly in the appendices, which include menu paths, a full glossary, and a complete index.

Implementing SAP® ERP Financials

This book - compiled by software architects from SAP - is a must for consultants, developers, IT managers, and students working with SAP ERP, but also users who want to know the world behind their SAP user interface.

The Architecture of SAP ERP

All successful organizations need to continuously improve operational efficiency and achieve faster closes. Using this book you'll learn how to maximize your SAP ERP Financials implementation by leveraging value-added activities and a process-driven approach. You'll find detailed, expert instruction on what needs to be done after an SAP ERP Financials implementation is complete - when the real work begins! Learn how to minimize time spent on burdensome reconciliation activities and focus on the strategic aspects. Plus, discover how to meet a variety of challenges, including enterprise structure definition, complex reporting requirements, and more. Using real-world examples and best practices, you'll also find out how to analyze and deploy the most appropriate tools and methodologies to best suit the needs of your organization. The business-process perspective and real-world focus make this a practical, invaluable resource for anyone who needs to get the very most out of their SAP ERP Financials implementation.

Optimize Your SAP ERP Financials Implementation

All successful organizations need to continuously improve operational efficiency and achieve better financial results. Using this book you'll learn how to maximize your SAP ERP Controlling implementation by leveraging value-added activities and a process-driven approach. You'll find detailed, expert instruction on what needs to be done after an SAP ERP Controlling implementation is complete — when the real work begins! Learn how to minimize the time spent on burdensome reconciliation activities so you can focus on the strategic aspects. Discover how to meet a variety of challenges, including enterprise structure definition, managing integrated processes and applications, complex reporting requirements, and more. Using real-world examples and best practices, you'll also find out how to analyze and deploy the most appropriate tools and methodologies to best suit the needs of your organization. The business-process perspective and real-world focus make this a practical, invaluable resource for finance professionals, implementation teams, consultants, and anyone who needs to get the very most out of SAP ERP Financials.

Optimize Your SAP ERP Financials Controlling Implementation

Finance, front and center! Get moving on your SAP S/4HANA Finance system conversion project. Follow the implementation path through preparation and post-migration testing, with special attention

to data migration and functional configuration. From the general ledger to asset accounting and beyond, you'll align your new system with existing finance requirements and go live. Get the nitty-gritty details and pro tips with this go-to-guide and make your brownfield project a success! a. Migration It's time to migrate your data from SAP ERP Financials. Learn what to do and what to watch out for at each step of the SAP S/4HANA Finance migration, from installation through testing. b. Configuration Customize your new SAP S/4HANA Finance system with key configuration settings for general ledger accounting, the accrual engine, controlling, asset accounting, credit management, and more. c. Project Planning Set realistic project timelines and manage critical project documentation! Consult and adapt a sample project plan for your on-premise implementation project. 1) Migration preparation 2) Installation 3) Data checks 4) General ledger 5) Asset accounting 6) House bank accounts 7) Controlling 8) Credit management 9) SAP Fiori applications and roles 10) Key finance innovations 11) Central Finance 12) Implementation checklist

SAP ERP Financial Accounting: the Complete Resource

With their latest database technology "High Performance Analytic Appliance" (HANA), SAP has revolutionized the database market by dramatically speeding up reports and transactions, fundamentally changing business processes. The solution, introduced for the first time in 2010, now serves as the foundation for applications running with higher performance – including Finance and Controlling. The new architecture for FI and CO based on HANA is called Financials Add-on for SAP Business Suite powered by SAP HANA. This book will provide an introduction to: - Understanding the basics of SAP HANA - Examining already existing HANA applications in SAP Financials - Understanding the concept behind the Financials Add-on - Assessing the impact on business processes After reading this book, readers will have a solid understanding of why a decision was made in Walldorf, Germany that the new proprietary in-memory database SAP HANA is the future of SAP's solution portfolio.

