PIANO CONCERTO NO. 2 IN F MINOR OP. 21

A pair of great works from two distinguished Russian composers features Scriabin's Piano Concerto in F-sharp Minor, written during the first significant phase of artistic career, and a highlight from Rubinstein's extensive oeuvre, the magnificent Piano Concerto No. 4 in D Minor.

Piano Concerto No. 2 in F Minor Op. 21 (Edition for 2 Pianos): Urtext (the Complete Chopin)

Chopin's E minor and F minor Piano Concertos played a vital role in his career as a composer-pianist. Praised for their originality and genius when he performed them, the concertos later attracted censure for ostensible weaknesses in form, development and orchestration. They also suffered at the hands of editors and performers, all the while remaining enormously popular. This handbook re-evaluates the concertos against the traditions that shaped them so that their many outstanding qualities can be fully appreciated. It describes their genesis, Chopin's own performances and his use of them as a teacher. A survey of their critical, editorial and performance histories follows, in preparation for an analytical 're-enactment' of the music - that is, a narrative account of the concertos as embodied in sound, rather than in the score. The final chapter investigates Chopin's enigmatic 'third concerto', the Allegro de concert. Chopin: The Piano Concertos has won the Wilk Book Prize for Research in Polish Music.

Piano Concerto in G minor op. 33

Excerpt from Concerto No. 1 in E Minor (Two-Piano Score) The chronology of the two piano Concertos has given rise to controversy; the trouble arose from the F minor Concerto, it being numbered Opus 21, though composed before the Concerto in E minor. The former was published April, 1836; the latter September, 1833. Both works derive from Hummel and Field. The passage-work is superior in design to that of the earlier masters, the general character episodic, but episodes of rare worth and originality. As Ehler says: Noblesse oblige - and thus Chopin felt himself compelled to satisfy all demands exacted of a pianist, and wrote the unavoidable piano Concerto. It was not consistent with his nature to express himself in broad terms. His lungs. Were too weak for the pace in seven league boots, so often required in a score. The Trio and Sonata for piano and Violoncello were also tasks for whose accomplishment Nature did not design him. He must touch the keys by himself without being called upon to heed the players sitting next him. He is at his best when, without formal restraint, he can create out of his inmost soul. Piano Concerto No. 2 in F Minor, Op. 21

Robert Schumann was a unique personality in 19th century music: a celebrated music critic and champion of new composers as well as a talented performer and composer himself, he did much to modernize the literature and performance style for the piano. This book covers the key period of c. 1815-55, exploring how the generation that came after Beethoven was central in reshaping and refining the conception of the concerto style, and particularly the piano concerto. It relates Schumann's own compositional development to his musical environment, recreating the exciting milieu in which Schumann and his contemporaries lived and worked. Written in scholarly, but non-technical language, Robert Schumann and the Development of the Piano Concerto will appeal to college and conservatory teachers and students, as well as music connoisseurs. Also includes 60 musical examples.

Arioso (Bach); second movement from the piano concerto in F minor, from a Sziget program, a series of transcriptions, arrangements and cadenzas

Nearly 300 letters reveal Chopin as both man and artist and illuminate his fascinating world — Europe of the 1830s and 1840s. "Delightful gossip . . . merry rather than malicious . . . engagingly witty." — Books. Preface. Index.

Piano concerto in F-sharp minor, op. 20

Composed sometime around 1716-17, Vivaldi's group of four violin concertos The Four Seasons were revolutionary in their use of musical effects to depict natural phenomena. Barking dogs, birds, bees, thunderstorms, frozen landscapes and much else finds musical expression in these ever popular concertos. This classic Edition Peters score of Winter contains an idiomatic piano accompaniment score and separate violin part. Concerto for Violin in F Minor, Op.8 No.4 / F.I:25 / P.442 / RV297

Piano Concerto No. 1 in F-sharp Minor (Revised Version)
