Ecstatic Confessions

Ecstatic Confessions orchestrates these reports from the edge of human experience into a revealing look at the nature of the ecstatic experience itself and the tension arising from the mystic's compelling need to give witness to an event that can never truly be verbalized.

Surrealism

The Surrealist circle was made up of many of the great artists of the 20th century, including Max Ernst, Giorgio de Chirico, Jean Arp, Man Ray, Joan Miro, and Rene Magritte. Salvador Dali, probably the single best-known Surrealist artist, broke with the group due to his right-wing politics (during this period leftism was the fashion among Surrealists, and in fact in almost all intellectual circles).

La Historia

In *Verbal Hygiene*, Deborah Cameron takes a serious look at popular attitudes towards language and examines the practices by which people attempt to regulate its use. Instead of dismissing the practice of 'verbal hygiene', as a misguided and pernicious exercise, she argues that popular discourse about language values – good and bad, right and wrong – serves an important function for those engaged in it. A series of case studies deal with specific examples of verbal hygiene: the regulation of 'style' by editors, the teaching of English grammar in schools, the movements for and against so-called 'politically correct' language and the advice given to women on how they can speak more effectively. This Routledge Linguistics Classic includes a new foreword which looks at how the issues covered in the case studies have developed over time and a new afterword which discusses new concerns which have emerged in the last 15 years, from the regimentation of language in the workplace to panics about immigration and terrorism, which are expressed in linguistic terms. Addressed to linguists, to professional language-users of all kinds, and to anyone interested in language and culture, *Verbal Hygiene* calls for legitimate concerns about language and value to be discussed, by experts and lay-speakers alike, in a rational and critical spirit.

Ufo...Contact from Planet Iarga

A revised edition of this major writer's complete poetical work And I who was walking with the earth at my waist, saw two snowy eagles and a naked girl. The one was the other and the girl was neither. -from "Qasida of the Dark Doves" Federico García Lorca was the most beloved poet of twentieth-century Spain and one of the world's most influential modernist writers. His work has long been admired for its passionate urgency and haunting evocation of sorrow and loss. Perhaps more persistently than any writer of his time, he sought to understand and accommodate the numinous sources of his inspiration. Though he died at age thirty-eight, he left behind a generous body of poetry, drama, musical arrangements, and drawings, which continue to surprise and inspire. Christopher Maurer, a leading García Lorca scholar and editor, has brought together new and substantially revised translations by twelve poets and translators, placed side by side with the Spanish originals. The seminal volume *Poet in New York* is also included here in its entirety. This is the most comprehensive collection in English of a poet who—as Maurer writes in his illuminating introduction—"spoke unforgettably of all that most interests us: the otherness of nature, the demons of personal identity and artistic creation, sex, childhood, and death."

Verbal Hygiene

A beautifully written, timeless tale by Cao Wenxuan, best-selling Chinese author and 2016 recipient of the prestigious Hans Christian Andersen Award. Sunflower is an only child, and when her father is sent to the rural Cadre School, she has to go with him. Her father is an established artist from the city and finds his new life of physical labor and endless meetings exhausting. Sunflower is lonely and longs to play with the local children in the village across the river. When her father tragically drowns, Sunflower is taken in by the poorest family in the village, a family with a son named Bronze. Until Sunflower joins his family, Bronze was an only child, too, and hasn't spoken a word since he was traumatized by a terrible fire. Bronze and Sunflower become inseparable, understanding each other as only the closest friends can. Translated from Mandarin, the story meanders gracefully through the challenges that face the family, creating a timeless story of the trials of poverty and the power of love and loyalty to overcome hardship.

Collected Poems

Fully updated and expanded for the second edition, this core textbook provides rigorous coverage of the key themes and debates at the cutting edge of sociolinguistics research and brings together many of the most influential scholars in the field. Comprising six distinctive parts and almost fifty individual chapters, it introduces students to a wealth of issues in sociolinguistics, including refashioning linguistic identities, code-switching, language rights and the social functions of small talk. Chapters are richly illustrated with examples and informed by the latest scholarly debates. This is an essential companion for all undergraduates and postgraduates involved in the study of sociolinguistics. It will be an ideal resource for lecturers teaching modules on topics such as language variation, language and gender, language attitudes and multilingualism.

