Walking Together

Migration through Mexico is violent and uncertain, yet in Walking Together we see how this experience bonds some people together like family even though they may not have started that way before the journey. Migrants in transit form several types of social networks, develop trust, and engage in acts of solidarity. The need to be recognized and grieved, compounded by the practical use of pooling information and resources, leads migrants to form small, strong groups called road families. Through the generalized sharing of information and small items such as food and blankets, migrants also form a transient community that includes everyone on the road at the same time. Sociologist Alejandra Díaz de León shows the trajectories of families that left together, showing, surprisingly, that families might not be the best social arrangement in transit. Drawing on multisited research, this work contributes to debates on the role of social networks in clandestine migration processes and to discussions on how people create social networks and trust under violent and stressful situations. The detailed ethnographic narratives and accessible writing weave together theory with empirical observations to highlight and humanize the migrant experience. Sitting at the intersection of border studies, immigration studies, and Latinx studies, this concise volume shows how Central American migrants in transit through Mexico survive the precarious and unpredictable road by forming different types of social ties.

Spiritual Growth Through Travels, Nature, And Living Life

A lifelong traveler, riding on a train from Long Beach to New Orleans, Louisiana, at age one--in the middle of World War II, to a 520-mile pilgrimage trek on the Camino de Santiago in his mid-seventies--the author describes many ways he has grown internally as a result of his travels and bonding with nature.

A few travel highlights include a five-month tour of Western Europe in the early 1970s, many road trips through the United States and Mexico, walking across Northern Spain on the two longest Caminos (one thousand miles total) and walking from Porto, Portugal, to Santiago de Compostela, Spain. In addition are two memorable group pilgrimages: one in Italy; and the other to the three countries of Portugal, Spain, and France. 2

This unvarnished collection of articles traces evolving issues and provides a unique history of the long-running national immigration dilemma. American immigration has been debated in the pages of The Nation almost since its founding in 1865. The magazine has generally come down on the inclusive or "liberal" side of the great debate, but the editors were not immune from the prejudices of their times—an 1891 editorial called for the exclusion of "lunatics, paupers and cripples." In our own time, the post-9/11 anti-terrorism mania prompted a crackdown on those with Muslim ties, however innocent.

Editor Richard Lingeman's sentiment: "We hope this perspective will inform and inspire readers to support the reforms appropriate for America in the twenty-first century."

We live in a world full of challenges. The three graces can almost be seen as motors for Christian life in today's world, but the words faith, hope, and love have so many everyday uses that their technical, theological meanings are, for many, difficult to appreciate. Modern life also leaves many yearning for authenticity and meaning. Many religions have answered that need by calling to mind the image of a path. Always profound progressions, religious paths tend to be motivated either by practices (the act of walking the path) or focal points. Christianity has a focal point, an object, and it sees the three graces as distinctively content filled. The heart of this book is about helping people find the Christian path and their intellectual, emotional, and spiritual balance--an equilibrium that is sustained by a strong personal faith, an enduring hope for the future, and genuine love that will withstand the worst of times. It contributes to the category of Christian literature that provides a pattern for Christian living without surrendering the intellect to the more popular side of this genre.

Legendary travel writer Paul Theroux drives the entire length of the US-Mexico border, then goes deep into the hinterland, on the back roads of Chiapas and Oaxaca, to uncover the rich, layered world behind today's brutal headlines. Paul Theroux has spent his life crisscrossing the globe in search of the histories and peoples that give life to the places they call home. Now, as immigration debates boil around the world, Theroux has set out to explore a country key to understanding our current discourse: Mexico. Just south of the Arizona border, in the desert region of Sonora, he finds a place brimming

with vitality, yet visibly marked by both the US Border Patrol looming to the north and mounting discord from within. With the same humanizing sensibility he employed in Deep South, Theroux stops to talk with residents, visits Zapotec mill workers in the highlands, and attends a Zapatista party meeting, communing with people of all stripes who remain south of the border even as their families brave the journey north. From the writer praised for his "curiosity and affection for humanity in all its forms" (New York Times Book Review), *On the Plain of Snakes* is an exploration of a region in conflict.

The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year.

Inclusion has recently become a high priority issue within the development sector, brought to the fore by the 2030 Agenda for Sustainable Development's commitment to leave no one behind. Practices within the remit of inclusion often focus on increasing access and meaningful participation, with emphasis placed on bringing those at the margins to the centre. Theologies and Practices of Inclusion challenges such centre-focused practices from a global perspective, based on research conducted within the Christian relief, development and advocacy organisation Tearfund and beyond. Offering inspiration for practitioners within the sector and faith-based organisations in particular, as well as an academic contribution to the fields of international development studies and theology, the book aims to bridge theology and practice in an accessible way. Consisting of 13 chapters and case studies, this book draws on the wisdom of a diverse team of contributors at the forefront of international development, working in a variety of contexts. These include South Africa, Malaysia, Sri Lanka, Ethiopia, Nigeria, Kenya, Rwanda, Ecuador, Panama, Bolivia, the Philippines, Iraq, Egypt and the UK. Highlighting 'journey', 'change' and 'belonging' as three key aspects of inclusion, the book explores the outworking of theologies of inclusion within organisational practice. With a foreword by Ruth Valerio, and an afterword by Catriona Dejean.
