How is healing defined?

Time itself does not heal emotional wounds

We are all born vulnerable

The inherent expectations we all have

The societal standards we try to live up to

Grief is essential for life

When the past dominates the present reactions

There is no healthy identification

Some are not. Dr Klugh and his contributing authors identify, apply and evaluate the principles of equine dentistry in relation to the horse—their similarities and differences. Such a system is of value in terms of vocabulary, biology and disease process.
