The #1 Chord Progression For Piano Beginners...

WHY it's the FIRST progression you should learn

Demoing the exact notes of the progression

Simple Chord Variations you can use to spice it up

Easy trick to improvise over the progression (plus the "money notes")

WHY you should learn this before any other chord progression

Reason 2: It's very easy to add simple chord variations to this progression to spice it up

Chord 1: A Minor !

Chord 4: G Major

If you're not a Music Theory nerd like I am... :P

of 4: Chord Variations

Variation 1: Same progression but start on F

Variation 2: Same progression but start on C

"Edgy" Variation: G becomes E

"Dark" Variation: C becomes Dm

"Super Dark" Combo Variation: C becomes Dm & G becomes E

Coming up: Easy way to improvise over this progression

Improv trick you could easily learn in less than a week

The "Trick" - Only use the notes CDEG and it will sound good

C Pentatonic Scale: CDEGA

Type in "Zach Evans Secret Sauce Pattern" to find this...

"Money Notes" - Notes that can be used sparingly to spice up the improv

Money Note 1: F Rule: Must go down to E

Money Note 2: B Rule: Must go up to C

Tip for beginners: Don't move your thumb, play with 2nd finger

One last tip: Octave transposition (in multiple ways)

Learn How to Play Piano in the Next 15 Days, A Complete Guide for Absolute Beginners

Have you ever wondered if there is a better way to learn play the piano well, not only the notes, but the feeling behind the music. Have you ever wondered what the composer meant to say in his music? Have you wanted to know the theory behind music and how to read sheet music like an expert? *Learning to Play the Piano* teaches you how to play by taking a modern approach, as well as falling back on tradition. Often, today's nooks on music take too many shortcuts, leaving you confused about what you are doing, and frustrated because no matter how hard you try, it just isn't coming together. *Learning to Play the Piano* was created by music teachers sensitive to the needs of adult players who understand a great deal more than they believe they do. You are guided gently along through musical concepts and terminology, but we never move far from the true purpose, which is to get you playing successfully! This book jammed with unique insights into playing, techniques tested by some of the best music instructors.

We believe by spending a little time each day with this book, you will improve, until you can choose your own pieces to play. Learning to Play the Piano also includes a step by step guide to playing well-known pieces such as Beethoven's Ode to Joy and Bach's Minuet in G

The Melodica is one of the best educational instruments. The Melodica is light and portable The Melodica develops both keyboard skills and breath control The Melodica is perfect for group play The Melodica works like a clarinet The Melodica plays like a piano The Melodica sounds like a harmonica

or an accordion This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. That is why we use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. None at all. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 3 options to help children to begin to play right away. **PLAYING BY COLOR CIRCLE PLAY BY LETTER PLAY WITH THE MUSICAL STAFF** The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - CIRCLES Mary Had a Little Lamb - Ver 1 - NOTES Level 2. In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Ver 1 - CIRCLES Hot Cross Buns - Ver 1 - NOTES Hot Cross Buns - Ver 2 - NOTES (Here the player will play songs in a different key and learn to transpose). Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3. Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer, not only Melodica). Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as kalimba, marimba, xylophone, glockenspiel, or even color bell set.

Melodica for Absolute Beginners. Play by Letter. Learn to Transpose

"How to Play Piano" contains everything the new or intermediate piano player needs to know to really get to grips with making music on this most popular of instruments. Highly practical, it leads you from the basics to more complex techniques, covering playing with the left hand, right hand and both together, along with a basic introduction to reading music. The clear text is accompanied by illustrative photos and diagrams, and the guide is complemented by some classic practice pieces to try your hand(s) at, such as "Für Elise" and "Pachelbel's Canon"

How To Play Piano & Keyboard

As the name suggests, this book has been written for the absolute beginner and assumes no prior musical knowledge - just the desire to do it! The contents are suitable for piano and / or electronic keyboard. Items covered include: - Buying your first keyboard or piano; - Reading music from scratch; - Easy, effective finger exercises which require minimal reading ability; - Hundreds of clear diagrams / graphics; - Important musical symbols; - Your first tunes; - Audio links for all tunes and exercises; - Key signatures and transposition; - Pre-scale exercises; - Major and minor scales in keyboard and notation view; - Chord construction; - Chord fingering; - Arpeggios in keyboard and notation view; - Arpeggio exercises; - Playing from a Fake Book with and without auto-accompaniment; - Plus, more! After completing this book, you should have a good basic understanding of music theory as well as a good basic playing technique, paving the way for more advanced study in your chosen field - jazz, blues, pop, classical etc. Ok, but what is special about this 'Special Edition'? Compared to Editions 1 and 2 (both of which are still available) this Special Edition is both a lot more and a little less in the fact that I have only included the first three major and harmonic minor scales and arpeggios and removed the chord charts to make the paperback version more cost effective. BUT... to make this version much better I have included free links for the digital pdf versions of the items shown next: - Hanon Exercises 1 - 30 Condensed and Simplified for Beginners Easy Reading; - Scales & Arpeggios - every major / minor scale in every key, plus pentatonic / blues scales and modes in most used keys; - Chords (complete) - just about every chord that you will ever need; - Chords (short) - as above but only in keyboard view with diatonic chords; - Easy Piano Music - for two hands; - Easy Keyboard Music - for auto-accompaniment. Consequently, this edition offers far more 'bang for buck' and if you're serious about learning you would eventually need to buy these other items anyway.

Piano Book for Adult Beginners

This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. We use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids

nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. Every song has a large and simple, letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 2 options to help children to begin to play right away. **PLAYING BY LETTER CIRCLE PLAY WITH THE MUSICAL STAFF** The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - CIRCLES Mary Had a Little Lamb - Ver 1 - NOTES Level 2 In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Version 1 - CIRCLES Hot Cross Buns - Version 1 - NOTES Hot Cross Buns - Version 2 - NOTES (Here the player will play songs in a different key and learn how to transpose.) Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3 Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer). We offer 22 one-hand piano songs. Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as xylophone, glockenspiel, melodica, or recorder. Additionally, you find funny riddles with engaging activities to teach musical notes and symbols. Table of contents Level 1 Mary Had a Little Lamb Ode to Joy The Whills on the Bus Jolly Old Saint Nicholas Ten Little Fingers London Bridge Do You Know the Muffin Man? we Wish You a Merry Christmas The First Noel Brahms Lullaby Row Row Your Boat Itsy Bitsy Spider Silent Night Oh Susannah Level 2 Hot Cross Buns Are You Sleeping? Absolute Beginners

When Keith Richards threw a drug-fuelled party at his West Sussex house in early 1967, it was never going to be an uneventful affair. Mick Jagger and Marianne Faithfull were the star guests but the police came uninvited, so launching a legendary confrontation. The drugs bust spawned a media frenzy of salacious speculation and led to a famous summer trial that pitted the hedonistic poster boys of the counterculture against the British Establishment. It was intended as a high-profile show of strength from on high. As it happened, things turned out rather differently. Using previously unpublished police and court documents, best-selling author Simon Wells reveals what really happened on the night of the drugs raid as well as the extraordinary conspiracy mounted to end the careers of Jagger and Richards, and how the Establishment widened their net to drag in the Beatles and other rock stars. With fresh interviews with lawyers, police, eye witnesses and those present at the notorious party, Wells reveals the truth about the celebrity pushers, London gangsters, bent cops, corrupt newspapers and dodgy politicians.