Implementing SAP S/4HANA Finance

The first and only book to offer detailed explanations of SAP ERP sales and distribution As the only book to provide in-depth configuration of the Sales and Distribution (SD) module in the latest version of SAP ERP, this valuable resource presents you with step-by-step instruction, conceptual explanations, and plenty of examples. If you're an SD consultant or are in charge of managing an SAP implementation in your enterprise, you'll want this valuable resource at your side SAP is one of the leading Enterprise Resource Planning (ERP) software products on the market, with over 40,000 implementations Covers the latest version of SAP ERP-ECC 6.0 Covers common through advanced configurations, so it's helpful no matter what your level of experience with SAP Explains the conceptual framework behind the configuration process If your company uses the SD module, keep this indispensable guide on hand.

SAP HANA for ERP Financials

Understand the CO component and how to make it work for you * Connect the CO subcomponents in SAP ERP and integrate them in your implementation * Master the customizing of CO in SAP ERP Financials to meet your business needs Finally--your one-stop resource to SAP ERP Controlling configuration has arrived! If you are involved in the initial implementation or the ongoing maintenance of a CO solution, this book delivers the hands-on advice you need to smooth the customizing process. By accessing the screenshots, detailed instructions, and technical background information offered here, you'll be ready to give management the control over the business that it needs! The Complete CO Picture Understand the CO module in all its details and aspects--from Cost Element Accounting to Product Cost Controlling and Profit Center Accounting. Practical Guidance Take control of your customizing by referencing step-by-step instructions and hundreds of screenshots that will guide you through the configuration process. Assembling the Pieces Learn how each part of the CO component interacts with the others, and plan how your overall CO structure should look. Best Practices Take advantage of best practices, tips, and tricks, and facilitate efficient management accounting, reporting, and analysis processes to maximize productivity. Your Desktop Reference Whether you are implementing CO for the first time or maintaining and extending an existing system, this book will be your companion in your daily tasks

Configuring SAP ERP Sales and Distribution

Business financials are an essential part of every business, large or small. Whether you just need basic accounting or you perform complex financial audits and reporting, your business needs a software tool

that meets your needs. Discover SAP Financials explains how SAP can provide this solution. Using an easy-to-follow style filled with real-world examples, case studies, and practical tips and pointers, the book teaches the fundamental capabilities and uses of the core modules of SAP Financials. As part of the Discover SAP series, the book is written to help new users, decision makers considering SAP, and power users moving to the latest version learn everything they need to determine if SAP Financials is the right solution for your organization. This is the one comprehensive resource you need to get started with SAP Financials. Highlights: Teaches everything you need to know to determine if SAP Financials is the right choice for your organization Includes real-world examples, case studies, and practical tips and pointers Explains the fundamental capabilities of the cored Financials modules in SAP ERP

Configuring Controlling in SAP ERP

This book explains in details about the SAP Enterprise Structure (MM and related modules such as FI, LE, SD) Concept and Configuration Guide. I wrote the e-book in a simple-to-understand way, so you can learn it easily. After understanding the concept, the e-book will show the step-by-step configuration with the screen shots.

Maximizing Sap Erp Financials Accounts Payable

Unlock the Full Potential of SAP with "Mastering SAP" In today's digital landscape, organizations rely on SAP (Systems, Applications, and Products) to streamline operations, manage data, and drive business growth. SAP is the backbone of many enterprises, and skilled professionals who can harness its power are in high demand. "Mastering SAP" is your comprehensive guide to excelling in the world of SAP, providing you with the knowledge, skills, and strategies to become an expert in SAP implementation, management, and optimization. Your Path to SAP Excellence SAP is more than just software; it's a platform for innovation and business transformation. Whether you're new to SAP or an experienced SAP professional looking to enhance your skills, this book will empower you to master the art of SAP. What You Will Discover SAP Fundamentals: Gain a deep understanding of SAP's architecture, modules, and functionalities, from SAP ERP to SAP S/4HANA. Implementation and Configuration: Learn best practices for SAP implementation, system configuration, and customization to meet organizational requirements. Data Management: Explore SAP data management, including data extraction, transformation, and loading (ETL), and data governance. Integration: Discover strategies for integrating SAP with other systems, both on-premises and in the cloud, to create a unified technology ecosystem. Performance Optimization: Master techniques for optimizing SAP performance, enhancing system security, and ensuring high availability. Career Advancement: Understand how mastering SAP can open doors to exciting career opportunities and leadership roles. Why "Mastering SAP" Is Essential Comprehensive Coverage: This book provides comprehensive coverage of SAP topics, ensuring that you have a well-rounded understanding of SAP's capabilities and applications. Expert Guidance: Benefit from insights and advice from experienced SAP professionals and industry experts who share their knowledge and expertise. Career Advancement: SAP offers a wide range of career opportunities, and this book will help you unlock your full potential in this dynamic field. Stay Competitive: In a constantly evolving technology landscape, mastering SAP is vital for staying competitive and driving innovation. Your Journey to SAP Mastery Begins Here "Mastering SAP" is your roadmap to excelling in the world of SAP and advancing your career. Whether you aspire to lead SAP projects, optimize SAP implementations, or become a trusted SAP consultant, this guide will equip you with the skills and knowledge to achieve your goals. "Mastering SAP" is the ultimate resource for individuals seeking to excel in the world of SAP. Whether you are new to SAP or an experienced professional, this book will provide you with the knowledge and strategies to become an expert in SAP implementation, management, and optimization. Don't wait; begin your journey to SAP mastery today! © 2023 Cybellium Ltd. All rights reserved. www.cybellium.com

