The Book of African Proverbs

This book contains a list of African proverbs, wise saying and words of wisdom from around the continent. A proverb is a simple, concrete, traditional saying that expresses a perceived truth based on common sense or experience. Proverbs are often metaphorical and use formulaic language. Collectively, they form a genre of folklore. Many African proverbs are strongly tied to the earth and animals, conveying lessons of life and learning often through daily, seemingly menial, procedures. An example of a Zimbabwean proverb is "there is honey but no bees" - describing a situation when you find something free for the taking and without consequence. Every culture has its share of wise proverbs or sayings, usually single sentences, passed down from one generation to the next. While these sayings may vary from one language, culture, and country to another, the wisdom they convey is universal. Africa, in particular, is overflowing with inspirational sayings, many of which provide a captivating insight into the rich and vibrant cultures that crafted them.

African Proverbs

This extensive collection of 1755 proverbs spans all regions of the African continent, revealing much about the wisdom, humour, and character of its people and culture. Each proverb is arranged alphabetically by key words and includes the country, province, or tribe of origin. Charmingly illustrated with traditional African art from museums and collections around the world.

The Book of African Proverbs

The Book of African Proverbs collects over 1,200 of the best, most profound and illuminating proverbs from Africa, its nations and its people. Back in the 19th century, Africa was often referred to as "the Dark Continent" in the sense that Africa's culture and people were largely mysterious and unknown to Europeans. Even today with all the information we have at our disposal, Africa is still viewed by many as a monolithic entity instead of a great continent with a myriad of diverse nations, cultures, and inhabitants. The Book of African Proverbs seek to illuminate these different cultures by highlighting the wisdom, humor, and character of people from all over Africa. The insights within The Book of African Proverbs are simultaneously unique and universal making it a wonderful starter collection for anyone interested in Africa's rich culture.

Lifelines

This little book contains the wisdom of the ages, and is guaranteed to produce a smile of appreciation at the sheer sense of the proverbs you will find inside. From advice you wish your mother had given you, to things you probably suspected, but had never put into words, Lifelines is a book to be read, absorbed and treasured.—Pearl Cleage, New York Times best selling author of *What Looks Like Crazy On An Ordinary Day* This illustrated treasury of proverbs unites the timeless wisdom of Black communities in Africa, the Caribbean, and the Americas, while speaking to the triumphs and challenges of everyday life. Lifelines: The Black book of Proverbs travels to all corners of the globe to reclaim and preserve African wisdom. This book offers the remarkably wise heart of Africa and her children to readers experiencing career changes, new births, weddings, death, and other rites of passage. Readers will find truth in the African saying, "When the occasion arises, there is a proverb to suit it." Proverbs are presented in vibrant story-poem form; and are uniquely arranged by key life cycle events such as birth, initiation, marriage, and death. The proverbs can be found under themes such as "wealth", "parenting", "change" and "strength." Inspired illustrations introduce each section along with beautiful vignettes showing how African proverbs comfort, inspire and instruct during different phases of life. Lifelines illuminates how traditions, civilization and spirit survive and thrive, despite centuries of loss of freedom, family, identity, language, land, and wealth. The proverbs offer wisdom for every stage of our lives. Collected in one place as never before, it is the perfect addition to the book shelves of families large and small, from Nairobi to New Orleans and every city in between. From Birth: Every cackling hen was an egg at first. -Rwanda to Marriage: A woman's clothes are the price her husband pays for peace. -Central Africa, East Africa, and Southern Africa (Bantu) and Elderhood: Every time an old man dies it is as if a library has burnt down. -West Africa as well as every stage of life in between, the proverbs found in Lifelines offer the guidance and wisdom to last a life time. Unlike other collections of proverbs, Lifelines hews closely to the cycle of life and draws inspiration from the authors combined 110 years of experience.

Askhari Johnson Hodari and Yvonne McCalla Sobers have set out to let their proverbs both tell a story and stand alone. So whether you flip it open to a random page, read it through from start to finish, or go searching for a proverb to match your unique circumstance, you'll find just the right lifeline to provide the comfort and guidance you're looking for. From the Hardcover edition.

