British Sport - a Bibliography to 2000

Volume three of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain. It lists all secondary source material including reference works, in a classified order to meet the needs of the sports historian.

Born to Manage

After a playing career that spanned more than 15 years, and took in golden spells in the sixties with Chelsea and Spurs, it was almost inevitable that Terry Venables would move into management. Following early success with Crystal Palace and Queens Park Rangers, he was appointed to the plum job of managing Barcelona, one of the biggest clubs in Europe. The Spanish giants had been struggling, but he soon turned them around and brought them trophy success, which inevitably earned him the nickname 'El Tel'. He returned to England to take charge of Spurs, where he helped save the club from financial troubles, and formed an ill-fated partnership with Alan Sugar. Again there was trophy success, as Venables worked with top England stars such as Paul Gascoigne, Gary Lineker and Chris Waddle, and when the England job fell vacant, he was the obvious choice for the role, leading the nation to

the semi-finals of Euro 96 where they lost out on a place in the final after a penalty shoot-out. After leaving the England job, he has subsequently worked in numerous different roles. A charismatic and gregarious personality, Venables is widely viewed as one of football's great tacticians and is the most successful English manager of recent years. His story is sure to fascinate and entertain all followers of the game, providing a unique insight based on more than 50 years at the top.

Raj, Secrets, Revolution

History abounds with many heroes. The Indian freedom struggle had its own share of them. Subhas Chandra Bose fired the nation with patriotic fervour, very different in character to the non-violent approach preached by Gandhi. Truly an outsider to the movements of satyagraha and passive resistance that rapidly gained momentum, he made a valiant effort to galvanize the nation into action with evocative slogans such as – 'Freedom is never given, it is taken' . . . 'Tum mujhe khoo do, main tumhe azadi doonga'. JAI HIND – India's national greeting ? was the salutation coined by him to arouse nationalistic passion among the Indians. In what was unthinkable then, Bose dared to ally with the Nazis and the Japanese, and raised an indigenous army called Azad Hind Fauj to challenge the military might of the British Empire. Why then has Subhas Chandra Bose been largely marginalized as a footnote in the history of India's independence? Perhaps the mythical legends that continue to shroud both his personal life and political happenstance hold some answers. The Lost Hero – a thoroughly researched biography of Subhas Bose – delves into the life and times of this great man, with the hope that he is granted a befitting place in the annals of Indian history.

Silver: The Spy Who Fooled the Nazis

Mihir Bose was born in January 1947. Eight months later, India became a modern, free nation. The country he knew growing up in the 1960s has undergone vast and radical change. India today exports food, sends space probes to Mars, and, all too often, Indian businesses rescue their ailing competitors in the West. In *From Midnight to Glorious Morning?*, Bose travels the length and breadth of India to explore how a country that many doubted would survive has been transformed into one capable of rivaling China as the world's preeminent economic superpower. Multifarious challenges still continue to plague the country: although inequality and corruption are issues not unique to India, such a rapid ascent to global prominence creates a precarious position. However, as Bose outlines, this rapid ascent provides evidence that India is ever capable of making great strides in the face of great adversity. Bose's penetrating analysis of the last seventy years asks what is yet to be done for India in order to fulfill the destiny with which it has been imbued. The predictions of doom in August 1947 have proved to be unfounded; the growth of the nation in population and capital has been exponential, and there is much to celebrate. But Bose's nuanced, personal, and trenchant book shows that it is naïve to pretend the hoped-for bright morning has yet dawned.

The Lost Hero

Examines cricket's influence on India, from the beginnings to the growth that led to India becoming the commercial backbone of the sport worldwide.

'I always knew he was quite creative, but I had no idea he was so reckless' Lord Sugar 'The thinking woman's Bakewell tart ... Witty, interesting and underpinned by a sharp intellect' Jo Brand 'This book is a total delight - as wise and witty and surprising as the man himself' Gyles Brandreth When Nick Hewer first appeared on our TV screens in *The Apprentice* in 2005, he had thought he was heading towards a quiet retirement after a long and successful career in PR and marketing. Little did he realise that appearing on the show with Lord Sugar and Margaret Mountford would mean that his life was about to be transformed. Quickly, he became a regular presence in our homes, renowned for his wry sense of humour and his astute insights. But the story of how the current host of *Countdown* came to this point has remained largely unknown – until now. In *My Alphabet*, Nick Hewer takes us through an A to Z of some of the most remarkable and entertaining events his life, covering everything from his Boyhood in Swindon, when he took his Dinky toys on a most unexpected journey, to Regrets, and an episode that ended in a kidnapping. With chapters on subjects from Tottenham Hotspur to one on Underwear, there is sure to be something for all tastes within these pages. *My Alphabet* builds up into a brilliant and fascinating self-portrait, taking the reader on a remarkable journey that will inform, entertain and move

