Introduction

What is your favourite cell?

What advice would you give to your first-year self?

What advice would you give your fourth-year self starting on wards?

How did you feel on the first day of medical school?

Can you remember how you felt after your first lecture?

Sometimes things can get a bit stressful on wards. How do you cope with that?

What has been your favourite part of medical school?

Can you tell me some of the factors that make coming to a university like Oxford worth it for you?

What did the transition to clinical years feel like?

Tell me a bit about your first day on the wards.

Did you struggle at all when you first met patients?

Tell me a little bit about your favourite patient interactions.

How have you dealt with a patient interaction that hasn't gone well?

What are your favourite places to study?

If there is one thing you could change about your medical school career, what would it be?

How do you balance your time between medical school and other things?

Do you find that your friends are your primary source of support?

Tell us a bit about what the third year in Oxford is like?

What are some of the opportunities outside the 6 years of medicine?

Tell me about graduate medicine and how starting it was different to when you started your undergraduate degree.

What study skills have you developed that helped you get through work efficiently?

What has it been like integrating with the undergraduate medical students?

What study skills have you developed that help you get through the work efficiently?

Is there anything you wish you would've known about the set-up of the course when you started in first year?

Is there anything you would change about how you approached clinical years?

What were some of the mistakes you made in your clinical years?
