This book locates translation firmly within current debates about the transcultural movements of texts and challenges the hegemony of English in world literature. The Longman Anthology of World Literature

Choice Outstanding Academic Title 2014 Transnational Tolstoy renews and enhances our understanding of Tolstoy's fiction in the context of "World Literature," a term that he himself used in *What is Art?* (1897). It offers a fresh perspective on Tolstoy's fiction as it connects with writers and works from outside his Russian context, including Stendhal, Flaubert, Goethe, Proust, Lampedusa and Mahfouz. Foster provides an interlocking series of cross-cultural readings ranging from nineteenth-century Germany, France, and Italy through the rise of modernist fiction and the crisis of World War II, to the growth of a worldwide literary outlook from 1960 onward. He emphasizes Tolstoy's writings with the most consistent international resonance: *War and Peace* and *Anna Karenina*, two of the world's most compelling novels. *Transnational Tolstoy* also discusses a shorter work, *Hadji Murad*. It shares the earlier novels' historical sweep, social breadth, and subtle interplay among a large cast of characters. Along with bringing Tolstoy's gifts to bear on a Muslim protagonist, it also represents his most sustained attempt at world literature.

The Norton Anthology of World Literature

The Longman Anthology of British Literature is the most comprehensive and thoughtfully arranged text in the field, offering a rich selection of compelling British authors through the ages. With its first edition, *The Longman Anthology of British Literature* created a new paradigm for anthologies. Responding to major shifts in literary studies over the past thirty years, it was the first collection to pay sustained attention to the contexts within which literature is produced, even as it broadened the scope of that literature to embrace the full cultural diversity of the British Isles. Within its pages, canonical authors mingle with newly visible writers; English accents are heard next to Anglo-Norman, Welsh, Gaelic, and Scottish ones; female and male voices are set in dialogue; literature from the British Isles is integrated with post-colonial writing; and major works are illumined by clusters of shorter texts that bring literary, social, and historical issues vividly to life. Fresh and up-to-date introductions and notes are written by an editorial team whose members are all actively engaged in teaching and in current scholarship, and over 150 illustrations show both artistic and cultural developments from the medieval period to the present. The Fourth Edition builds on the pioneering features of the previous three editions, expanding the strong core of frequently taught works while continuing to lead the way in responding to the shifting interests of the discipline.

The Longman Anthology of British Literature

What would world literature look like, if we stopped referring to the “West”? Starting with the provocative premise that the “‘West’ is ten percent of the planet”, *World Literature Decentered* is the first book to decenter Eurocentric discourses of global literature and global history – not just by deconstructing or historicizing them, but by actively providing an alternative. Looking at a series of themes across three literatures (Mexico, Turkey and Bengal), the book examines hotels, melancholy, orientalism, femicide and the ghost story in a series of literary traditions outside the “West”. The non-West, the book argues, is no fringe group or token minority in need of attention – on the contrary, it constitutes the overwhelming majority of this world.

The Longman Anthology of World Literature, Volume C, Books a la Carte Edition

Volume 1C: The Restoration and the 18th Century of *The Longman Anthology of British Literature* is a comprehensive and thoughtfully arranged anthology that offers a rich selection of major British authors throughout the Restoration and the 18th Century. The book includes Perspectives, Companion Readings, and Its Time sections which show how major literary writings interrelate with and respond to various social, historical, and cultural events of Great Britain in the 18th Century. With a generous representation of fiction, drama, and poetry, the second edition includes major additions of important works and an expanded illustration program. Fresh and up-to-date introductions and notes are written by an editorial team whose members are all actively engaged in teaching and in current scholarship, and illustrations show both artistic and cultural developments of the period. For those interested in British Literature of the Restoration and 18th Century.