Discover SAP ERP Financials

If your company is like many others, you probably have SAP ERP Financials Accounts Payable implemented, but aren't utilizing it to its full capacity. This book will provide you with comprehensive information you need to get the most out of Accounts Payable, whatever your role: implementation teams will benefit from the comprehensive coverage of functional configuration; executive staff will benefit from the coverage of business processes, best practices, and enhancements; functional and technical teams will benefit from the coverage of enhancements and integrating AP with other SAP services like BTE and BAPI; and end users will benefit from the detailed descriptions of the functions.

Beyond that, you will learn undocumented but critical topics common to, but not part of, Accounts Payable, including Document Workflow and Check Reconciliation via Electronic Bank Statements, user-exits, Business Transaction Events and Business Add-Ins. You'll gain insight in the configuration of every Accounts Payable function, and build an understanding of how you can optimize those functions and integrate them with other parts of SAP ERP Financials to derive more return on investment from your Accounts Payable implementation.

SAP Enterprise Structure Concept and Configuration Guide - A Case Study

This book redefines the essence of the information society and the digital economy, offering a new approach to their management and organization based on big data. The novelty of the new approach is that it ensures the use of the advanced technological capabilities of the Fourth Industrial Revolution to accelerate socio-economic development. The success of the new approach is based on progressive social institutions and advanced big data technology. Theoretical issues, methodological developments, and the author's applied recommendations are consistently presented in forty chapters distributed in five sections. The book contains cases that reveal the practical experience of the Eurasian Economic Union (EAEU). The intended readership of the book is scientists. The book is interesting and useful for them because it presents an innovative model of information society and digital economy development driven by big data.

Maximizing Cash Management with SAP ERP Financials

This book focuses on customizing and design changes for Controlling in SAP S/4HANA. Understand the changes to the functionality in SAP S/4HANA Finance, and how to configure them for Controlling. Compare the features of SAP Controlling in ECC and in SAP S/4HANA. Learn about modifications in SAP S/4HANA that are specific to Controlling. Obtain detailed guidelines for ledger and currency types in SAP S/4HANA. Find out about important design and configuration changes, including: cost elements now part of G/L Account, cost of goods sold (COGS) split in FI, production variance split in FI, profitability analysis in SAP S/4HANA, and Material Ledger in SAP S/4HANA. Discover more about embedded analytics and other innovations. By using practical examples, tips, and screenshots, this book brings readers up to speed on: - Key changes to Controlling with SAP S/4HANA - Customizing updates in SAP S/4HANA - Ledger and currency types in S/4HANA - Five important design configuration changes

Mastering SAP

Preparation -- Installation and upgrade -- Customizing for the general ledger -- Customizing for new asset accounting -- Customizing for controlling -- Migration of house bank accounts -- Data migration -- Post migration -- Testing and migration results -- New cash management -- Sap integrated business planning for finance -- SAP Fiori applications -- Impact on general ledger accounting -- Impact on new asset accounting -- Impact on controlling -- Impact on cost center accounting -- Impact on profit center accounting -- Impact on profitability analysis -- Impact on period end closing -- Impact on cash and bank management -- Appendix

