Recollections of Marshal Macdonald, Duke of Tarentum

The dignity of Marshal of France was to be the apogee of success for any general in Napoleonic France, since the Emperor only created 26 during his years on the throne. Fame, riches and high station in the Imperial Court were the bountiful reward for hard service on the battlefield. Napoleon handed out these dignities, along with kingdoms, principalities, admiralties, dukedoms for more than purposes of recognition; they were also to bind the recipient to his empire even more tightly. Marshal Macdonald was not a man to be flattered or bought; he was of Scottish descent and held his own views. His memoirs bear this imprint of forthright opinion, which had led him into trouble with the Emperor, but such was his value on the battlefield he was courted again by Napoleon. Marshal Macdonald fought all across Europe, particularly at the battle of Jemappes in the Revolutionary armies on the Rhine. He fought well under Napoleon's eagles in Spain, Russia, Germany and France itself. Outstanding at the battle of Wagram, his attack on the Austrian centre, for which he became the only man to be made marshal on the field of battle by Napoleon, clinched the day. Never wholly Napoleon's man, he was a prime mover in forcing his master's abdication in 1814 and refused to rejoin him in 1815. This second volume Marshal Macdonald recounts his experiences up to the fall of Napoleon in 1815. Title – Recollections of Marshal

Macdonald, Duke of Tarentum. — Vol. II Series Name – Recollections of Marshal Macdonald, Duke of Tarentum. Series Number —2 Author – Marshal Macdonald, Etienne-Jacques-Joseph-Alexandre, Duc de Tarente, 1765-1840. Editor - Rousset, Camille, 1821-1892. Translator - Simeon, Stephen Louis, 1857-1937 Text taken, whole and complete, from the edition published in 1892, London, by Richard Bentley and Son. Original Page Count – 328 pages.

Recollections of Marshal Macdonald, Duke of Tarentum. —

The recollections of one of Napoleons most dependable commanders Among all Napoleon's marshals Macdonald is one of the most intriguing, for he bears a name more likely to found among those highland regiments of Wellington's infantry who were among his master's most formidable enemies. Jacques Macdonald was born in Sedan in the Ardennes region of France, the son of a Jacobite Scottish exile, and was a close relative of Flora MacDonald who played such a memorable role in the flight of Prince Charles Stewart to the continent after the failure of the rebellion of 1745. Born in 1765, Jacques Macdonald was of an age to ensure he would take part in the momentous events that swept through France in the late 18th century bringing revolution, regicide, the Republic, Consulate and Empire under Napoleon Bonaparte. Perhaps predictably Macdonald experienced campaigns and battles throughout the Napoleonic age in most of the European theatres of the conflict and he graphically describes those events and his part in them in this book. He was a faithful and dependable commander who lacked true military genius but whose qualities made him trustworthy, and it was for these qualities that Napoleon was consistently entrusted him with independent commands. Whilst Macdonald's career cannot fail to be of interest to all students of the Napoleonic Wars what makes this book special is its readability and Macdonald's ability to describe vividly the events he witnessed in an entertaining and informative manner. The value of his book as an historical document is further enhanced by the insights he provides into his own character-that of an obviously decent, honourable and likeable individual. Leonaur editions are newly typeset and are not facsimiles; each title is available in softcover and hardback with dustjacket.

Recollections of Marshal Macdonald, Duke of Tarentum

Excerpt from Recollections of Marshal Macdonald: Duke of Tarentum In the month of May, 1825, the sexagenarian Marshal Macdonald, left a widower for the third time, was plunged in the deepest grief. By his previous marriage he had only daughters; the last marriage, solemnized scarcely four years before, and which had terminated so sadly, left him a son, heir to his name. It was for this child still in the cradle that, far from Paris, far from the conventional consolations and condolences of the Court, the Marshal undertook - not to distract, but to occupy the isolation caused by his sorrow - to note down the various stages of his long and glorious career. He did not pretend to write memoirs; they are merely recollections destined for the child who was alone to see them in the future. Excerpt from Recollections of Marshal Macdonald, Vol. 2 of 2: Duke of Tarentum After breakfast the Viceroy proposed to me to accompany him to the Emperor's headquarters at Wolkersdorf, but I had no fresh horses, and, moreover, was suffering a good deal from the kick I had received. But, 'I observed, here we are in hot pursuit of the Austrians. If the Archduke John, who is commanding their other army, and ought to be at Presburg, pursues us in his turn, he may be able to damage our rear seriously. I suppose that the Emperor has taken steps to provide against this.' About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. RECOLLECTIONS OF MARSHAL MACDO

To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.

Recollections of Marshal MacDonald, Duke of Tarentu

Whether as a general or a statesman, the two decades of Napoleon's maturity, from the triumphant invasion of Italy to the final defeat at Waterloo, were years of extraordinary achievement. Almost as remarkable as the victories were the disasters at Trafalgar, in the Iberian Peninsula, in Russia and at Leipzig which the Imperial forces survived. James Marshall-Cornwall here analyzes Napoleon as military commander. Since, however, strategy and statecraft were as closely intertwined in Napoleon's career as in that of Oliver Cromwell, it is impossible to consider his generalship in complete isolation.

Recollections of Marshal MacDonald, Duke of Tarentu, Volume 1 - Primary Source Edition

"Fletcherism: what it is: or, How I became young at sixty" by Horace fletcher is a fascinating book on nutrition and diet. The author here relates briefly the story of his regeneration, of how he rescued himself from the prospect of an early grave, and brought himself to his present splendid physical and mental condition. He tells of the discovery of his principles, which have helped millions of people to live better, happier, and healthier lives. The book is a good fit if you are concerned about health and diet.

Recollections of Marshal MacDonald, Duke of Tarentu;

"Acharnians" is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

Recollections

In a time when the Industrial Revolution has become an all-out war, mad science rules the world—with mixed success. In *Agatha H and the Siege of Mechanicsburg*, Agatha Heterodyne, the last of the Heterodyne family, has returned to her family's hereditary town with the might of the Wulfenbach Empire hot on her heels. The only thing holding off an outright attack is Gilgamesh Wulfenbach, the heir to the Empire, who has joined Agatha and her friends inside the great artificially intelligent fortress of Castle Heterodyne. Now they must race to repair the mechanisms that once allowed the Castle to defend Mechanicsburg, before the rest of Europa shows up to take all the revenge the mad Heterodynes of the past so richly earned. From the Hugo Award-winning *Girl Genius* online comics comes this fourth book in the Agatha H. series, and like the previous three books, it will engage you in a unique world of adventure, romance, and mad science!
