

The Naval Arms Trade

[#naval arms trade](#) [#naval weaponry](#) [#warships](#) [#maritime security](#) [#arms proliferation](#)

The naval arms trade encompasses the global commerce of warships, naval weapons, and related technologies. This complex market involves numerous players, including governments, defense contractors, and international brokers. The trade significantly impacts maritime security, geopolitical power balances, and regional stability, raising concerns about arms proliferation and the potential for increased naval conflicts.

Educators may refer to them when designing or updating course structures.