Maximizing SAP ERP Financials Accounts Payable

Why ERP? is not a traditional textbook designed for a specified course, it is patterned after the wildly successful short novel "The Goal" by Eli Goldratt. "The Goal" is currently required reading in many undergraduate, MBA, and executive courses. Like "The Goal," "Why ERP?" is a short novel about a manager in a furniture manufacturing business who is charged with learning about and implementing a new ERP system-particularly SAP R/3. The story tells of his experience learning about it, his considering other installations as examples, and then his deciding the key issues and how to proceed. Incorporated into the story is a concise introduction to the basic concepts and architecture of ERP systems, including actual screen shots of R/3 modules. Though this is NOT a programming book, it is a quick read overview, and it can be assigned even for 'systems' majors, as a background reading to lay-out the managerial issues and build a basic understanding of the concepts-prior to doing actual technical programming or hands-on R/3 projects. Through the eyes of the hero in the novel, the reader is presented with all the related implementation and business issues. Intended to provide a non-technical, non-programming introduction, this book can stand alone as a quick read or self-study introduction for any manager or business student. The text is also great for schools who do NOT have any SAP, Oracle, PeopleSoft, or other ERP system on campus, and who have no access to online or hands-on samples

or examples. This book can provide the needed literacy and awareness of what ERP is and why it matters.

Big Data in Information Society and Digital Economy

Preparing consolidated financial statements for an enterprise with a parent and one or more subsidiaries requires a detailed review of underlying transactions in order to properly reflect results and financial position. For large, integrated, and multinational organizations, likely with millions of transactions, it is imperative that the financial accounting software facilitate this process. This expertly written guide focuses on leveraging SAP S/4HANA Finance for group reporting. Explore key functionality and how the universal journal has led to the evolution of the group reporting solution. Using a detailed case study, the author discusses configuration and master data and walks the reader through the period-end process for consolidation and explores reports using financial transactions that have already been entered into SAP S/4HANA Finance for group reporting. Explore reports delivered with SAP S/4HANA Finance for group reporting. This book is targeted at both finance professionals and the functional consultants who perform the configuration and execution of processes for preparing consolidated financial statements. By using practical examples, tips, and screenshots, this book covers:

- SAP S/4HANA Finance for group reporting and the universal journal
- Configuration and master data
- Period-end process for consolidation
- Reporting and analysis

SAP S/4HANA Delta for CO Configuration

With their latest product, SAP S/4HANA, SAP is revolutionizing how we approach finance by re-architecting data persistency and merging accounts and cost elements. This book offers a fundamental introduction to SAP S/4HANA Finance. Dive into the three pillars of innovation including SAP Accounting powered by SAP HANA, SAP Cash Management, and SAP BI Integrated Planning. Find out about the new configuration options, updated data model, and what this means for reporting in the future. Get a first-hand look at the new user interfaces in SAP Fiori. Review new universal journal, asset accounting, material ledger, and account-based profitability analysis functionality. Examine the steps required to migrate to SAP S/4HANA Finance and walk through the deployment options. By using practical examples, tips, and screenshots, this book helps readers to:

- Understand the basics of SAP S/4HANA Finance
- Explore the new architecture, configuration options, and SAP Fiori
- Examine SAP S/4HANA Finance migration steps
- Assess the impact on business processes

Implementing SAP S/4HANA Finance

This book provides finance and IT teams with best practices for delivering financial reports faster, more accurately, and in compliance with various international accounting standards. Featuring step-by-step coverage of all major FI reporting functions (including Sub-Ledger, Corporate Finance Management, and Governance, Risk & Compliance), this book will help you streamline and simplify financial business processes and automate financial and management reporting in SAP ERP Financials. This new edition includes updated content on statutory reporting, segment reporting, AP and AR reports in SAP ERP, Consolidated Financial Reporting, as well as the most recent reporting tools in SAP ERP, SAP BusinessObjects. Highlights: Key financial reports in SAP ERP, SAP BusinessObjects, and SAP NetWeaver BW Detailed explanations of the SAP ERP Financials components, capabilities, and underlying financial processes Important design considerations and work-in best practices SAP Analytics, Duet, and SAP Interactive Forms software by Adobe How to increase financial compliance with SAP Governance, Risk, and Compliance (GRC)
