Goal attainment scaling (GAS) in rehabilitation: a practical ...

by L Turner-Stokes · 2009 · Cited by 970 — Goal attainment scaling is a mathematical technique for quantifying the achievement (or otherwise) of goals set, and it can be used in rehabilitation. Because several different approaches are described in the literature, this article presents a simple practical approach to encourage uniformity in it ...

Goal Attainment Scaling in rehabilitation: A literature-based ...

by A Krasny-Pacini · 2013 · Cited by 280 — Goal Attainment Scaling (GAS) is a method for quantifying progress on personal goals. Turner-Stokes's guide to GAS is a method for quantifying progress towards personal goals. Turner-Stokes's guide and the use of Kiresuk's T-score are the most widely used GAS-based approaches in rehabilitation.

Goal Attainment Scaling: Overview - King's College London

by BP Rachel · 2023 · Cited by 9 — The goal attainment scaling methodology is a relevant way of measuring the effectiveness of a treatment, by creating scales to measure whether the goals previously identified with the person have been achieved through the treatment.

Part 2: What Is Goal Attainment Scaling? - Rifton

by LTS DM — There is substantial literature which demonstrates its usefulness, both as part of the communication and decision-making process, and as a person-centred outcome measure for rehabilitation(1). Goal attainment scaling (GAS). Measurement through GAS was first introduced in the 1960s by Kirusek and Sherman(2) ...

Goal Attainment - an overview | ScienceDirect Topics

29 Jan 2009 — Goal attainment scaling is a mathematical technique for quantifying the achievement (or otherwise) of goals set, and it can be used in rehabilitation. Because several different approaches are described in the literature, this article presents a simple practical approach to encourage uniformity in ...

goal attainment scale (gas) - Assesschild

The Shirley Ryan Abilitylab defines Goal Attainment Scaling or GAS as "an individualized outcome measure involving goal selection and goal scaling that is standardized in order to calculate the extent to which a patient's goals are met." GAS is a goal-setting technique which has a mathematical basis. GAS was first ...

GOAL ATTAINMENT SCALING IN REHABILITATION

Goal attainment scaling is a technique that captures the extent to which individual goals for treatment were achieved. GAS offers a number of potential advantages as an outcome measure for rehabilitation.

Goal Attainment Scaling (GAS) in Rehabilitation A practical ...

by JF Malec · 1999 · Cited by 248 — Applications, controversies, and statistical issues related to goal attainment scaling (GAS) in rehabilitation are examined on the basis of available literature and

outcome data from a postacute brain injury rehabilitation programme. Prior studies suggest that GAS is a promising method for measuring progress ...

(PDF) Goal Attainment Scaling (GAS) in Rehabilitation

14 Jun 2023 — The goal attainment scaling methodology is a relevant way of measuring the effectiveness of a treatment, by creating scales to measure whether the goals previously identified with the person have been achieved through the treatment.

Goal Attainment Scaling

by K Cheema · 2024 · Cited by 2 — Goal attainment scaling (GAS), an established individualized, patient-centered outcome measure, has been applied across multiple disciplines to capture the patient voice [1,2,3,4,5]. This outcome measure provides both qualitative and quantitative information on progress towards goal attainment after an ...