The A-Z of African Proverbs

This book contains hundreds of proverbs, collected in all parts of Africa, many by the author himself. The majority of these proverbs are presented here for the first time in an English translation. Each proverb is labelled with the name of the country of its origin; some proverbs are so widely known that they can be categorised as, e.g., North African. Others are given with the name of the ethnic group or the language where each was recorded. In this way it is hoped the greatest possible variety is achieved and the readers will have a fair impression of the richness of African oral traditions.

Book on African Proverbs

Many African proverbs are strongly tied to the earth and animals and are used to illustrate ideas, reinforce arguments and deliver messages of inspiration, consolation, celebration, and advice. An example of an African proverb is "Do not look where you fell, but where you slipped." Meaning that you do not look at your mistakes; look at what caused you to make the mistakes, then you could find solutions to save you from making the same mistakes again. African Proverbs may give different meanings to different situations, hence they are greatly understood according to the contexts with which they are said. An example is "only a fool tests the depth of a river with both feet" may be similar to the idiom: "do not put all your eggs in one basket" - thereby giving a suggestion and advising not to concentrate all efforts into one area. This may also mean that it is not wise to jump into a situation before thinking about it. In this book: "Book on African Proverbs"

AFRICAN PROVERBS

In this book of wise proverbs, you will find a recollection of my encounters while interacting with people from various countries, and different cultures in the African continent. On some of the proverbs I have added my interpretation of them which is however not exhaustive please feel free to interpret them as you may.

In My Village They Say... .

Western interpretations of poverty proverbs in the Old Testament Book of Proverbs have tended to see a status quo acceptance in the ancient texts, thus neglecting existential challenges of the poverty issue. In contrast, Lechion Peter Kimilike argues that African proverbial material on poverty may - when used comparatively to interpret the corresponding Old Testament poverty proverbs - create a more dynamic analysis. The author's new and thought-provoking interpretation suggests «an African transformational hermeneutic» that balances between the questions and methodology of the «global [i.e., western] guild» and the concerns of the African interpretative context.

Poverty in the Book of Proverbs

A collection of descriptive and often humorous proverbs gathered from the tribes and peoples of Africa. Proverbs that relate to nature and the elements that will stimulate and tantalize.

The Little Book of African Proverbs

Proverbs are wise traditional sayings that are used to explain a truth and give advice. The collection of proverbs in this book are a collection from across the Continent of Africa. Make the book and the sayings a part of your literature collection, homeschooling curriculum, family fun on games night or a gift for a friend or family.

365 African Proverbs

African folklore, narratives, idiomatic expressions, and cultures are weaved into short sentences that are rich with wisdom. The primary goal of this book is to disseminate knowledge and share the rich culture of Africa, one does not have to be African to appreciate the creative language at play in this book. Readers are encouraged to use the wisdom embedded in these proverbs to transform their lives and the lives of their loved ones and friends.

My Small Book of African Proverbs

Proverbs, parables and wise sayings are life experiences. In actual fact, these are wisdoms, truths, warnings, morals, experiences and traditional views passed down from generation to generation. These proverbs, parables and wise sayings express the wisdom of African people and are also the resources that are used to understand the Africans past and present lives. In Sierra Leone each ethnic group used proverbs, parables and wise sayings in their conversations as a way of life. The role and importance of proverbs, parables and wise sayings in each ethnic groups conversations provide a colorful and poetic picture of the culture and its characteristics.

Life Lessons of African Proverbs

It has been said that a proverb is a short sentence based on long experience. Whether you're young or old, proverbs can open your mind to new ways of seeing the world. We underestimate children, assuming they are incapable of understanding metaphor and deeper meaning. Children learn in multiple ways, but for each method by which they learn, they need engaged imagination and ignited visual sensibilities. And as adults, we underestimate ourselves when we allow our lives to be about practical matters only. Proverbs can stir our soul and spark our imagination. In *African Proverbs for All Ages*, noted anthropologist and educator Dr. Johnetta Betsch Cole and award-winning illustrator Nelda La Teef invite children and adults to explore and reflect on complex notions about relationships, identity, society, and the human condition.

African Proverbs, Parables and Wise Sayings

This beautiful book is filled with soft, rich images of Africa along with meaningful, age-old words giving the reader inspiration and perspective. The proverbs from another culture broaden our horizon and pass along value, humor, and most of all wisdom that truly stands the test of time. Clint Morgan shares from a heart for missions and a profound love for Africa having spent thirty years serving in Cote d'Ivoire.