Wayward Servants

In sixteen spirited essays, Pulitzer Prize-winning novelist Alison Lurie, who is also one of our wittiest and most astute cultural commentators, explores the world of children's literature--from Lewis Carroll to Dr. Seuss, Mark Twain to Beatrix Potter--and shows that the best-loved children's books tend to challenge rather than uphold respectable adult values.

Bronze and Sunflower

The new novel by Natalie Babbitt, author of *Tuck Everlasting* Joe Casimir needed help with the choice he had to make. But how do you choose the person who will help you choose? Mr. Boulderwall, the millionaire, knew exactly what he wanted Joe to choose. And millionaires are experts at making choices. Well, aren't they? But Vinnie, the number-two man down at Sope Electric, didn't much approve of millionaires. He said to Joe, "Listen, kid, all of 'em act like they're the only ones with a ticket to the show!" But he didn't have any real advice to offer. Joe's Gran didn't either, as it turned out, and neither did Aunt Myra. The good advice was there, though. Right across the street. Just waiting right across the street. There are a lot of good things just waiting. You'll see.

The New Sociolinguistics Reader

The Peyote Cult by Weston La Barre (1915-1996) is the classic work on peyotism, originating in Weston La Barre's studies of the use of peyote in the rituals of fifteen Native American tribes in the 1930s. It has been revised many times. This is the latest edition (the fifth, enlarged edition), now back in print.

Don't Tell the Grown-Ups

Will the European Union have its ¿single family - a ¿European family - as it will have a single currency? This is the question at the origin of this book. Studies of family behavior and the organization of private life among European citizens, as well as of family member social status (children in relation to adults/parents, women in relation to men), and of social functions of the family, for example social reproduction, reveal so much convergence among European families that the reality of a ¿European family seems inevitable, and more so if one looks at foreign studies done - in Australia, the United States or Japan - of the family in Europe. However, studies of the different judicial and public policy laws in the different European Union member countries lead one to refine this first impression. The family does not have the same legal meaning in all places, and the ways in which it is defined by law and public policy continue to differ strongly, due in particular to historical factors, cultural traditions, and conceptions of the role of the State. In order for the family to be part of the construction of a European citizenship, the pluralistic nature of its political definitions will have to be recognized. Putting the family into the context of evolving European integration has never been done before. It was made possible in this study thanks to the joint efforts of two editors with long experience in social science studies of the family and as expert advisors to the European Commission, and by the work of the best international specialists in the field. This is a book intended for specialists working in the social sciences, for social and government policy-makers in the fields of family and social policy, and for all those interested in European integration.

"A father, Gusti, expounds upon life with his son Mallko, who has Down syndrome"--

Mattie and Grandpa

An advisor to Italian publishing houses, a translator of Freud and Jung, a friend of Montale and Calvino, Roberto Bazlen was nothing if not a literary man, but kept his writings to himself. Here, translated into English for the first time, the reader will discover Bazlen's private oeuvre: an unfinished novel, *The Sea Captain*, which bears comparison with the fiction of Kafka and Beckett; a selection of entries from his notebooks dealing with topics as various as whether or not there is an "animal Jahweh" and the aesthetic limitations of the cinema; a trio of essays on his native city of Trieste; and a sampling of his editorial letters. *Notes Without a Text* is an introduction to the work of one of the unknown masters of twentieth-century European literature.

The Peyote Cult

In spite of modern ideals and achievements in the area of freedom and choice, people today are often afflicted with a sense that they cannot change things for the better. They feel helpless, constrained, caught -- in a word, fatalistic. *Beyond Fate*, Margaret Visser's 2002 CBC Massey Lectures, examines why. This timely and important book investigates what fate means, and where the propensity to believe in it and accept it comes from. Visser takes an ancient metaphor -- ubiquitous, influential, perhaps unavoidable -- where time is "seen" and spoken of as though it were space; she examines how this way of picturing reality can be a useful tool to think with -- or, on the other hand, may lead us into disastrous misunderstandings. There are ways out. But first, by observing how fatalism manifests itself in our daily lives, in everything from table manners and shopping to sport, we understand our profound attachment to fate, so that we can consider its role in our lives and our cultures.

