This source is brought to them to aid them to achieve success in this very attempt. The material covers all trending, important and relevant facts and material of Geography required to be studied by aspirants in a single booklet, important topics for the UPSC civil services exam. Geography (India & World) For UPSC Prelims and Mains Exam 2020 We have covered only those topics which were in news/trend in last 1/1.5 year and will add more topics time to time, High chance to ask the questions from these topics in civil services preliminary and mains exam 2020.

IAS Prelims Paper 1 General Studies 30 Days Revision Material 2nd Edition

Basic and Geography of India for UPSC Civil Services Prelims Exam 2020 General Studies Paper-1. We have covered basic geography topics which are very useful for Preliminary examination. Geography is so vast in its syllabus that it covers the most section of the General Studies for the IAS Prelims Exam. The geography is scientific in its orientation and hence the candidates having Arts background find it very difficult to prepare the geography for the IAS Prelims Exam. But, the candidates cannot escape or overlook the geography because there are various aspects of geography which enormously helps in the overall General Studies Preparations. For example, the economy of our country is heavily dependent on the Monsoon but Monsoon is a geographical phenomenon. Moreover, we are talking about the demographic dividends but we can study the aspects of population growth under Population Geography and related avenues under Human Geography. UPSC Prelims 2020 Geography Geography Concept Based Notes 1. The Universe 2. Rocks and Minerals 3. Concepts of Geomorphology 4. Landforms and its Evolution 5. The Climatology 6. Atmospheric Circulation & Weather Systems 7. Oceanography 8. Physiography of India 9. Drainage System of India 10. Climate of India 11. Maps of India and World 12. Agriculture 13. Mineral Resources 14. Transport 15. Migration Best Wishes for your exams!!

Indian And World Geography : Current Affairs Yearbook 2020

Yearbook of International Organizations is the most comprehensive reference resource and provides current details of international non-governmental (NGO) and intergovernmental organizations (IGO). Collected, documented and disseminated by the Union of International Associations (UIA), detailed and profound information on international organizations worldwide can be found here, from the United Nations, the ASEAN and the Red Cross to sporting bodies and religious orders. Besides historical and organizational information (e.g. on aims, subject orientation and locations), details on activities, events or publications as well as the most current contact details are included. Integrated are also biographies of the leading individuals of the organizations as well as the presentation of networks of organizations. The Union of International Associations (UIA) is a non-profit, apolitical, independent and non-governmental institution in the service for international associations, based in Brussels, Belgium. For 100 years, the UIA has focused on the nature and evolution of the international civil society - a topic of increasing relevance. New: UIA Bi-monthly Study Find out about current topics and the wealth of information contained in the Yearbook of International Organizations. No. 1 of UIA's new Bi-monthly Study is now available for download. This time's subject: Olympic Games and Sports.

UPSC IAS SYLLABUS PRELIMS MAINS SYLLABUS ONLY

Suburban space has traditionally been understood as a formless remnant of physical city expansion, without a dynamic or logic of its own. Suburban Urbanities challenges this view by defining the suburb

as a temporally evolving feature of urban growth. Anchored in the architectural research discipline of space syntax, this book offers a comprehensive understanding of urban change, touching on the history of the suburb as well as its current development challenges, with a particular focus on suburban centres. Studies of the high street as a centre for social, economic and cultural exchange provide evidence for its critical role in sustaining local centres over time. Contributors from the architecture, urban design, geography, history and anthropology disciplines examine cases spanning Europe and around the Mediterranean. By linking large-scale city mapping, urban design scale expositions of high street activity and local-scale ethnographies, the book underscores the need to consider suburban space on its own terms as a specific and complex field of social practice

[15000+ Qs] Objective GS General Studies Book

This volume analyses the challenges India has faced and the successes it has achieved, in the light of its colonial legacy and century long struggle for freedom.

This open access book presents up-to-date analyses of community-based approaches to sustainable resource management of SEPLS (socio-ecological production landscapes and seascapes) in areas where a harmonious relationship between the natural environment and the people who inhabit it is essential to ensure community and environmental well-being as well as to build resilience in the ecosystems that support this well-being. Understanding SEPLS and the forces of change that can weaken their resilience requires the integration of knowledge across a wide range of academic disciplines as well as from indigenous knowledge and experience. Moreover, given the wide variation in the socio-ecological makeup of SEPLS around the globe, as well as in their political and economic contexts, individual communities will be at the forefront of developing the measures appropriate for their unique circumstances. This in turn requires robust communication systems and broad participatory approaches. Sustainability science (SuS) research is highly integrated, participatory and solutions driven, and as such is well suited to the study of SEPLS. Through case studies, literature reviews and SuS analyses, the book explores various approaches to stakeholder participation, policy development and appropriate action for the future of SEPLS. It provides communities, researchers and decision-makers at various levels with new tools and strategies for exploring scenarios and creating future visions for sustainable societies.

Arts & Humanities Citation Index

International Education and Foreign Languages reviews the Department of Education's Title VI and Fulbright-Hays Programs, which provide higher education funding for international education and foreign language programs. This book offers a timely look at issues that are increasingly important in an interconnected world. It discusses the effect of the nation's lack of expertise in foreign languages and cultural knowledge on national security and global competitiveness and it describes the challenges faced by the U.S. educational system and the federal government in trying to address those needs. The book also examines the federal government's recent proposal to create a new National Security Language Initiative, the role of the Department of Education, and current efforts to hold higher education programs accountable. This book provides information and recommendations that can help universities, educators, and policy makers establish a system of foreign language and international education that is ready to respond to new and unanticipated challenges around the world.

A Brief History of Modern India

useful for UPSC, IAS, PCS, Civil Services Exams.

Suburban Urbanities

The colonial heritage and its renewed aftermaths – expressed in the inter-American experiences of slavery, indigeneity, dependence, and freedom movements, to mention only a few aspects – form a common ground of experience in the Western Hemisphere. The flow of peoples, goods, knowledge and finances have promoted interdependence and integration that cut across borders and link the countries of North and South America together. The nature of this transversally related and multiply interconnected region can only be captured through a transnational, multidisciplinary, and comprehensive approach. The Routledge Handbook to the History and Society of the Americas explores the history and society of the Americas, placing particular emphasis on collective and intertwined experiences. Forty-four chapters cover a range of concepts and dynamics in the Americas from the colonial period until the present century: The shared histories and dynamics of Inter-American relationships are considered through pre-Hispanic empires, colonization, European hegemony, migration, multiculturalism, and political and economic interdependences. Key concepts are selected and explored from different geopolitical, disciplinary, and epistemological perspectives. Highlighting the contested character of key concepts that are usually defined in strict disciplinary terms, the Handbook provides the basis for a better and deeper understanding of inter-American entanglements. This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history, sociology, political science cultural, postcolonial, gender, literary, and globalization studies.
