How to Remove Prop Shaft Correctly, Mercury Lower Unit With Cam Shift. - How to Remove Prop
Shaft Correctly, Mercury Lower Unit With Cam Shift. by The Guy From Finland 12,549 views 6 months
ago 20 minutes - Stop arguing about the need for a neutral when disassembling the lower unit! We
consider two situations: 1) when the propeller ...

Stop arguing about the need for a neutral when disassembling the lower unit!

About two situations we are considering.

For any situation we first remove the bearing carrier.

Look at the pinion gear.

SITUATION 1. You won't remove the drive shaft. What are right steps?

Don't rotate prop shaft! Otherwise you will need to remove the drive shaft. Watch how I remove the
prop shaft again.

SITUATION 2: You can't shift into gear or you are about to remove the drive shaft anyway.

Look at the pinion gear's nut again.

Removing the drive shaft and all problems related to it in such situation.

The drive shaft removed and now let's see show the drive shaft goes with all its stuff.

The party and Good Bye!