African Proverbs for All Ages

This book is a timely addition to debates and explorations on the epistemological relevance of African proverbs, especially with growing calls for the decolonisation of African curricula. The editors and contributors have chosen to reflect on the diverse ways of being and becoming African as a permanent work in progress by drawing inspiration from Chinua Achebe's harnessing of the effectualness of oratory, especially his use of proverbs in his works. The book recognises and celebrates the fact that Achebe's proverbial Igbo imaginations of being and becoming African are compelling because they are instructive about the lives, stories, struggles and aspirations of the rainbow of people that make up Africa as a veritable global arena of productive circulations, entanglements and compositeness of being. The contributions foray into how claims to and practices of being and becoming African are steeped in histories of mobilities and a myriad of encounters shaped by and inspiring of the competing and complementary logics of personhood and power that Africans have sought and seek to capture in their repertoires of proverbs. The task of documenting African proverbs and rendering them accessible in the form of a common hard currency with fascinating epistemological possibilities remains a challenge yearning for financial, scholarly, social and political attention. The book is an important contribution to John Mbiti's clarion call for an active and sustained interest in African proverbs.

African Proverbs: Wisdom Without Borders

Our ancestors have thrived on the use of proverbs to educate, provide clarity and help us understand life for centuries. These proverbs have been passed down in our generations and are still widely used all over Africa today as an integral part of our culture. In this book, I compile some commonly used West African Proverbs and some of my favorite Liberian sayings. There are millions of African proverbs and other wise sayings, but my intention was to create a short list that is easy to read, remember and pass on. I hope you enjoy reading this short book.

Being and Becoming African as a Permanent Work in Progress

This book contains a collection of proverbs and sayings that I have gathered throughout the years whilst growing up, and traveling through the African continent. Though I have translated some of the proverbs into English, it's impressive that most have not lost their meaning. In these proverbs you will find a recollection of my encounters while interacting with people from various countries, and different cultures in the continent. Some proverbs had me laughing for days, and others brought me to tears. There is power in the spoken word, more so in the African continent where generation upon generation have passed on proverbs and sayings to teach, guide, and shape the community.

African Proverbs

Proverbs from various African countries, arranged according to theme.

Some West African Proverbs and Their Simple Meaning

Power and Influence demonstrates how the indigenous wisdom contained in African proverbs and folktales can be used to enhance modern life. The timeless wisdom contained in African proverbs and folktales enriches self-development and positive influence. The inspiring results provide deeper understanding of self-development and self-leadership, forming a solid foundation for leadership effectiveness at all levels. This book is among the first to consciously acknowledge and demonstrate the rationale of applying indigenous wisdom to enhance the understanding of disciplines, theories, and practice. African proverbs and folktales express an accumulated wisdom of human relations; add dimensions to practice in ways that are soulful, respectful, practical, and socially embedded. By using African indigenous wisdom, the book contributes towards the much-needed, cross-cultural dialogue among individuals, organizations and societies in this increasingly diversified world.

The Funniest Book Of African Proverbs

African Proverb Scholarship

This volume focuses on analysing the meaning of proverbs within Africa. The context in which a proverb is uttered, determines meaning, so this increases the difficulty of explaining proverbs exhaustively.

Power and Influence

If you want to go fast, go alone. If you want to go far, go together. AFRICAN PROVERB This journal features 50 African proverbs to inspire and guide you. This journal is great for note-taking, setting goals or life plans, and writing down your thoughts and dreams. 100 page, lined 5x8 Journal with African proverbs on every other page.

A Proverb a Day... 366 African Proverbs

I Am Because We Are features 125 black-and-white photographs by Betty Press taken all over East and West Africa since 1987, combined with related African proverbs compiled by Annetta Miller, an American born in Tanzania. The book highlights the importance of proverbs in educating members of African societies on how to think, how to behave, and how to have a better life. Press took these photographs with the goal of making a significant educational and artistic contribution to the appreciation and understanding of African culture and society as well as our own. The photographs of daily life deal with knowledge, cooperation, love, beauty, friendship, hope, humor, sorrow, happiness, gratitude, dance, tradition, faith, peace, war, death, and human relationships. These are the same themes found in African proverbial language. Thus came the natural idea of coupling images with proverbs. Together they offer a powerful expression of African life and the universality of human emotions, ideas, and knowledge.

