Guidelines for Stair Safety

This report summarizes information and research in the area of stair use and provides design guidelines for improving stair safety. These guidelines are directed toward seven major categories of stairway design and construction: (1) structural integrity and quality of stairs, (2) physical attributes of stair surfaces, (3) appearance of stair surfaces, (4) handrails, (5) physical attributes of the surrounding stairway environment, (6) appearance of the surrounding stairway environment, and (7) signs and symbols. In general, the recommendations offered in this report derive from the premise that stairway accidents are caused by human perceptual errors, which are frequently triggered by some flaw in the design or construction of stairways themselves. Evidence describing the severity and frequency

of residential stairway hazards, and supporting premises underlying design guidelines were obtained from epidemiological, experimental, exploratory, and survey research sources. General directions for future investigation are suggested.

In 2010 the then current European national standards for building and construction were replaced by the EN Eurocodes, a set of pan-European model building codes developed by the European Committee for Standardization. The Eurocodes are a series of 10 European Standards (EN 1990 – EN 1999) that provide a common approach for the design of buildings, other civil engineering works and construction products. The design standards embodied in these Eurocodes will be used for all European public works and are set to become the de-facto standard for the private sector in Europe, with probable adoption in many other countries. This classic manual on structural steelwork design was first published in 1955, since when it has sold many tens of thousands of copies worldwide. For the seventh edition of the Steel Designers' Manual all chapters have been comprehensively reviewed, revised to ensure they reflect current approaches and best practice, and brought in to compliance with EN 1993: Design of Steel Structures (the so-called Eurocode 3).

Here's one of the stories featured: Your Personal Angel A story about an angel who has been taking care of you even before you were born and will always take care no matter how much you grow old.... you know that angel as Mother, Mamma, Mom... My mom only had one eye. I hated her... She was such an embarrassment. She cooked for students and teachers to support the family. There was this one day during elementary school where my mom came to say hello to me. I was so embarrassed. How could she do this to me? I ignored her, threw her a hateful look and ran out. The next day at school one of my classmates said, 'Eeee, your mom only has one eye!' I wanted to bury myself. I also wanted my mom to just disappear. I confronted her that day and said, ' If you're only gonna make me a laughing stock, why don't you just die?' My mom did not respond... I didn't even stop to think for a second about what I had said, because I was full of anger. I was oblivious to her feelings. I wanted out of that house, and have nothing to do with her. So I studied real hard, got a chance to go abroad to study. Then, I got married. I bought a house of my own. I had kids of my own. I was happy with my life, my kids and the comforts. Then one day, my Mother came to visit me. She hadn't seen me in years and she didn't even meet her grandchildren. When she stood by the door, my children laughed at her, and I yelled at her for coming over uninvited. I screamed at her, 'How dare you come to my house and scare my children!' Get Out Of Here! Now!' And to this, my mother quietly answered,

'Oh, I'm so sorry. I may have gotten the wrong address,' and she disappeared out of sight. One day, a letter regarding a school reunion came to my house. So I lied to my wife that I was going on a business trip. After the reunion, I went to the old shack just out of curiosity. My neighbors said that she died. I did not shed a single tear. They handed me a letter that she had wanted me to have. My dearest son, I think of you all the time. I'm sorry that I came to your house and scared your children. I was so glad when I heard you were coming for the reunion. But I may not be able to even get out of bed to see you. I'm sorry that I was a constant embarrassment to you when you were growing up. You see... when you were very little, you got into an accident, and lost your eye. As a mother, I couldn't stand watching you having to grow up with one eye. So I gave you mine. I was so proud of my son who was seeing a whole new world for me, in my place, with that eye. With all my love to you, Your mother