you. We get to see behind the scenes on The Apprentice and Countdown, and much else besides. Self-deprecating and witty, Nick Hower has written a brilliant book his many fans are sure to treasure.

The Premiership 2008-2009

The spirit of the game was first nurtured on the playing fields of the English public school, and in the pages of Tom Brown's Schooldays- this Corinthian spirit was then exported around the world. The competitive spirit, the importance of fairness, the nobility of the gifted amateur seemed to sum up everything that was good about Britishness and the games they played. Today, sport is dominated by corruption, money, celebrity and players who are willing to dive in the box if it wins them a penalty. Yet, we still believe and talk about the game as if it had a higher moral purpose. Since the age of Thomas Arnold, Sport has been used to glorify dictatorships and was at the heart of cold war diplomacy. Prime Ministers, princes and presidents will do whatever they can to ensure that their country holds a major sporting tournament. Nelson Mandela saw the victory of the Rugby World Cup as essential to his hopes for the Rainbow Nation. Mihir Bose has lived his life around sport and in this book he tells the story of how Sport has lost its original spirit and how it has emerged in the 20th century to become the most powerful political tool in the world. With examples and stories from around the world including how the sport-hating Thomas Arnold become an icon; how a German manufacturer gave Jessie Owens a pair of shoes at the Berlin games of 1936 and went on to dominate the world of sport; how India stole cricket from the ICC; how an Essex car dealer become the most powerful man in Formula 1; and who really sold football out. Praise for Mihir Bose: 'Mihir Bose is India's CLR James.' Simon Barnes, The Times. 'Mihir's insider knowledge is unsurpassed' David Welch. 'His Olympic contacts are second to none. He knows everybody.' Sue Mott.

A Maidan View

The story of Manchester United is a phenomenon. On the field they play a brand of soccer that is matched by few others, and in the boardroom they have equaled this success by becoming the richest soccer club in the world. This riveting account explores the circumstances, people and events that have made Manchester United one of the most recognized brands on the planet.

This bibliography is an entertaining and knowledgeable tribute to the beautiful game. The second edition features over 2000 new entries - including greatly increased coverage of football films and music - making over 7000 references to books and other items in total.

The Spirit of the Game

Legendary West Ham manager John Lyall, who sadly died in 2006, is remembered with affection as one of the all-time great football managers by former colleagues and football fans alike. Lyall was widely regarded as man of great integrity and is credited with laying down the foundations of the footballing beliefs and values of today's West Ham United. This new in-depth biography documents Lyall's football career from West Ham groundstaff boy in 1955, through his playing debut, injury, and eventual steps into coaching and management under the watchful eye of Ron Greenwood. A much-loved and respected figure at Upton Park, Lyall had a lasting influence on the club's development and the team's style of play and during his time in charge, West Ham twice won the FA Cup. Later, when Lyall took over at Ipswich Town, he led the club to promotion to the inaugural Premier League in 1991/92. John Lyall – A Life in Football pays tribute to one of the most influential footballer managers of recent years and is a lasting legacy to a true gentleman and champion of the beautiful game.

Shortlisted for the 2023 Sports Book Awards for Best Sports Writing of the Year The British, who are rightly proud of their sporting traditions, are now having to come to terms with the dark, unacknowledged, past of racism in sport – until now the truth that dare not speak its name. Conscious and unconscious racism have for decades blighted the lives of talented black and Asian sportsmen and women, preventing them from fulfilling their potential. In Formula One, despite Lewis Hamilton's stellar achievements, barely one per cent of the 40,000 people employed in the sport are of ethnic minority heritage. In football, Britain's premier sport, the number of non-white managers in the professional game remains pitifully small. And in cricket, Azeem Rafiq's testimony to the Commons select committee

has exposed the scandal of prejudice faced by Asian cricketers in the game. Veteran author and journalist Mihir Bose examines the way racism has affected black and Asian sportsmen and women and how attitudes have evolved over the past fifty years. He looks in depth at the controversies that have beset sport at all levels: from grassroots to international competitions and how the 'Black Lives Matter' movement has had a seismic impact throughout sport, with black sports personalities leading the fight against racism. However, this has also led to a worrying white fatigue. Talking to people from playing field to boardroom and the media world, he illustrates the complexities and striking contrasts in attitudes towards race. We hear the voices of players, coaches and administrators as Mihir Bose explores the question of how the dream of a truly non-racial sports world can become a reality. A Football Compendium