The Wiley Blackwell Companion to Wisdom Literature

Ruth Finnegan's Oral Literature in Africa was first published in 1970, and since then has been widely praised as one of the most important books in its field. Based on years of fieldwork, the study traces the history of storytelling across the continent of Africa. This revised edition makes Finnegan's ground-breaking research available to the next generation of scholars. It includes a new introduction, additional images and an updated bibliography, as well as its original chapters on poetry, prose, "drum language" and drama, and an overview of the social, linguistic and historical background of oral literature in Africa. This book is the first volume in the World Oral Literature Series, an ongoing collaboration between OBP and World Oral Literature Project. A free online archive of recordings and photographs that Finnegan made during her fieldwork in the late 1960s is hosted by the World Oral Literature Project (<http://www.oralliterature.org/collections/rfinnegan001.html>) and can also be accessed from publisher's website.

If You Want to Go Fast, Go Alone. If You Want to Go Far, Go Together. African Proverb

As a reader, you will see more in the book, painted in vivid word picture, the African identity and history art that is often present in clothing, comforter, pillow, plaque, earrings, bracelets, necklace and gifts, along with funny quotes and rhythms. Proverbs and riddles are a major part of the African traditional life. They seek to bring out a range of thoughtful advice, understanding, truth, morals and

warning in both serious and humorous fashion. They evoke meanings out of daily experiences, show community unity and link to biblical spirituality. The beauty of this collection is the generous latitude towards many possible meanings as no attempt is made to suggest one. Unless otherwise indicated, all the proverbs here are credited to the Ishans, a small minority tribe in Edo, Nigeria. Still, most are known in other tribes and their messages are true of people everywhere. This book will gain audience among families and readers who seek to find the wisdom of words. So discover why "The room of a small child is not enough for a masquerade to dress up." And why "A man needs to hold his organ in his hand in gesture when making advances to a woman who is deaf and dumb."

A World War II merchant seaman, John Bunker takes a thorough look at the American merchant marines' significant contributions to the war effort. There are plenty of fascinating facts about their extensive supply operations, but the focus of the book is on the men and their often-heroic actions. Bunker draws from his own experiences to describe the action at sea and also includes the personal stories of many other civilian participants. It is an engaging portrayal of the courage, bravery, and ingenuity demonstrated by these merchant seamen. All theaters of operation using U.S. merchant ships are covered; in addition, Bunker provides information on events before the country entered the war when efforts were being made to build more ships and to recruit the men necessary to crew the huge fleet.

This book details the Liberty ships and the Emergency Shipbuilding Program during World War II. For the first time, comprehensive information is provided about the builders, the namesakes, and the operators under one cover. Included is a list of all 2,710 Liberty ships delivered by U.S. shipyards, giving each ship's namesake and detailed descriptions of the companies that built the ships and the steamship companies that operated them during the war. This book also details the formation of two shipyards in South Portland, Maine, the Todd-Bath Iron Shipbuilding Co. and the South Portland Shipbuilding Corp. South Portland's shady operations were investigated by the U.S. Congress and resulted in the merger of both companies into the New England Shipbuilding Corporation in April 1943. Also featured is the Jeremiah O'Brien. Built by New England Ship in 1943 and one of only two operational Liberty ships left in the world, its service history and crew information are given along with its postwar restoration and return to Normandy in 1994.

On June 19, 1864, the Confederate cruiser Alabama and the USS Kearsarge faced off in the English Channel outside the French port of Cherbourg. The Kearsarge had seen little action, and its men greeted the battle with enthusiasm. The Alabama, on the other hand, had limped into the harbor with a near-mutinous crew after spending months sinking Union ships all over the globe. Commander Raphael Semmes intended to put the ship into drydock for a few months - but then the Kearsarge steamed onto the scene, setting the stage for battle. About an hour after the Alabama fired the first shot, it began to sink, and its crew was forced to wave the white flag of surrender. Marvel consulted the original muster rolls and logbooks for both ships, the virtually unknown letters of Confederate paymaster Clarence Yonge, and census and pension information. The letters and diaries of officers and crewmen describe the tensions aboard the ships, as do excerpts from the little-used original logs of Alabama commander Raphael Semmes. French sources also help to illuminate the details of the battle between the two ships. Marvel challenges the accuracy of key memoirs on which most previous histories of the Alabama have been based and in so doing corrects a number of long-standing misinterpretations, including the myth that the English builders of the Alabama did not know what Confederate officials intended to do with the vessel. Marvel's greatest contribution is his compelling description of the everyday life of the men on board the ships, from the Liverpool urchins who served as cabin boys on the Alabama to the senior officers on both of the warships.