31 Moralistic and Motivational Bedtime Short Stories for Kids

Reading to children is a wonderful activity and past time that both parents and teachers enjoy. Seeing their rapt, excited faces when there's a mystery to be solved, a surprise twist, or a happy ending is all the reward one needs. Not only are story books a child's first experience with written words and an introduction to education, but they are also a way to stimulate imagination and dreams. Some of the best short stories for kids are the classics. These stories have been around for generations, and are still best sellers and favorites in many families. These tried and true books will be around as long as parents pass on their love for great stories and enjoyable reading. Many of these classic books have lasted because kids have such a great time reading them. They're fun and exciting, and have beautiful and interesting illustrations. Many great stories for kids are available today in the bookstores as well as online. Few people today are aware of the fact that books written specifically for children did not exist before the 17th century. Prior to that time period it was generally accepted that books were written exclusively for adult readers. In addition, printed works were highly expensive and were available primarily to people of means. Only minority of the adult population were literate, and even a smaller percentage of children living at that time were able to read and write. Today, we are blessed with proliferation of children's literature with a great variety of stories for kids geared to different age levels. The importance of reading to children is apparent to every parent. We can start reading stories for kids even to a baby or a toddler. Research shows that the baby in utero can hear her mother's voice and recognize it immediately after birth. Certainly even young babies love to hear the voice of their mother or father. Make sure to make the time you read with your child a pleasant time of bonding and closeness, to create positive associations with this activity in the young child's mind. Despite that this activity is of paramount importance, never force your child to read or listen to stories. It is much more important that the child enjoys the interaction between the two of you. If he or she is not in the mood to listen to short stories for kids, let him pick a game or different activity to do together. The most important aspect of your interaction should be mutual enjoyment. It is a good idea to encourage older siblings, relatives, and friends to read out loud to the younger children. There are many types of short stories for kids available to all, therefore you must search around according to your child's like and dislikes, or whether you want to nudge them in a certain direction or not. Short stories for kids are a great way to introduce kids to a new area of life or a new situation in a fun, timely manner. You should always make it a fun enjoyable thing to do, it should be about you and your child or children bonding and them learning from it too.

Lifespирational

"The best and most beautiful things in the world cannot be seen or even touched – they must be felt with the heart." – Helen Keller Dear reader, I am excited to introduce a special book I wrote for you. It's called: Lifespирational: Life Lessons Drawn From Inspirational Stories . For years I've been speaking and writing

about personality typologies, time management and trainer training. It was all about hacking life in order to fulfill your potential. But there was always a missing piece. Besides systems and techniques, people need inspiration. They need to be part of something greater and to learn from inspiring life stories. I've been constantly asked to write a book that reflects everything I've talked about, but I couldn't put it into words. I lacked the inspiration to deliver inspiration. Finally I decided to take the dive and do it. And I created something easy to digest yet truly inspiring. As Buddha said, "A jug fills drop by drop." and this is what this book does for your inspiration. It unlocks your dreams by delivering inspiring stories. I invite you to read a chapter a day for 18 days. Each chapter contains a story, its moral and action steps that will inspire you to create a life of achievement and enjoyment by flourishing supportive relationships, building trust in others and growing strength for the big adventure! It's always been a lack of inspiration that makes people afraid of meeting challenges. The book contains your daily dose of inspiration that will help you become the best you can possibly be. It is a collection of stories that trainers use to inspire their audience and my wish is that it will also inspire you for greatness!

The collection of inspirational stories, food for thought, famous quotes, and humor is the result of more than ten years as senior pastor of Friendship Baptist Church, Memphis, Tennessee, and more than thirty-eight years of preaching and teaching. It is my hope that clergy and professional speakers as well as ordinary individuals will become better communicators in any setting using this easy to read and absorb material. It is also my hope that this collection will mentally stimulate the reader to do or feel something, especially to do something creative and spontaneous. Quoting from Mother Theresa: "The greatest disease in the West today is not TB or Leprosy, it is being unwanted, unloved, and uncared-for. We can cure physical diseases with medicine, but the only cure for loneliness, despair, and hopelessness is love. There are many in the world who are dying for a little love. The poverty in the West is a different kind of poverty . . . it is not only the poverty of loneliness but also of spirituality. There's a hunger for love, as there is a hunger for God." (Mother Theresa, *A Simple Path: Mother Theresa*) In most of the inspirational stories, you will be able to experience God's love for humankind and His love for you, and at the same time demonstrate your love for God through your love for neighbor as suggested by Mother Teresa's quote. Even though I'm very acquainted with the section on humor, I find myself laughing out loud each time I revisit this section. If you are an introvert (quiet or your attention is mainly on yourself), this humor will make you an extrovert (active and expressive) and the life of any gathering, because almost everyone loves humor. Make this book a treasured addition to your library and one you will gladly recommend to others. It is my fervent prayer that through this effort I am leaving the wood pile a little higher than I found it. Jesus loves you and so do I! Reverend Wesley Louis Moss, at eighty-one years young, is Associate Minister of Mt. Tabor Baptist Church in Columbus, Georgia. Reverend Ken Jelks is senior pastor.