The Longman Anthology of British Literature

Read by millions of students since its first publication, *The Norton Anthology of World Literature* remains the most-trusted anthology of world literature available. Guided by the advice of more than 500 teachers of world literature and a panel of regional specialists, the editors of the Third Edition--a completely new team of scholar-teachers--have made this respected text brand-new in all the best ways. English Prose of the Nineteenth Century

Back Cover General Editor: Stan Smith Professor of English, University of Dundee This important series takes full account of contemporary literary theory, providing collections of key modern readings of major authors, genres and critical approaches. Prefaced by a wide-ranging editorial introduction setting the readings in context and exploring the issues they raise, individual volumes in the series offer the student authoritative and stimulating guides to the best theoretically-informed critical work on subjects from Chaucer to the present. The approaching end of the twentieth century, accompanied as it is by 'endisms' of various kinds - the end of history, the collapse of grand narratives - has led to a renewed critical interest in the sense of ending that characterised the turn of the last century - labelled the *fin de siècle*. Long associated with decadence and with the literary movements of aestheticism and symbolism, the period 1880-1914 has been reconstructed in the light of late twentieth-century critical perspectives and by current political issues of gender, class, race and ethnicity. The essays in this volume represent the new interdisciplinary cultural history of the *fin de siècle*. They explore the full range of contemporary critical debate and are organised around three central themes: gender and sexuality, decadence and degeneration, and imperialism. The recent preoccupation with nineteenth-century popular culture and, in particular, genre fiction is explored as is the work of long neglected women writers. The late flowering of the nineteenth-century novel and the first stirrings of modernism, represented in the work of Hardy and Conrad, are reconsidered within the cultural context of the age. Lyn Pykett's selection of essays and extracts, together with the comprehensive introductory essay, form a valuable introduction to *fin de siècle* cultural studies and provide a commentary on important aspects of current critical debate and the place of culture in society. Reading *Fin de Siecle Fictions* will be welcome reading for students of literature, cultural and gender studies.

The Longman Anthology of British Literature

This volume examines the literature and culture of 19th-century America, covering genres such as the early American novel, realist fiction and historical romance, short stories and poetry.

World Literature Decentered

World literature was long defined in North America as an established canon of European masterpieces, but an emerging global perspective has challenged both this European focus and the very category of "the masterpiece." The first book to look broadly at the contemporary scope and purposes of world literature, *What Is World Literature?* probes the uses and abuses of world literature in a rapidly changing world. In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction, David Damrosch looks at the ways works change as they move from national to global contexts. Presenting world literature not as a canon of texts but as a mode of circulation and of reading, Damrosch argues that world literature is work that gains in translation. When it is effectively presented, a work of world literature moves into an elliptical space created between the source and receiving cultures, shaped by both but circumscribed by neither alone. Established classics and new discoveries alike participate in this mode of circulation, but they can be seriously mishandled in the process. From the rediscovered Epic of Gilgamesh in the nineteenth century to Rigoberta Menchú's writing today, foreign works have often been distorted by the immediate needs of their own editors and translators. Eloquent written, argued largely by example, and replete with insightful close readings, this book is both an essay in definition and a series of cautionary tales.

Longman Anthology of British Literature, Volume 1c

"The Longman Anthology of British Literature" is the most comprehensive and thoughtfully arranged text in the field, offering a rich selection of compelling British authors through the ages. With its first edition, "The Longman Anthology of British Literature" created a new paradigm for anthologies. Responding to major shifts in literary studies over the past twenty-five years, it was the first collection to pay sustained attention to the contexts within which literature is produced, even as it broadened the scope of that literature to embrace the full cultural diversity of the British Isles. Within its pages, canonical authors mingle with newly visible writers; English accents are heard next to Anglo-Norman, Welsh, Gaelic, and Scottish ones; female and male voices are set in dialogue; literature from the British Isles is integrated with post-colonial writing; and major works are illumined by clusters of shorter texts that bring literary, social, and historical issues vividly to life. Fresh and up-to-date introductions and notes are written by an editorial team whose members are all actively engaged in teaching and in current scholarship, and one hundred illustrations show both artistic and cultural developments from the medieval period to the present. The second edition builds on the pioneering features of its predecessor, retaining a strong core of frequently taught works while continuing to lead the way in responding to the shifting interests of the discipline.

The Longman Anthology of British Literature

This volume examines Victorian historiography, religion, science and politics in order to establish the social and institutional framework in which intellectual and cultural life operated. It centres on the idea of "time-hauntedness" as a defining feature of middle-class identity.

The Norton Anthology of World Literature

The Longman Anthology of British Literature, Compact Edition is a concise and thoughtfully arranged survey of British literature for the one-semester course. Within its pages, canonical authors mingle with newly visible writers; English accents are heard next to Anglo-Norman, Welsh, Gaelic, and Scottish ones; female and male voices are set in dialogue; literature from the British Isles is integrated with post-colonial writing; and major works are illumined by clusters of shorter texts that bring literary, social, and historical issues vividly to life. The Second Edition builds on the pioneering features of its predecessor, retaining a strong core of frequently taught works while continuing to lead the way in responding to the shifting interests of the discipline.