The best chants, the funniest nicknames, the greatest headlines and enough little-known facts to keep the average football supporter entertained - and entertaining - for several seasons. This is the story of the greatest game on earth, from 'abandoned matches' to 'Yeovil Town', via celebrity fans, mascots, punditry and superstitions, written from the fan's point of view and with a separate entry for every club in the English and Scottish leagues. Who cares why, if Torquay United's strikers had been more prolific in the 1950s, England may never have won the World Cup; or where football hooliganism actually began; or who the hell Captain Henry Blythe Thornhill Wakelam is? We do. Because as every true student of the game knows: it's important.

Whitaker's Books in Print

ONGLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR PRIZE 'The greatest story in English sport told beautifully by one of its greatest writers' Gary Lineker 'A spellbinding piece of work' Oliver Holt; 'Absolute tour de force' Henry Winter Award-winning writer Paul Hayward delivers a compelling and unmissable account of the story of the England men's football team, published as they prepare for the World Cup in Qatar. On 30 November 1872, England took on Scotland at Hamilton Crescent in Glasgow, a match that is regarded as the first international fixture. More than 5,000 fans watched the two sides play out a 0-0 draw. It was the first of more than a thousand games played by the side, and the beginning of a national love affair that unites the country in a way that few other events can match. In Hayward's brilliant new biography of the team, based on interviews with dozens of past and present players and coaches, including Viv Anderson, Gary Lineker, Alan Shearer and current coach Gareth Southgate, we get a vivid portrait of all aspects of the team's story, reliving highlights such as the World Cup victory in 1966 and the time when football came home in Euro 96, as well as the low points when the players were obliged to give the Nazi salute in 1938 and the era when England's hooligan fans brought shame on the nation. From Stanley Matthews and Bobby Moore through to more modern heroes such as Paul Gascoigne, David Beckham, Wayne Rooney and Harry Kane, Hayward brings a large cast of characters to life. For anyone who wants to understand England football, and why it means so much to so many, England Football: The Biography is an essential and vital read.

John Lyall

This book is aimed at undergraduates and postgraduates studying sport-related subjects as well as anyone interested in how and why football has evolved as it has. It features contributions from prominent experts in the field, authors and journalists, and covers ground seldom attempted in a single volume about football.

The Guardian Index

How did we become so divided and what do we do about it? This landmark book tackles a deceptively simple idea: the more we spend time with people unlike ourselves, doing things together, the more understanding, tolerant, and even friendly we become. Combining fresh analysis with a wealth of fascinating examples, Jon Yates demonstrates the ways in which our societies have become disconnected, so that most of us spend less and less time with people who are different -- as defined by age, race, or class, earning power or education. By answering a series of surprising questions, Yates reveals a set of truths that will change the way you think about yourself and those around you. What unites the England

football team, the iPod and Singapore? How did a city that funded its schools the least become the best place to grow up poor? How did Silicon Valley come from nowhere to dominate the tech industry? How did a village of Italian-Americans become incredibly healthy while smoking cigars, drinking red wine and never exercising? And why is talking to our friends about politics the worst thing we can do for our democracy? Fractured is ultimately an optimistic book, showing convincingly how great people are when they're united in diversity. It argues that the pandemic has created an unprecedented opportunity for us to come together. So we must forge a new 'Common Life' - a set of shared practises and institutions -- that can strengthen the glue that bonds our societies, in all their diversity. For the health of our democracy, our society, and our economy, the time to act is now.

