Dr. Heidegger's Experiment

That very singular man, old Dr. Heidegger, once invited four venerable friends to meet him in his study. There were three white-bearded gentlemen, Mr. Medbourne, Colonel Killigrew, and Mr. Gascoigne, and a withered gentlewoman, whose name was the Widow Wycherly. They were all melancholy old creatures, who had been unfortunate in life, and whose greatest misfortune it was that they were not long ago in their graves. Mr. Medbourne, in the vigor of his age, had been a prosperous merchant, but had lost his all by a frantic speculation, and was now little better than a mendicant. Colonel Killigrew had wasted his best years, and his health and substance, in the pursuit of sinful pleasures, which had given birth to a brood of pains, such as the gout, and divers other torments of soul and body. Mr. Gascoigne was a ruined politician, a man of evil fame, or at least had been so till time had buried him from the knowledge of the present generation, and made him obscure instead of infamous.

Dr. Heidegger's Experiment

Doctor Heidegger has invited four old friends to his study. He needs their help with an experiment. His friends presume the experiment will be nothing out of the ordinary. Perhaps they will inspect a cobweb under a microscope or witness the slow death of a mouse. But when Dr. Heidegger's guests gather around a small black table that holds a cut-glass vase, strange things begin to happen that will change their lives, or so it seems. Enlivened and enriched by Marc Johnson-Pencook's neo-classic, pen and ink illustrations, this adaptation of Nathaniel Hawthorne's classic story will introduce middle school readers to one of America's greatest authors. But it's not only for middle school readers. It will also entertain young adult readers and everybody who enjoys great stories and fine art illustrations. Not a graphic novel, not a picture book, this is illustrated classic literature that melds a great story told in outstanding prose by a great author with fine art illustrations that rival those from the golden era of illustration.

Dr. Heidegger's Experiment, the Birthmark, Ethan Brand, Wakefield, Drowne's Wooden Image, the Ambitious Guest, the Great Stone Face, the Gray Champion

This carefully crafted ebook: "The Birthmark (Unabridged)" is formatted for your eReader with a functional and detailed table of contents. Excerpt: "One day, very soon after their marriage, Aylmer sat gazing at his wife with a trouble in his countenance that grew stronger until he spoke. "Georgiana," said he, "has it never occurred to you that the mark upon your cheek might be removed?" (The Birthmark) The Birthmark deals with the husband's deeply negative obsession of his wife's outer appearances and what does that entail for these two young couples. The birthmark represents various things throughout the story. Two of the main representations are imperfection and mortality. American novelist and short story writer Nathaniel Hawthorne's (1804-1864) writing centers on New England, many works featuring moral allegories with a Puritan inspiration. Hawthorne has also written a few poems which many people are not aware of. His works are considered to be part of the Romantic movement and, more specifically, Dark romanticism. His themes often centre on the inherent evil and sin of humanity, and his works often have moral messages and deep psychological complexity.

Nathaniel Hawthorne

Here are the best of Hawthorne's short stories. There are twenty-four of them -- not only the most familiar, but also many that are virtually unknown to the average reader. The selection was made by Professor Newton Arvin of Smith College, a recognized authority on Hawthorne and a distinguished literary critic as well. His fine introduction admirably interprets Hawthorne's mind and art.

Nathaniel Hawthorne ; Little Masterpieces ; Dr. Heidegger's Experiment, The Birthmark, Ethan Brand, Wakefield, Drowne's Wooden Image, The Ambitious Guest, The Great Stone F

Drowne, a woodcarver who has established a reputation for producing adequate but not inspired figures, accepts a commission from Captain Hunnewell to carve a specific figurehead for Hunnewell's ship the Cynosure. As he works upon the carving, Drowne becomes more engaged with his artistry and

more aware of the potential to convey the energy and dynamism of the human form in sculpture. Like Pygmalion, whose myth inspires this tale, Drowne falls in love with his creation and wishes it were real. Hawthorne reveals that a living version of this figure does exist when she appears in the company of Captain Hunnewell. The carved figure of the mysterious lady is Drowne's one great success; afterward he returns to being "the mechanical carver in wood, without the power even of appreciating the work that his own hands had wrought.