The European Family

This volume examines the impact of advances in genetics and assisted reproduction technologies on family law, human rights and the rights of the child, including the effects of international treaties on national legislation. It surveys the theoretical, ethical and legal discussions with regard to biotechnology and family law issues and the search for a balance between safeguarding respect for human rights and fundamental freedoms and the need to ensure freedom of research. However, biotechnology impinges not only on isolated individuals and their rights, but also on unborn children, the family as a network of living relationships and the basic structure of any society, as well as the foundation of parentage and kinship, social organization as a whole and, finally, mankind itself. As the attention of the World turns to cloning, this book will contribute to the search for a balance between the rights and freedoms of born and yet to be born human beings and the quest for new technologies.

Mallko and Dad

The book is the first to analyse the textual construction of a national Spanish cuisine in the late nineteenth and early twentieth century.

Beyond Fate

In this cornerstone work, Samael Aun Weor explains in clear terms the entire basis of all esoteric work: Kabbalistic symbology. This is the language of the Internal Worlds. "In these studies of Kabbalah, we need to be practical; there are authors who write marvels, but when one looks at them, one realizes that they have not lived what they have written; they did not experience it in themselves, and that is why they are mistaken. I understand that one must write what one has directly experienced by oneself. I have proceeded in this way on my part." This book is no mere repetition of what others have written: it is the direct experience of the author. This revolutionary work examines the Tarot and Kabbalah as never before, with brilliant revelations about the mysterious sphere of Daath, whose true nature was never before discussed publicly. In Five Parts: 1: Description and Study of the Esoteric Tarot 2: Initiation through the Arcana of the Tarot 3: The Kabbalah 4: Numerology and Esoteric Mathematics 5: Predictive Kabbalah

Biomedicine, the Family and Human Rights

"Giroux refuses to give in or give up. *The Violence of Organized Forgetting* is a clarion call to imagine a different America--just, fair, and caring--and then to struggle for it."--Bill Moyers "Henry Giroux

has accomplished an exciting, brilliant intellectual dissection of America's somnambulant voyage into anti-democratic political depravity. His analysis of the plight of America's youth is particularly heartbreaking. If we have a shred of moral fibre left in our beings, Henry Giroux sounds the trumpet to awaken it to action to restore to the nation a civic soul."--Dennis J. Kucinich, former US Congressman and Presidential candidate "Giroux lays out a blistering critique of an America governed by the tenets of a market economy. . . . He cites French philosopher Georges Didi-Huberman's concept of the 'disimagination machine' to describe a culture and pedagogical philosophy that short-circuits citizens' ability to think critically, leaving the generation now reaching adulthood unprepared for an 'inhospitable' world. Picking apart the current malaise of 21st-century digital disorder, Giroux describes a world in which citizenship is replaced by consumerism and the functions of engaged governance are explicitly beholden to corporations."--Publishers Weekly In a series of essays that explore the intersections of politics, popular culture, and new forms of social control in American society, Henry A. Giroux explores how state and corporate interests have coalesced to restrict civil rights, privatize what's left of public institutions, and diminish our collective capacity to participate as engaged citizens of a democracy. From the normalization of mass surveillance, lockdown drills, and a state of constant war, to corporate bailouts paired with public austerity programs that further impoverish struggling families and communities, Giroux looks to flashpoints in current events to reveal how the forces of government and business are at work to generate a culture of mass forgetfulness, obedience and conformity. In *The Violence of Organized Forgetting*, Giroux deconstructs the stories created to control us while championing the indomitable power of education, democracy, and hope. Henry A. Giroux is a world-renowned educator, author and public intellectual. He currently holds the Global TV Network Chair Professorship at McMaster University in the English and Cultural Studies Department and a Distinguished Visiting Professorship at Ryerson University. The Toronto Star has named Henry Giroux "one of the twelve Canadians changing the way we think." More Praise for Henry A. Giroux's *The Violence of Organized Forgetting*: "I can think of no book in the last ten years as essential as this. I can think of no other writer who has so clinically dissected the crisis of modern life and so courageously offered a possibility for real material change."--John Stepping, playwright, and author of *The Shaper*, *Dogmouth*, and *Sea of Cortez* "A timely study if there ever was one, *The Violence of Organized Forgetting* is a milestone in the struggle to repossess the common sense expropriated by the American power elite to be redeployed in its plot to foil the popular resistance against rising social injustice and decay of political democracy."--Zygmunt Bauman, author of *Does the Richness of the Few Benefit Us All?* among other works Prophetic and eloquent, Giroux gives us, in this hard-hitting and compelling book, the dark scenario of Western crisis where ignorance has become a virtue and wealth and power the means of ruthless abuse of workers, of the minorities and of immigrants. However, he remains optimistic in his affirmation of radical humanity, determined as he is to relate himself to a fair and caring world unblemished by anti-democratic political depravity."--Shelley Walia, *Frontline*