The Nonfictionist's Guide

Nonfiction—the 'fourth genre' (along with poetry, fiction, and drama)—is a literary field affecting bestseller lists, writing programs, writers' workshops, and conferences on the study of creative writing, composition/rhetoric, and literature. It is often labeled and/or limited as 'creative' or 'literary' nonfiction and subdivided into essay, memoir, literary journalism, personal cultural criticism, and narratives of nature and travel. A vital and growing form, nonfiction has, until now, needed a sustained discussion about its poetics—both the theory and the craft of this genre. The Nonfictionist's Guide offers a lively exploration of the elements of contemporary nonfiction and suggests imaginative approaches to writing it. Each chapter on a vital aspect of contemporary nonfiction concludes with a separate section of relevant 'notes for nonfictionists.' Beginning with a new definition of nonfiction and explanation of the nonfiction motive, Robert Root discusses the use of experimental forms, the effects of present and past tense and experiential and reflective voices, and the issue of truth. He provides groundbreaking explorations of the segmented essay and the role of spaces as an essential literary device, guiding both readers and writers through the innovative and stimulating ways we write nonfiction now.

Curated by the #1 New York Times bestselling author of *Wild*, this volume shares intimate perspectives from some of today's most acclaimed writers. Personal and deeply perceptive, this collection examines a broad range of life experiences—from a man's relationship with Mormonism to a woman's search for a serial killer; from listening to the music of Joni Mitchell to surviving five months at sea; from triaging injured soldiers to giving birth to a daughter; and much more. *The Best American Essays 2013* includes entries by Alice Munro, Zadie Smith, John Jeremiah Sullivan, Dagoberto Gilb, Vicki Wei Qi Yang, J.D. First published in 1999. The many available scholarly works on Italian-Americans are perhaps of little practical help to the undergraduate or high school student who needs background information when reading contemporary fiction with Italian characters, watching films that require a familiarity with Italian Americans, or looking at works of art that can be fully appreciated only if one understands Italian culture. This basic reference work for non-specialists and students offers quick insights and essential, easy-to-grasp information on Italian-American contributions to American art, music, literature, motion pictures and cultural life. This rich legacy is examined in a collection of original essays that include portrayals of Italian characters in the films of Francis Coppola, Italian American poetry, the art of Frank Stella, the music of Frank Zappa, a survey of Italian folk customs and an analysis of the evolution of Italian-American biography. Comprising 22 lengthy essays written specifically for this volume, the book identifies what is uniquely Italian in American life and examines how Italian customs, traditions, social mores and cultural antecedents have wrought their influence on the American character. Filled with insights, observations and ethnic facts and fictions, this volume should prove to be a valuable source of information for scholars, researchers and students interested in pinpointing and examining the cultural, intellectual and social influence of Italian immigrants and their successors.

The Everything Guide to Writing Nonfiction

This book is a study of the short story, one of the widest taught genres in English literature, from an innovative methodological perspective. Both liminality and the short story are well-researched phenomena, but the combination of both is not frequent. This book discusses the relevance of the concept of liminality for the short story genre and for short story cycles, emphasizing theoretical perspectives, methodological relevance and applicability. Liminality as a concept of demarcation and mediation between different processual stages, spatial complexes, and inner states is of obvious importance in an age of global mobility, digital networking, and interethnic transnationality. Over the last decade, many symposia, exhibitions, art, and publications have been produced which thematize liminality, covering a wide range of disciplines including literary, geographical, psychological and ethnicity studies. Liminal structuring is an essential aspect of the aesthetic composition of short stories and the cultural messages they convey. On account of its very brevity and episodic structure, the generic liminality of the short story privileges the depiction of transitional situations and fleeting moments of crisis or decision. It also addresses the moral transgressions, heterotopic orders, and forms of ambivalent self-reflection negotiated within the short story's confines. This innovative collection focuses on both the liminality of the short story and on liminality in the short story.

