The Child of Misfortune

Traditionally, psychology has concentrated on factors that contribute to individuals becoming unhealthy and has paid very little attention to those individuals who become healthy when all indications would predict the opposite. Many children overcome adverse conditions and become successful adults. Their stories often go untold, taking backseat to stories and investigations of failed lives and broken dreams. This book retrospectively explores the lives of several individuals who were able to overcome hardships and excel professionally. The authors believe that, through the lives of these individuals, the reader can learn how to help others overcome adverse life circumstances.

Su Xiaokang had faced calamity before: in 1989, after the Tiananmen Square massacre, he became the object of a government manhunt and was forced to flee China, leaving behind his wife and young son. Eventually his family was allowed to join him in exile in the United States, and he believed the worst was behind him. Then a terrible automobile accident left his wife, Fu Li, unable to move or speak. In this remarkably honest account, Su, who blamed himself for his family's disaster, writes wrenchingly of his inner torment and despair. He describes the pain of living in exile, his desperate search for a miracle cure for Fu Li, and his bemusement at his teenage son's increasing Americanization. Above all, Su's moving memoir invites us along on a deeply personal odyssey, as a man who had once been at the center of an international political drama dedicates himself to the far more demanding task of remaking an emotional world for his wife and son.

Child of Misfortune

Lord Geoffrey Loveall is the richest man in England, reclusive, and heretofore heirless lord of the sprawling manse of Love Hall. He arrives home one fateful morning with a most unusual package - a baby that he presents as the inheritor to the family name and fortune. In honour of his beloved sister, who died at the age of five, Loveall names the baby Rose Old. The household, relieved at the continuation of the Loveall line, assiduously ignores the fact that this Rose has a thorn—that she is, in fact, a boy. Rose grows up inside the endlessly fascinating maze of halls and lawns that make up Love Hall, along with the two inquisitive and ebullient servant children who are her only friends; all three are educated by Rose's adoptive mother Anonyma in the musty recesses of the Octagonal Library. Rose grows up blissfully unaware of her own gender, casually hitting boundaries at Love Hall's yearly cricket game and learning to shave her face even as she continues to wear more and more elaborate dresses, as befits a growing young lady. Until, of course, the fateful day when Rose's world comes crashing down around her, and she is banished from Love Hall as an impostor by those who would claim her place as heir. Filled with unexpected plot twists, outrageous characters, odd details and a vivid, velvety historical background, this is an epic, Dickensian story. Fanciful, whimsical and wry, it is also a moving meditation on the agony of adolescence and the universal difficulty of determining one's identity. Set in the early years of the nineteenth century, and an England at once as believable as Sarah Waters' and as grotesque as Mervyn Peake's, MISFORTUNE is a gothic novel for our times - a huge, rich, funny, exciting work of fiction that is destined to become a classic.

Children of Misfortune

"Elisabeth Kehoe's vivid biography introduces us to a woman who bears little relation to her reputation as home-wrecker and historical catastrophe. Combining rigorous research with an intimate understanding of her subject, Kehoe recreates the boisterous character and courageous actions of a vastly underestimated woman. From this book emerges, for the first time, the real Katie O'Shea: a gifted woman, bound by very considerable financial and social restrictions, who none the less influenced the politics of her time with an acuity and sensitivity sorely lacking in her Irish lover."--BOOK JACKET.

Questioning Misfortune

This volume explores the panic that is a central affective register of our current international order. Fears of Somali pirates, "Gypsy" kidnappers, African warlords, Ebola, "Mexican meth," pimps, coyotes,

gangs, climate refugees and more, structure the dark side of a metropolitan unconscious. These are terrors over things that (might) cross borders, threatening the sanctity of territoriality and capital. Inspired by scholarship challenging panics around human and sex trafficking, the contributors to this volume develop the umbrella category of the global moral panic. Embracing the challenge of grasping a phenomenon not previously regarded as cohering, they consider panics provoked by travel, passage, transgression; panics over bodies that move. Like panics over trafficking, the episodes narrated here ride and feed a field of common sense regarding crime, rights, and state power. Their logics of victims and villains nourish notions of the centrality of punishment, drawing from and feeding taxonomies of gender, race, and nation, solidifying the order craved by capital. They spotlight the coloniality of power, the ongoing salience of empire, the savior logics of rescue, and the profound sexism organizing hierarchies of bodies and places. Panic, this volume diagnoses, is a crucial, undertheorized facet of contemporary local-global relations.

The Central Law Journal

A number of cases of serious child abuse have resulted from beliefs that children may be possessed by evil spirits and may then be given the power to bewitch others. Misfortune, failure, illness and even death may be blamed on them. The 'cure', nowadays called deliverance rather than exorcism, is to expel the spirits, sometimes by violent means. This book draws together contributions on aspects of possession and witchcraft from leading academics and expert practitioners in the field. It has been put together following conferences held by Inform, a charity that provides accurate information on new religions as a public service. There is no comparable information publicly available; this book is the first of its kind. Eileen Barker, founder of Inform, introduces the subject and Inform's Deputy Director goes on to detail the requests the charity has answered in recent years on the subject of children, possession and witchcraft. This book offers an invaluable resource for readers, whether academic or practitioner - particularly those in the fields of the safeguarding of children, and their education, health and general welfare.

The Person Being Under Misfortune Obliges Her to Take this Method. The Heavenly Messenger; Or, the Child's Plain Pathway to Eternal Life. ...

In 2008, the artist Adam Cullen invited journalist Erik Jensen to stay in his spare room and write his biography. What followed were four years of intense honesty and a relationship that became increasingly claustrophobic. At one point Cullen shot Jensen, in part to see how committed he was to the book. At another, he threw Jensen from a speeding motorbike. The book contract Cullen used to convince Jensen to stay with him never existed. *Acute Misfortune* is a riveting account of the life and death of one of Australia's most celebrated artists, the man behind the Archibald Prize-winning portrait of David Wenham. Jensen follows Cullen through drug deals and periods of deep self-reflection, onwards into his court appearance for weapons possession and finally his death in 2012 at the age of forty-six. After much critical acclaim, *Acute Misfortune* was developed into a feature film, winning The Age Critics Award at the Melbourne International Film Festival in 2018. The story is by turns tender and horrifying: a spare tale of art, sex, drugs and childhood, told at close quarters and without judgement. Winner of the 2015 Nib Waverley Library Award for Literature Shortlisted in the 2015 Victorian Premier's Literary Awards and for the 2015 Walkley Book Award 'Erik Jensen is a Boswell or Vasari for our baffled, fractured, fucked-up times. *Acute Misfortune* is the most intimate, revealing, and original take on an artist's life I know of.' —Sebastian Smee 'Erik Jensen gives us that ingenious place where biography is also art.' —Jennifer Clement 'This is supposed to be about an artist, a wild man, his lifetime, and it is; but Jensen has written such a beautiful window that all art and life is shining through. I'm supposed to be an artist but I cannot put this down.' —DBC Pierre