Dr. Heidegger's Experiment

Henry James's *Daisy Miller* was an immediate sensation when it was first published in 1878 and has remained popular ever since. In this novella, the charming but inscrutable young American of the title shocks European society with her casual indifference to its social mores. The novella was popular in part because of the debates it sparked about foreign travel, the behaviour of women, and cultural clashes between people of different nationalities and social classes. This Broadview edition presents an early version of James's best-known novella within the cultural contexts of its day. In addition to primary materials about nineteenth-century womanhood, foreign travel, medicine, philosophy, theatre, and art—some of the topics that interested James as he was writing the story—this volume includes James's ruminations on fiction, theatre, and writing, and presents excerpts of *Daisy Miller* as he rewrote it for the theatre and for a much later and heavily revised edition.

Dr. Heidegger's Experiment

Comparative study on the philosophy of Martin Heidegger, 1889-1977 and Friedrich Wilhelm Nietzsche, 1844-1900, German philosophers.

Nathaniel Hawthorne's Dr. Heidegger's Experiment

Of Nathaniel Hawthorne's insight into the Puritan's simultaneous need for fulfillment and self-destruction, D. H. Lawrence wrote, "Nathaniel knew disagreeable things in his inner soul. He was careful to send them out in disguise." By means of artfully crafted and compelling tales, Hawthorne explored the destinies and concerns of early American settlers and citizens. In several of the stories in this collection, characters who hold themselves apart from their fellow man fall prey to the corroding desires of lust for perfection. Then they unwittingly commit evils—against themselves and others—in the name of pride. Edgar Allan Poe noted of Hawthorne's writing: "Every word tells, and there is not a word which does not tell."

The Birthmark (Unabridged)

"Hello, Out There" reveals the adventure of Photo Finish, an itinerant gambler, who is arrested and jailed in a small Texas town and charged with rape.

SHORT STORIES FOR STUDENTS

The short fiction of a writer who helped to shape the course of American literature. With a determined commitment to the history of his native land, Nathaniel Hawthorne revealed, more incisively than any writer of his generation, the nature of a distinctly American consciousness. The pieces collected here deal with essentially American matters: the Puritan past, the Indians, the Revolution. But Hawthorne was highly - often wickedly - unorthodox in his account of life in early America, and his precisely

constructed plots quickly engage the reader's imagination. Written in the 1820s, 30s, and 40s, these works are informed by themes that reappear in Hawthorne's longer works: *The Scarlet Letter*, *The House of the Seven Gables* and *The Blithedale Romance*. And, as Michael J. Colacurcio points out in his excellent introduction, they are themes that are now deeply embedded in the American literary tradition.

Hawthorne's Short Stories

"Rappaccini's Daughter" is a short story by Nathaniel Hawthorne first published in the December 1844 issue of *The United States Magazine and Democratic Review*, and later in the 1846 collection *Mosses from an Old Manse*. It is about Giacomo Rappaccini, a medical researcher in medieval Padua who grows a garden of poisonous plants. He brings up his daughter to tend the plants, and she becomes resistant to the poisons, but in the process she herself becomes poisonous to others. The traditional story of a poisonous maiden has been traced back to India, and Hawthorne's version has been adopted in contemporary works.

Drowne's Wooden Image

Offers critical entries on Hawthorne's novels, short stories, travel writing, criticism, and other works, as well as portraits of characters, including Hester Prynne and Roger Chillingworth. This reference also provides entries on Hawthorne's family, friends - ranging from Herman Melville to President Franklin Pierce - publishers, and critics.

Young Goodman Brown and Other Short Stories

Chapter by chapter, 'Deep Rhetoric' develops an understanding of rhetoric not only in its philosophical dimension but also as a means of guiding and conducting conflicts, achieving justice and understanding the human condition.
