

a study of the constancy of sociometric scores of fourth and fifth grade pupils research paper university of wichita

[#sociometric scores](#) [#score constancy](#) [#fourth grade pupils](#) [#fifth grade pupils](#) [#sociometry research](#)

This research paper from the University of Wichita meticulously examines the constancy and stability of sociometric scores among fourth and fifth-grade pupils. The study provides crucial insights into how peer perceptions and social standings evolve or remain consistent over time in elementary school settings, offering valuable data for understanding child development and social dynamics.

All syllabi are reviewed for clarity, accuracy, and academic integrity.