'A masterpiece ... thoughtful and self-mocking, insightful and funny' THE TIMES 'He's scarily extreme, dangerously provocative, oxy-acetylene forthright ... and hugely entertaining' SCOTLAND ON SUNDAY 'Searingly honest' THE SUN 'A thoroughly entertaining rampage' Matt Dickinson, THE TIMES BOOKS OF THE YEAR No. 1 bestselling memoir of Roy Keane, former captain of Manchester United and Ireland - co-written with Man Booker Prize-winner Roddy Doyle. In a stunning collaboration with Booker Prize-winning author Roddy Doyle, Roy Keane gives a brutally honest account of his last days as a player, the highs and lows of his managerial career, and his life as an outspoken ITV pundit. 'Roy Keane's book is a masterpiece . . . It may well be the finest, most incisive deconstruction of football management that the game has ever produced' Mail on Sunday 'A genuine pleasure . . . His thoughts on his players are humane, interesting, candid and never less than believable' The Times 'The best things are the small things: regretting joining Ipswich when he discovered the training kit was blue; refusing to sign Robbie Savage because his answerphone message was rubbish; being appalled that his side had listened to an Abba song before playing football' Evening Standard 'The book is brilliantly constructed, rattling along at breakneck speed . . . full of self-deprecation . . . a ruthless self-examination' Daily Telegraph

Dreaming the Impossible

'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, Folk Devils and Moral Panics is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

People of Today

Why were so many religious images and objects broken and damaged in the course of the Reformation? Margaret Aston's magisterial new book charts the conflicting imperatives of destruction and rebuilding throughout the English Reformation from the desecration of images, rails and screens to bells, organs and stained glass windows. She explores the motivations of those who smashed images of the crucifixion in stained glass windows and who pulled down crosses and defaced symbols of the Trinity. She shows that destruction was part of a methodology of religious revolution designed to change people as well as places and to forge in the long term new generations of new believers. Beyond blanked walls and whited windows were beliefs and minds impregnated by new modes of religious learning. Idol-breaking with its emphasis on the treacheries of images fundamentally transformed not only Anglican ways of worship but also of seeing, hearing and remembering.

When Saturday Comes

Statistical methods are a key part of data science, yet very few data scientists have any formal statistics training. Courses and books on basic statistics rarely cover the topic from a data science perspective. This practical guide explains how to apply various statistical methods to data science, tells you how to avoid their misuse, and gives you advice on what's important and what's not. Many data science resources incorporate statistical methods but lack a deeper statistical perspective. If you're familiar with the R programming language, and have some exposure to statistics, this quick reference bridges the gap in an accessible, readable format. With this book, you'll learn: Why exploratory data analysis is a key preliminary step in data science How random sampling can reduce bias and yield a higher quality dataset, even with big data How the principles of experimental design yield definitive answers to questions How to use regression to estimate outcomes and detect anomalies Key classification techniques for predicting which categories a record belongs to Statistical machine learning methods that "learn" from data Unsupervised learning methods for extracting meaning from unlabeled data

England Football: The Biography

In this book, Mihir Bose examines the rollercoaster nature of India's cricket history, from its early days in the time of the British Raj to the present day period that has been characterised by both the sublime (the batting mastery of Sachin Tendulkar) and the ridiculous (the match-fixing scandals associated with the nefarious activities of certain Indian bookmakers). Mihir Bose's lively, informed, and always entertaining text is supported by a full statistical appendix.

The Cambridge Companion to Football

A unique, accessible text that introduces a broad readership to critical research into 'crime', 'deviance' and conflict through contemporary, in-depth case studies. Tracing the authoritarian legacy of policing civil disturbances, harsh regimes of punishment, deaths in custody and prison protest, diverse issues such as the demonisation of children, the imprisonment of women and the 'war on terror' are explored and analysed.

Fractured: Why Our Societies Are Coming Apart and How We Put Them Back Together Again

This comprehensive text is the first to introduce evocative autoethnography as a methodology and a way of life in the human sciences. Using numerous examples from their work and others, world-renowned scholars Arthur Bochner and Carolyn Ellis, originators of the method, emphasize how to connect intellectually and emotionally to the lives of readers throughout the challenging process of representing lived experiences. Written as the story of a fictional workshop, based on many similar sessions led by the authors, it incorporates group discussions, common questions, and workshop handouts. The book: describes the history, development, and purposes of evocative storytelling; provides detailed instruction on becoming a story-writer and living a writing life; examines fundamental ethical issues, dilemmas, and responsibilities; illustrates ways ethnography intersects with autoethnography; calls attention to how truth and memory figure into the works and lives of evocative autoethnographers.