Chinese Buddhism; a Volume of Sketches, Historical, Descriptive, and Critical

Review: "Unlike Machiavelli-inveterate dreamer and cynic-Guicciardini's mind is remarkable for the balance and masterly coolness of its judgment."-Federico Chabod "In the history of Renaissance thought, Guicciardini's *Ricordi* occupy a place of singular importance. Few works of the sixteenth century allow us so penetrating an insight into the views and sentiments of its author as these reflections of the great Italian historian. . . . Like Machiavelli's *Prince*, the *Ricordi* form one of the outstanding documents of a time of crisis and transition; but unlike the *Prince*, they range over a wide field of private as well as public life. In doing so, they reveal the man as well as the political theorist."-Nicolai Rubenstein, from the Introduction.

Performance in Postmodern Culture

Electrifying, provocative, and controversial when first published thirty years ago, Donna Haraway's "Cyborg Manifesto" is even more relevant today, when the divisions that she so eloquently challenges—of human and machine but also of gender, class, race, ethnicity, sexuality, and location—are increasingly complex. The subsequent "Companion Species Manifesto," which further questions the

human–nonhuman disjunction, is no less urgently needed in our time of environmental crisis and profound polarization. Manifestly Haraway brings together these momentous manifestos to expose the continuity and ramifying force of Haraway's thought, whose significance emerges with engaging immediacy in a sustained conversation between the author and her long-term friend and colleague Cary Wolfe. Reading cyborgs and companion species through and with each other, Haraway and Wolfe join in a wide-ranging exchange on the history and meaning of the manifestos in the context of biopolitics, feminism, Marxism, human–nonhuman relationships, making kin, literary tropes, material semiotics, the negative way of knowing, secular Catholicism, and more. The conversation ends by revealing the early stages of Haraway's "Chthulucene Manifesto," in tension with the teleologies of the doleful Anthropocene and the exterminationist Capitalocene. Deeply dedicated to a diverse and robust earthly flourishing, Manifestly Haraway promises to reignite needed discussion in and out of the academy about biologies, technologies, histories, and still possible futures.

Cooking Up the Nation

In this compilation of essays, Dork Zabunyan analyses the creation, use and circulation of images in the contexts of the 'Arab Spring' and the Syrian War. In them he speaks of the participation of images in the evolution of uprisings and peoples, the temporality they provide, the mise-en-scène of media propaganda, the use of horror, and the need to elaborate a right to a dignified image. What do images perform in times of uprising[s] and counter-revolution[s]? The *Insistence of Struggle* examines and confronts audiovisual and cinematic works as heterogeneous as the films produced by the collective of filmmakers Abounaddara, the avant-garde montages of Dziga Vertov, the images by the 'anonymous', the documentary films of Stefano Savona, the videos made by ISIS, and certain works by Brian de Palma, Chris Marker or Harun Farocki, inviting us to rethink the limits and ethics of the visual. With each essay, the reader is not only confronted with the images of past and present struggles, but also with how these images persist and encourage future struggles.

One of the most essential works on the 1960s counterculture, Tom Wolfe's *The Electric Kool-Aid Test* is the seminal work on the hippie culture, a report on what it was like to follow along with Ken Kesey and the Merry Pranksters as they launched out on the "Transcontinental Bus Tour" from the West Coast to

New York, all the while introducing acid (then legal) to hundreds of like-minded folks, staging impromptu jam sessions, dodging the Feds, and meeting some of the most revolutionary figures of the day.