Liminality and the Short Story

Roberta Fernández has gathered the best and most representative examples of fiction, poetry, drama and essay currently being written by Latina writers of the United States. The work is arranged by genre, and topics are as varied as the voices and styles of the writers: the challenge of living in two cultures; experiencing marginality as a result of class, ethnicity, and/or gender; Latina feminism; the celebration of one's culture and its people. Most of the pieces are in English and some are presented bilingually in English and Spanish. A preface and an introduction by the editor and a foreword by the noted critic of Latin American literature, Jean Franco, serve to contextualize the writers and their work; a primary and secondary bibliography serves as an appendix.

In Other Words: Literature by Latinas of the United States

In her introduction to this year's *The Best American Essays*, guest editor Vivian Gornick states that her selections "contribute materially to the long and honorable history of the personal essay by way of the value they place on lived experience." Provocative, daring, and honest at a time when many writers are deliberately silencing themselves in the face of authoritarian and populist censorship movements, the twenty-one essays collected here reflect their authors' unapologetic observations of the world around them. From an inmate struggling to find purpose during his prison sentence to a doctor coping with the unpredictable nature of her patient, to a widow wishing for just a little more time with her late husband, these narratives—and the others featured in this anthology—celebrate the endurance of the human spirit. *The Best American Essays 2023* includes Ciara Alfaro • Jillian Barnett • Sylvie Baumgartel • Eric Borsuk • Chris Dennis • Xujun Eberlein • Sandra Hager Eliason • George Estreich • Merrill Joan Gerber • Debra Gwartney • Edward Hoagland • Laura Kipnis • Phillip Lopate • Celeste Marcus • Sam Meekings • Sigrid Nunez • Kathryn Schulz • Anthony Siegel • Scott Spencer • Angelique Stevens • David Treuer

The Best American Essays 2023

This innovative book shows how Asian American filmmakers and videomakers frame and are framed by history—how they define and are defined by cinematic projections of Asian American identity. Combining close readings of films and videos, sophisticated cultural analyses, and detailed production histories that reveal the complex forces at play in the making and distributing of these movies, *Identities in Motion* offers an illuminating interpretative framework for assessing the extraordinary range of Asian American films produced in North America. Peter X Feng considers a wide range of works—from genres such as detective films to romantic comedies to ethnographic films, documentaries, avant-garde videos, newsreels, travelogues, and even home movies. Feng begins by examining movies about three crucial moments that defined the American nation and the roles of Asian Americans within it: the arrival of Chinese and Japanese women in the American West and Hawai'i; the incorporation of the Philippines into the U.S. empire; and the internment of Japanese Americans during World War II. In subsequent chapters Feng discusses cinematic depictions of ideological conflicts among Asian Americans and of the complex forces that compel migration, extending his nuanced analysis of the intersections of sexuality, ethnicity, and nationalist movements. *Identities in Motion* illuminates the fluidity of Asian American identities, expressing the diversity and complexity of Asian Americans—including Filipinos, Indonesians, Chinese, Japanese, Vietnamese, Laotians, Indians, and Koreans—from the nineteenth to the twenty-first century.

A Choice Outstanding Academic Title "Cover to cover, *Screening Asian Americans*, a collection of 15 essays, is fabulous."--AsianWeek.com "This scholarly book uses 15 contributors to explore the various images of Asians, many of which have been negative."-Burlington County Times This innovative essay collection explores Asian American cinematic representations historically and socially, on and off screen, as they contribute to the definition of American character. The history of Asian Americans on movie screens, as outlined in Peter X Feng's introduction, provides a context for the individual readings that follow. Asian American cinema is charted in its diversity, ranging across activist, documentary, experimental, and fictional modes, and encompassing a wide range of ethnicities (Filipino, Vietnamese, Indian, Japanese, Korean, Chinese, and Taiwanese). Covered in the discussion are filmmakers--Theresa Hak Kyung Cha, Ang Lee, Trinh T. Minh-ha, and Wayne Wang--and films such as *The Wedding Banquet*, *Surname Viet Given Name Nam*, and *Chan is Missing*. Throughout the volume, as Feng explains, the term screening has a twofold meaning-referring to the projection of Asian Americans as cinematic bodies and the screening out of elements connected with these images. In this doubling, film representation can function to define what is American and what is foreign. Asian