The Second Half

A Jeeves and Wooster novel 'It's hard to single out one book as the entire Jeeves and Wooster collection is Bach Rescue Remedy in literary form, but this tale of romantic imbroglio is a priceless hoot... Every sentence is a perfectly wrought delight.' Independent At Deverill Hall, an idyllic Tudor manor in the picture-perfect village of King's Deverill, impostors are in the air. The prime example is man-about-town Bertie Wooster, doing a good turn to Gussie Fink-Nottle by impersonating him while he enjoys fourteen days away from society after being caught taking an unscheduled dip in the fountains of Trafalgar Square. Bertie is of course one of nature's gentlemen, but the stakes are high: if all is revealed, there's a danger that Gussie's simpering fiancée Madeline may turn her wide eyes on Bertie instead. It's a brilliant plan - until Gussie himself turns up, imitating Bertram Wooster. After that, only the massive brain of Jeeves (himself in disguise) can set things right.

Folk Devils and Moral Panics

In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls

the Chthulucene, as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—*Staying with the Trouble* further cements Haraway's reputation as one of the most daring and original thinkers of our time.

The Conversion of India

NATIONAL BOOK AWARD WINNER • Colum McCann's beloved novel inspired by Philippe Petit's daring high-wire stunt, which is also depicted in the film *The Walk* starring Joseph Gordon-Levitt In the dawning light of a late-summer morning, the people of lower Manhattan stand hushed, staring up in disbelief at the Twin Towers. It is August 1974, and a mysterious tightrope walker is running, dancing, leaping between the towers, suspended a quarter mile above the ground. In the streets below, a slew of ordinary lives become extraordinary in bestselling novelist Colum McCann's stunningly intricate portrait of a city and its people. *Let the Great World Spin* is the critically acclaimed author's most ambitious novel yet: a dazzlingly rich vision of the pain, loveliness, mystery, and promise of New York City in the 1970s. Corrigan, a radical young Irish monk, struggles with his own demons as he lives among the prostitutes in the middle of the burning Bronx. A group of mothers gather in a Park Avenue apartment to mourn their sons who died in Vietnam, only to discover just how much divides them even in grief. A young artist finds herself at the scene of a hit-and-run that sends her own life careening sideways. Tillie, a thirty-eight-year-old grandmother, turns tricks alongside her teenage daughter, determined not only to take care of her family but to prove her own worth. Elegantly weaving together these and other seemingly disparate lives, McCann's powerful allegory comes alive in the unforgettable voices of the city's people, unexpectedly drawn together by hope, beauty, and the "artistic crime of the century." A sweeping and radical social novel, *Let the Great World Spin* captures the spirit of America in a time of transition, extraordinary promise, and, in hindsight, heartbreaking innocence. Hailed as a "fiercely original talent" (*San Francisco Chronicle*), award-winning novelist McCann has delivered a triumphantly American masterpiece that awakens in us a sense of what the novel can achieve, confront, and even heal. Praise for *Let the Great World Spin* "This is a gorgeous book, multilayered and deeply felt, and it's a damned lot of fun to read, too. Leave it to an Irishman to write one of the greatest-ever novels about New York. There's so much passion and humor and pure life force on every page of *Let the Great World Spin* that you'll find yourself giddy, dizzy, overwhelmed."—Dave Eggers "Stunning . . . [an] elegiac glimpse of hope . . . It's a novel rooted firmly in time and place. It vividly captures New York at its worst and best. But it transcends all that. In the end, it's a novel about families—the ones we're born into and the ones we make for ourselves."—USA Today "The first great 9/11 novel . . . We are all dancing on the wire of history, and even on solid ground we breathe the thinnest of air."—Esquire "Mesmerizing . . . a Joycean look at the lives of New Yorkers changed by a single act on a single day . . . Colum McCann's marvelously rich novel . . . weaves a portrait of a city and a moment, dizzyingly satisfying to read and difficult to put down."—The Seattle Times "Vibrantly whole . . . With a series of spare, gorgeously wrought vignettes, Colum McCann brings 1970s New York to life. . . . And as always, McCann's heart-stoppingly simple descriptions wow."—Entertainment Weekly "An act of pure bravado, dizzying proof that to keep your balance you need to know how to fall."—O: The Oprah Magazine

Broken Idols of the English Reformation