Reading Fin de Siècle Fictions

The main theme of this broad-ranging study is the interaction of ideology and literature in the "long eighteenth century," the period that runs from the late Stuarts to the age of Jane Austen and the Romantics. Professor Speck pays due attention to formal literature to the public poetry of the age, both celebratory and satirical; to the theatre; and to the emergence of the novel as a key medium for political and social reflection. He considers the work of minor - and thus perhaps more truly representative - writers, alongside the unmistakably individual voices of a Swift, a Byron and an Austen, for what they can reveal of the eighteenth century's beliefs and prejudices as they talk amongst themselves of the matters that concerned them. However, the material he examines here goes far beyond the purely 'literary' to include newspapers, pamphlets, sermons, even the popular prints of artists and caricaturists like Hogarth, Gillray and Rowlandson. In the process, he makes his own contribution to advancing the current debates concerning continuity and change in the eighteenth century. The result is a book that will be of interest to social and political historians, literary analysts, and any reader interested in the culture and society of the Augustan Age.

The Norton Anthology of English Literature

"The introductions in this anthology are meant to be just that: a basic overview of what students need to know before they begin reading, with topics that students can research further. An open access literature textbook cannot be a history book at the same time, but history is the great companion of literature: The more history students know, the easier it is for them to interpret literature. In an electronic age, with this text available to anyone with computer access around the world, it has never been more necessary to recognize and understand differences among nationalities and cultures. The literature in this anthology is foundational, in the sense that these works influenced the authors who followed them. A word to the instructor: The texts have been chosen with the idea that they can be compared and contrasted, using common themes. Rather than numerous (and therefore often random) choices of texts from various periods, these selected works are meant to make both teaching and learning easier. While cultural expectations are not universal, many of the themes found in these works are."--Open Textbook Library.

The Norton Anthology of World Literature, 4e Shorter Volumes 1 and 2 + the Norton Introduction to Literature, 13e Shorter with Media Access Registration Card

With the elegance and verve for which he is well known, Greenblatt, author of the bestselling "Will in the World," shows that Shakespeare was strikingly averse to such absolutes as scripture, monarch, and God, and constantly probed the possibility of freedom from them.

The Norton Anthology of World Literature

Franz Kafka, the author has very nicely narrated the story of Gregor Samsa who wakes up one day to discover that he has metamorphosed into a bug. The book concerns itself with the themes of alienation and existentialism. The author has written many important stories, including 'The Judgement', and much of his novels 'Amerika', 'The Castle', 'The Hunger Artist'. Many of his stories were published during his lifetime but many were not. Over the course of the 1920s and 30s Kafka's works were published and translated instantly becoming landmarks of twentieth-century literature. Ironically, the story ends on an

optimistic note, as the family puts itself back together. The style of the book epitomizes Kafka's writing. Kafka very interestingly, used to present an impossible situation, such as a man's transformation into an insect, and develop the story from there with perfect realism and intense attention to detail. The *Metamorphosis* is an autobiographical piece of writing, and we find that parts of the story reflect Kafka's own life.

The Norton Anthology of World Masterpieces

Under Nina Baym's direction, the editors have considered afresh each selection and all the apparatus to make the anthology an even better teaching tool.

The Norton Anthology of World Masterpieces

This magisterial Norton Anthology, edited by world-renowned scholars, offers a portable library of more than 1,000 primary texts from the world's major religions. To help readers encounter strikingly unfamiliar texts with pleasure; accessible introductions, headnotes, annotations, pronouncing glossaries, maps, illustrations and chronologies are provided. For readers of any religion or none, *The Norton Anthology of World Religions* opens new worlds that, as Miles writes, invite us "to see others with a measure of openness, empathy, and good will..." Unprecedented in scope and approach, *The Norton Anthology of World Religions: Christianity* brings together over 150 texts from the Apostolic Era to the New Millennium. The volume features Jack Miles's illuminating General Introduction; "How the West Learned to Compare Religions"; as well as Lawrence S. Cunningham's "The Words and the Word Made Flesh"; a lively primer on the history and core tenets of Christianity.
