INTRO AND OVERVIEW

Step #1 - VISION: In this chapter, I'm teaching you about the importance of having a vision and how
to actually use it in the development of your company, the onboarding of new employees, and the
management of existing employees

Step #2 - ORG CHART: In this chapter, I'm teaching how to create your org chart and why you need
one. HINT: It's a dynamic growth tool that you will use in the strategic development of your business

Step #3 - PROCESS IDENTIFICATION: In this chapter, I'm teaching you how to identify your
processes, how to create a list of all of the processes in your business. Think of it as a table of
contents of your operations manual.

Step #4 - PROCESS LINKING: In this chapter, I'm teaching you how to get exactly the right processes
in front of exactly the right employees to simplify the training of new employees and to implement an
effective management strategy for existing employees.

Step #5 - GETTING YOUR PROCESSES WRITTEN: In this chapter, I teach you how to prioritize the
writing and training of your processes. How do you get past the overwhelm of getting hundreds of
processes written? How do you make the systemization of your business organic and ongoing?