American filmmaking is one of the fastest growing areas of independent and studio production. This volume is key to understanding the vitality of this new cinema. Poet, critic, biographer, and Catholic intellectual Paul Mariani delivers huge armfuls of experience and knowledge in this wide-ranging collection of twenty-four essays. As a man of faith in a secular world, Mariani brings to light issues surrounding spirituality and poetry through discussions of the Gnostics, Roman history, the Bible, John of the Cross, Rilke, Robert Pack, Galway Kinnell, Philip Levine, and the poets he most admires--Gerard Manley Hopkins, William Carlos Williams, Hart Crane, John Berryman, and Robert Lowell. Charged with spiritual and intellectual awe, Mariani fully engages with his subjects, from their lives to their works to their grand impact on Mariani's own life as a poet. His prose flows easily from anecdote to analysis, from Paterson, the setting of Williams's great tribute poem, to Manhattan, where Mariani haunts old neighborhoods and the Brooklyn Bridge, searching for traces of Hart Crane. By infusing scholarly criticism with a personal voice, Mariani allows us to see the relationship between poetry and a sublime presence in the universe. Serious reading for anyone interested in modern and contemporary poetry, *God and the Imagination* offers elegant and original insights into a wide variety of poetic concerns. But it is most extraordinary for its celebration of the lives of the poets, which allow us, in Mariani's words, "to recover what would otherwise be lost to time and silence."

God and the Imagination

Continuing the celebrated tradition, *The Best American Essays 1995* dazzles and surprises with its inventive, colorful cornucopia of essays drawn from periodicals across the country. Showcased here are the preeminent pieces from the Los Angeles Times, The New Yorker, Harper's Magazine, and others, written by some of today's finest prose stylists.

The Best American Essays, 1995

The human presence that animates the personal essay is surely one of the most beguiling of literary phenomena, for it comes across in so familiar a voice that it's easy to believe we are listening to the author rather than a textual stand-in. But the "person" in a personal essay is always a written construct, a fabricated character, its confessions and reminiscences as rehearsed as those of any novelist. In this first book-length study of the personal essay, Carl Klaus unpacks this made-up self and the manifold ways in which a wide range of essayists and essays have brought it to life. By reconceiving the most fundamental aspect of the personal essay—the I of the essayist—Klaus demonstrates that this seemingly uncontrived form of writing is inherently problematic, not willfully devious but bordering upon the world of fiction. He develops this key idea by explaining how structure, style, and voice determine the nature of a persona and our perception of it in the works of such essayists as Michel de Montaigne, Charles Lamb, E. B. White, and Virginia Woolf. Realizing that this persona is shaped by the force of culture and the impress of personal experience, he explores the effects of both upon the point of view, content, and voice of such essayists as George Orwell, Nancy Mairs, Richard Rodriguez, and Alice Walker. Throughout, in full command of the history of the essay, he calls up numerous passages in which essayists themselves acknowledge the element of impersonation in their work, drawing upon the perspectives of Joan Didion, Edward Hoagland, Joyce Carol Oates, Leslie Marmon Silko, Scott Russell Sanders, Annie Dillard, Vivian Gornick, Loren Eiseley, James Baldwin, and a host of other literary guides. Finally, adding yet another layer to the made-up self, Klaus succumbs to his addiction to the personal essay by placing some of the different selves that various essayists have called forth in him within the essays that he has crafted so carefully for this book. Making his way from one essay to the next with a persona variously learned, whimsical, and poignant, he enacts the palimpsest of ways in which the made-up self comes to life in the work of a single essayist. Thus over the course of this highly original, beautifully structured study, the personal essay is revealed to be more complex than many readers have supposed. With its lively analyses and illuminating examples, *The Made-Up Self* will speak to anyone who wishes to understand—or to write—personal essays.

The Made-Up Self

The essays in this volume explore in detail many of the ways power structures our daily personal, political and intellectual lives, and evaluate the workings of power using a variety of theoretical paradigms, from Hobbesian liberalism to Foucauldian feminist postmodernism. Taken as a whole, the book aims towards an end to unjust and destructive uses of power and the flowering of an encouraging, educated empowerment for all human beings in a pluralistic world. Section I offers a progressive chain of arguments that moves from the acceptance of domination, through the rejection of domination and, finally, to a new vision of power based on equality and mutual respect. Section II explores the questions, how is the philosophical self, that is, our very understanding of who we are, implicated in the web of power and domination? Section III responds to political realism as it explores morally ideal solutions to the global problems of poverty, war and hunger. Section IV discusses ways in which our thought and practice in both public and private life are bound up in hierarchies of domination.
